"Sunteck Realty Limited
Q1 FY2023 Earnings Conference Call"

August 12, 2022

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN AND MANAGING DIRECTOR OF THE COMPANY - SUNTECK REALTY LIMITED
MR. MANOJ AGARWAL – CHIEF FINANCIAL OFFICER - SUNTECK REALTY LIMITED
MR. PRASHANT CHAUBEY – SENIOR VICE PRESIDENT - CORPORATE FINANCE & INVESTOR RELATIONS
 Moderator : Ladies and gentlemen, good day and welcome to Sunteck Realty's Earnings Conference Call for Q1 FY2023. We have with us today Mr. Kamal Khetan – Chairman and Managing Director of the Company, Mr. Manoj Agarwal – Chief Financial Officer and Mr. Prashant Chaubey – Senior Vice President - Corporate Finance and Investor Relations. Please note that this call will be for 45 minutes and for the duration of this conference call, all participant lines will be in the listen only mode. The conference is being recorded and the transcript for the same will be put up onto the website of the company. After the management discussion, there will be an opportunity for you to ask questions. As a reminder all participant lines will be in the listen only mode and there will be an opportunity for you to ask questions after the presentation concludes. Should you need assistance during the conference call, please signal an operator by pressing '*' then '0' on your touch phone. Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based on

historical information or facts, and maybe forward-looking statements, including those related to general business statements, plans, and strategy of the company, its future financial condition and growth prospects. These forward-looking statements are based on the expectations and projections and may involve a number of risks, and uncertainties, and other factors that could cause actual results, opportunities, and growth potential to differ materially from those suggested by such statements. I now hand the conference over to Mr. Khetan – the Chairman and Managing Director of the company. Thank you, and over to you Sir!

Kamal Khetan : Thank you for joining Sunteck Realty first quarter earnings call for the financial year 2023. I hope each one of you and your family is safe and healthy. At the outset similar to previous quarter, I would like to reiterate yourself to the guiding principles of new Sunteck what we call Sunteck 3.0. The Sunteck 3.0 focused on three key priorities, one to maintain a strong balance sheet and cash flow, two continue to do marquee acquisition in line with our business development strategy, third building an exceptional team. In the quarter gone by we have achieved a strong growth in both pre-sale and collections. This continue

d strong operational performance has enabled us to generate close to Rs.600 Crores of operating cash flows surplus on the cumulative basis for the past two plus financial years.

I am happy to note that in the quarter gone by we successfully launched our one of the more new growth engine Sunteck Beach Residences at Vasai West. I am delighted at the overwhelming response received by the project. We are also in the launch of other projects in the upcoming quarters. This will enable us to maintain strong growth in the pre-sales as well as the collection. On the execution front, construction is full swing at all projects mainly Sunteck City, Fourth Avenue and Sunteck City Pinnacle at the ODC Goregaon

 West. Sunteck Maxx World and Sunteck One World at Naigaon, Sunteck BKC51 and Sunteck Icon at BKC Junction and Sunteck Crest at Andheri.

Business development has been one of the core strength of our company. We intend to continuously leverage the strength of us just like the 23 million square feet of acquisition we have done post the first wave of COVID-19 pandemic. Our endeavour is to do similar acquisitions going forward over time. I am very proud of the team that we are built at Sunteck in the last 15 years and we are later focused on strengthening it further. I will now hand over the call to our CFO, Mr. Manoj Agarwal for his comments; thereafter I would be happy to answer your questions if any. Over to you, Manoj!

Manoj Agarwal : Thank you, Sir. Good afternoon everyone and thank you once again for joining us today and take out your valuable time for Sunteck. Hope all of you are safe and well. The financial and operational numbers have already been published on the stock exchange. I believe all of you must have gone to the same. Now, I would like to highlight the key financials and business performance numbers. Our pre-sales grew by 89% on year-on-year basis in Q1 FY2023 to Rs.333 Crores compared to Rs.176 Crores in Q1 FY2022 last year. Collections grew by 66% year-on-year basis in Q1 FY2023 to Rs.285 Crores compared to Rs.172 Crores in the last year.

With respect to the financial highlights, we have reported consolidated revenue of Rs.144 Crores in Q1 FY2023 compared to Rs.93 Crores in Q1 FY2022. Consolidated EBITDA for Q1 FY2023 is Rs.45 Crores as compared to Rs.21 Crores in Q1 FY2022. Consolidated profit after tax for Q1 FY2023 is Rs.25 Crores as compared to Rs.3 Crores in Q1 FY2022. EBITDA margin for the quarter stood at 31% as against 22% in last year same quarter. We can overcome the forum for questions from participants. Thank you very much.

Moderator : Thank you very much. We will now begin the question and answer session. Anyone who wishes to ask a question may press “*” & “1” on their touch tone telephone. If you wish to remove yourself from the question queue you may press “*” & “2”. Participants are requested to use handsets while asking a question. Ladies and gentlemen, we will wait for a moment while the question queue assembles. Participants are requested to limit their question to 2 per participant if time permits please come back in the participation queue for a follow up question. The first question is from the line of Adhidev Chattopadhyay from ICICI Securities. Please go ahead.

A. Chattopadhyay : Good evening everyone. Firstly congratulations to the team for a great start to the year. Sir, we had alluded in the last quarter of an 1800 Crores sales guidance for the year obviously with one launch helped us in the first half, so if you could outline what are the other

 launches for the rest of the year and if you just quantify what is the GDV of the launches, the value what we will be launching during the rest of the year that is the first question?

Kamal Khetan : Adhidev, as you see we have already launched SBR and from there we got a very
overw

helming response so initially if you see most of the sales were more from the three growth engines of Sunteck, which is BKC, ODC and Naigaon, now getting SBR to the additional as a fourth engine to the portfolio of Sunteck that itself we are confident with additional one project we will be able to achieve sales what we have given the sales guidance, over and above if we are able to launch obviously one or two more projects the sales will only go upward from there.

A. Chattopadhyay : So, if am I understanding correctly, you mean another 500 Crores to 600 Crores of incremental annually should come from this project, am I understanding it correctly?

Kamal Khetan : Yes, 400 Crores to 500 Crores we should be expecting, we have already done this kind of sales just in the last launch of just one-and-a-half months or two months it was the launch, we have already done the sale of SBR, we have already achieved the sales of 225 Crores which was in less than two months.

A. Chattopadhyay : Fine, Sir. Sir, second question is on business development pipelines you alluded in your opening remarks that you are still looking at adding land bank across the area, so you are searching micro markets on any quantification or what sort of deals you can expect during this year, thank you?

Kamal Khetan : We are looking very aggressively, obviously it will be too early to disclose, there are a couple of deals which I can say at a advance stage, but I can only say we are trying to balance the portfolio across all the segments looking at from uber luxury segment to mid-income segment and also the affordable segment, so the acquisitions are in line that we can balance our portfolio so that the growth is proportionately across on all the segments.

A. Chattopadhyay : Fine, Sir. That is helpful. I will come back in the queue. Thank you.

Moderator : Thank you. The next question is from the line of Yash Sancheti an Individual Investor. Please go ahead.

Yash Sancheti : My name is Yash Sancheti, may be there is some issue and thank you for the opportunity. I want to know that in the balance sheet of March 2022, inventory was showing about 4000 Crores odd and in the latest presentation of quarterly results, so we can see the BKC is holding 1500 Crores of standing flats something inventory, so it is already included in this 4000 Crores or it is a separate one?

 Prashant Chaubey : Good evening, Yash. The question that you have asked, is the market value of the BKC inventory, the 4000 Crores of inventory that you see in the balance sheet that is the book value of the inventory, so there BKC will be out of that 4000 Crores, BKC is close to 700 Crores and the value that you see in the presentation that is basically the market value of the BKC inventory, thank you so much.

Yash Sancheti : Thank you.

Moderator : Thank you. The next question is from the line of Aditya Mehta from GK Capital. Please go ahead.

Aditya Mehta : Good afternoon, Sir. Thanks for the opportunity. Sir, two questions, first one is, is there any limitation on the number of projects we can launch simultaneously in a financial year because if we see launch size of SBR, it was around 500 units odd if I am not wrong, so is there any limitation on the team front that we have listed on the team side that we can launch more projects in a year?

Kamal Khetan : I do not think it is that that is the case, it is for that micro market you cannot launch like 5000 apartment at a time, so that is the reason looking at the demand and supply obviously, Aditya, we saw that the demand would be the market absorption capacity would not be more than 500 apartments in that micro market, accordingly we launched that many apartment and we have got a very good response on the same, obviously we have done a homework and we have seen that how much absorption can happen and accordingly we did that.

Aditya Mehta : So, going for

ward can be launch two projects simultaneously in a quarter because we have a huge line of our project?

Kamal Khetan : Ya, we have done in the past and we will do it obviously, we have done in the past and if there are two projects to be launched simultaneously in the same quarter we will do definitely.

Moderator : Thank you. Aditya, I request you to come back in the question queue. The next question is from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.

Pritesh Sheth : Thanks for the opportunity. Sir, just a clarify SBR contributed around 225 Crores of sales this quarter?

Kamal Khetan : Yes, SBR is 225 Crores.

 Pritesh Sheth : And what is the status of a couple of projects in Borivali, Kalyan and the project development I mean you have given the pipeline about when we are going to launch it, but at what stage we are right now to have that visibility that that when they are going to comfortably launch within the stipulated time line that we have decided?

Kamal Khetan : So, Pritesh these are all at obviously various stage of approval stage and we all know that there are always uncertainty in terms of getting the approvals, approvals are not in the hands of the company, although trying our best to get the approvals, but looking at the past track record of Sunteck that how fast we have turn around when we took our Naigaon and how fast we have turn around SBR after acquisition of the project, similarly we are looking at the similar speeds and we will try to turn around these projects also and try to launch them at ASAP, but I cannot give you exact definite timeline because of the approvals how much time it will take, but I can see at least we can be looking at one launch in next one or two quarters minimum one big launch out of the new acquisitions, from the old acquisitions the launches will continue like from Naigaon, additional phase from ODC, maybe the additional tower from let us say SBR again launching additional towers in SBR so all this existing projects we will be launches, but the new launch definitely we are looking at least one launch in the second quarter or the third quarter.

Pritesh Sheth : It should be more likely Kalyan?

Kamal Khetan : Our endeavor is to launch all projects together, but it will be very difficult which one will be the first, very frankly Pritesh.

Pritesh Sheth : And secondly on your business development obviously continually you are focused there, but after that 23 million square feet, which you acquired during COVID had slowed down a bit and not criticizing but are we right now focused on launching existing pipeline we are looking at more business development may be a year and year-and-a-half afterwards or we continue to look at BD and continue to build up as same from there?

Kamal Khetan : So, Pritesh, there is nothing like that because the launches are going out, will not acquire or when the acquisition is going on, we will not launch obviously both have to go hand in hand and the group has to be across everything and every department, so obviously we are not looking like we will do acquisition after one year or we will do our launches it is ongoing hand in hand I can say.

Pritesh Sheth : Got it. That is it from my side and all the best.

Moderator : Thank you. The next question is from the line of Parvez Akhtar Qazi from Edelweiss. Please go ahead.

 Parvez Akhtar Qazi : Good afternoon, Sir and thanks for the great performance. So, couple of questions from my side, first when do we expect the completion of four under construction commercial projects that we have currently and the second question is to Prashant on what is the balance inventory currently left in the ODC project. Thank you.

Kamal Khetan : So, I will answer the first question and I leave the second question for Prashant, as far as completion of all the fo

ur projects Sunteck Crest, we are other looking to complete it in second quarter or maximum Q3, if not Q2 it is Q3, similar the situation for BKC, Icon and BKC 51, both the projects on the junction if BKC whether it will be in Q3 or maximum Q4 and maybe the fourth project Pinnacle might go for the next financial year, but otherwise three projects we are looking to complete in this financial year itself.

