OFFICER , SRI LOTUS DEVELOPERS & REALTY
LIMITED
MR. RAKESH GUPTA – CHIEF FINANCIAL OFFICER ,
SRI LOTUS DEVELOPERS & REALTY LIMITED

Moderator: Ladies and gentlemen, good day and welcome to Sri Lotus Developers & Realty Limited Q1 F Y
'26 Earnings Conference Call.
This conference call may contain forward -looking statements about the company which are
based on the beliefs, opinions and expectations of the company as on date of this call. These
statements are not the guarantees of future performance and involve risks and uncertainties that are difficult to predict.
As a reminder, all participant lines will be listen -only mode . And there will be an opportunity
for you to ask questions after the presentation concludes. Should you need assistance during this conference call, please
signal an operator by pressing "*", then "0" on your touch -tone phone.
Please note that this conference is being recorded.
I now hand the conference over to Mr. Anand Pandit – Managing Director and Chairman of Sri
Lotus Developers & Realty Limited. Thank you and over to you Mr. Pandit.
Anand Pandit: Good morning, everyone , and a very warm welcome to the maiden earning s call of Sri Lotus
Developers and Realty Limited. Along with me today I have our CEO – Mr. Sanjay Kumar Jain ;
our CFO – Mr. Rakesh Gupta ; and our Investor Relations Advisors from SGA.
To begin with, 6th August 2025 , was a landmark day for us when we were listed on the NSE
and BSE. Our IPO witnessed an overwhelming response being subscribed over 74 x with the QI P
portion subscribed 175 x and more than 33 lakh applicants. An extraordinary testament to the
confidence the investor community has in our vision and business model. That day was not only
a milestone but also the beginning of a new chapter for all of us at Lotus as a listed entity. On
behalf of the entire Lotus family, I extend my deepest gratitude to all our stakeholders, our
investors, partners, customers, employees, bankers and advisors for the trust and confidence you
have placed in us.
Since this is our First Earning s Call, I would like to take you through Sri Lotus Developers &
Realty's journey so far and our strategies, followed by our operational and financial highlights
for Q1 FY '26. Post that, we will open the floor for Q&A. We have also uploaded our Investor
Presentation on Stock Exchanges , and I hope everybody had a chance to go through the same.
Sri Lotus Developers was incorporated in 2015 but our legacy in Mumbai real estate dates back
much earlier with various landmark projects situated in western suburbs. These landmark
developments established our brand credibility and reinforced our reputati on for premium
quality and timely delivery.

During 2016 and 2018, as we closely studied the changing dynamics brought about by DCPR
2034 which provided significantly higher FSI for land parcels across Mumbai, we foresaw that
a large number of older societies would opt for redevelopment to consume such higher FSI.
Hence, we pivoted towards redevelopment, a decision that has since defined our future direction by enabling us to adopt an
asset light and highly scalable business model. Today, more than 95%
of our ongoing and upcoming projects are redevelopment or joint development.
Our focus is on luxury and ultra -luxury residential and commercial developments , primarily in
the western suburbs of Mumbai. What defines us is our philosophy, w e are not just builders of
projects, we are creators of products. Each of our developments is designed as a bespoke lifestyle
product with thoughtful layout, premium finishes, sweeping blue water and garden views , that
is B&G concept , in most residential projects and world -class amenities. This product -centric
approach has given us a distinct edge i n the market.
Our execution track record is one of the strongest in the industry with projects consistently
compl

eted 12 to 18 months ahead of RERA timelines. Our sales velocity is also among the fastest
with close to a quarter of our sales coming from referrals without any advertising spends. This
is the strongest endorsement of the trust our customers place in us. We have consistently
commanded more than 20% premium over peers in our core markets. Importantly, we have never
had a single RERA case or even RERA complain ts against us on any of our projects in its history.
From a financial standpoint, we maintain one of the strongest balance sheets in the industry. As
of August 2025, we are net debt -free with net cash balance of Rs 905 crores. Till date, we have
successfully completed four projects, two residential redevelopment projects in Juhu namely

Ananya and Ayana , and two commercial projects in Andheri West namely Signature and Arc One. Our pipeline today comprises five ongoing projects and 11 upcoming projects. Together, this translates into a portfolio of about 3 million square feet of carpet area, of which approximately 2.3 million square feet will be saleable. This is expected to deliver a gross development value in the range of Rs. 12,000 crores to Rs. 13,000 crore s by FY ‘30.

Moving on to our strategies . One, we are deeply entrenched in the western suburbs, a market where we understand customer needs and micro market dynamics with great depth. This allows us to design products aligned with the demand. For example, Signature in Andheri which is at the heart of Mumbai's media and entertainment hub was designed with amenities such as private theatre, banquet halls and a lounge, in addition to many other office amenities. At Arc One, we recognized the gap in demand for smaller but high- quality commercial units and created offices to fill such gap while remaining all the amenities of a premium development.

In Juhu where land parcel are constrained, our projects Ananya and Ayana were designed with rooftop amenities including a pool, cabana and sit -out spaces whereby giving residences the feel

of a gated community with lifestyle amenities despite limited ground area. Of our 11 upcoming projects, eight are in the western suburbs underlying our dominance and strong understanding of this micro market.

The second pillar is expansion into new micro markets. While western suburb remains our stronghold, we are expanding into south central Mumbai with projects in Prabhadevi and N epean Sea Road and other micro markets. These projects are designed with our B&G philosophy which ensures a distinct premium positioning in this new geography as well.

The third strategic pillar is our asset-light model. Out of our five ongoing projects and 11 upcoming projects, 15 are through redevelopment or joint development. This approach minimizes upfront land acquisition cost, enhances capital efficiency and accelerates scalability.

The fourth pillar is our integrated development model. Our in-house expertise across sales, construction, procurement and business development provides superior control over design, quality and timeline. Technology has also been a critical enabler. We are using 3D building information modeling for better coordination and cost efficiency. And virtual reality walkthrough for customer engagement. This combination of execution and customer centricity has yielded results.

Our pre -sales capabilities are also proven. 87% of units in Ananya were sold before OC, 45% at Signature, 42% at Ananya and 56% at Arc One . Our strong pre -sales performance ensures robust cash flows during construction, minimizes reliance on the debt and enhances returns.

Turning now to our financial performance . Our Q1 FY ‘26, we recorded revenue of Rs. 61 crores and profit after tax of Rs. 25 crores. Looking ahead, we have three important launches lined up by September 2025, the Arcadian in Juhu, Amalfi in V

ersova and Varun in Bandra. The construction of these project s is in full swing . And given the robust customer interest for these project s, we expect bookings for all these three projects to materialize thereafter. For FY ‘26, we are targeting pre-sales of about Rs. 1,100 crores to Rs. 1,300 crores. Revenue growth of about 75% to 85% , and PAT growth of 30% to 35%.

As we embark on this exciting new journey, as a listed entity, we remain guided by the same principles that has brought us here. Discipline d growth through redevelopment, selective expansion into newer micro-markets, timely execution , and delivery of premium products that resonate with our customers. With a robust pipeline, a strong balance sheet and supportive market fundamentals, we are confident of creating sustainable growth and long-term value for all our stakeholders.

With that, I will now hand over the call to our CEO, Mr. Sanjay Jain , to take you through the financial highlights in detail. Thank you.

Sanjay Jain: Good morning. Thank you, Anand sir. Let me now take you through the project -wise and financial details of Q1 FY26.

On the ongoing project s, the Arcadian in Juhu, Amalfi in Versova and Varun in Bandra. As Anand sir mentioned, construction activity is in full swing. The total saleable carpet area of these three projects, the Arcadian that is in Juhu, Amalfi in Versova , and Varun in Bandra -Carter Road is 2.2 lakh square feet with the estimated GD V of Rs. 1,400 crores to Rs. 1,500 crores. In addition, we plan to launch three more projects in this financial year, Lotus Aquaria, Lotus Trident and Lotus Celestial ; while remaining confident of completing large part of the sales of completed projects, that is Ananya, Ayana, Arc One and Signature.

During the current financial year, the company has added four new projects. Development agreements were exhibited for two projects, Lotus Por tifino in Versova and Lotus Sky Plaza that is in Andheri West , Oshiwara. While Society at Lotus Avalon, Juhu , and Lotus Imperial at Bandra -Carter Road have appointed Lotus as their developer.

Moving to the consolidated financial s for Q1 F inancial Year 2026 .

• Revenue stood at Rs. 61.30 crores
• Pre-sale stood at Rs. 61.30 crores
• Collection for this quarter was Rs. 70 crores
• EBITDA was Rs. 29.5 crores, EBITDA margin stood at 48%
• Profit after tax was Rs. 25.80 crores
• Expenses towards ongoing and upcoming projects stood at Rs. 47 crores in this quarter.

During the IPO , we raised Rs. 792 crores through fres h issue and net proceeds post -issue expenses was Rs. 732 crores. We have deployed total funds amounting to Rs. 88.70 crores till 22nd August.

With this, I would like to open the floor for questions. Thank you.

Moderator: Thank you. We will now begin the question and answer session . The first question comes from the line of Ankit S. Mehta with Wellworth Share & Stock Broking Limited. Please go ahead.

Ankit S. Mehta: Thank you for the opportunity, sir. S ir, I just had a couple of questions. T he first question was on your P AT margin. So, it is generally higher, it looks like that it is higher than the peers. So, what is helping us to achieve those high margins?

Anand Pandit: There are a couple of things. First of all, we are net debt -free. So, we do not have any burden unlike other players of interest. Second, we do not have expenses towards marketing because our sale is happening through referral only because the company is customer -centric. So, till today, we have not spent any money on our marketing that is advertisement, billboards, or social media m arketing, or even we have never printed even our brochures. So, we are saving significant money on that.

Third is our fast execution. Be

cause we are more like a product company, we execute our projects very fast compared to our peers and deliver them very fast. Because of that, our velocity of sales is very high. And fourth is our premium pricing. Because of this, our designs which are meant for ultra-luxury, we demand almost 20% more premium in all the micro -markets. So, this leads to good margins for us.

Ankit S. Mehta: Okay. So, the next question was that your projects are located in premium areas only. So, going forward, what will be your views on selecting a new project going forward?

Anand Pandit: So, I think since, I mean, last year we had an average of revenue per square feet was between Rs. 40,000 to Rs. 60,000 a square feet, which is quite decent, quite high. But looking forward, the way we have mounted our new projects, which are more on coastline, we are expecting that this per square feet revenue will go up. That's one.

Second, as I explained, we are going to open up some of the micro- markets which are more high - yielding for us. Like in Prabhadevi we are starting a project, and Nepean Sea Road also, and some South Central Mumbai also, some other projects we are eyeing. So, I think that per square feet revenue also, we are expecting higher.

Ankit S. Mehta: Okay. And s ir my last question was that , we have been focusing mostly on redevelopment projects , so going forward, since the competition intensity is increasing in the segment, what is your outlook on the same sir ?

Anand Pandit: Can you repeat the question? Sorry, I could not hear that.

Ankit S. Mehta: Yes. So, mostly your projects are basically the redevelopment projects. So, considering that there is a lot of competition which is entering in this segment, how do you see the opportunities going forward?

Anand Pandit: First of all, in redevelopment project, I think we have got a lot of experience, first of all. And we have got first -mover advantage. We have completed about seven redevelopment projects. That's one. Second is, we have handed over all those projects in ultra -luxury category. So, in that category, I do not remember any other developer is there. So, we do not see much competition

in that. And also, our delivery track record is quite good. And with that legacy, I think, we will not have any issue for any competition at this point of time.