Prashant Chaubey : The three projects that we have launched in ODC that is avenue one, avenue two and fourth avenue, and all these three projects put together we have close to around 800 Crores of unsold inventory, which is pending to be sold, this does not factoring the balance receivables and over and above this Parvez we have close to 4 million square feet of additional potential, which is yet to be developed, so this is the status of ODC.

Parvez Akhtar Qazi : And if you could also give the unsold inventory number for Naigaon?

Prashant Chaubey : Yes, in Naigaon, Sunteck West World and Sunteck Max World there is hardly any inventory, which is pending to be sold and in Sunteck One World we have close to 500 Crores of unsold inventory, which is pending to be sold and this does not factor in the balance receivable which we have to receive from the sold inventory so that is the status of the ongoing projects and the additional launch yet to be launched area is close to 8 million square feet.

Parvez Akhtar Qazi : Thanks and that is it from my side and all the best, Sir.

Moderator : Thank you. The next question is from the line of Kunal Lakhan from CLSA. Please go ahead.

Kunal Lakhan : Good afternoon. Mr. Kamal can you give us status on the Borivali Project, if the land has been handed over if the resort has cleared for filing approval?
Kamal Khetan : So, Kunal, Borivali project obviously once they already shut, in fact the club and all and then the COVID came obviously and the approvals got slightly delayed and that is what the approval was taking time, so in fact we voluntarily allowed the landlord to start the club once again, but we are now expecting the approvals to come hopefully looking at the current situation and the way the approvals are moving I think we are looking to get it and

 cleared maybe in the next one or two quarters and if that comes obviously we will all be excited to launch the project.
Kunal Lakhan : But the club is operational you said?
Kamal Khetan : Yes, the club is operational that does not require, they can just giver two months, three months notice and they can shut the club.
Kunal Lakhan : Sure, my second question was on our BKC and we have not seen much of a traction in the last year or six quarters or so, when do we think we can see some traction picking up in this project because in the way like sitting on the ready inventory and it has been a while on so how should be look at monetization of this project now going ahead?
Kamal Khetan : So last quarter if you see Kunal, we have sold one apartment in Signature Island I can only say this Q1 we could not sell anything, Q2 the traction is very good and I think we will at least conclude it is not three deal at least two deals in BKC.
Kunal Lakhan : And lastly on the business development side, last few projects that we acquired were on the outskirts of the city limits, how should we look at business development our strategy going ahead, will be still pursue project outskirts of city limits or would you look at projects within MMR region?
Kamal Khetan : So, it is not Kunal, if you see it is balanced even out of that like three, four project Borivali Eskay Resort has been within the city limits and if you look at Vasai which is again a mid-income segment project although it is on the outskirts, but going forward as I said in my opening remarks also and in one of the question I answered just now that we are very clear we want to balance the portfolio loo

king at even uber luxury segment, mid-income segment and affordable segment, so obviously to get into mid-income segment and uber luxury segment more now obviously the more deals have to be within the city limits.
Kunal Lakhan : Sure. Thank you and all the best, Sir.
Moderator : Thank you. The next question is from the line of Prem Khurana from Anand Rathi. Please go ahead.
Prem Khurana : Thanks for taking my question. Sir, most of my questions are already answered, just a couple from my side, so one I just wanted to, recently delivered our Westworld project and almost around 2 million odd square feet and it was the first project in affordable improved since, just I want to understand any learning that you have from this way that will deliver and the learn is that ideally from this part when you will launch your let us say Kalyan or

 Vasind and are we able to stick to our costs that we have in mind when we start with this project?
Kamal Khetan : So, good question, Prem, in fact if you look at, I think we were very cautious because this was our first project where we were entering into the affordable project and I think that made us actually more conservative and we were very, very cautious, so one thing what we saw that in fact since we were very cautious I think what margins we were looking at in the affordable, which was 15% to 20% now, now it is upward of 25% and close to 30% the EBITDA margin, so which I feel there we have been very good and cost increase has already offsetted by the increase in pricing and I think what paid us is the good quality of construction and the speed of the construction and the timely delivery of the project I think if we maintain that for our future projects I think we will always be commanding premium and if you look at Naigaon I think we are commanding the highest premium I think at least 25% to 30% over our competitors in that micro market and I think if we continue to give the quality and the construction timeline within the timeline I think we will be able to deliver all our projects with the better margins and better brand.
Prem Khurana : So, my second question was on Beach Residence that you have recently launched, so I think the total development potential is almost around 5 million odd square feet area, I think five million square feet of single location only group housing would be prudent kind of dense projects and there will be too much of high rises, so do we have any plan, how do you intend to have mix and match to get a various category is better in Luxury, Villas or plots do we intent to do only high rises at Vasai?

Kamal Khetan : So, you have to look, Prem, the size of the 5 million square feet is within 50 acres, it is not on 10 acres, in Mumbai city most of the developers are doing like 5 million square feet on 6 acres, 7 acres or 8 acres, so this is 5 million square feet on a 50 acres of land, so obviously we will be doing lot of things and Villas and the towers and everything and not definitely we will like to leave lot of green areas, so for that obviously we will do towers and we will do high rise tower for the sake of luxury, but not for making it congested or over high density, it is for making it in fact more greener and more better and more beautiful.
Prem Khurana : Any mix in mind as of now or is it still slow in terms mix that you would like to have in terms of Villas or different kind of apartment that you would going to offer we have time with two and three, so how are the configurations really, I mean whenever you launch your incremental phase, would we stick two and three or there will be three and four and how much of these would Villas that is my question, thank you?
Kamal Khetan : Of course we are seeing in fact good thing one thing we have seen is there is a huge demand for bigger and the larger apartment, so definitely now from two and three we may graduall

y
 moved to three and four and maybe then with a four bigger apartment and maybe more luxury, so we are seeing there is a good traction for in fact a bigger ticket size, there is more demand for three bedrooms than the two bedroom and in fact there is lot of inquiries from people that do you have four bedrooms or a larger three bedroom, so obviously now the new launches will be on inline with the demand and there is definitely a lot of demand for the Villas although within launch this time we wanted to see the demand and whenever now looking at the demand we will look at also launching the Villas as well and we want to be flexible as and when looking at what kind of demand we will like to cater to that demand, but not compromising the luxury quotient of the project.
Prem Khurana : Sure, Sir. Thank you.
Moderator : Thank you very much. I would now like to hand the conference over to Chairman and Managing Director, Mr. Khetan for closing comments.
Kamal Khetan : Thank you everybody for attending the call and if you have any further questions and queries, you may please call us or call Mr. Prashant or our CFO and we will be always available for that. Thank you once again for joining us today and please be safe.
Moderator : Thank you very much. On behalf of Sunteck Realty that concludes this conference. Thank you for joining us. You may now disconnect your lines.

"Sunteck Realty Limited H1 FY23 & Q2 FY-23
Earnings Conference Call"

November 11, 2022

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN & MD, SUNTECK
REALTY LIMITED
MR. PRASHANT CHAUBEY – CFO, SUNTECK REALTY
LIMITED

Moderator: Ladies and gentlemen good day and welcome to Sunteck Realty's Earnings Conference Call for H1 FY23 and Q2 FY23. We have with us today, Mr. Kamal Khetan – the Chairman and Managing Director of the company and Mr. Prashant Chaubey – the Chief Financial Officer. Please note this call will be for 45 minutes and for the duration of the conference call, all participant lines will be in the listen-only mode. This conference is being recorded and the transcript for the same maybe put up on the website of the company. After the management's discussion, there will be an opportunity for you to ask questions. There is a Q&A session. We request to restrict questions to two per participant. Should you need assistance during the conference call, please signal an operator by pressing '*' then '0' on your touchtone phone. Please note this conference is being recorded.
Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts and maybe forward-looking statements including those related to general business statements, plans and strategy of the company, its future financial condition and growth prospects. These forward-looking statements are based on the expectations and projections and may involve the number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.
Now I would like to turn the conference over to Mr. Khetan – the Chairman and Managing Director of the company. Thank you and over to you, sir!
Kamal Khetan: Thank you for joining Sunteck Realty second quarter and first half earning call for Financial Year 2023. Hope each one of you and your family are safe and healthy.
In the first half of 2023, we have achieved a strong growth in both presales and collections. This continued strong operational performances has enabled us to generate close to Rs. 225 crores of operating cash flow surplus which further makes the balance sheet more stronger taking the negligible net debt equity ratio from 0.18 to 0.15. On a cumulative basis since financial year '21, we have generated close to Rs. 750 crores of operating cash flow surplus. I'm happy to inform that all our existing growth engines namely Sunteck City at ODC Goregaon West, Sunteck World at Naigaon and Sunteck Beach Residences at Vasai West are throwing positive cash flows on a sustained basis. Now on the execution front construction is in full swing at all our ongoing projects.
In the second quarter, we have leveraged one of our core strength of business development by acquiring approximately 7.25 acres of land parcel in the posh location at Beverly Park Mira Road in western suburbs of MMR. We intend to develop this close to 2.5 million sq ft of luxurious residences along with premium retail in this location. Now since past 2.5 years we have acquired approximately 25.5 million sq ft across micro-market of MMR and this is our company's best ever performance. Our endeavor is to maintain this momentum going forward.

I'm very proud of the team that we have built at Sunteck in the last 15 years and we are laser focused on strengthening it further. I will now handover the call to our CFO Mr. Prashant Chaubey for his comments. Thereafter I will be happy to answer your questions if any. Over to you Prashant.
Prashant Chaubey: Thank you Sir, Good evening, everyone and thank you once again for joining us today and taking out your valuable time for this conference call. The financial and operational numbers have already been published on the stock exchanges. I believe all of you must have gone through the same.
Now I would like to highlight the key financial and business pe

rformance numbers. Our pre
sales grew by 24% year-on-year in Quarter 2 FY23 to Rs. 337 compared to Rs. 272 in Quarter. 2 of FY22, collections grew by 60% year-on-year to Rs. 331 crores in Quarter 2 FY23 compared to Rs. 207 crores in Quarter 2 FY22. For the first half similarly, the presales grew by 49% and the collections grew by 63%. With respect to the financial highlights, we have reported a consolidated revenue of 224 crores in the first half of FY23 and our operating cash flows surplus stands at Rs. 225 crores for H1 FY23. We can now open the forum for questions from the participants. Thank you very much.

Moderator: Thank you very much. We will now begin the question-and-answer session. Anyone who wishes to ask a question may press * and 1 on the touchtone telephone if you wish to remove yourself from the question queue, you may press * and 2. Participants are requested to use handsets while asking the questions. Ladies and Gentlemen we request you to limit your questions to 2 per participants. If you have more questions please join the queue of fresh. We will wait for moment while the queue assembles. We have a first question from the line of Adhidev Chattopadhyay with ICICI Securities, please go ahead.

Adhidev Chattopadhyay: Good evening everyone. Thank you for the opportunity. I've got a couple of questions I'll ask them together. Firstly, can you just tell us about what is the approval status of the upcoming project especially Borivali and Kalyan and the new Mira Road project we have acquired if you could should give us some contours on when we could see the launches over there. Secondly, the more longer-term strategy question. In your slide, I am referring the slide I think #28 or #29 of your presentation. You have given a proposed launch pipeline of 7.5 million sq ft over the next 18 months and I think which is worth well over 6,000 crores, the potential sale value of that inventory. Plus, I think we have over 2,000 crores of one unsold inventory across our ongoing projects. That gives us over (+8,000) crores of inventory to sell. Considering that where do you see the company's overall annual sales bookings growing in the next 2 to 3 years and the visibility for this year for the 1,800 crores sales credits. That's it from my side, thank you.