Ankit S. Mehta: This will be all from my side, sir. Thank you so much and wish you good luck.

Anand Pandit: Thank you.

Moderator: Thank you. Next question comes on the line of Mohit Surana with Monarch Networ th Capital Limited. Please go ahead.

Mohit Surana: Sir, congratulations on the successful listing in a difficult market. I think Sri Lotus is among the

few companies in today's market where growth prospects look really stellar, supported by a very strong balance sheet. On that point, I have a couple of questions, sir. On the redevelopment business, can you give us some insights on how the regulatory policies, costs, and the construction timeline differ relative to the Greenfield development projects? I have one more question , so maybe I will ask once this is answered.
Anand Pandit: Yes. Mohit, as far as Mumbai is concerned, as we all know that whole Mumbai is going for redevelopment drive completely. And that regulatory policies, particularly with the new DCPR, which recently in 2017-'18 which came up, was very, very friendly for redevelopment. And the government is recognizing that whatever issues are there regarding the policies or regulatory policies, time to time they are changing and making it more friendly towards redevelopment. As far as cost is concerned, yes, cost is increasi ng a little bit. But I think with our positioning, that's
not a major concern.
And as far as Greenfield project is concerned, I think you asked me a question on Greenfield projects. With t he Green

field projects the issue is that we have to come up with upfront capital.
And second is a little uncertainty about the legal aspect , since we have to clear the land and then get our plans approved and all permits in place, it takes almost two years. And you never know what will happen with that Greenfield project. And when you are talking about redevelopment,
then we are very less exposed to any legal issues because the building or society is already standing there on. So, those legal issues are not there. And also , with redevelopment, our capital employed is very, very minuscule. So, that is the advantage.
Mohit Surana: Understood, sir. That makes sense and that shows in your high margins as well. So, my next question is with respect to the redevelopment housing market size in Mumbai. What according to you, I mean, the size of this market ? And where would the ultra and ultra luxury segment would fit into and what would be your market share in that segment?

Anand Pandit: As we explained right now for, I mean, I do not have particular numbers of market share. But as I said in my speech that we have got almost 11 projects in western suburb, t hat speaks the volume, I think. And overall market, I mean, with one recent report, almost 30,000 buildings or societies are about to go for redevelopment in Mumbai, MMR region. So, the market is humongous and we will have enough market for ourselves.
Mohit Surana: Understood, sir. S ir, just one last thing. In terms of scale, where do we see ourselves in terms of the annual pre -sales rate three years from now?
Sanjay Jain: So, Mohit, this is Sanjay Jain. So, we are expecting annual growth 3x to 5x for next three years. And that will be overall growth of 3 x to 5x.
Mohit Surana: Great, sir. Thank you. That answers my question, sir. I will fall back in case.
Anand Pandit: Thank you. Thank you, Mohit.
Moderator: Thank you. Next question comes on the line of Jay Shah with HDFC Securities. Please go ahead.
Jay Shah: Thank you for the opportunity. So, I have a couple of questions , first is with respect to the launches that you are expecting for September month , so are there approvals that you have received? And also, for the balance launches that are due for H2 with respect to Prabha devi, Versova and Andheri, s o how is that placed?
Anand Pandit: So, the three launches, we have received the approvals more or less. And work is in full swing, actually. And we are expecting that this will, as far as launch is concerned, by September we will be able to launch it. The remaining three, the approvals or permits, what we say, is in advanced stage. And we are hopeful that in a couple of months we will get all three approvals and we will be able to start the work. As far as Prabhad evi is concerned, we have got in-principle approval. So, maybe wi thin one and a half months we will be starting that work.
Jay Shah: Okay. And these launches would be like any phase d launches or would be like you will open full building that you are planning to sell out?
Anand Pandit: So, Jay, what we do is a little different than the typical real estate company. We do not straight away launch. As soon as we get our approval, we do not straight away launch. We see the market and how it's ripe . Depending on that, we will be launching that. But yes, what you are saying is correct , we will be having those permission to launch it.
Jay Shah: Okay. Also, on the demand side , how do you see the demand for the segment that you are building? A nd with respect to the cash reserves that you are having, any new micro market you

would be planning to add post the four projects that you have added in this current quarter or current year, which is one in V ersova and Oshiwara and then Juhu and B

andra. The total of that
GDV, I guess, is around Rs. 2,000 crores to Rs. 2,100 crores. Suppose that are you eyeing any
other micro market or any BD in this year?
Anand Pandit: Yes. In fact, this financial year we have added four new projects already. And as I said in my
opening speech, we are going to start and open up new micro markets, definitely. And all these
micro markets will be more high yielding micro markets , so balance sheet will become more
and more stronger. As far as this year is concerned, as I explained, we have got three projects
will be immediately launched , another three in this year, so total six. And after this financial
year, next year also we have locked in about seven to eight projects alre ady in pipeline. So, very,
very strong pipeline . And considering this both, means six this year and seven to eight next year ,
almost GDV is about Rs. 12,000 crores to Rs. 13,000 crores.
Jay Shah: Okay . Just on the BD that you have added in this year, which is in Versova and Oshiwara , so
can you provide me the GDV of each project that you have added, the four projects?
Sanjay Jain: So, all four projects we have estimated GDV is approximately Rs. 3,700 crores to Rs. 4,000
crores.
Jay Shah: And lastly, I just wanted to know the timelines for these projects that you have added, which it
will be around in FY '27 or in FY '28?
Sanjay Jain: Yes.
Jay Shah: Okay. So, all the projects that you have added in this year will be due for FY '27?
Anand Pandit: So, including these four projects and three -four projects which we acquired last year , so all seven
to eight projects we are launching next year. So, the F inancial Year '27, '28 we will launch these
seven to eight projects.
Jay Shah: Okay. Because your peers had faced many clearance issues with respect to NGT. Now, the
Supreme Court has currently given a permit to the state government to provide the clearance and to provide the approvals.
So, how optimistic are you with respect to that ? And with respect to
approvals that you are eyeing for , because many launches that the developer were planning had
delayed because of these approval issues. So, how do you see this?
Anand Pandit: I think now it has been cleared by Supreme Court. So, I feel that everyone, not only us, but all
the developers who had that backlog, that will be cleared very soon. So, I do not see any reason
now.

Jay Shah: Okay. Thank you.
Moderator: Thank you. Next question comes from the line of Ritwik Sheth with OneUp Finance. Please go
ahead.
Ritwik Sheth: Hi. Good morning, sir. S ir, just a couple of questions. Firstly, sir, you mentioned that we are
looking to launch six projects in FY '26 with three in September itself. So, for the other three,
what is the total GDV?
Sanjay Jain: Yes, just a minute. I will give you the GDV. So, we are launching these three projects and other
three projects , total six projects we are launching . And the current year pre -sale from this is
around Rs. 750 crores to Rs. 850 crores and the GDV is approximately Rs 3,000 crore s
(Mentioned Rs 2,000 crores mistakenly on the call) for the year.
Ritwik Sheth: For the three projects?
Sanjay Jain: Three projects, separate new projects.
Ritwik Sheth: Okay. So, total GDV of all these six projects will be Rs 4,500 (Mentioned Rs 3,500 crores
mistakenly on the call) crores approximately.
Sanjay Jain: Approximately , yes.
Ritwik Sheth: Right. And out of this, Rs. 750 crores to Rs. 850 crores is the targeted pre-sales?
Sanjay Jain: Yes, during this year.
Ritwik Sheth: Got it. Okay. Sure. And sir, you have also mentioned that for the three projects that we are
launching in September, you have started construction. So, sir, can you give us a sense of what
is the total investment that have gone in these three projects till date, right from DA till say June

2025?
Sanjay Jain: So, Yes, total investment for all these three projects is already we have incurred Rs. 165 crore s.
Ritwik Sheth: Okay. Cumulatively?
Sanjay Jain: Yes, c umulatively.

Ritwik Sheth: Okay. Sure. Sure. And sir, again on business development, someone asked earlier on the call but
just to get a sense, we have already acquired projects worth Rs. 4,000 crores. So, what is our
target for current year and next year?
Anand Pandit: For business development?

Ritwik Sheth: Yes, to acquire new projects?
Anand Pandit: Yes. I mean, see, this is like every time we get more and more new opportunity. But as far as our pipeline is concerned for this year, next year, we have enough projects. But we will be looking for some good projects. As I said, this financial year also we locked in four projects. And there are many number of projects which are in talks or tender level. So, we are hopeful that another, I mean, four or five projects we will be able to get it in this year.
Ritwik Sheth: Okay, got it. And s ir, this Rs. 900 crores of cash, what can be the approximate number of projects that you could acquire with this in terms of GDV, assuming all are redevelopment projects?
Sanjay Jain : So, normally what happened in the redevelopment, our investment is 10% to 15% of the revenue. So, typically, if we see that our net worth as on 31st March, 2025 , is Rs. 932 crores, then the Rs. 732 crore s net IPO proceeds added and this year profit will be added. So, it will be roughly around Rs. 1,800 crores to Rs. 1,900 crores. So, that will be give say around Rs. 10,000 crores to Rs. 12,000 crores project of the GDV we can easily execute.
Ritwik Sheth: Got it. And just one last question from my end. So, you mentioned growth of 3 x to 5x in the next three years , so this would be for pre -sales?
Sanjay Jain : We are following the percentage completion method. So, in our case, normally what happen s, the pre -sale and the revenue, the difference will be 10 % to 15% always. So, both figure will be same and our project cycle is less than four years , so normally three and four years we will be able to seal the project. So, you can consider the both the pre -sale and the revenue.
Ritwik Sheth: Okay. Great, sir. Thank you and all the best.
Anand Pandit: Thank you.
Moderator: Thank you. Next question comes on the line of Abhisar Jain with Monarch AIF. Please go ahead.
Abhisar Jain: Yes. Hi. Good morning, Mr. Pandit. My question is on your asset -light model, which is I think quite commendable how we have scaled it up to this level. S ir, just wanted to understand that what are the key enablers for success for you in this space? What value addition you bring to

these societies who then kind of partner with us and give us the chance to execute these projects in some of the key and best locations? So, if you can just throw some light of how do we do and what we do differently here, which helps us execute on this strategy, it will be great.
Anand Pandit: Sure. Abhisar, what we do differently is we treat them as our partners. The societies, we treat them as partners. And we do not treat them as old tenants , we treat them as our first clients in that project. That's number one. So, that respectability we give to them. Second, there is no differentiation between old members' apartments and new members' apartment or sale apartments. Absolutely, there is zero differentiation. So, they are absolutely at par. So, which is what they like.
And third, we execute this project like a Greenfield project in the manner like what we would do for Greenfield . And again, we do not consider this redevelopment as redevelopment, but we consider them as development project. And we try to complete those projects as ultr

a-luxury
projects, even though it is a redevelopment project. So, this is how we have become very successful and our societies particularly like this attitude.
Also, when it comes to society, we have got extraordinary experience. Our experience in redeveloping in ultra -luxury is very, very unique. Third, our customer base is also very unique and that is what they like. Fourth is kind of apartments, we give them fully loaded and unparalleled amenities what we provide to them, that i s what they like. Our track record of execution and handover with OC is extremely good and that is also again they like. So, this is how we differentiate ourselves from the clutter.
Abhisar Jain: Understood, sir. And sir, in terms of approaching these kind of societies for the future, such projects, is there a dedicated team or a separate effort which you make to find out these societies ?
Or has it become now a case where even the societies approach us directly?
Anand Pandit: So, generally , now since we have made our brand in redevelopment, ultra -luxury developer, we get invitation . And all the societies, I mean, who wants to redevelop, they think about Lotus as one of the partners. So, we get invitations.
Abhisar Jain: Understood. That's quite good, sir. Secondly, sir, I wanted to get your sense on the demand side.
There have been different kind of reports in terms of how the demand might now be shaping up, but it would be good to get your views of what you are getting from the ground on demand . And also, in some of your ongoing projects or completed projects, whatever inventories that you have in hand, how are you feeling about that? Are you deploying any strategies to fast -track the liquidation of those or you are very comfortable on the demand , it will be good to know from you?

Anand Pandit: The demand is, I would say, for our kind of product, demand is constantly going up because everyone wants to move from lower strata of the pyramid to above strata of pyramid. People who were living in just ordinary building, they want to go for ultra -luxury only. So, ultra -luxury and luxury, those products are becoming very, very popular and everyone aspire s for that. So, being in that niche player in ultra -luxury, I think we do not have any issues of any slowdown or maybe in future slowdown. So, we are very confident about it.
Abhisar Jain: Understood, sir. Thank you so much and best wishes from my side.
Moderator: Thank you. Next question comes from the line of Taha with Tara Capital. Please go ahead.
Mr. Taha: Sir, congratulations on exchange listing. So, I have a couple of questions. First is, if I look at your pre -sale target for FY ‘26, it's around Rs. 1,100 crores to Rs. 1,300 crores . But in Q1, you have Rs. 61 crores , so it's quite less if we divide this number into four . So, how are you going to achieve this Rs. 1,100 crores to Rs. 1,300 crores ? And why is the pre -sale number so less in Q1?
Anand Pandit: So Taha, yes, Q1 revenue and P AT are modest when we look at it as in isolation. But this is the nature of real estate cycle. Quarterly revenue recognized depends on project milestones . And as we all know, this is not like any FMCG or IT. But yes, we can explain you.
Sanjay Jain: So, Taha, this is Sanjay Jain. So, from this financial year, so the percentage of the pre -sales come from the completed project from around 25% and the balance because of the three new launches that will contribute around Rs. 750 crores to Rs. 850 crores for that. And three more new projects will be on the second half of the financial year. So, that will contribute around Rs. 100 crores to Rs. 150 crores. So, because of the not launch of these six projects, so the major part of the revenue is coming in the later part of the financial year.
Mr. Taha: Okay, got it. So, there was not any launch in Q1,

that is what you are saying, right?
Anand Pandit: Yes, yes, yes.
Mr. Taha: Okay, got it. And sir, my second question is, can you elaborate on what is the inventory level we have on our launch ed project so far?
Sanjay Jain: So, approximately, Rs. 200 crores inventory in the books we have for the already completed project s.
Mr. Taha: Okay, which are majorly Ananya and Arc One , you said, right?

Sanjay Jain: Ananya and Arc One, and we are getting good response during this financial year because in the Arc One we got the OC in the March. So, after OC, normally in the commercial, the sale is increasing.
Mr. Taha: Okay, got it. Okay, thank you for the response . Thank you.
Anand Pandit: Thank you.
Moderator: Thank you. Next question comes from the line of Sanjay Kular with ACME Investments. Please go ahead.
Sanjay Kular: First of all, compliments to you, Anand bhai, for delivering good results in the given circumstances. And my question pertains to Shah Rukh Khan whose apartment also you are redeveloping apparently in Bandra , and you are projecting about Rs. 2,000 crores plus revenue in the project. Can you please elaborate on it and when do we expect to complete that project?
Anand Pandit: Very recently we have got into that project. It is a project in Bandra on Carter Road right on the bank on the ocean. It is a little more than 1 acre land parcel and the GDP would be about approximately Rs. 1,700 crores.
Sanjay Kular: Okay . That has not been yet announced by the company as such. I mean, that is not included in the current GD V or whatever we count right now.
Anand Pandit: Yes, this is this year's acquisition. And we are hopeful to start and commence that project next year because a lot of paperwork has to be done.
Sanjay Kular: Okay, okay. And s ir, back off envelope suggest s that you are going to be a five -bagger company, this will be a Rs. 50,000 crore s market cap company in the next three to five years because we will achieve probably Rs. 4,000 crores , Rs. 5,000 crores , Rs. 6,000 crore s sales and a profit of about Rs. 2,500 crores. That means multiple, if you look at in comparison with the peers, we are definitely going to be a Rs. 50,000 crore s company in the next three to five years. Thank you very much. Bye -bye.
Anand Pandit: Thank you.
Moderator: Thank you. Next question comes on the line of Mohit Surana with Monarch Networ th Capital Limited. Please go ahead.

Mohit Surana: Sir, I wanted to have an understanding of your commercial development in relation to the residential development. So, what kind of margins do we make? Is it similar or commercial is on the higher side?

Sanjay Jain: So, Mohit, this is Sanjay Jain. At present, most of our commercial projects are also redevelopment projects. We have only one greenfield project in the commercial segment. And we are expecting the margins to be in line with the residential segment.

Mohit Surana: Understood, sir. Thank you.

Moderator: Thank you. Ladies and gentlemen, due to time constraints, we have reached the end of question-and-answer session. I would now like to hand the conference over to the management for closing comments.

Sanjay Jain : We thank you everyone for joining the call today. We hope we have been able to give you a detailed overview of our business and also answer your queries. As you know, this is the very first time we are doing such a call and our idea is to start a structured way of communicating and sharing updates. The purpose is simple ; to create more transparency, build strong engagement, and ensure that everyone is aligned with the progress and future direction. For any further queries or questions, please feel free to reach out to SGA, our investor relation advisor s. Thank you once a

gain and have a good day.

Moderator: Thank you. On behalf of Sri Lotus Developers & Realty Limited, that concludes this conference. Thank you for joining us. You may now disconnect your lines.

“Sri Lotus Developers & Realty Limited Q2 FY-26
Earnings Conference Call”

November 11, 2025

MANAGEMENT : M R. ANAND PANDIT – MANAGING DIRECTOR &
CHAIRMAN , SRI LOTUS DEVELOPERS & REALTY

LIMITED
MR. SANJAY KUMAR JAIN – CHIEF EXECUTIVE OFFICER , SRI LOTUS DEVELOPERS & REALTY LIMITED
MR. RAKESH GUPTA – CHIEF FINANCIAL OFFICER , SRI LOTUS DEVELOPERS & REALTY LIMITED

Moderator: Ladies and gentlemen, good morning and welcome to Sri Lotus Develop ers and Realty Limited's Q2 FY26 Earnings Conference Call.
Before we begin, I would like to remind participants that this conference call may contain forward-looking statements about the company which are based on the b eliefs, opinions and expectations of the company as on date of this call. These statements are n ot the guarantee of future performance and involve risks and uncertainties that are difficult to predict.
As a reminder all participant lines will be in the listen-only mode and there will be an opportunity for you to ask questions after the presentation concludes. Should you n eed assistance during the conference call, please signal an operator by pressing '*' then '0' on your touchtone phone.
Please note that this conference is being recorded.
With this, I now hand the conference over to Mr. Anand Pandit – Managing Director and Chairman of Sri Lotus Developers and Realty Limited. Thank you and ov er to you, sir.
Anand Pandit: Thank you. Good morning, everyone and a very warm welcome to th e Q2 FY26 earnings call of Sri Lotus Developers and Realty Limited.
Joining me today are our CEO – Mr. Sanjay Kumar Jain, our CFO – Mr. Rakesh Gupta and our Investor Relations Advisors from SGA. Our Investor Presentation has been upload ed on the Stock Exchanges and on our website. We hope you had a chance to review it.
Let me begin with an overview of the broader market environment:
Mumbai's luxury redevelopment market continues to gain significan t momentum particularly across prime micro-markets such as Bandra, Prabhadevi, Worli, Juhu, Verso va. Land scarcity and aging inventory are driving a strong wave of society and cluster red evelopment projects.
The city recorded over Rs. 14,700 crores worth of ultra-luxury sales in H1 2025, the highest ever with Bandra and Prabhadevi emerging as key value growth corridors. Band ra West alone witnessed nearly 190% year- on-year growth in luxury home value. While new supply is gradually rising, limited availability of prime plots and the endurin g appeal of redevelopment led projects continue to sustain both pricing strength and absorption leve ls in this western suburb.
This is where Lotus ' strength lies. We have more than 84% of our total carpet area of ong oing projects and 91% of total carpet area of upcoming projects in the redev elopment segment. This high redevelopment mix keeps the portfolio asset light and very capital efficient.
Coming to our performance for the quarter ended September 2025:
I am pleased to share the pre-sales during the quarter stood at Rs. 257 crores growing almost 126% year- on-year and collection for the quarter stood at Rs. 106 crores. Due to large part of launches being skewed to end of the quarter, the conversion of the se bookings into collection will largely flow through in the subsequent quarters.

A key highlight of the quarter was the successful launch of the Arcad ian at Juhu and Amalfi at Versova in September 2025. Both projects continue to see sustained custo mer interest supported by their prime micro market locations, signature blue and green design th emes, best in class amenities and Lotus track record of superior execution and timely deliv ery. Construction at Project Varun, Bandra is progressing very well and bookings have com menced. Located in one of Mumbai's most coveted addresses, this ultra luxury redevelopment will further strengthen Lotus developers' presence in the premium segment. Construction a ctivity for Lotus Aquaria also has started recently.
Looking ahead to H2 FY26, we have four upcoming launches – Project Varun at Bandra, Lotus Aquaria at Prabhadevi, Lotus Celestial at Versova and Lotus Trident at Andhe ri West. Together, this will have a

revenue potential of approximately Rs. 3,500 to Rs. 3,70 0 crores. These launches give us confidence of achieving our FY26 guidance of pre-sale of abo ut Rs. 1,100 to Rs. 1,300 crores, revenue growth of about 75% to 85% year- on-year and profit after tax growth of 30% to 35% year- on-year.
We continue to consolidate our presence across four micro-markets while expanding into newer areas such as Bandra and Prabhadevi. The strong brand acceptance of Lotus Developers is

evident in our expanding business development pipeline. Duri ng the year so far, we have added six projects. Development agreements were executed for Lotus Portofino which is at Versova, Lotus Sky Plaza at Oshiwara and Lotus Odyssey at Bandra. Additionally, societies at Lotus Avalon that is Juhu, Lotus Imperial at Bandra and Lotus Upper Crest again at Bandra have appointed Lotus developers as their preferred developers. We are in active discussions with multiple societies and expect to finalize more additions in H2 FY26.
Our ongoing and upcoming pipeline, 15 residential and 3 commerc ial projects have a GDV of Rs. 13,000 to Rs. 14,000 crores, translating to about 2.1 million squ are feet of saleable area to be realized by FY30 excluding Lotus Upper Crest which completes in FY31. 14 of these 18 projects are redevelopment, reinforcing our focus and strength in this seg ment. Based on this mix, we are confident of sustaining 25% to 30% PAT margins.
Our focus on efficient capital deployment and superior project econom ics which is core to our redevelopment strategy allows us to achieve an industry-leading return on equity (ROE) of 41% for FY25. This ROE is among the highest in the industry, underscores the strength of our model and we are confident in our ability to sustain this momentum. We remain confident in our strategy, execution capabilities and our ability to deliver sustained value to all stakeholders.
With that, I now hand the call over to Mr. Sanjay Kumar Jain – our CEO to take you through the financial highlights. Thank you.
Sanjay Kumar Jain: Thank you, Anand sir.