Kamal Khetan: Good evening Adhidev Thanks for asking this question. So, approval of obviously various projects. We have all acquired this project recently in last 1-1.5 year. The three projects which you namely said Borivali, Shahad in Kalyan and the third one I think Mira Road which we recently acquired just few months back. Obviously, we are aggressively, our liasioning team is working towards getting the approval along with the landlords because in all of these three

projects getting approval is the responsibility as per the agreement is landlord's responsibility. These are all three JDA projects. However, our team is putting the best effort in partnership with our landlords to get these approvals ASAP. Although whatever targets we have set for this year we are quite confident that we will achieve our presales targets and going forward in future years obviously with the new launches and all this coming up, I think we will be taking the sales, exponential growth you will see in the sales. That's what we have been seeing quarter-over-quarter if you look at it. Coming to the what you have mentioned in the presentation, the 7.5 million sq ft of launches I think Prashant maybe pitching in.

Prashant Chaubey: Thank you sir. So, Hi Adhidev, Prashant this side. As you have seen in the presentation the presales target for the company for FY23 is 1,800 crores. The overall target of the company right now is to double our presales every 2 to 2.5 years. If you consider that by FY24 we want to reach the presales of close to 2,500 crores, that is the target for the company. Now in order t

o achieve
that target in the next 18 months, we are looking at these launches, so Kalyan and Vasind we are looking at 2 million sq ft of launches. We are looking at in Borivali around 5 lakh sq ft of launches, in Mira Road again 5 lakh sq ft of launches and Vasai, Naigaon and ODC Goregaon West, these are projects which are already running which are already the existing growth engines. In these projects you will keep on seeing new launches happening on a yearly or a 1.5 year basis. That's why this gives us the confidence that we can launch around 7.5 lakh sq ft by the end of FY24. That should help us or enable us so to speak to achieve the target of 2,500 crores of presales that we have in our goal. That is how this number has come Adhidev.

Adhidev Chattopadhyay: So, just one last follow up that this Goregaon ODC or other Naigaon, can we expect to see new phases being launched in second half of this year considering that the other projects may take some time to get launched?

Kamal Khetan: No. We are pushing simultaneously everything Adhidev. ODC we are launching, we are recently planning to launch in fact in couple of weeks not even months, in maybe one or two weeks you will see. The higher floors of Fourth Avenue what we have past launched, so the new inventory will come in the market for both the towers and then again, we'll do something a new tower launch in Vasai. So, Prashant already tried telling you that, again those existing projects from where we are already getting the sustenance sales there, you'll see new towers or new floors or new inventory coming up in the same project. Those launches will continue to happen for sure in the next 6 months. We are very confident at least out of these three projects which you are

seeing Borivali, Shahad and the Mira Road at least one new project also we are planning to launch in next 4 to 5 months. We are pretty much there what we expect our targets to achieve. We are pretty much confident about achieving these targets because of all of those projects.
Adhidev Chattopadhyay: Okay Sir, Thank You and All the Best Sir.
Moderator: Thank You, We have next question from the line of Pritesh Sheth with Motilal Oswal. Please go ahead.

Pritesh Sheth: Hi, Firstly, on launches I will just ask it other way round. Your FY23 presales target is around 1,800 crores and we have achieved one third of that probably in first half because obviously, we would need launches to come up. In terms of your expectations how much launches we would need in terms of GDP potential to achieve that presales target?
Kamal Khetan: So, Pritesh, very frankly even if we don't do any new launch out of these three, we are pretty much there for 1,800 crores looking at our existing portfolio itself. If you see if we do some new launches of higher floors of Fourth Avenue in ODC, existing project of Sunteck City and some new towers in Vasai West, the SBR project, Sunteck Beach Residences at Vasai and again the Naigaon One World whereas 4 to 5 towers which are to be launched the new towers and plus there are 4 to 5 towers which we are coming up in the Sunteck Maxxworld as well ,so those two launches plus one or two of our commercial projects which are already in construction in full swing, Sunteck Crest then Sunteck Pinnacle and then the Sunteck Icon and Sunteck BKC51, out of these four projects even if we launch, relaunch one more project once again I think we'll be pretty much achieving 1,800 or maybe more than 1,800 crores of the presales for this financial year at FY23.
Pritesh Sheth: Secondly obviously we don't track it on quarter-on-quarter basis but the P&L revenue decline, so where did we have a lower recognition this quarter in terms of any particular projects you want to highlight?
Prashant Chaubey: Hi Prashant this side So, Pritesh as I have elaborated in the opening remarks also that the company follo

ws project completion method of accounting. So, because of that currently if you see, currently the majority of the revenue is coming from Sunteck City and Sunteck WestWorld in Naigaon. These are the only two projects which are currently coming into the revenue side which you would see of 81 crores for the quarter. Now what is happening is on the expenses side, all your revenue expenditure which you incur like sales marketing or brokerage, those cannot be deferred. Those have to be amortized immediately in the quarter in which you incur them. So, what happens your expenses are for projects whose revenue is not coming, there expenses are also getting booked into the P&L. However, revenue is only getting booked in the P&L of the projects which are completed. Because of this misnomer you are seeing the EBITDA margin to be slightly lower and the PAT also coming significantly lower.
Kamal Khetan: That is only because of the expenditures which are taken ahead of even the booking of the revenue of the other project, so due to the consolidation.
Pritesh Sheth: Fair enough in terms of margin I understand. But just wanted to understand on why there was a lower revenue recognition, so understood that part that Sunteck City in Naigaon had comparatively slower sales in this quarter that might have led to this lower recognition. Is it fair to assume?
Prashant Chaubey: Just to give you one more data point, if you look at our operating cash flow surplus, so for the first half that has come at 225 crores. Now this number is coming in the cash flow statement but it is not coming into the P&L. It is not getting amortized as of now. What this shows that going

forward in the coming 18 months, you will see our P&L also performing in line with the cash flow statement and as more and more projects get launched and executed this anomaly will get corrected. It's only a matter of 18 months Pritesh that you have to take it that you have to live with. After that things will be much more stable.
Pritesh Sheth: Sure I'll have couple of more question I'll join queue again.
Moderator: Thank You, We have next question from the line of Rahul Jain from Dolat Capital. Please go ahead.
Rahul Jain: Hi Sir, thanks for the opportunity. First one, if you can give us the breakup of sales between ODC and Vasai for the quarter.
Prashant Chaubey: Rahul, I'll give you the number in terms of the breakup of sales Rahul from 4th Avenue we have done close to 200 crores and the balance from SBR we have done close to 75 crores in the current quarter. If we look at the first half, in the first half we have done, from Sunteck City we have done close to 230 crores and from the Sunteck Beach Residences in Vasai we have done close

to 300 crores. That's the number for the quarter as well as first half. I will be sharing this excel sheet also with you.
Rahul Jain: Okay Thanks a lot and second one I think uber luxury projects coming in the market and taking off well. So, I just want to know what's your sales strategy, are you planning to look at or relook at your sales strategy in BKC? That is still not done. It's not taking up that well as of now.
Kamal Khetan: Rahul, Kamal Khetan here appreciate your question. We are definitely Rahul looking at our sales strategy at BKC we are looking and we are quite optimistic. Let's hope the coming quarters, you will see some numbers coming there as well.
Rahul Jain: Okay Sir, Thanks
Kamal Khetan: Thank You, Rahul.
Moderator: Thank you. A reminder to participants to ask the questions. Please press * and 1 to ask the question on your touchtone phone now. We have a next question from the line of Parvez Qazi with Edelweiss Securities.
Parvez Qazi: Hi Kamal Sir, Good evening. Thanks for taking my question. First question from my side is would be gre

at if we can get an update on the construction status for the various commercial projects that we have in BKC, ODC and Andheri. The second question for Prashant, what would be our unsold inventory currently in ODC, Naigaon and Vasai?
Kamal Khetan: So Parvez Kamal here construction status of our four commercial projects which are ongoing, four commercial projects so Sunteck Crest I can say it's almost more than 90% complete. I think we will be looking to give the possessions, get the occupation certificate in this quarter or maybe

early next quarter and we are looking to book that into the balance sheet means book a revenue, take the revenue into the balance sheet P&L. Second is the project obviously at ODC Pinnacle, Sunteck Pinnacle where we already sold the lower floors to DMart. Other sales are going as we are talking in sustenance mode. We are planning to launch in a big way although in this next 1 or 1.5-months even that inventory. That we are expecting to complete the project in the next financial year FY24. Coming to the BKC51, Sunteck BKC51 at BKC and Sunteck Icon on the junction of BKC. Both the projects are again almost more than 80%-85% complete. All the slabs are totally RCC structure is fully complete, the facade and the MEP work is going on. Even that we are looking to complete the project and get the occupation certificate in next quarter itself. Three out of at least four commercial projects we are hopeful to get the occupation certificate in this financial year of FY23.
Prashant Chaubey: Parvez, Coming to your second question. In terms of sales inventory in Naigaon, in Naigaon we have close to around 375 crores worth of inventory which is pending to be sold from the existing launches and this does not factor in receivables just to clarify and in ODC we have close to around 675 crores of inventory pending to be sold. That's the situation and again I'm clarifying this does not include receivables.
Parvez Akhtar Qazi: What would be this number for Vasai?
Prashant Chaubey: In Vasai, right now we have launched, whatever we have launched we have already sold. I can give you a broad number of what our intention is of launching. If I keep that in mind, I have close to around 850 crores worth of inventory which is pending to be sold from my target launches which is not currently launched.
Parvez Akhtar Qazi: When can we see these launches in Vasai?
Prashant Chaubey: In 1 month.
Parvez Akhtar Qazi: Great. That’s it from my side and all the best for Future.
Moderator: Thank You, We have next question from the line of Abhinav Sinha with Jefferies. Please go ahead.
Abhinav Sinha: So, I have couple of question so one on the project have you seen any impact of the rising mortgage rates on demand? I mean is demand holding up well for the affordable segment, there's some impact there right now? That’s first and secondly also if you can talk a bit about pricing of the various segments and projects?
Kamal Khetan: So Abhinav, regarding the sales there is a good demand momentum. We all know that there is sales, residential demand has been quite robust in last 2 years and we see that continue. We see the momentum is strong even now across all the segment whether it is affordable, whether it's in mid-income as well as the luxury segment. We are not worried about any sales demand means

we feel that residential sales demand will continue to remain very strong. Your next question Abhinav was?
Abhinav Sinha: It was on pricing but before that can you give me an idea about what percentage of your

customers take a home loan?

Kamal Khetan: I can tell you approximately off-hand right now. So, obviously when it comes to luxury, super luxury which is the product which is above 30-40 crores, there I feel only one-third or less than 25% of the customer takes loans

, what we have seen in the past, what we have experienced and in the mid-income segment I can say this goes up till let's say 35%-40% or 50% which goes up. When it comes to affordable, it goes to even 65%-70% of the customers, they take loans. I think that is what we are seeing in the three segments.

Abhinav Sinha: Okay that’s very helpful sir. My second question was on pricing, if you can talk a bit about that. Have you taken up your price in this quarter etc.?

Kamal Khetan: Pricing very frankly if you ask me this quarter obviously, we have not raised much pricing. But if I talk to you about pricing in last 1-1.5 years, across all the projects maybe even an affordable or mid-income or luxury segment, uber luxury segment, the pricing has gone up. We have taken the pricing up by at least let's say 10% to 15% the prices have gone up.

Abhinav Sinha: Thanks for that I will join queue again.

Kamal Kheatn: Thanks Abhinav.

Moderator: Thank You, We have next question from the line of Abhishek Lodhiya with Yes Securities. Please go ahead.

Abhishek Lodhiya: Good evening Sir. My question is about the Pen-Khopoli project which we have acquired. So, did we start selling over there or what is the status of that project exactly? The plotted development?

Kamal Khetan: Abhishek, that project is obviously the land parcel of the Pen-Khopoli what you are talking for which we have to do a plotted development mainly and maybe some construction of villas and row houses and all those things. That's now at a very initial stage I would say. I cannot comment when and what about specially if you ask me specifically about this project, we are not very optimistic that when in next one or two quarters we are not looking at doing anything on that.

Abhishek Lodhiya: Okay Sir, Secondly on you have given some color on the commissioning of our commercial asset. Have you taken a call on whether we are selling it or leasing it out?