Let me now take you through the financial highlights for Q2 and H1 FY2 6:
As highlighted by Anand sir, in this quarter, we launched two projects, the Arcad ian in Juhu and Amalfi in Versova in September 2025. The Arcadian recorded booking wo rth Rs. 92 crores within the first week of launch and has an estimated GDV of Rs. 700 crores. Similarl y, Amalfi-Versova launch during the same period achieved booking of Rs. 38 crores within its first week with a GDV potential of Rs. 300 crores.
Moving to consolidated financials for Q2 FY26:
Revenue stood at Rs. 176 crores, growth of 43% year- on-year and 187% quarter- on-quarter. Pre-sale stood at Rs. 257 crores, growth of 126% year- on-year and more than 3X quarter- on-quarter. Collection for the quarter stood at INR 106 crores, growth of 16% year- on-year and 51% quarter-on-quarter. EBITDA was INR 50 crores as compared to Rs. 66 crores in Q2 FY25 and Rs. 30 crores in Q1 FY26. EBITDA margin stood at 28.6% as compared to 5 3.5% in Q2 FY25 and 48% in Q1 FY26.
Last year margin was higher only because one of our projects had u nusually low-cost which was a one-off. Going ahead, we expect EBITDA margin to be in the rang e of 35% to 40%. Profit after tax was INR 46 crores, registered 8% year- on-year degrowth and 80% quarter- on-quarter growth. Expenses towards outgoing and upcoming projects stood at Rs. 228 c rores in Q2 FY26 as compared to Rs. 38 crores in Q2 FY25 and Rs. 47 crores in Q1 FY26.
For H1 FY26, revenue stood at Rs. 237 crores, p re-sale stood at Rs. 319 crores, growing 50% year- on-year. Collection for the half-year ended September 2025 was Rs. 175 crores. EBITDA was Rs. 80 crores. EBITDA margin stood at 33.6%. Profit after tax was Rs. 72 c rores. Expenses towards ongoing and upcoming projects stood at Rs. 274

crores in H1 FY26. Net cash as on
September 2025 stood at Rs. 851 crores.
During the IPO, we raised Rs. 792 crores through fresh issue and net proce eds post-issue expenses was Rs. 732 crores. We have deployed total fund amounting to Rs. 137 crores till 30th September 2025. With this, I would like to open the floor to question s.
Thank you.
Moderator: Thank you very much sir. We will now begin with the question-and-an swer session. The first question is from the line of Ankit Mehta from Wellworth Share and Stock Broking. Please go ahead.
Ankit Mehta: Thank you for the opportunity, sir. Considering that luxury real esta te market is doing very well, how is the company positioning itself in this segment?

Anand Pandit: Thank you, Ankit, for your question. As you know and even tod ay's recent report also, you might have seen that luxury market is doing extremely well, especially in western suburb, mid-Mumbai and south of Mumbai. So, that market, I feel that personally that it is going to grow every year and we are confident that we will have a larger pie in that.
Ankit Mehta: My next question is that how many new projects are we looking to ad d to our portfolio in the second half of the year?

Anand Pandit: So, we are in dialogue with many redevelopment opportunities of societies and clusters. But we are very confident that because we are very choosy about what ki nd of projects we choose, we just don't want to add into portfolio. But we want to have a quality a sset. That is what we want to create. So, I think about two to three new projects in second ha lf, we will be adding to the portfolio.
Ankit Mehta: Thank you so much, sir. That will be all from my side.
Anand Pandit: Thank you.
Moderator: Thank you. We will take the next question from the line of Nikhil Garg from BNP Paribas. Please go ahead.
Nikhil Garg: A couple of questions. One, you mentioned that you have one of the highest ROEs in the industry. Can you just elaborate a bit more on that? What allows us to g enerate such a high ROE? And second question was on a couple of projects which are undergoing sa les. They are still at, one of these projects is still at, I think, 61% sold Ayana. So, what' s the outlook on that? Thank you.
Anand Pandit: So, as far as ROE is concerned, as you know that we have got 2-3 other policies. Number one, we are concentrating on high-yielding products only. That's one. So , our blue and green theory, that is, water view or garden view. That is giving us a good result. That's one . Second is our asset light model. Because of the redevelopment, we don't have to deploy a large fund into buying the land. So, that is also giving a good return. Third, a s you know that company is almost net debt-free. So, we don't have any expense on paying th e interest. Fourth is, our marketing is extremely limited because it's more like on appointment basis. So, ti ll today, we have not done any marketing expense, unlike our peers, who has to spend at least 7% to 8% on marketing. So, on that also, we are saving a lot of cost. So, this is what gets us a go od ROE.
Sanjay Kumar Jain: Nikhil, hi. Sanjay here. Regarding second question of the higher i nventory in the Ayana and Arc-One. So, the main reason was that as per company policy, we have decided in these two projects, once the project is completed and the OC will receive, then we will start the majority of sales. So, the Arc-One, the OC was received in March end and then the same in Ayana last year, we have received. And so, now we are selling them and we a re getting good response from the clients.

Nikhil Garg: Got it. Would it be fair to say that these projects will be completed by o r majority completed by the year end?
Sanjay Kumar Jain: Yes. So, majority of sales will be completed this fina

ncial year.
Nikhil Garg: All right. Thank you.
Anand Pandit: Thank you.
Moderator: Thank you. We will take the next question from the line of Nikhil Oswal fro m Oswal Investments. Please go ahead.
Nikhil Oswal: Good morning, sir. So, I had a couple of questions . One on the guidance what you have provided on revenue of let us say around 960 to 1,000 crores and pre-sales of 1,100 to 1,200 crores for this year. Against that in H1, we are standing at revenue 237 crores and pre-sales of 320 crores. So, my question is what makes you confident that you will be, the re is a substantial gap which needs to be filled in H2 right now. So, what makes you confident that you will be able to achieve those numbers? And the second question will be for Arcadian and Amalfi, you had given a number of 92 crores and 38 crores in September, the initial booki ngs. So, what would be that number as of now, if you could just let me know that?
Sanjay Kumar Jain: So, Nikhil, regarding achieving the 1,100 crores, so what happe ned, we have launched the two projects in September only one week and we have achieved the 1 30 crores. So, now the four new projects we are aiming to launch in the next 6 months and we are following the percentage completion method. So, whatever the expenditure is done, so revenu e is recognized only to the extent of this. And regarding the pre-sale, we have the 6 months an d we are getting good response for these two projects and also the number of enquiries in Varun also we are getting very good. So, we are very confident to achieve the 1,100 crore s in pre-sale.
Nikhil Oswal: Thank you, sir. And on the second part, the numbers as of now, if y ou can just let me know Arcadian and Amalfi.
Sanjay Kumar Jain: So, that we will get back right now, I don't have that, we will get ba ck.
Nikhil Oswal: Thank you. All the best.
Sanjay Kumar Jain: Thank you.
Moderator: Thank you. We will take the next question from the line of Ravi Shah from VRS Capital. Please go ahead.
Ravi Shah: Thanks for the opportunity. So, my question first was revolving a round PAT. So, how confident are we? So, I think this question was asked slightly that I missed a bit. So, basically, given the

cost front-loading we have on multiple new launches, how are we plannin g to protect our margins and achieving this guidance?
Rakesh Gupta: So, our margin, as you see that we have guided in the range of 2 5% to 30%. And we are very much confident that looking at the numbers, which is almost in the ra nge of 30% size margin, looking at the bookings and enquiry we have right now, we are very much confident that we will achieve the similar kind of number for the next 6 months of H2 FY 26.
Ravi Shah: Understood, sir. So, my next question is, what is the average margin we have in redevelopment? And how does it compare to a greenfield project?
Rakesh Gupta: So, if you see right now, our majority of the projects are in the redevelo pment stage only. We have only one project in the upcoming one. The margins ge nerally do not vary that much though. Because of the low investment, our average is very high in redevelop ment.
Ravi Shah: Understood, sir. Thank you. My last question will be on our funding plan. So, how will we plan to fund our new projects which are in our pipeline and will we need more debt going forward?
Sanjay Kumar Jain: So, Ravi, we have that 850 crores cash balance and we have the net worth of 1,700 crores. So, in the redevelopment, normally what happens is 10%-15% of th e project costs will be invested for the lifetime of the project. So, we are confident that we have sufficient balance and that can be easily we can execute the projects.
Ravi Shah: Understood, sir. Thank you so much, sir and all the best.
Anand Pandit: Thank you.
Moderator: Thank you. We will take the next question from the line of Nishita Shanklesha from Sapph

ire
Capital. Please go ahead.
Nishita Shanklesha: Yes, hello. So, I just have a clarification question. So, you mention ed that you are expecting EBITDA margin to be in the range of 35%-40% and PAT margin to be in the range of 25%-30% is that correct?
Rakesh Gupta: Yes, it is correct.
Nishita Shanklesha: And this is for FY26, right?
Rakesh Gupta: Yes, for FY26 and maybe in the future also.
Nishita Shanklesha: So, I think that earlier our EBITDA margin used to be higher than the 35%-40% that we have guided now. Can you give me a reason why it was higher earlier a nd if we can reach to that level again?

Rakesh Gupta: So, we have already mentioned in our comments that there was on e specific project in the last financial year, which there was a little bit of price appreciation over there. And because of that, the EBITDA margin and the PAT margin is on higher side in the last financ ial year. Though we are now very much confident to achieve EBITDA margin of 35-40% in th e current financial year as well as next fiscal year and we want to continue with that number.
Nishita Shanklesha: And the revenue that we are targeting to achieve in FY26 is around th e range of 900-1,000 crores, right?
Rakesh Gupta: Yes, we have guided on that.
Nishita Shanklesha: Perfect. Thank you so much.
Moderator: Thank you. The next question is from Yohan Batliwala from Motilal Oswal. Plea se go ahead.
Yohan Batliwala: Good morning, everyone. I have two questions. My first question is on the lines of your faster execution schedule. So, I can see in your presentation, your ongoin g projects are getting completed earliest by FY27. Although, do we expect any project to g et completed before that by the end of second half this year? That's the first question.
Sanjay Kumar Jain: So, no. We are maybe 6 months before we can achieve in the Arcadian . The balance, the Amalfi and the Varun will be in the same line whatever we have projected.
Yohan Batliwala: And my second question is on the business development front. So, yo u added six projects in the first half. What is the estimated GDV potential for that, for those six projects?
Sanjay Kumar Jain: So, around 5,000 crores.
Yohan Batliwala: 5,000 crores, roughly 1,000 crores in the second quarter?
Sanjay Kumar Jain: Yes.
Yohan Batliwala: Alright. Thank you.
Moderator: Thank you. The next question is on the line of Nikhil Oswal from Os wal Investments. Please go ahead.
Nikhil Oswal: So, just continuing from the question which Nishita asked. I can und erstand the EBITDA margins would be lower going forward. So, but this quarter, it's coming to around 29%. Any specific reason why it is lesser than our guided range?
Rakesh Gupta: So, Nikhil, the numbers could not match every quarter. There coul d be variation every quarter

depending on what kind of project we are executing this quarter. This quarter, we have seen that

the two new projects were launched recently and some revenue part c ame from them. And due
to initial stage of any project, the margins are a little lower. As the pro ject progresses, we tend
to get higher returns and improve margins.
Nikhil Oswal: So, this will normalize as we go forward, right? In the range of 35 to 40. Fine. Thank you, sir.
Moderator: Thank you. The next question is from the line of Raj Mehta from MR Adviso rs. Please go ahead.
Raj Mehta: Thank you, sir, so much for the opportunity. My first question is, can you throw some colors on
collections and how much is it now pushed to Q3?
Rakesh Gupta: So, we have already collected 175 crores for the H1 and for Q2, the collection was 106 crores.
And the two projects which are launched recently, the collection wa s with little bit on lower side
because the launch was in last week only and collection has bee n pushed to the Quarter 3

and
Quarter 4. So, generally, our collection would be in the range of 45% to 60% of the pre-sale
amount, which we are expecting for the financial year.
Raj Mehta: So, my other question was for project Varun, which specific approvals are pending that are
delaying the launch?
Sanjay Kumar Jain: So, all the approval is in place and we have already launched this p roject.
Raj Mehta: And sir, I had one last question. What will be our business developme nt strategy and what are
the reasons why societies will choose you as the developer?
Anand Pandit: So, we have a very strong team of business development. And I, a s Managing Director of the
company I head that committee. When we go to societies, we unde rstand what is their need.
They want to see your experience in redevelopment, which we have very large redevelopment
experience. Number two, execution capability. Our execution is on e of the fastest in the industry.
So, that is what they like. Number three, in redevelopment proc ess, we treat those projects as
ultra luxury or uber luxury. So, in that space, there are hard ly any players. So, that is our third
advantage. Fourth is kind of cliental what we have, starting from celebrit ies to HNIs to
corporates to multinational companies. So, that portfolio is very impre ssive. And most important
thing is we treat them as our first clients. So, because of all this, we g et skewed towards top of
the spiral.
Raj Mehta: That was all. Thank you so much.
Anand Pandit: Thank you.
Moderator: Thank you. Ladies and gentlemen, as there are no further question s, I would now like to hand
the conference over to the management for closing comments. Than k you and over to you, sir.

Anand Pandit: We thank everyone for joining the call today. We hope we have been able to give you a detailed
preview of our business and also answer your queries. We are confident in our brand and our
focus remains on executing our Rs. 13,000 to 14,000 crores so lid pipeline, sustaining our market
leadership in Mumbai's luxury redevelopment segment and delivering superior returns. We
appreciate your continued trust.
For any further queries or clarifications, please feel free to reach out to SGA, o ur investor relations advisors. Thank you once
again and have a good day.
Moderator: Thank you, sir. Thank you, members of the Management. On b ehalf of Sri Lotus Developers
and Realty Limited, that concludes this conference. We thank you fo r joining us and you may
now disconnect your lines. Thank you.

Moderator: Ladies and gentlemen, good afternoon and welcome to Sri Lotus Developers & Realty Limited's Q3 FY26 Earnings Conference Call. Before we begin, I would like to remind participants that this conference call may contain forward -looking statements about the company which are based on beliefs, opinions, and expectations of the company as on date of this call. These statements are not the guarantee of future p erformance and involve risks and uncertainties that a re difficult to predict.

As a reminder, all participant lines will be in the listen -only mode and there will be an opportunity for you to ask questions after the presentation concludes. Should you need assistance during the conference call, please signal an operator by pressing star and then zero on your touchtone phone. Please note that thi s conference is being recorded.

With this, I now hand the conference over to Mr. Anand Pandit , Managing Director a nd Chairman of Sri Lotus Developers & Realty Limited. Thank you and over to you, sir.

Anand Pandit: Thank you. Good afternoon, everyone, and a very warm welcome to the Q3 FY26 earnings call of Sri Lotus Developers and Realty Limited. Joining me today are o ur CEO , Mr. Sanjay Kumar Jain; our CFO , Mr. Rakesh Gupta; and our Investor Relations Advisors from SGA. Our Investor Presentation has been uploaded on the Stock Exchange and on our website. We hope you have had a chance to review it.

Let me begin with a b rief overview of the market environment. The Indian government continues to focus on improving demand and consumption in the economy. The recent Union Budget has emphasized higher infrastructure spending, better connectivity, and policy clarity which toget her are supporting investor confidence and long -term growth in the real estate sector.

For the quarter ended December 2025, I am pleased to share that pre -sales for the quarter stood at INR376 crore s, registering a strong growth of 247% year -on-year. Coll ections during the quarter were healthy at INR119 crore s, reflecting sustained customer confidence and execution momentum.

During the quarter, we launched project Varun in Bandra, which witnessed encouraging traction with 19% of the carpet area sold in th e launch quarter. Customer response remains positive, supported by strong inquiries. Our recently launched projects, The Arcadian in Juhu and Amalfi in Versova, continued to witness healthy demand, and within just four months of launch, 34% of inventory at The Arcadian and 45% of Amalfi was absorbed, reflecting the strength of our product positioning and demand in our core micro markets.

Construction at Lotus Aquaria in Prabhadevi is progressing very well, and for Lotus Celestia in Versova is commencing in this quarter. These ultra -luxury developments are located in some of Mumbai's most coveted micro markets and will further strengthen our positioning in the premium residential segment. We plan to launch both projects by March 2026 with a combined revenue potential of more than INR2,000 crore s. These launches provide strong visibility and

reinforce our confidence in achieving our FY26 pre -sales guidance.

On Lotus Trident, our Greenfield commercial project, certain regulatory and statutory approvals are currently underway, and its launch is expected in Q1 FY27. We continue to strengthen our footprint in core micro markets while selectively expanding into high potential locations such as Bandra and Prabhadevi. The scale and quality of our development pipel ine clearly underscore the strong brand acceptance of Lotus Developers.

During the year so far, the company added eight new projects to its portfolio, which includes three projects in Bandra West, four projects in Juhu and Andheri West micro market, and o

ne in
the GIFT City area of Gujarat. With this, we have added additional GDV of about INR7,500 to INR8,000 crore s in our growing portfolio. We remain in active discussions with multiple societies and expect to finalize further project addition s by the end of the year.

Our ongoing upcoming pipeline comprises 20 projects; 16 residential and four commercial, with an aggressive GDV of approximately INR16,000 to INR17,000 crore s. This translates into nearly 3.2 million square feet of saleable carpet area to be realized by FY31. Notably, 15 of these 20 projects are redevelopment led and four are joint development projects, reinforcing our core focus and competitive strengths in this segment. Given this project mix, we are confident of sustaining PAT margins in th e range of 25 to 30%.

As we look ahead, our focus remains firmly on disciplined growth, timely execution, and scaling the Lotus Developers platform into a resilient, long -term value creator. With that, I now hand over the call over to Mr. Sanjay Kumar Jai n, our CEO, to take you through the financial highlights.

Sanjay Jain: Thank you, Anand sir. Good afternoon all. Let me now take you through financial highlights of quarter three and nine months financial year 2026. As highlighted earlier, during Q3 FY26 w e launched one project, Varun in Bandra, in November 2025. The project recorded booking of INR52 crore s and has an estimated GDV of INR430 crores to INR450 crores . We expect to launch two projects in Q4 FY26, Lotus Aquaria that is in Prabhadevi and Lotus C elestia in Versova, with a combined revenue potential of more than INR2,000 crores .

Moving to consolidated financial for Q3 FY26: Pre -sales stood at INR376 crores , growth of 247% year -to-year. Revenue stood at INR224 crores , growth of 93% year -to-year. Co llection for this quarter stood at INR119 crore s. EBITDA was INR79 crore s with a growth of 29% year - to-year. EBITDA margin stood at 35.5% for the quarter and 34.5% for nine months. Profit after tax was INR70 crores , registered 37% year -to-year growth. Expe nses towards ongoing and upcoming project stood at INR57 crores in Q3 FY26.

For nine months financial year 2026: Pre -sales stood INR695 crores , growing 117% year -to- year. Revenue stood INR461 crores . Collection for nine months ended December 2025 was INR2 94 crores . EBITDA was INR159 crores and EBITDA margin stood at 34.5%. Profit after

tax was INR142 crores . Expenses towards ongoing and upcoming project stood at INR332 crores in nine months financial year 2026. Net cash as on 31st December 2025 stood at IN R845 crores . During the IPO, we raised INR792 crores through fresh issue and net proceeds post issue expenses was INR732 crore s. We have deployed total funds amounting to INR200 crores till 31st December 2025. With this, I would like to open the floor for questions. Thank you.

Moderator: Thank you very much. We will now begin with the question and answer session. Our first question comes from the line of Ankit S. Mehta from Wellworth Share & Stock Broking Limited. Please go ahead.

Ankit S. Mehta: Thank you for the opportunity. And congratulations on a good set of numbers. Sir, despite slowdown as is evident that company has performed very well in Q3 versus peers. What is the outlook for Q4 and is the management confident on achieving the FY '2 6 guidance?

Sanjay Jain: Yes, so, Ankit, we are very confident that whatever the guidance given, we will be able to achieve the same. And we are getting good response from Varun that we have already launched and we already have express of interest received for the to be launched project from the some of the customers.

Ankit S. Mehta: Yes. Thank you, that was all from my side.

Moderator: Thank you. Your next question comes from the line of Mohit Surana from Monarch Networth Capital. Ple

ase go ahead.

Mohit Surana: Thank yo u for the opportunity. First of all, congratulations on the good set of numbers. My question is more on the broader industry like, given the intensified competition for quality redevelopment assets in Mumbai, how do we differentiate in acquiring new societ ies? And what is our visibility on adding more projects to the pipeline over the next two, three years?

Anand Pandit: Mohit, thank you for your question and joining this call. First of all, real estate is all about trust and quality. And that is what we ar e, we have proved till today showing our legacy of faster construction with ultra -luxury manner we complete the project, and full satisfaction of our clients. This is the mantra we are working on. Because of that, you know, and our proven track record, lot of societies, they are coming to us even though they might have chosen or somewhat chosen somebody else. So getting the new society is not a tough job for us. So that is one. Second, in ultra -luxury space in redevelopment, I would say, I don't know which other companies are operating, but we have very uniquely positioned ourselves and everyone who is going for redevelopment, they want to shift from their dilapidated kind of building to ultra - luxury only.

So when they see our redeveloped properties, gener ally we get the preference in that. And also on sales side, I mean this was acquisition side, sales side also we get excellent response because

our product is positioned as ultra -luxury product. So we are very confident in for the next few years we will be able to perform.

Mohit Surana: Sir, apart from the existing pipeline of projects, do we have visibility of...

Moderator: Sorry to interrupt. Mohit sir, your voice is sounding a little muffled. May I request to use the handset if you are using any other mo de?