Kamal Khetan: Abhishek, when it comes to Sunteck Crest we have already taken call and we are selling it. So, there we have sold quite a good inventory. You must have seen in the pre-sales of last two-three quarters. When it comes to Sunteck Pinnacle the second project, there also we have already

decided and we have taken a sale model because there we have already sold area worth almost 100 crores to DMart and then further inventory we are selling slowly on a sustenance basis and right now I told in my call just two questions before, two or three questions before that we will be launching it in a proper manner in 1-1.5 months even the further inventory of higher flows in Sunteck Pinnacle and that we will be selling it very aggressively. Now coming to the other two project which is commercial project Sunteck BKC51 and Sunteck Icon, Sunteck BKC51 we are already in talks I can say to lease out the entire building to one of the good corporate and in terms of Sunteck Icon very frankly we have not yet decided what we should be doing whether we should lease out or whether we should be selling but whatever gets the best value for the company we'll take that call because neither we are worried about sales due to any cash flows because cash flows are very strong, we don't mind leasing it also. We'll try to maximize the value. So, we are just holding on our decision for Sunteck Icon I think that too because the building will be ready in next 3 to 4 months with occupation certificate. Before that we'll obviously take a call what to do with that.

Abhishek Lodhiya: Sure Sir Thank You.

Moderator: Thank you. We have our next question from the line of Prem Khurana from Anand Rathi Shares. Please go ahead.

Prem Khurana: First one was I mean if you could share your thoughts on the competition? Why I asked this is eventually when I look at residential real estate demand specially in MMR

, it's been fairly strong for last 2 years now. Would this make some of these people who were earlier in the business but then went away because the markets were not doing good. Do you see them to come back or do you get to feel as there will be new entrants now; some of these large corporates because of the fact when I look at in terms of regulations, its eventually seems that even the loopholes which used to be there earlier have been taken away which is where it becomes sense for some of these larger corporates to kind of come and participate in the real estate industry now?

Kamal Khetan: Prem, good question. I think we are all seeing a very strong consolidation in the industry so I don’t think there is a so due to that consolidation I think we did one of the best acquisitions in last 2-2.5 years and which has been I think best ever done by the company. So, I don't see any worrying factor about the competition. Competition if it is healthy and which is only good

corporates are coming, it is only good for I believe for the Sunteck and everybody. I am not worried about it and there are n number of players which are compared to one or two players entering is always good, new players. I think lot many has vanished away from that system which is much better and I think we are very pretty much confident with our strong balance sheet and a strong execution track record; we're not worried about any competition coming.
Prem Khurana: Why I want to understand was eventually and what I have been made to understand is or what I have learnt over the years is essentially the market or rather the cycle tends to go bad not because by demand goes down substantially but essentially because of the fact that you get to have oversupply situation and there'll be someone who would give in and would start cutting prices and which comes to impact the demand because as an end user if I'm buying a property and I get

to read in the media that the price is supposed to go down; there could be a situation wherein I defer my purchase. I want to understand competition more from that side, wherein do you get to feed and there will be more launches and there could be an oversupply situation or you don't get to see that situation at least in the immediate future? That will be all from my side. Thank you.
Kamal Khetan: Prem, I can only say that obviously there may be a situation, maybe after 2 years, maybe after 3 years, maybe after 4 years at one point of time there may be oversupply or something but I don't think Prem we should be worried about that. In Sunteck has grown in last 15 years with most of the headwinds in the industry. We have grown the company when most of the companies have not been able to survive or could even manage to stay in these tough times with the headwinds in the sector. We have grown ourselves in this segment, in this sector with the headwinds. I am pretty confident that going forward if anything, any such situation comes your company is strong enough to take that as a competition or anything as a challenge.
Prem Khurana: Thank you and all the very best to you sir.
Moderator: Thank you. Ladies and gentlemen that was the last question. I would like to turn the conference back over to the Chairman and Managing Director Mr. Khetan for closing remarks. Over to you sir.
Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case if any of your queries have been left unanswered, you can get in touch with me or my team. We look forward to your continued support. Thank you once again for joining us today and please be safe. Thank you.
Moderator: Thank you sir. Ladies and gentlemen on behalf of Sunteck Realty that concludes this conference. Thank you for joining us and you may disconnect your lines.

"Sunteck Realty Limited
Q3 FY '23 Earnings Conference Call"
February 01, 2023

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN AND MANAGING DIRECTOR – SUNTECK REALTY LIMITED
M R. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER – SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to Sunteck Realty's Earnings Conference Call for Q3 FY '23. We have with us today, Mr. Kamal Khetan, the Chairman and Managing Director of the company; and Mr. Prashant Chaubey, the Chief Financial Officer. Please note that this call will be for 30 minutes and with the duration of this conference call all participant lines will be in the listen-only mode. This conference is being recorded and the transcript for the same may be put up on the website of the company.
After the management's discussion, there will be an opportunity for you to ask questions. There is a Q&A session. We request to restrict question to two per participant. Should you need assistance during this conference call, please signal an operator by pressing star then zero on your touchtone phone.
Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts and may be forward-looking statements, including those related to business statements, plans and strategy of the company, its future financial condition and growth prospects. These forward-looking statements are based on the expectations and projections and may involve a number of risks and uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially and those suggested by such statements.
I now will turn the conference over to Mr. Khetan, the Chairman and Managing Director of the company. Thank you, and over to you, sir.
Kamal Khetan: Thank you for joining Sunteck Realty Third Quarter and 9 Months Earnings Call for the financial year 2023. Hope each one of you and your families are safe and healthy.
In the first 9 months of 2023, we have achieved robust growth in both presales and collections. This continued strong operational performance has enabled us to generate close to INR 311 crores of operating cash flow surplus, which further makes the balance sheet more stronger, taking the negligible net debt ratio from 0.19 in FY '22 to 0.14 in 9 months of FY '23. On the cumulative basis, since FY '21, we have generated close to INR 830 crores of operating cash flow surplus.
All our existing growth engines, namely Sunteck City at Goregaon West, Sunteck World at Naigaon and Sunteck Beach Residences at Vasai West are throwing positive cash flows on sustained basis. We have been felicitated by EDGE IFC, the World Bank Group company, with EDGE Green Building 3 certification for our 6 ongoing projects, 4 residential and 2 commercial. Our endeavour is ensuring that the company's projects are designed sustainably as next-generation buildings, keep the environment wellbeing at the center of its mission.
I would again now like to reiterate that in the past 3 years, we have acquired 25.5 million square feet across micro market of MMR with a gross development value of INR 20,000 crores. And

this is our company's best ever performance. Our endeavour is to maintain this momentum going forward.
I'm very proud of the team that we have built at Sunteck in the last 15 years, and we are growing and strengthening it further. I would now hand over the call to our CFO, Mr. Prashant Chaubey, for his comments. Thereafter, I would be happy to answer your questions, if any. Over to you, Prashant.
Prashant Chaubey: Thank you, sir. Good evening, everyone, and thank you once again for joining us today and taking out your valuable time for this conference call. The financial and operational numbers have already been published on the stock exchanges. I believe all of you must have gone through the same.
Now I would like to highlight the key financial and business performance numbers. Our presales grew by 12% year-on-year in qua

rter 3 of FY '23 to INR 396 crores compared to INR 352 crores
in quarter 3 of FY '22. Collections grew by 13% year-on-year to INR 304 crores in quarter 3 of FY '23 compared to INR 270 crores in quarter 3 of FY '22. For the 9 months, similarly, the presales grew by 33% and the collections grew by 42%, respectively.

With respect to the financial highlights, we have reported a consolidated revenue of INR 314 crores in the 9 months of FY '23, and our operating cash flow surplus stands at INR 311 crores for 9 months of FY '23.

We can now open the forum for questions from the participants. Thank you very much.

Moderator: Thank you very much. We will now begin the question-and-answer session. Anyone who wishes to ask a question may press * and 1 on the touchtone telephone if you wish to remove yourself from the question queue, you may press * and 2. Participants are requested to use handsets while asking the questions. Requesting all the participants to restrict 2 questions per participants. The first question is from the line of Adhidev Chattopadhyay from ICICI Securities. Please go ahead.

Adhidev Chattopadhyay: Yes. Sir, main question is, sir, could you just now give us on what is the upcoming launch pipeline for the next 6 to 12 months? And therefore, what are the sort of sales targets in terms of overall sales you're looking at over the next couple of years? And some updates on where the approvals, at what stage are we at or what stage are we in the different projects?

Kamal Khetan: So Adhidev, as far as the sales numbers, I think Prashant will give you and update on the -- coming to the update on the approvals, I'll get on to that.

Prashant Chaubey: Good evening, Adhidev. So Adhidev, in the first 9 months of FY '23, as you are aware, we have done a year-on-year growth of 33%. On a compounded annual growth rate basis for -- since FY '18 till FY '22, we have delivered a presales growth of 22%. So going forward, our target is to deliver presales growth of around 20% to 30% on a compounded annual basis. So that is the target of the company, which it wants to achieve going forward in the coming years.

In terms of launch pipeline, Adhidev, as you are aware, we have acquired 25.5 million square feet in the last 3 years, which has a gross development value of INR 20,000 crores. So these projects include projects in Borivali West, Mira Road, Kalyan, Vasai. So all these projects are going to be launched in the -- out of this, Vasai, we have already launched in FY '23. And in the coming financial year in FY '24, our endeavor is to launch Mira Road and Kalyan project.

Kamal Khetan: So Adhidev, obviously, before March '23, we are looking to launch at least 1 project out of these 2 projects, Kalyan or Mira Road, at least 1 project, we're quite confident and we'll do that because the approvals of both the projects are at very advanced stage. We are trying, obviously, both the projects, but it will be too ambitious to say that both the projects will be launched before 31 March. But at least one for sure. Plus, we are doing a new activation launch of a new tower in Vasai West also. So these 2 are the big launches, one coming from mostly Mira Road or Kalyan and the other one, the activation of new tower in Vasai West.

Moderator: Next question is from the line of Harshvardhan Agrawal from IDFC Asset Management.

Harshvardhan Agrawal: Just wanted to understand, last quarter, we said that we'll be achieving INR 1,800 crores of presales this year -- this financial year. Looking at this run rate that we have currently, we seem to be falling short. So how should we look at it?

Kamal Khetan: So Harshvardhan, if you see our track record from last 2 to 3 years or whatever, Q1 has been better than the Q2 and -- sorry, Q2 has been better than Q1 and Q3 is better than Q2 and Q4 is better than Q3. So Q4, which is the best quarter, always has been for Sunt

eck. I think we are
waiting for that Q4 quarter. We are very confident if not INR 1,800 crores we will be very close to INR 1,800 crores. That's because we are banking on at least one launch out of this Mira Road launch or the Kalyan launch before the March 31.

Harshvardhan Agrawal: So sir, if I just want to look at the numbers of say INR 1,800 crores we are currently at more or less, we've done INR 1,100 crores already. So what we need is INR 700 crores. So what is our expectation that this new project will contribute as to what percentage of this remaining INR 700 crores?

Kamal Khetan: So we are looking at least INR 300 crores -- approximately around INR 350 crores coming from there.

Harshvardhan Agrawal: And sir, one last question is from a PPT, specifically Slide #29. So if I were to look -- compare the slides from 2Q PPT versus 3Q PPT, absolutely nothing has changed in terms of numbers. So is it fair to assume that during this quarter, there was no launch of that was done within the existing projects also?

Prashant Chaubey: So Harsh, Prashant this side. So from the existing projects, as you are aware, last time, what we had communicated is that we had already launched two projects that is Sunteck One World and Sunteck City 4th Avenue. The higher floors of Sunteck City 4th Avenue was launched in the

third quarter. And Sunteck One World new launch, new activation was done in the third quarter, in the quarter gone by.
So these projects were already launched. And with new approvals, we launched new phases of these projects which were already launched. So that's why the numbers have not changed.
Harshvardhan Agrawal: So basically, the way we should look at it, if you have already launched column that we have, it is when we put a number there, it's for the entire project that we put up?
Prashant Chaubey: Correct. Correct. Like, for example, entire Sunteck One World is there, entire Sunteck City 4th Avenue is there.
Harshvardhan Agrawal: And that's why although we are achieving some sales number, but it's not increasing the launch number per se?
Prashant Chaubey: Correct, Harsh. Correct.
Harshvardhan Agrawal: And sir, just one last thing regarding our presales target for FY '24. So what target are -- do we have for, say, '24?
Kamal Khetan: So Harsh, as we said that -- Prashant already said that we are looking at growth of 20% to 30%.
So on a conservative side, we can assume from FY '23 that FY '24 will be at least more by 20% to 30% on our presales number.
Harshvardhan Agrawal: So sir, just if I were to quickly do the number that comes to somewhere around INR 2,300 crores, INR 2,400 crores. So that's the number that we're talking.
Kamal Khetan: Yes. whatever that number is, I think we are pretty confident because the kind of acquisitions we have done I think, Harsh, you will appreciate. Obviously, the approvals have to come. I think we are turning around the projects very -- we are trying our best to get there. We are putting pressures on our landlords because the approvals we put the obligation of getting the approvals on the landlords. That is what we are doing. And I think if you look at Vasai, we turned around very fast.
Again, Mira Road if we can launch it before 31 March, I think it will be a record time like in less than a year. After acquisition, we have turned around the project and launched it as well. So I think we are pretty confident that 20%, 30% growth for the next year should be very comfortable.
Harshvardhan Agrawal: And sir, just if I can slip in one last question is, again, this is regarding Borivali project. In last quarter, we had said that we are looking to launch Borivali, Kalyan and Mira Road, maybe in the next 4, 5 months. So -- but right now, it's '23, '24, we are looking to launch Mira Road and Kalyan. So is it that our Borivali project is moving to, say, probably FY '25 launch?

Kamal Khetan: So last time also we said that we'll try to launch at least 1 or 2 projects minimum in this financial year. So out of which I think Vasai we already launched. And now we are out of the 3 projects, Borivali, Kalyan and Mira Road. If you ask me, the way it will go? First, 2 launches will be either Mira Road and Kalyan or Kalyan -- first Kalyan and second Mira Road or Mira Road, the way the approvals are coming and then thereafter, we can look at Borivali projects.
Moderator: Next question is from the line of Pritesh Sheth from Motilal Oswal.
Pritesh Sheth: Just on the launches. I also had a similar question on Borivali, but any update on Pen-Khopoli project launch? We had again signed that land parcel quite some time back. So any update if you can provide? And just, again, reiterating on the previous question. So Borivali will -- can still happen in FY '24 or is it FY '25 thing?
Kamal Khetan: So Pritesh, first, I'll answer for your Borivali project. Borivali project, I would like to launch it maybe yesterday because we all know that's a great land parcel. It's, I think, one of the most best land parcel one can get it in Borivali West. But unfortunately, approvals are not in our hands.
And again, even if we are trying our best, although the approvals is the obligation of the landlord and obviously, he is also looking to monetize it ASAP, but we are helping him and we are trying our best to get the approvals as early as possible. Definitely, we are not looking at FY '23. We should be looking as early as possible. Obviously, we'll try to launch it in FY '24.
Pritesh Sheth: And on Pen-Khopoli.
Kamal Khetan: Pen-Khopoli is, I think it's a plotted development and some villas development. I think we are

waiting for, again, there also some small approvals. That's not a big project in terms of gross development value if you look at it, I think we should be -- we are working on it. I think we -- once we get some clarity, I would like to comment on it.
Pritesh Sheth: And just lastly, again on launches. Any phase launches that we are planning in Naigaon or Goregaon in FY '24?
Kamal Khetan: Obviously. Yes, so in all the projects, which are the existing projects, like, let's say, in Sunteck City, we will be looking at some more inventory to be launched in Sunteck City Goregaon West.
Then coming to Naigaon, again, we will be launching some few more towers of Sunteck One World, there are 2, 3 towers more which are not being launched. And plus, there will be a second phase of Sunteck Maxx World, which is as big as Sunteck Maxx World first phase.
So it is as good as the -- again, a big launch of more than 2,000, 2,500 apartments that we are looking at. Plus, obviously, if we launch Mira Road this year, then we will be launching Kalyan next year. So there are quite a big pipeline for the next year, FY '24. So I think that's how it is.

Pritesh Sheth: Sir, in next 12, 15 months, what is the sales value that we are probably looking at launching that could probably give us a clarity on what sort of presales be able to block. So just on the overall sales potential of the launches that you are planning?
Kamal Khetan: So Pritesh, project-to-project phase-wise launches, I think, we'll have to then calculate how much exact value or if again, Prashant can give you a rough idea. We are looking at -- Prashant, can we give the numbers.
Prashant Chaubey: Prashant this side. So Pritesh, if you go through Slide number 29. Up to FY '24, the target of the company, the goal of the company is to launch close to 7.5 million square feet. That is the goal.
And if we are able to achieve 80%, 90% of that, we will be easily achieving our presales target of 20% to 30% growth.
Moderator: The next question is from the line of Kunal Lakhan from CLSA India.
Kunal Lakhan: My question was again on Slide

29. So our 20% to 30% growth outlook for '24, can it happen without, say, Borivali not getting launched or it is contingent upon Borivali getting launched in FY '24? And also I wanted to understand what is there in others of 1 million square feet, which projects are there for FY '24?
Kamal Khetan: So we -- definitely, when we're talking about 2,400, 2,300, whatever, that 20%, 30% growth, we are definitely not considering Borivali into it. If that happens, we will be much about that -- the growth of 25%, 30%. In fact, we'll be crossing more than 30% growth.
So conservatively, if we look, we have not even taken Borivali into the next year target. But our endeavor is definitely to get the approval for that as well and try to launch as much as possible.
And in other projects like there are some that are like -- projects like Pen-Khopoli, some commercials, small, small within the existing land parcel, some retail. So all those put together is the others.
Kunal Lakhan: Nepean Sea Road is not included in others, I'm assuming?
Kamal Khetan: No, not at all. Not -- neither Nepean Sea Road is included nor our Borivali is included.
Kunal Lakhan: So Borivali is included above, right? It's shown separately.
Kamal Khetan: So Borivali is included above, correct. So not in the others. Okay. Sorry, sorry, I thought it's mentioned in -- it's mentioned separately. Yes, that's right.
Kunal Lakhan: Sure. And Kamalji, what's the status on Nepean Sea Road project, if you can highlight?
Kamal Khetan: So very frankly, it will be very difficult to comment that when at least to launch it maybe in FY '24, it looks to be very frank, I want to be very straight, it looks difficult. We can target it maybe in FY '25.

Moderator: Next question is from the line of Rishith Shah from Nuvama Wealth Management.
Rishith Shah: So I'm relatively new to the company, so pardon my ignorance. Just a couple of questions. So first on the bookkeeping side. So in terms of area, I mean, can you just highlight how much area that bookings that we have received maybe in Q3 as well as the corresponding quarter in the last year?
Prashant Chaubey: Hi, Rishith, Prashant this side. In Q3 FY '23, we have sold close to around 0.35 million square

feet, close to 3.5 lakh square feet that is what we have sold, okay? And in quarter -- and in quarter 3 of FY '22, we have sold close to around 0.30 million square feet that is 3 lakh square feet, roughly.
Rishith Shah: And the last quarter would be?
Prashant Chaubey: Last quarter was also close to around 3 lakh square feet, Rishith.
Rishith Shah: And secondly, on the cash flow. So basically, if we see the first half that -- in the first half, we have kind of done a cash flow of, say, around INR 225 crores. So that is our operating cash flow surplus. And for the 9 months, if we see it's around INR 311 crores. So from the quarterly run rate in the first half, we have seen a dip to around say INR 86 crores for this quarter Q3, so is there any one-off or any specific reason why is there a dip?
Prashant Chaubey: There is a dip in the debt, you mean to say?
Rishith Shah: No, no, no. Operating cash flow.
Prashant Chaubey: No, operating cash flows -- Rishith, what you have to understand is that when sir spoke about the approvals that we have applied for Kalyan and Mira Road, so these approvals, the payment has gone from Sunteck because the landowners -- we fund the landowners via loan mechanism, which is interest-bearing. So this money is going towards the payment of those. So that also becomes part of your working capital changes. It is not shown as a separate item as a capital expenditure. So that is why you will see that dip if you are -- if I may say so.
Rishith Shah: So those are my 2 questions.
Kamal Khetan: Rishith, it is a kind of, in fact, treasury management for us because, obviously, when we are lending to the landlords, it is

14%, 15% or 16%, and the cost of borrowing for Sunteck is, I think, close to 9% in single-digit.
Moderator: Next question is from the line of Alpesh Thacker from Antique Stock Broking.
Alpesh Thacker: My first question is on the BKC project, right, sir. What exactly is happening there? And if I'm not on luxury market, overall market has been going good. So are we seeing any traction there or what is the challenge with that project? If I'm not wrong, there is no sale for the last couple

of quarters. So just want to have your own views in that project? And what is the monetization plan going ahead?
Kamal Khetan: Sorry, there is a disturbance, I think, at your background, I think. Can you repeat the question?
Alpesh Thacker: Yes. Sorry, sir. Yes. Sure. So my question is regarding the BKC project.
Kamal Khetan: Can you take it from some background where there is no noise in the background, please?
Alpesh Thacker: Sir, my question is regarding the BKC project. So what exactly is our monetization plan there because I see that there is a kind of slowdown in the monetization of that project while the overall luxury market has been doing quite decent for last 1 year? So just your thought on that project?
Kamal Khetan: So Alpesh, obviously, your concern is right, I think to a certain extent, obviously, because we have not been able to do not much sales in the last few quarters about -- in terms of BKC. But we are aggressively trying our best to monetize the project. There is means we are trying the best way how we can monitor. I don't have a quick answer right now for that, that how it will happen and when it will happen. But we are trying our best, I can only say that much to you.
Alpesh Thacker: So -- but are we seeing any inquiries or the visitations like that is tracking up or taking of that sort. Like in last, let's say, 1 or 2 quarters like more visitations or the inquiries about that project. Any momentum there?
Kamal Khetan: So Alpesh, I would say the inquiries have only increased and number of hot deals are quite number -- decent numbers which are there. We are -- I don't want to commit anything until the time we conclude the deal. But you will see some action in this current quarter and next coming quarters, I can only say that.
Moderator: Ladies and gentlemen, we'll take that as a last question. I now hand the conference over to the Chairman and Managing Director, Mr. Khetan, for closing comments.
Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case if any of your queries have been left unanswered, you can get in touch with me or my team. We look forward to your continued support. Thank you once again for joining us today, and please be safe. Thank you.
Moderator: Thank you very much. On behalf of Sunteck Realty, that concludes this conference. Thank you for joining us. You may now disconnect your lines. Thank you.