Mohit Surana: Perfect. So, sir, apart from the existing pipeline of projects, do we also have visibility of new projects over the next two, three years? I mean, can we continue adding on more projects just like we did in FY '2 6?
Anand Pandit: Yes, definitely. And that would be a regular process actually. Because that is what the cycle, business cycle for us. Like in this financial year we have added almost eight new projects including GIFT City, one of the projects in GIFT City. And we are alre ady in regular talks with many societies. So every quarter we will be adding some new projects.
Mohit Surana: And sir, considering the aggressive number of launches that we have planned, has there been a change in our strategy in terms of boosting our exec ution capabilities?
Anand Pandit: So execution capacity, I mean, as we are growing, we are having more, I mean, focus is on HR, having more experienced people we are adding to our staff.
Mohit Surana: Understood. And sir, until how many years do you think the current level of cash that we have on the books is sufficient to achieve our guided objectives?
Sanjay Jain: So, Mohit, we currently have INR845 crores as net cash. That will be sufficient for technically INR8,000 crores GDV. But because of the cash fl ow and working capital flow, so we can easily achieve around INR17,000 crores projects. And whatever will be the cash balance, that will be the routine process and majority of the IPO proceed we will able to deploy that by next one year.
Mohit Surana: Unde rstood, sir. So that's very helpful. That's all from my end. If I have any more questions, I will fall back in queue. Thank you.
Moderator: Thank you. Our next question comes from the line of Aayush Saboo from Choice Institutional Equities. Please go ahead .
Aayush Saboo : Yes, I just wanted to know for the future GDV addition, like you know the projects in the future which we will not be doing through redevelopment, probably through joint development. So do we foresee

taking any debt in the future, like afte r two years probably? Since we already have a strong balance sheet but for non -redevelopment projects, do we foresee any debt?
Sanjay Jain: So, Aayush, currently as explain ed,, we have sufficient cash balance and there is no requirement of debt. But in the future if there is any good project and if anything required for the balance

sheet also, then we have the two option s, either we can have the QIP or we can take the debt. But looking forward to next two years I don't think we require anything from both of th ese.
Aayush Saboo : Okay. Thanks, okay.
Moderator: Thank you. Our next question comes from the line of Aniket Madhwani from Steptrade Capital. Please go ahead.
Aniket Madhwa ni: So my question was with regards to the collection. So despite growing pre -sales number, the collections are still low. So could you please explain the reason behind it? Because in last quarter projects were recently launched, so the collection has bee n pushed to Q3 and Q4, but still the numbers are very much low. If we see the pre -sales number?
Rakesh Gupta: Yes, Aniket. So Rakesh Gupta here. So as you already clarified that if you see few of the projects launched in last four months and in initial sta ge generally collection is on lower side because collection is generally linked to the percentage of completion achieved on the slab wise. So the collection will definitely forward to the next quarter as and when we achieve more and more completion level. So in initial two quarters we have a lesser cash flows from the sales we done. Then going forward whenever the project reaches a next level of construction then we collect more money.
Aniket Madhwani: Okay. And what number are you targeting in FY '2 6 in t erms of collection?
Rakesh Gupta: So we already done INR294 crores of collection in last nine months. Since it's a very dynamic number since we are poised to launch two more projects in this quarter. This collection number would be definitely higher than w hat we have done in Q3, in Q4. But exact number can't be anticipated right now but we are very much sure that our Q4 number of collection would be much higher than what we have done in Q3.
Aniket Madhwani: Okay, got it, got it. And out of these 20 projects which are ongoing, 16 are residential and four are commercial, right? So out of these 20, how many are redevelopment projects could you please bifurcate?
Sanjay Jain: So, Aniket, this is Sanjay Jain. So out of 20 only one is the Greenfield. The balance 1 9 either joint development or redevelopment.
Sanjay Jain : So four projects are joint development and 15 are the redevelopment projects .
Sanjay Jain: 15 redevelopment, four joint development and one Greenfield own project.
Aniket Madhvani: Okay, got it. An d any guidance from you in terms of topline for FY’26?
Rakesh Gupta : So FY’26, we already achieved INR460 crores of revenue. And we are on the track to achieve

whatever we have guided. Our pre -sales we have guided in the range of INR1,100 to INR1,300 crore s, and we are on track to achieve that pre -sale number. And revenue also within that vicinity which we have guided.

Aniket Madhvani: Sorry, please. Can I have the number in terms of percentage?

Rakesh Gupta : Of the revenue or pre -sales?

Aniket Madhvani: Yes, pre -sales?

Rakesh Gupta : Pre-sales I said that we have guided that INR1,100 to INR1,300 crores was our guidance number, and we are on track to achieve that number. We have already done pre -sales of INR695 crores till nine months, Q3.

Aniket Madhvani: Okay, got it, got it. That's it from my side. Thank you.

Modera tor: Our next question comes from the line of Kapil Aggarwal from Daksh and Associates. Please go ahead.

Kapil Aggarw

al: Yes, good afternoon sir. And congratulations on the very good set number s. So my first question is regarding that how we recognize revenue? We are on the percentage of completion method or on occupancy, we are recognizing the revenue?

Rakesh Gupta: Yes, we are on percentage completion method. So as and when, as per the project progress we recognize the revenue.

Kapil Aggarwal Okay. And the second thing is that, in this quarter and last quarter, our operating margin is approximately 30 in the range of 30% to 35%. And last year it was above 50%. So what is the reason this margin is being reduced?

Rakesh Gupta: So our EBITDA margin was in the range of 35% here and there in the last nine months. Earlier in the last year the margin was on little bit higher side, which we have explained in last quarter also, because of one particular project where we have witnessed a good appreciation in rates, while our cost was on lower side as the project was acquired during COVID period. So because of that appreciation the project margin or operating margin were on higher side. But we are expectin g to retain our EBITDA level in the range of 35% to 40% going forward.

Kapil Aggarwal Okay. And what is our expected this EBITDA margin going forward?

Rakesh Gupta: Similarly. So as we have achieved 35% in this financial, this nine month period, we are exp ecting to remain on that level. At least for next two three years.

Kapil Aggarwal For we can say all like for redevelopment and JDA for both kind of project?

Rakesh Gupta: Yes.

Kapil Aggarwal Okay. Thank you, that's it from my side. Thank you.

Moderator: Our next question comes from the line of Darshan Parekh from PGE Industries Private Limited. Please go ahead.

Darshan Parekh: Yes, hello. Hi, this is Darshan Parekh speaking. Thank you guys and congratulations on the good numbers. Sir, I just wanted you to give some more specifics and more details about some of the projects that you said during your talk. One was I think the Arcadian and the other one was the Amalfi?

You gave numbers of 24% and some 84% bookings. Just some more specifics on how the progress is going in these projects, and when do you see them getting completed on time, delays and what is the general outlook on the market for you in terms of luxury projects? Thank you.

Rakesh Gupta: So we launched these both these projects in Q2 FY'26 this ye ar. And the project construction of these both the projects are progressing very well, and we are on target to complete Arcadian in next financial year and Amalfi in mostly Q1 of FY'28. So this was as we have already as per our expectation only.

Darshan Pa rekh: Okay, thank you.

Moderator: Thank you. Your next question comes from the line of Mohit Surana from Monarch Networth Capital. Please go ahead.

Mohit Surana: Just one general question on the completion timeline. Once we have the development agreement, how long does the RERA allow us to complete the project generally speaking? I understand it can vary project to project. But generally is it three years, four years, if you can just give some insights on that?

Sanjay Jain: Hi Mohit, this is Sanjay. RERA is not giving any timeline for any project. It is the depending on the developer is the choice through out. So what happen, this is the negotiation between the society and the capability of the execution. Depending on that we give the RERA date. So some deve loper can give the RERA date for three year or four years completion, some give the seven to eight year also. So it is depending on the only developer. RERA don't have any guidelines for the completion of the project.

Mohit Surana: Understood, sir. And sir for us, our projects the completion timeline is basically two to three years, generally speaking, is that correct?

Sanjay Jain: Yes. So generally is two to th

ree years. In case of the some big project or there is the basement,
then it will take six to nin e months additional.
Mohit Surana: Understood. That's helpful, sir. Thank you.

Moderator: Our next question comes from the line of Satyen Dodia, an Individual Investor. Please go ahead.
Satyen Dodia: Sir, company is thinking about paying dividend in near term?
Moderator: Sorry to interrupt. Satyen sir, your voice was not good audible. If you can please use the handset?
Satyen Dodia: Sir, company is thinking about paying dividend in near terms?
Anand Pandit: We are going to propose to our board and general body about the dividend. So we will have a dividend policy in very near future.
Satyen Dodia: Okay sir.
Moderator: Satyen sir, you have any further questions?
Satyen Dodia: No, sir.
Moderator: Thank you so much. Our next question comes from the line of An iket Madhvani from Step Trade Capital. Please go ahead.
Aniket Madhvani: Yes. Thanks for the opportunity once again. So my question was according to your revenue growth guidance. So it will be implied around INR498 crores to achieve in this quarter. So could you please explain how the company will you know achieve this level of revenue in terms of project completion or construction?
Sanjay Jain: So, Aniket, so we have the three set of the projects. One is the completed project, one is the ongoing projec t, and third is the, we are aiming to launch two new projects during this quarter.
So our expectation is that for the pre -sale guidance , approximately INR200 to INR300 crores we can achieve in this quarter from the new two projects and from the ongoing pro ject, around INR250 to INR300 crores we can achieve.
Aniket Madhvani: Okay. Okay, yes. And the company will be maintaining the same margin right? 35 to...
Sanjay Jain: Yes. Correct, correct. That we have given the guidelines that for the next year also we are given.
Aniket Madhvani: Okay. And any new projects that are in pipeline, I mean, are you planning to add any new projects in coming quarter?
Sanjay Jain: Yes, as explained by Anand sir that this is the routine process. We have been talking with the multiple society. So every quarter we are getting something. So in this quarter also we are talking to some society. So once that will be acquired, we will intimate to exchanges.
Aniket Madhvani: Okay. Got it, got it. Yes. Thank you.
Moderator: Thank you. Lad ies and gentlemen, due to time constraints, we'll take that as a last question. I

now hand the conference over to the management for closing comments.
Anand Pandit: We thank everyone for joining the call today. To conclude, the quarter reflects not just st rong numbers, but the structural strength of our platform driven by disciplined capital allocation, consistent execution, and a deep understanding of our core redevelopment markets.
As we scale our presence in Mumbai and take our first step into a new mar ket like GIFT City, our focus remains clear; to convert our robust pipeline into timely cash flows and sustainable profitability. We remain committed to our asset -light business model, building high quality assets, strengthening stakeholder trust, and crea ting long -term value through cycles. Thank you for your continued confidence and participation. For any further queries or clarifications, please feel free to reach out to SGA, our Investor Relations Advisor. Thank you once again and have a good day.
Moder ator: Thank you. On behalf of Sri Lotus Developers & Realty Limited, that concludes this conference. Thank you for joining us and you may now disconnect your lines.