"Sunteck Realty Limited Q4 & FY-23 Earnings
Conference Call"

May 29, 2023

MANAGEMENT : MR. KAMAL KHETAN - CHAIRMAN & MANAGING DIRECTOR
MR. PRASHANT CHAUBEY - CHIEF FINANCIAL OFFICER
MR. ABHISHEK SHUKLA - VICE PRESIDENT (STRATEGY & INVESTOR RELATIONS)

Moderator: Ladies and gentlemen good day and welcome to Sunteck Realty's Earnings Conference Call for Q4 & full year FY23.
We have with us today, Mr. Kamal Khetan – the Chairman and Managing Director of the Company and Mr. Prashant Chaubey – the Chief Financial Officer, and Mr. Abhishek Shukla – the Vice President of Strategy & Investor Relations.
Please note this call will be for 30 minutes and for the duration of the conference call, all participant lines will be in the listen-only mode. This conference is being recorded and the transcript for the same may be put up on the website of the Company.
After the management's discussion, there will be an opportunity for you to ask questions. There is a Q&A session. We request to restrict questions to two per participant. Should you need assistance during the conference call, please signal an operator by pressing '*' then '0' on your touchtone phone.
Before I hand the conference over to the Management, I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts and maybe forward-looking statements including those related to business statements, plans and strategy of the Company, its future financial condition and growth prospects. These forward-looking statements are based on the expectations and projections and may involve the number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.
I would now like to turn the conference over to Mr. Khetan – the Chairman and Managing Director of the Company. Thank you and over to you, sir!
Kamal Khetan: Thank you for joining Sunteck Realty's 4th Quarter & Full-Year Earning Call for the FY23. Hope the year gone has been Prosperous for you and your family.
Now in the year gone by, we have achieved a strong sustained growth in both pre-sales and collections. In fact, on both the parameters. This is our best-ever performance till date. We closed FY23 with Rs. 1602 crore in pre-sales and Rs. 1,250 crore in collections.
The strong operational performance has enabled us to generate more than Rs. 425 crore of surplus operating cash flow in FY23. Cumulatively, over the last three financial years, we have generated close to Rs. 950 crore of surplus operating cash flow. This has allowed us to not only do aggressive acquisitions but also enabled us to reduce our already negligible net debt-equity ratio in the last three years from 0.22 to 0.1.
During the course of FY23, we have added two more new growth engines – namely Sunteck Beach Residences at Vasai West and Sunteck Sky Park at Mira Road. These two new big projects have received overwhelming response from the customers and the robust demand for recent

launches. Soon to be launched, the existing and new project will enable us to grow on a sustained basis and as we enthusiastically embark in FY24.
Along with residential, we are also now focusing on building a rental portfolio from our commercial projects and to mention we have already pre-leased the entire project of Sunteck BKC51 at BKC Junction for lease tenure of 29 years. Similarly, we are looking to prelease our second project also at BKC Junction, namely Sunteck Icon.
Over the past several years, our team has put in tremendous effort to build the Sunteck brand. Our brand in the eye of our stakeholders is reflective of luxury living and the strong balance sheet with strong cash flows. We will continue to deliver on this promise and set new benchmarks.
I would now like to hand over the call to Mr. Prashant Chaubey – our CFO for his comments.

Thereafter I would be happy to answer your questions if any. Over to you Prashant.
Prashant Chaubey: Thank you, Sir. Good evening to one and all a

nd thank you once again for joining us today and
taking out your valuable time for this Conference Call.
The "Financial and Operational" numbers have already been published on the Stock Exchanges.
I believe all of you must have gone through the same.
Now I would like to highlight the "Key Financial and Business Performance" numbers:
Our pre-sales to that Rs. 537 crores in Quarter 4 of FY23 compared to Rs. 396 crores in Quarter 3 of FY23, a growth of 36% on a quarter-on-quarter basis. Our full year FY23 pre-sales stood at Rs. 1602 crores and compared to Rs. 1303 crores in FY22, a growth of 23% year-on-year.
We achieved collections of Rs. 330 crores in Quarter 4 of FY23 compared to Rs. 304 crore in Quarter 3 of FY23, a growth of 8% on quarter-on-quarter basis. Our full year FY23 collections stood at Rs. 1,250 crores compared to Rs. 1,052 crore for FY22, a growth of 19% year-on-year.
Additionally, to this I'm happy to share our pre-sales and collections CAGR for the last two years has increased in tandem to 25% and 27% respectively.
With respect to the "Financial Highlights":
We have reported a consolidated revenue of INR 362 crore in FY23 and our surplus operating cash flow stands at INR 428 crore for FY23.
We can now open the forum for questions from the participants. Thank you very much.
Moderator: Thank you very much. We will now begin the question-and-answer session. Anyone who wishes to ask a question may press * and 1 on the touchtone telephone if you wish to remove yourself from the question queue, you may press * and 2. Participants are requested to use handsets while

asking the questions. Ladies and Gentleman we will wait for a moment, while question queue assembles. Participants you may press * and 1 to ask the questions. The first question is from the line of Adidev Cahttopadhyay from ICICI Securities. Please go ahead.
Adidev Cahttopadhyay: I just have a question on the guidance for FY24. If you just help us understand what are the planned launches for the year, what is the approval status of the projects which you are planning and also how would the collections trend in line with the pre-sales which you have achieved in the last year? That's it from my side.
Kamal Khetan: Guidance, I would only say that last 2-3 years you have been seeing we have been able to achieve a sustained growth of 20% to 30% and that we are confident we will continue to do that. And on the launch front, in FY23, we already launched 2 big projects which is Sunteck Beach Residences and we could launch, in fact, the second project which was in Q4 and in fact, towards the end of March 2023 because of that, we could not take the full advantage of obviously new launch of Sky Park, which is Mira Road, the second project that we newly launched. We are confident this year we will be able to at least launch, looking at the approval what we have in place Kalyan project, which we are very, very confident and new launches of the existing projects, we are confident that we will be able to achieve this growth of 20% to 30% minimum.
Adidev Cahttopadhyay: Sales for at least Rs. (+2000) crores is a very achievable target to understand it correctly going forward?
Kamal Khetan: I think that that should be achievable.
Moderator: Thank you. The next question is from the line of Parvez Qazi from Nuvama Group. Please go ahead.
Parvez Qazi: First question is that the overall demand environment obviously remains good. What is the outlook on the pricing scenario had? Did we take any kind of price hikes in FY23 in our projects?
Kamal Khetan: Parvez, we are not, very frankly, looking at any price rise, but we are confident the demand is strong and it will continue to stay and we have not considered any price rise which we will be looking at in FY24. So, if it comes, it is great if the market gives us that price rise, and if we feel we should increase, we'll definitely loo

k for it, but otherwise we have not considered that.
Parvez Qazi: And a question for Prashant, what would be our current inventory in the ODC and Naigaon project?
Prashant Chaubey: So, Parvez, for ODC, we have three projects which are launched Sunteck City Avenue-1, Sunteck City Avenue-2 and Sunteck City 4th Avenue. Very minimalistic inventories remaining in these three projects as of now because we have sold. Currently we have the balance inventory which is available to us in these three projects put together is close to around Rs. 250 crores that is the number. And for Naigaon, at Naigaon, again from the launched phases which is Sunteck WestWorld, Sunteck Maxx World and Sunteck One World, these three projects put together we

have close to around Rs. 400 crores of balance inventory to be sold. When I say balance
inventory to be sold, this does not include the balance receivables Parvez. These are basically
the inventory.
Kamal Khetan: And also, just to clarify, not the phases to be launched in both the locations.
Parvez Qazi: And can I get a similar number for the Vasai project also?
Prashant Chaubey: Only launched portion I'm talking about Parvez again. In the launched portion, we have close to around Rs. 600 crores of future sales inventory which is available with us.
Moderator: Thank you. The next question is from the line of Alpesh Thacker from Antique Stock Broking. Please go ahead.
Alpesh Thacker: In the commercial part as you mentioned in your opening remarks that we were able to pre-lease the whole portion of BKC51 so at what rate was it done? What was the rental for that?
Kamal Khetan: So the rental was like 300 per square feet plus.
Alpesh Thacker: And what is the status of the other commercial projects?
Kamal Khetan: So other commercial project is also very close to completion and we are already in talks so we are looking to pre-lease that also which is on the BKC Junction, the second one again same as Sunteck BKC51 the name of that project is Sunteck Icon.
Alpesh Thacker: The rest of the three projects that we have what is the status on that?
Kamal Khetan: Other three commercial project, those we are doing pre-strata sales. We are doing the sales like individual offices we are selling those three project. We have sales in these two commercial projects.
Alpesh Thacker: And the second one on the you know break up of 4th Quarter sales number so mid-income, can you give the break-up of what was between SBR and ODC?
Prashant Chaubey: Alpesh, Prashant this side. I will provide this number separately to you. In the presentation we have given, I will separately also talk to you about.
Kamal Khetan: This it's already there on the presentation also, I believe.
Moderator: Thank you. The next question is from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.
Pritesh Sheth: First is on, how much was the size of the launch that we had in Sky Park this quarter and in terms of Kalyan, which you're planning to launch in this year what should be the launch size we would be looking at?

Prashant Chaubey: Pritesh in Sky Park in Mira Road, the total inventory size was close to around Rs. 700 crores.
Kamal Khetan: Pritesh total inventory launched in Mira Road was close to Rs. 700 crore. And of what we have sold, we have given the numbers in the presentation is obviously till March 31st which was sold only in the March month.
Pritesh Sheth: And how much was that contribution, if you can just share?
Kamal Khetan: So that was close to approximately Rs. 250 crore. The exact numbers Prashant will be able to give you after the call if you want. You can separately get connected and it's total combination numbers must be there anyhow on the presentation, it is there.
Pritesh Sheth: And the launch size that you are planning for Kalyan?
Kamal Khetan: So, something similar Rs. 50

0 to Rs. 600 crores.
Pritesh Sheth: So that would be like around 0.5 million square feet, is it?
Kamal Khetan: We can easily look at that size.
Pritesh Sheth: So just a follow up on that how should we look at monetization of such large project, I think the Mira Road it's around 3 million to 4 million square feet if I'm not wrong and Kalyan would be similar around 10 million square feet and if we are launching at for the 1st Phase at 0.5 million square feet, how should we think about the monetization of these two large projects?
Kamal Khetan: So obviously we are looking at all projects, these are huge projects. These are 50 acres, 40 acres.. Sunteck is now not looking at taking small, small projects because we feel we like set up a growth engine or a factory production house there for the next 7 to 8 years 10 years. First launch we are always looking at anything between 0.5 million to 1 million square feet. Maybe we launch 1 million square feet also but I don't want to overcommit you right now anything. But that is how we want to go ahead and build locations where we can be there for 7 to 8 years and in that location we command the premium and now we have created almost six locations and six production house for us as good as we are looking like a manufacturing facility for us in that particular location and that's how we want to go about in future acquisitions as well.
Pritesh Sheth: So, 7 to 8 years or 10 years should still be the timeline that we should look at?
Kamal Khetan: If we can buy a raw material without putting too much money on it and hold it for 10 years without affecting the IRR and without putting the balance sheet money so it cannot be a better thing than this.
Moderator: Thank you. The next question is from the line of Abhinav Sinha from Jeffries India. Please go

ahead.

Abhinav Sinha: Just wanted to check a couple of things. On the affordable housing side of the business, how is demand looking like as compared to the overall?
Kamal Khetan: First thing obviously we should understand where we are in which segment, whether we call it affordable or lower-mid income group segment because affordable means whatever we are talking if we talk the lowest selling price of what we are calling 6 growth engines what we have right now, six big, large projects what we have the lowest selling prices for Naigaon, which is almost like Rs. 11,000 per square feet, which is more than our average selling price of any Bangalore developer or a Chennai developer or a Hyderabad developer which is not affordable at all. Because the price point when we launched, which was Rs. 6000, now what we are selling at as Rs. 11,000 square feet. Even that project, which is the lowest selling price, it at a low-mid income group segment and answer to your question that even that is doing well. If you see the sales are across all the segment whether we now call it lower-mid income segment or upper-mid income segment and uber-luxury segment, all three segments we are doing extremely well and if you see the sales are proportionately almost divided depending on the approval and what we have launched before or later.
Abhinav Sinha: Secondly, when we're expecting 25%-odd growth for FY24 on pre-sales, what are the new launches that we should expect to contribute to the same?
Kamal Khetan: New launches Abhinav obviously one is Kalyan and we'll see the new launch which we recently did at the end of March 31st our Sky Park launch which is at Mira Road. Both this in itself should be sufficient to give us a minimum 20% to 30% growth or 25% to 30%. And over and above, obviously all the other projects, we will continue to do some new launches or the other. Any new acquisition will obviously keep adding to this portfolio.
Abhinav Sinha: Where are we targeting these new acquisitions within which geographies?
Kamal Khetan: So definitely MMR region. We feel there is enou

gh cream in the Mumbai market, MMR market
and definitely we are looking something more towards the city side now in the uber-luxury segment and mid-income segment.
Abhinav Sinha: Something closer to the Midtown area, is that what you're looking at?
Kamal Khetan: Yes.
Abhinav Sinha: Finally, I am not dwelling on it, but generally wanted to check that last year we have given a guidance of around Rs. 1800 crore but we are slightly short of it. So, what are the reasons you would say and is it like approval delays were there, is that a reason or you thought that demand was slightly lower than what we would have expected it to be?
Kamal Khetan: No, you're absolutely bang on. So, Abhinav obviously as I said, we were expecting this Sky Park launch to be earlier than March, we were looking at Q3. Anyhow, we managed to launch in Q4 and that too also towards the last month of Q4 because of that we got short of our target because

the approval delays obviously which we were expecting in Q3, the approvals came towards the end of Q4.
Moderator: Thank you. I now hand the conference to the Chairman and Managing Director – Mr. Khetan, for closing comments.
Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case any of your queries have been left unanswered, you can get in touch with me or my team. We look forward to your continued support. Thank you once again for joining us today.
Moderator: Thank you very much. On behalf of Sunteck Realty, that concludes this conference. Thank you for joining us and you may now disconnect your lines.

"Sunteck Realty Q1 FY-24 Earnings Conference Call"

August 10, 2023

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN & MANAGING DIRECTOR, SUNTECK REALTY
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER, SUNTECK REALTY
MR. ABHISHEK SHUKLA – VICE PRESIDENT , STRATEGY & INVESTOR RELATIONS , SUNTECK REALTY

Moderator: Ladies and gentlemen good day and welcome to Sunteck Realty's Earnings Conference Call for Q1 FY24.
We have with us today, Mr. Kamal Khetan, the Chairman and Managing Director of the Company, Mr. Prashant Chaubey, the Chief Financial Officer and Mr. Abhishek Shukla, the Vice President of Strategy and Investor Relations.
Please note this call will be for 30 minutes and for the duration of the conference call, all participant lines will be in the listen only mode. This conference is being recorded and the transcripts for the same may be put up on the website of the Company. After the management's discussion, there will be an opportunity for you to ask questions. There is Q&A session and we request to restrict questions to two per participant.
Should you need assistance during the conference call, please signal an operator by pressing '*' then '0' on your touchtone telephone. Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts and may be forward-looking statements including those related to business statements, plans and strategies of the Company, its future financial condition and growth prospects. These forward-looking statements are based on the expectations and projections and may involve the number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.
I would now like to turn the conference over to Mr. Khetan, the Chairman and Managing Director of the Company. Thank you and over to you sir.
Kamal Khetan: Very good afternoon to everyone for joining us today and thank you for taking the time to participate in our Company's earning conference call for the first quarter of the financial year 2024.
We have marched into financial year '24 with strong footing. Our presales grew by 16% year-on-year to Rs. 387 crores and collection to remain strong at Rs. 288 crores. This gives us confidence that we will achieve 20% to 30% growth in annual presale considering the new launches planned for the second half of the financial year '24. Our operating cash flow continue to remain strong as we cross Rs. 1,000 crores mark over the last 3 years. This reaffirms our faith in the robust business model built by us which has yielded operating cash flow surplus yield of 22% on the net worth for the last financial year.
I'm happy to report that due to the strong cash flow, our net debt today stands at less than one quarter of the collection at Rs. 264 crores. Our net debt to equity ratio is among the best, now at 0.09X. After our last launch of Sunteck Sky Park Mira Road, we have now five large projects as growth engines which will continue to deliver strong cash flows and profit margins. In fact, our Mira Road project has achieved fastest monetization from acquisition to launch in just 6 months. Going forward, we are planning to launch two more large projects as growth engines,

one at Kalyan with a total potential GDV value of Rs. 9,000 crores and second at Nepean Sea Road with a total potential GDV value of Rs. 2,500 crores. All these seven projects will then have a total gross development value for the Company at Rs. 30,300 crores which will provide strong visibility of cash flow and profit margins in the coming 7 to 8 years.
We are creating annuity income also and expanding our rental portfolio; with two projects at BKC junction, one which is Sunteck BKC 51 is already preleased and we have already got the occupation certificate for the same. Our average annual rental from this project shall be Rs. 36 crores during the tenure of the lease. The second commercial project which is Sunteck Icon,

another at the junction of BKC, is near c

ompletion and we are expecting this also to be preleased
at the same and the similar rentals.
On the business development front; our goal is to have an optimum balance of growth and profitability. Within this framework we have a strong pipeline of deals under consideration and we intend to conclude few deals in coming quarters. Execution in all our ongoing projects is in full swing. Our ability to execute continues to be rooted in our exceptional people and the unique inhouse construction model which allow us to control on quality and cost. We believe all of this is making Sunteck business model generate asymmetric risk reward.
In conclusion now Sunteck Realty today stands at a much stronger footing than ever before with increasing number of large projects as growth engines to give the Company sustainable growth over the next few years. As you know, the Company follows the project completion method of accounting. Going forward we will see incrementally projects getting completed year-on-year and we will start recognizing the revenue from this year onwards and the same will be reflected in the financial statements. So, it is important to understand that due to the project completion method, it is better to evaluate the P&L numbers on annual basis rather than quarterly basis. We remain excited about the future opportunities and we remain committed to capitalizing on these opportunities in value accretive and disciplined manner. I will now hand over the call to Prashant Chaubey, our CFO for more information on the earning performance in Q1 FY24. Over to Prashant.
Prashant Chaubey: Thank you sir and good afternoon, everyone and welcome to the earnings call for the first quarter of financial year 2024. The financial and operational numbers have already been published on the stock exchanges. I believe all of you must have gone through the same.
Let me give you some of the brief highlights of the financial performance. Our pre sales stood at Rs. 387 crores in Quarter 1 of FY24 compared to Rs. 333 crores in Quarter 1 of FY23, a growth of 16% on a year-on-year basis. We achieved strong collections of 288 in Quarter 1 compared to Rs. 285 crores in Quarter 1 of FY23. Additionally, to this I am happy to share our presales and collection CAGR since FY21 has increased in tandem to 25% and 27% respectively.
We have also generated an operating cash flow surplus of Rs. 76 crores in Quarter 1 of FY24.
On the P&L front, the Company follows project completion method of accounting and have reported a revenue of Rs. 71 crores with a core EBITDA margin of 43%. With this, we can now open the forum for questions from the participants. Thank you very much.

Moderator: Thank you. Ladies and gentlemen. We will now begin the question-and-answer session. We have the first question from the line of Adhidev Chattopadhya from ICICI securities.
Adhidev Chattopadhyay: The first question is on our Kalyan launch and whatever Nepean Sea Road next year. Let us know what is the status of the approvals here and how confident are we of the timelines which we have given in the presentation? It is the first question.
Kamal Khetan: So, Adhidev, we are very confident on Kalyan launch. The approvals at what stage we are, we are expecting that we should be easily launching in next 3 to 4 months.
Adhidev Chattopadhyay: Somewhere post Diwali you are saying or before?
Kamal Khetan: I would say on the outer limit it should be close to 3 to 4 months. We can say safely either in Q2 or Q3.
Adhidev Chattopadhyay: On Nepean Sea Road, if you help us understand what is the status there from the approvals.
Kamal Khetan: Nepean Sea Road, obviously we are going very aggressive now. If we talk about that project, we should consider minimum 9 to 12 months timeline.
Adhidev Chattopadhyay: So, second question is on the accounting. Now we have seen peers shifting to a mix of audit

completion and percentage completion in the new project. So, is there any thought in our minds also in talks with our auditors and all that something similar could be done so that the financials reflect the performance more accurately of the Company?
Kamal Khetan: So, Adhidev, in fact, we were on the percentage completion method before the Grant Thronton came as an auditor on the board, we debated with them. They insisted us obviously this is for them as per the new norms. They insisted in fact, we shifted to project completion method. So as of now, I don't think we have anything in mind that we should be shifting back to percentage completion method in near future anything unless and until auditor asks us to change it. So, they are pretty confident and comfortable with this method and they in fact want us to be in this matter.
Adhidev Chattopadhyay: That question is mainly because a lot of our projects are not reflecting right now in the P&L.
Kamal Khetan: I agree. But that's the reason last 2 years I think Adhidev we could not show any good P&L numbers. But that's what now, going forward incrementally most of the projects will get completed and that's why we said that year-on-year you will definitely see now good financial numbers in P&L and it will be reflected in the P&L numbers. And that will start from this year

onwards, we expect the way the projects are on the final stage of completion, how we are seeing that.
Moderator: We have the next question from the line of Pritesh Sheth from Motilal Oswal.

Pritesh Sheth: First is on slide #16. You have mentioned certain opportunities that you haven't considered in your growth engine calculation. Borivali West is one where obviously we have communicated to the market. But Sion and Jaipur, what are these projects? Are these projects like under consideration, under discussion and when are we going to execute those?
Kamal Khetan: The idea is we have not taken anything into consideration where we are not seeing a visibility in next 12 months of the launch. These are all projects which are old projects. We are just saying that these projects are there. Obviously with Sunteck, it's in the public domain. You know about it; everybody knows about it. We are not taking them into any intrinsic value approach and that's all it is. We are not saying that it will immediately, we are trying our best to launch as early as possible even those projects. But we don't see that anything can be launched in near future. So that's why we are not taking into, their visibility is not there. That's the reason we are not taking into it. You need to take it that way.
Pritesh Sheth: I was just asking. I'm not particularly aware about Sion and specifically Jaipur project. If you can just share some details.
Kamal Khetan: I think you can discuss with Prashant. I think it is there. Prashant, can you share with…
Prashant Chaubey: Yes, Pritesh. We can discuss these projects which are there with us offline.
Pritesh Sheth: Sure, no worries. And in terms of the rentals that we have signed up from upGrad, when can we expect them to start generating rent for us? Whether the 36 crores also include the CAM income or that would be over and above that and some details on that.
Kamal Khetan: Occupation as I mentioned, that occupation certificate has already come, so we have given them a possession. We should expect the rentals to start obviously from next month onwards and this does not include CAM. This is net-net income, this does not include CAM.
Pritesh Sheth: So, they're done with their fit outs and all and we should start seeing rental income.
Kamal Khetan: Yes, we already gave them a soft possession earlier for doing the fit outs and all and they've almost completed all their fit outs. In fact, since the occupation certificate has come, I think they will be operational, full-fledged operational in nex

t couple of days or couple of weeks. That's all.
Moderator: We have the next question from the line of Vasudev from Nuvama.
Vasudev: The first question is on the pricing front. So how is the pricing scenario looking like and have you taken any price hike in Q1?
Prashant Chaubey: So FY23 was a good year where you saw some amount of price inflation in the projects. In the first quarter, we have not taken any price hikes per se, whatever price inflation had happened, it happened in the last financial year.

Vasudev: And for the new launches, what kind of pricing are we looking at?
Kamal Khetan: New launches, obviously the prices will be as per the market, whatever. What do you mean by new launches? The new launches like Kalyan or the existing projects where the new launches will happen?
Vasudev: In Kalyan, as will be charging the market rate.
Kamal Khetan: So, wherever we have launched, we are….
Vasudev: What kind of price hikes are we seeing there?
Kamal Khetan: Your question is not clear. Hikes means price hikes means Vasudev. Wherever we have launched you have seen, we command a premium as a brand and there also when we launch whatever the market is there, obviously we will have a premium Sunteck premium when we launch there. So, we will take that premium when we launch the project of Kalyan.
Vasudev: And my second question is how much is a current unsold inventory in these ODC, Naigaon and the Vasai projects if you can?
Prashant Chaubey: In terms of ODC from the already launched projects, I'm just talking about, from the already launched projects we have close to around 450 to 500 crores of unsold inventory in ODC, in Naigaon, I'll just give you the number. In Naigaon, the unsold inventory that we have from the already launched projects is close to around 300 crores. And from Vasai, from the already launched projects we have an unsold inventory of close to around 400 crores. This is only what we have launched. Over and above, we have the GDV.
Vasudev: If you can give the same number for Mira Road project, what is still remaining to be sold from the launch.