Moderator: Ladies and gentlemen, good morning and welcome to Sri Lotus Developers and Realty Limited's Q4 FY26 Earnings Conference Call . Before we begin, I would like to remind participants that this conference call may contain forward -looking statements about the company, which are based on beliefs, opinions and expectations of the company as on date of this call. These statements are no t the guarantee of future performance and involve risks and uncertainties that are difficult to predict.
As a reminder, all participant lines will remain in the listen -only mode and there will be an opportunity for you to ask questions after the presentation concludes. Should you need assistance during the conference call, please signal an operator by pressin g star then zero on your touchtone phone. Please note that this conference is being recorded.
With this, I now hand the conference over to Mr. Anand Pandit, Managing Director and Chairman of Sri Lotus Developers and Realty Limited. Thank you and over to you, sir.
Anand Pandit : Thank you. Good morning everyone and a very warm welcome to the Q4 FY26 Earning Call of Sri Lotus Developers and Realty Limited. Joining me today are our CEO, Mr. Sanjay Kumar Jain, our CFO, Mr. Rakesh Gupta, and our Investor Relation Advisors from SGA. Our investor presentation has been uploaded on the stock exchanges and our website. We hope you have had a chance to review it.
Let me begin with a brief overview of the market environment. Demand in the luxury and ultra - luxury segment continues to remain strong. Even amid global uncertainty and geopolitical developments, luxury residential segment is clearly outperforming the broa der residential market, supported by robust end -user demand, rising aspirations, and sustained interest from HNIs and NRIs.
We are also witnessing strong absorption levels across key micro markets with buyers increasingly preferring larger residences, enhanced amenities, wellness -focused living, and developments backed by trusted brands. This structural shift continues to reinf orce momentum in the luxury segment.
Before I move to our operating performance, I would like to highlight the launch of our first of its kind brand campaign, “Luxury Coastline Collection ”. This campaign brings together 11 marquee projects across Mumbai's most sought -after coastal locations, including Versova, Juhu, Carter Road, Bandstand, Prabhadevi, and Nepean Sea Road, offering a differentiated and premium living experience. The campaign has received an overwhelming response from customers and channel partners, and we are seeing a noticeable increase in inquiries and conversions across the portfolio.
During the year, we also marked our strategic entry into GIFT City, further expanding our geographic presence. As we continue to scale and enhance our brand visibility, our approach

remains measured and disciplined. We remain highly selective, focusing on a curated customer base while maintaining our commitment to quality, design, and execution.

Moving on to our financial performance for the quarter, despite challenging global backdrop, demand for our projects remained resilient. Pre -sales for Q4 FY26 stood at INR462 crores, registering a strong growth of 177% year -on-year. The quarter was marked by the successful launch of Lotus Celestia in Versova Beach, which achieved booking of INR155 crores within 7 days of launch, reflecting strong market acceptance. The project, with an estimated GDV of INR1,400 crores to INR1,500 crore s, is strategically located on the Versova beachfront and has seen healthy premium realization. Our other projects, Varun in Bandra, along with The Arcadian in Juhu and Amalfi in Versova Beach, continued to witness steady traction, contributing cumulative p re-sales of

INR203 crores during the quarter. Total pre -sales contribution in this quarter from launches done during the year stood at INR358 crores.
For the full year ended March 2026, we achieved pre -sales of INR1,157 crores, in line with our stated guidance, despite industry -wide challenges. During FY26, we added nine new projects with a cumulative GDV of approximately INR8,500 crores to INR9,000 crores, significantly strengthening our development pipeline.
We executed development agreements for key projects, including Lotus Portofino at Versova, Lotus Sky Plaza at Oshiwara, Lotus Odyssey at Bandstand, Lotus Avalon in Juhu, Lotus Imperial in Bandra, as well as a mixed -use development in GIFT City. In addition , multiple societies have appointed Lotus as their preferred developer, such as Lotus Upper Crest at Bandra, Lotus Insignia, and Lotus Orion, reflecting growing trust in our brand.

During the year, we launched four projects, Amalfi, The Arcadian, Varun, and Celestia. Within just 1-year, we have achieved sales of 62% in Amalfi, 41% in The Arcadian, and 38% in Varun, demonstrating strong sales velocity even across recent launches and reinforcing the quality and demand for our project.

Looking ahead, we remain optimistic about our growth trajectory. We have a strong pipeline of six planned launches, Lotus Aquaria, Lotus Trident, Lotus Aurelia, Lotus Sky Plaza, Lotus Portofino, and Lotus Odyssey, with an estimated GDV of INR5,000 crores to INR5,500 crores.

Backed by this robust launch pipeline, strong demand outlook, and the quality of our developments, we are confident of achieving our FY27 guidance of pre -sales in the range of INR1,800 crores to INR2,000 crores, along with revenue growth of 55 % to 60% and PAT growth of 55 % to 60%.

Overall traction remains encouraging and our inquiry pipeline continues to be strong, giving us confidence in our ability to sign four to six new projects in the coming year and further expand our portfolio in a calibrated manner.

Before I conclude, I would like to share that the Board has approved a dividend payout of 50% for FY26. In line with its long -term growth vision, the promoter group has voluntarily waived its dividend entitlement for FY26. The retained amount will be utilized for new project additions and project development. This reflects the company's commitment to disciplined capital allocation, growth -led reinvestment, and long -term value creation while maintaining a strong balance sheet.

With that, I now hand the call over to Mr. Sanjay Kumar Jain, our CEO, to take you through the financial highlights. Thank you.

Sanjay Kumar Jain : Thank you, Anand sir. Let me now take you through the financial highlights for Q4 and financial year 2026. As highlighted earlier, during Q4 financial year '26, we launched one project, Lotus Celestia in Versova, in March 2026. The project recorded booking of INR155 cror es and had an estimated GDV of INR1,400 crores to INR1,500 crores, reflecting strong initial traction.

Looking ahead, we expect to launch three projects in H1 FY2027, Lotus Aquaria in Prabhadevi, Lotus Trident, and Lotus Sky Plaza in Andheri, with a combined revenue potential of over INR2,500 crores to INR3,000 crore s.

For the full year, we have a robust launch pipeline of six projects, Lotus Aquaria, Lotus Trident, Lotus Aurelia, Lotus Sky Plaza, Lotus Portofino, and Lotus Odyssey, with an estimated GDV of INR5,000 crores to INR5,500 crores.

Before moving into the detailed financial, I would like to highlight that ongoing global geopolitical developments have led to a moderate increase in input and labor costs. Input costs have risen by approximately 7%, while labor costs have increased by aro und 5%. On an annualized basis, this may translate into a approximate 1% increase in overall project cost. We continue to closely monitor these trends a

nd are taking appropriate measures to manage cost efficiently.

Now, consolidated financial highlights for Q4 financial year 2026. Pre -sales stood at INR462 crore s, registering a growth of 177% year -on-year. Revenue stood at INR308 crore s, reflecting a growth of 62% year -on-year. Collection for the quarter stood at INR82 crores.

EBITDA for the quarter stood at INR121 crore s. EBITDA margin stood at 39.4% for the quarter.

Profit after tax stood at INR101 crore s, registering a growth of 17% year -on-year. Expenses towards ongoing and upcoming projects stood at INR286.58 crore s in Q4 financial year '26.

Financial highlights for financial year 2026. Pre -sales stood at INR1,157 crore s, growing 137% year-on-year. Revenue stood at INR769 crore s, reflecting a growth of 40% year -on-year.

Collection for the year ended March '26 stood at INR376 crore s. EBITDA stood at INR281 crore s with EBITDA margin at 36.5%.

Profit after tax stood at INR243 crore s. Expenses towards ongoing and upcoming projects stood at INR718 crore s in financial year 2026.

Net cash as on 31st March 2026 stood at INR697 crore s. Adjusted ROE stood at 23.7% while ROCE stood at 13.6%. Total equity including reserve increased to INR1,918 crore s as on 31st March 2026 compared to INR933 crore s as on 31st March 2025.

Projected free cash flow from the completed and ongoing projects stood at INR3,103 crore s, while projected free cash flow from upcoming projects stood at INR5,450 crore s, taking a total projected surplus to INR 8,553 crores.

During the IPO, we raised approximate 792 crores through the fresh issue and net proceeds post

issue expenses stood at approximate 732 crore s. Out of this, we have deployed fund amounting to INR394 crore s till March 2026.
With this, I would now like to open the floor for questions.
Moderator: Thank you very much. We will now begin the question -and-answer session. We'll take our first question from the line of Varun Shivram from Choice. Please go ahead.
Varun Shivram : Hi sir. Good morning. Just a couple of questions from my side. First of all, from an execution standpoint, just a second. So we have launched Luxury Coastline Collection. It's a great way of branding sir. So how much have you spent and what kind of traction you will be seeing post this? And over FY27, will you be doing more marketing and if yes, how much will we allocate towards that?
Anand Pandit : Yes, morning to you. Good question. What we have done is this time we have just started our marketing because earlier company was only in Juhu and Andheri. Now we have gone to so many different valuable micro markets like Bandra , Prabhadevi , Nepean Sea Road and other markets.
So we have started this marketing campaign, number one. Number two, we have got nicely placed on coastline 11 projects. So we came out with this unique idea to market it like a collection. So it is called as Luxury Coastline Collection. Definitely we will be doing this marketing because we are we need more visibility into newer markets, newer micro markets, and reach out to directly to the clients also. So yes, we will be doing marketing efforts and it would be less than 1% of our revenue.
Varun Shivram: Understood sir. Thank you for quantifying and thanks for the detailed answer. Sir, my next question would be on how confident are we on achieving the INR2,000 crores of pre -sales in FY27, given the current scenario of slowdown in the real estate market?
Anand Pandit: First of all, real estate market when you say, it's very fragmented and separate. So we are in ultra-luxury segment. So as far as ultra -luxury segment, there is very strong demand even right now. And we feel that everyone who were earlier into lower segme nt, are occupying houses in a lower segment, they also want shift to ultra -luxury segment.

So our segment total pie is becoming bigger and bigger. So we don't expect any issues. And also what happens with this kind of ticket size, which is more than INR10 crore, INR12 crores ticket size, the external forces do not dictate their decision of buyin g. So we are very confident that we will be able to achieve that. And next year, I mean this current year, we are going to launch six new projects. So the current four projects and these new six projects, all together about 10 projects will give us INR1,80 0 crores of our pre -sales.
Varun Shivram: Understood sir. Thank you so much. I'll get back in the queue for further questions. Thank you.
Moderator: Thank you. Next question is from the line of Samarth Khandelwal from ICICI Securities. Please go ahead.
Samarth Khandelwal: Good morning. Congratulations on a very good performance.
Moderator: Samarth, can you use your handset mode please? Your audio is not very clear.
Samarth Khandelwal: Is it better now?
Moderator: Yes, a little better. Please go ahead.
Samarth Khandelwal: Yes. Congratulations on the very good set of numbers. Sir, in the Versova project that we have launched, you know, how much of the inventory we have sold in units, in apartments, if you could share?
Anand Pandit: So Amalfi, which was launched last year, we have sold about 61% of inventory approximately. And this year, which we have Celestia is about . 14,000 square feet approximate we have sold there.
Samarth Khandelwal: Okay. And sir, since we are in the ultra -luxury segment, we are hearing news about delay in supply chain for the products. So how do you see that affecting our project's timeline?
Anand Pandit: Fortunately, we do not have any import component in our supply chain. So we are in a way insulated with the geopolitical issues.
Samarth Khandelwal: Okay. Okay. Thank you. Thank you so much.
Anand Pandit: Thank you.
Moderator: Thank you. We'll move on to our next question from the line of Majid Ahamed from Pinpointx Capital. Please go ahead.
Majid Ahamed: Am I audible sir?
Moderator: Yes, please go ahead Majid.

Majid Ahamed: Yes sir. Thank you for the opportunity sir. A very good set of numbers. Sir, my first question

that I have is for the completed projects, there has been an improvement in Arc One in terms of the realization. Like has there been any kind of price increase t here in that micro markets?
Anand Pandit: Especially with that project which is a very unique project, it's a redevelopment of existing office building. I don't know any other developer who has done that, but we took up this project as a redevelopment project and that building has come up very nicely and people have really appreciated that. So it's not about that micro market, but that particular building we since we achieved the occupation certificate and other amenities got completed, the prices have gone up.
Majid Ahamed: Okay sir. Got it sir. Sir, if you can on the ongoing project, of the pre -sales what we achieved, how much have we converted into revenue and like that was not present in the presentation. If you can include that, it will be helpful for investors.
Anand Pandit: Yes, okay. We will do so.
Majid Ahamed: Okay. Like sir, as of now, how much is the revenue sir? As of now, of the pre -sales of INR866 crores that we included?
Anand Pandit: 66 total pre -sale of 1 ,157 you are talking about? Or specific project you are asking?
Majid Ahamed: Yes, of the ongoing project, how much have we recognized in the income statement for this year?
Sanjay Kumar Jain: So for INR1 ,157 crore, we have recognized INR460 crores revenue there.
Majid Ahamed: Okay sir. Got it. Sir and secondly.
Sanjay Kumar Jain: This is in Q4.
Anand Pandit: Q4 we are talking about.
Majid Ahamed: Got it. And sir I was seeing some

of your upcoming projects like Lotus Monarch, Lotus Avalon,
Lotus Solana, all these projects are now getting delayed like more than like three, four quarters. Like what is the reason? Any kind of approval issue or anything happening?
Anand Pandit: So two projects we have to get multiple approvals. One is one is existing hospital. So we need to construct that hospital and get our sale area separately. So that's why it is taking a little more time.
Majid Ahamed: Got it sir. And sir, when I was looking to Lotus Celestia, the last presentation your RERA carpet area was 177,000 and now it has reduced to 17,830 square foot. What has led to the difference in Lotus Celestia?

Sanjay Kumar Jain: Yes. So Majid, this is Sanjay. What happens in the RERA carpet area, balcony area is excluded. It is in the FSI constructed in FSI, but the RERA it does not allow to include the balcony area. That's the reason the net RERA carpet area is lesser than the 171.
Majid Ahamed: Okay sir. Sir, about Lotus Residency project, like in the last presentation it was mentioned Lotus Residency but I am not able to see in the current one in the upcoming projects.
Sanjay Kumar Jain: We have changed the name of this project because the existing society name is the Residency, so we have not named that. So now we have named that.
Rakesh Gupta: Lotus Insignia is the name of that.
Anand Pandit: Lotus Insignia is the Lotus Residency. What we do is all our redevelopment project, we don't generally continue the old name because it gives a smell of old redeveloped building. Rather than that, we change the names every time. So we have changed the name .
Majid Ahamed: Okay sir. Sir, what about Lotus Aquaria in Prabhadevi? Like any pre -sales are we looking?
Anand Pandit: We will be launching it very soon. Work has already started.
Majid Ahamed: Okay sir. Got it sir. Sir, finally like going forward, the margins would sustain at this level or do you see any kind of hit in your margins due to the marketing spends that you are looking at?
Anand Pandit: So marketing spend as I said, it would be even less than 1%. But against that, we will be having our lot of direct customers also. So that will take care about not paying other commissions. So margin we are very confident that it will be in the same range what we have guided.
Majid Ahamed: Okay sir. Sir, finally like just want to appreciate the company's thought process on the ongoing dividend. Like sir, like what's the rationale sir like for the dividend policy as of now?
Anand Pandit: So right now we are in process of formulating dividend policy. We don't have dividend policy right now, but we will be deliberating at our next meetings. But right now we have declared 50% dividend for non -promoters. All non -promoters we want to start giv ing them the dividend.
Majid Ahamed: Okay sir. Got it sir. Thank you sir and all the very best sir. That's all from my side. Thank you.
Moderator: Thank you. Next question is from the line of Nikhil Oswal from Oswal Investments. Please go ahead.
Nikhil Oswal: Hello. Congratulations on a good set of numbers sir. Sir, I had a little bit of concern on the collections part. So last quarter when we attended the conference call, you had guided that the collections in Q4 will be much better than Q3. But having said t hat, the collections again have come to only around INR80 odd crores against a revenue of INR308 crores. And so again what I understand is how we collect is on a percentage completion basis.

So when you put up you know slab by slab, then you ask the customers to you know pay that portion of the completed part. So then in that case, why the collections are so low? Just wanted some understanding on this sir.
Sanjay Kumar Jain: Nikhil, this is Sanjay Jain.

So regarding collection s, you are rightly saying that it is linked with the construction schedule. So what happened , the expenses incurred up to plinth is very high and then after the RCC there is low construction cost. Our all four projects which are newly launched are currently in the basement. So we are targeting that this quarter and next quarter, half yearly we will get good collection because there is due from the client which will increased as construction will progress.
Nikhil Oswal: Okay. So but you would have again asked the clients for the payment right? Because whatever is done, that particular part at least you have recognized and then what's the concern? I mean the clients are they not paying or how is it?
Anand Pandit: The issue is I will explain you. When your project is in basement, a few percent of money is due. Once you come to plinth, then there are some percentage due. Then there is slab wise. So right now our all the four projects are in basement level.
So that's why you know even though there is a recognition of sale, but the collection we cannot take the collection more. But as soon as all the project on the plinth, then there would be a continuous flow.
Nikhil Oswal: Okay sir. Got it. So Q1 onwards the collection should pick up right? Q1?
Anand Pandit: Yes. Yes.
Nikhil Oswal: Okay. Okay sir. Thank you and all the best.
Moderator: Thank you. Next question is from the line of Harsh Pathak from Motilal Oswal. Please go ahead.
Harsh Pathak: Hi. Good afternoon Anand ji and team. So I just wanted to know where are we on the approval stage for the H1 launches Aquaria, Sky Plaza and Trident?
Sanjay Kumar Jain: Almost all the approvals are in place. Almost you want separate project wise?
Harsh Pathak: Yes, yes.
Sanjay Kumar Jain: So Trident we have got the full approvals. Sky Plaza almost I would say about 80% approvals we have got. Then Aquaria 100% approval we have got. Work has already started.
Harsh Pathak: Okay. So Aquaria and Trident we are thinking to launch in the current month or it will spill over to June?
Anand Pandit: This quarter. This quarter we will be launching.

Harsh Pathak: Okay. Okay. Got it. Got it. And in terms of traction across these projects, since you know one is a residential project, the other two are commercial ones, how are we seeing traction in terms of demand for the commercial space and the residential one? How is the inquiry, how is the response we have gotten on the EOI stage?
Anand Pandit: Commercial is doing extremely well across all the micro markets and residential in ultra -luxury also has a very strong demand.
Harsh Pathak: Sure. So how are we thinking in terms of pricing with respect to the micro market? How are we thinking to place these products?
Anand Pandit: So both even commercial also will be launching like a luxury collection only.
Anand Pandit : And as you know our pricing in any micro market we are about 10 to 20, 25% higher than any other competitor.
Harsh Pathak: Understood. So we will be following the same thing in all these projects?
Anand Pandit: Absolutely. Absolutely.
Harsh Pathak: Okay. And in terms of the second launches in the second half, the balance three projects, where are we on the approval stage and how confident are we on you know doing the launches in the second half?
Anand Pandit : So that remaining three also I think we will be having all approval in this quarter only. So next quarter we will be launching all three projects.
Harsh Pathak: Okay. Understood sir. Thank you. Thank you so much.
Moderator: Thank you. Next question is from the line of Ashok Shah from Eklavyainvesco Family Office. Please go ahead. Mr. Ashok Shah your line is unmuted please go ahead with your question.
Ashok Shah: Yes. Thanks for taking my questions. Sir, we had a one project in central subu

rb Ghatkopar. So what was the, whether it has been closed and what is the loss realized?
Anand Pandit: There is no loss in that project. It's on final hearing at Supreme Court. There are some six bungalow owners and the society, they both have gone to the court. We have no role into that.

But it has now reached to the final stage. We can have conclusion by this year.
Ashok Shah: So if it is in our favour, then what could be the size of this project? It could be a very big project?
Sanjay Kumar Jain: So it is around INR600 crores GDV project.
Ashok Shah: Okay. Okay. And secondly sir, I just wanted to give appreciation for not taking dividend and for giving dividend to other shareholders. And that's all from my side.

Anand Pandit: Thank you. Thank you Ashok.
Moderator: Thank you. Next question is from the line of Sakshi Pratap from Pratap Securities. Please go ahead.
Sakshi Pratap: Hi sir. Congratulations on the great set of numbers firstly. Sir, two questions from my end. First, given the geopolitical tensions, are you seeing any pressure on cost and how do you see the demand environment going? Is there any slowdown that we are fac ing?
Anand Pandit: So this has got two different aspects. Number one is yes, there would be some inflation and some cost rise. But that cost increase in totality of the project will not be more than about 1.5% to 2.5%. Because let's say about 20% is our construction cost from our selling price. So on that it may be about 10% cost rise. So effectively in the whole project it would be 2%, 2.5%, not more than that. That's one. Second, because of this tension on positive side, lot of NRIs and HNIs have started looking at Mumbai as their investment destination. So that advantage we are getting against this.
Sakshi Pratap: Got it. And sir, second question, any plans to sign new commercial developments to add in the pipeline and what would be the average realization that you will target for any such commercial project?
Anand Pandit: So we already have two new commercial projects which we will be launching first half of this year. And depending on where we are, you know, in which market because these both the projects are in Andheri West micro market. So pricing will depend on market of course, but we will be able to fetch 10% to 15% or 20% more than our rivals.
Sakshi Pratap: Got it. Thank you. Thank you so much sir for the detailed answer.
Moderator: Thank you. We'll take our next question from the line of Siddharth S from NAFA. Please go ahead.
Siddharth S: Congrats on a good set of numbers. I would just like to get a hint on what the collection trends are going to be. So there has been a disappointment in the last quarter in terms of you know collections not catching up with your pre -sales numbers. So if yo u could just give me a hint on that, that would be really helpful.
Sanjay Kumar Jain: Hi Siddharth. So the we earlier also explained that because the all the projects are under the basement, so the collection once the superstructure will start, the collection will be improved.
So the collection will be much better in this quarter and next quarter.
Siddharth S: Okay. So in general this quarter expecting it to you know accumulate or you know which is the quarter that you know expects you know highest form of realization in terms of collections in general as a trend that you have?
Anand Pandit: Siddharth, can you repeat it? The voice is not clear.

Moderator: Siddharth, your audio is not clear. Please use your handset mode and speak a bit louder please.
Hello Siddharth?
Since there is no response, as there are no further questions, I would now like to hand the conference over to management for closing comments. Over to you sir.
Anand Pandit: Thank you. We thank everyo

ne for joining the call today. To conclude, this quarter underscores not only strong financial performance, but also the resilience and scalability. As we continue to deepen our presence in Mumbai, our focus remains on translatin g our robust pipeline into predictable cash flows and sustained profitability.
What differentiates Lotus is not merely growth, but the quality of growth. We continue to operate with a strong profitability, supported by healthy margins, robust return ratios, and a net cash balance sheet. Our business model anchored in disciplined proj ect selection, premium micro market positioning, and execution excellence ensures that growth remains consistent and value - based across cycles.
We thank you for your continued engagement and confidence. For any further queries or clarifications, please feel free to reach out to SGA, our Investor Relations Advisors. Thank you once again and have a good day.
Moderator: Thank you. On behalf of Sri Lotus Developers and Realty Limited, that concludes this conference. Thank you for joining us and you may now disconnect your lines.