Prashant Chaubey: In Mira Road, also Vasudev, we have close to around 400 crores unsold inventory from the already launched phase.
Moderator: We have the next question from the line of Murtuza Arsiwalla from Kotak.
Murtuza Arsiwalla: You put out that GDV of about 30,000 odd crores from projects to be launched. What would be the cost around this, number one? As well as you talked about launched projects in the previous question, you talked about the unsold inventory. Can you also give us the amount of receivables from launched project sold and cost to be spent to complete those projects? So, both for the future launches, what is the cost? And for projects launched, what is the recoverable from sales already made as well as the cost to be incurred to complete those projects?
Prashant Chaubey: I'll answer your question in three parts. So, first thing that you asked is what is the receivables that we have from our already launched projects. The receivables that we have from our already

launched projects is close to around 2,100 crores. That is a number. Now, apart from that, for this launch projects and ongoing projects, the estimated cost which I have to spend is close to around 1,100 crores. That is the amount that I have to spend against this receivable that I am getting. And over and above this, I have the unsold inventory that we spoke about in the last question. That is the number. And for the upcoming project that were talking about of 30,300 crores of GDV, for that the amount that I have to spend on construction per se is close to around 5500 crores.
Murtuza Arsiwalla: That seems very little. 5,500, but anyway, I'll take it.
Prashant Chaubey: Sorry, Murtuza. 8,500 to 9,000 crores. My bad. I'm extremely sor

ry.
Moderator: We have the next question from the line of Sarang Gupta from Briarwood Management.
Sarang Gupta: You mentioned on the opening remarks that you plan on doing business development to kind of grow the business and have a few deals under consideration. I'd love to hear a little bit more about just the medium-term outlook of the business development in the next 2-3 years as well as how you're thinking about things maybe differently from the last 1-2 years when you were less active and what's changed in the market to cause you to be more aggressive today than the past? If that's the case.
Kamal Khetan: We have, obviously we are in the pipeline, so it will be difficult for me to name the projects which we are negotiating and are in pipeline. I can say aggressively, as I said in my opening remarks, that we are negotiating at least 4 to 5 deals which we are confident of closing, at least three out of them. Whatever we are looking now are all large projects. Mostly we are looking only large and big sized projects. That's what is a strategy going forward for a Company it is. That's what I can talk about for going forward projects. Regarding annuity income, we have already started building up that. We have leased out one commercial asset at the junction of BKC. Again, I can confidently say the second BKC asset at the junction is at the advanced stage of negotiation for preleasing because the best advantage I think we have today, the vacancy level of the offices in BKC is almost negligible I would say. There is no big, large spaces which are available. We will take full advantage of that while leasing and that's why we are tying up the lease for like 10 years, 15 years or more than that. In fact, the first lease what we signed worked in BKC 51 is 29 years and that's how we want to take it forward and obviously we are looking to monetize again looking at the good market. We will also be looking to start very soon the commercial development at ODC also Goregaon West and there also we'll try to create a big annuity income from there as well.
Sarang Gupta: And then just one last follow up question on the pipeline of new projects, are you looking at only JVs or are you also considering outright land acquisition out of these 4 to 5 deals that you are in great stage now?
Kamal Khetan: So out of the five, very frank I can say that three are the full JDA model. Two, what we are negotiating are the buyout but I can say whatever we are buying, like how we built up a Nepean

Sea Road. On a similar model where we are seeing a good value can be created out of it and good IRR can be maintained. So that's where we are looking to buy out only those projects.
Moderator: We have the next question from the line of Prem Khurana from Anand Rathi Shares.
Prem Khurana: So just to kind of continue on this rental transaction that we've done, if you could help us understand your thought process for this business. Now the idea would be to kind of retain these assets or the idea would be once you have a tenant in place then you could look at monetizing these assets and also for ODC, we used to have this large plan of almost 2.6 odd million square feet of area on commercial side avenue 5 and 6. Would you want to continue with the same thought process? I mean you would want to have 2.6 million square feet combination of

commercial or retail or the area has changed over the years now and it has been brought down
and the residential component has gone up?
Kamal Khetan: So, what we are looking to develop 5th Avenue as definitely combination of commercial and residential because what we see the value because residential is selling at today Rs. 30,000 a square Feet plus which gives a more value to the Company immediately and it gives the immediate cash flow which gives a better return and better ROE for the Company. Nevertheless, but to monetize as quick as p

ossible, we also want to start simultaneously the commercial asset
also which is close to another FSI of 2 million square feet which is their area what we have can construct in 5th Avenue over and above 1 million square feet of residential. So even that we would like to start simultaneously. When you ask the question whether we want to, so what kind of returns, I can just give you an example from what we have leased out recently, the BKC 51
Prashant you'd like to share the number?
Prashant Chaubey: So basically, our invested capital in BKC 51 was close to around 125 crores. So, against that 125 crores we are making an average rental of close to around 36 crores. So that gives us a return on invested capital of 30% and this is what we are targeting in our commercial projects. We want to do commercial projects but with this kind of return metrics.
Prem Khurana: But then the idea if you kind of retain these assets because I understand Avenue 5 because it's a large asset and you can have it in your portfolio and kind of continue to see rental escalation, let the rentals grow and create more value. But when I look at BKC or let's say for that matter Sunteck Icon, these are smaller assets. Not sure. I mean, if you want to have these assets continue with you or you could also look at monetizing once these are leased out because the maximum value that you were supposed to create in terms of Rs. 125 crores that you've invested, that has already multiplied. And now onwards there will be mostly adjustment because of the rental escalations that you get to have. So, idea would be to kind of unlock this capital and look for more growth opportunities or let the asset appreciate over the years.
Kamal Khetan: First of all, when we have tied up the BKC assets also, it's the escalation is there year-on-year. So, the rentals will be increasing year-on-year. It's in the agreement that every year the escalation is 4% to 5%. So that is there in the agreement and that will give us the escalation. When you say monetization, definitely we will see. Today it is not that if we can monetize because of that, if

we monetize the growth will be faster or slower. I don't think Sunteck has a very strong balance sheet. We are always disciplined in our balance sheet. So, it's not that we are holding any acquisition because the Sunteck balance sheet is weak or not strong or something like that. But nevertheless, if we feel that we should monetize and create more value and when we see that value creation will be more when the interest rate cycle reverses and only then obviously we would like to see it to monetize not at this state where interest rates are high and what we are seeing looking at the current economic situation and the interest rates how it is behaving, I think we are only heading after few quarters maybe we will start seeing interest rates coming down. And when the interest rate starts coming down only that is the time, we should give a thought that whether we should monetize or we should retain the assets. That's what it is.
Moderator: We have the next question from the line of Pradyumna Choudhary from JM Financial.
Pradyumna Choudhary: Both presales and collection in this particular quarter on a YoY basis was slightly on a slower side. So, any particular reason for that? And on the same path are we confident of achieving 2000 crores of presale in FY24? And could you give maybe some sort of a project wise split where this 2000 crores would come from?
Prashant Chaubey: So, this pattern that you are talking about in terms of growth in presales and collections, that is basically, if you look at the last three, four years of Sunteck, our first quarter is generally the weakest quarter. And that is seasonal in nature as well in Mumbai. And going forward, as the second quarter, third quarter, as the festive season comes into play, you start seeing robust sales an

d collections, and construction activity also increases at that point in time. So that is the reason why you are seeing it's nothing to do with anything else, it's just that and new launches are also going to come going forward. So, the second question that you asked about 2000 crores of presales so I would just like to tell you that if you look at our growth rate from FY21 till FY23 we have grown at 25% CAGR. So, we are targeting 20% to 30% growth in our presale's year-on-year. So that is what our target is. And we will try to deliver on those targets that we have set for ourselves.
Pradyumna Choudhary: My question was this 2000 crores of presales, some broad split of what projects would contribute to them.
Kamal Khetan: So, obviously now if we launch Kalyan, we will have six growth engines, what we call six projects. So that 2000 crore will easily come from all these six projects, and these are six large

projects. I can't give you what will come exactly from where, but you can take an average of
300-400 crores from each project. Which is easily achievable. Just to give you an idea, it is like
less than 100 crores, 75 crores per quarter from each project.
Pradyumna Choudhary: And second question, there was a slide mentioning the value 30,300 crores of gross development.
But realistically, how much do you think is achievable over the next, say, four years, four or five
years? How much of the broad development value can we look at achieving on a realistic basis?

Kamal Khetan: So Pradyumna , first of all, I would like to correct it's not 50,000 crores, it is 30,000 crores. And
we said this is the GDV value. These are all large projects. And I said in my opening remark that
30,000 crores, all this GDV value which will be achieved over a period of seven to eight years
across all these seven projects.
Moderator: We have the next question from the line of Nikhil Chandak from JM Family Office.
Nikhil Chandak: I just had one question. In the slide I see Signature Signia Project at BKC for GDV of 1500
crores. Now, what I understand is that this project is long completed. And I'm just curious if it
is ready inventory, why are we not aggressively trying to monetize this and sell this off given
that the market is buoyant right now? And why hold up this inventory for such a long period of
time?
Kamal Khetan: Yes, Nikil. I think we want to sell it obviously ASAP as early as possible. We are trying our best
to exhaust this inventory. We all know that last one or two quarters we have not done good sales.
But I can assure you, after Q1, there is a lot of deals on negotiation at a very advanced stage.
You will see pleasant surprises in Q2 and Q3.
Nikhil Chandak: Because this is like ready inventory. So, it's just that the timing just makes it so much better if
you get the cash inflow right now from an overall Company perspective, that is the logic which
I was asking for.
Kamal Khetan: I appreciate Nikhil. Definitely we are onto it, and we are confident we'll try to monetize now
earlier than we were anticipating. The way we are now pushing the team to get it done.
Nikhil Chandak: And the project also which is there at BKC on the residential side in these purchases?
Kamal Khetan: Currently, new residential nothing is there in BKC for us.
Nikhil Chandak: My second question was on the overall capital structure. I understand the gearing, the leverage
is very low, which is very good. But I'm just thinking if you were to get more aggressive in new
project acquisition or contracts, would you look to change this thinking on the debt structure or
would you still prefer to keep it at a low level at what it is right now? Or can you increase the
borrowing to kind of get more aggressive on new project acquisition to have a longer growth
trajectory.
Kamal Khetan: I have said that we will be very aggressive. We didn't ever say that we will not be, but at the

same time very disciplined with our cash flows. So, we will always acquire looking at our strong
cash flows and looking today, what is our current cash flow, we are almost like negligible debt.
So, without building the debt, we will continue to be aggressive and more aggressive. So, if you
see during the COVID period when in fact we started doing acquisitions, we did some crazy
acquisitions, four or five big acquisitions. And in spite of that, we brought down the debt. So
that will be our philosophy. Not that always we'll be able to bring down the debt because debt is

already very-very low. But we would like to deploy the cash flows which are coming, strong
cash flow which are coming to acquire aggressively more new projects.
Moderator: We have the next question from the line of Sri Karthik Velamakanni from Investec.
Sri Karthik Velamakanni: You launched the uber luxury project at Nepean Sea which would have a pricing close to Rs. 1
lakh or more than Rs. 1 lakh per square feet. In addition, you also carry inventory in BKC. So,
what would be our go to market strategy from a reinvigorating the sales channel given that we've
not been able to do any presales in the BKC project.
Kamal Khetan: So, Sri Karthik, just to correct the question, we have not launched Nepean Sea Road. We are
looking to launch in the next nine to twelve months. We have to understand the micro markets
are different. Both the micro markets are totally different. One is at BKC and that is at Nepean
Sea Road. And the inventory when we talk about BKC, it is three towers. Each tower is like half
a million square feet. And when three towers was like it was more than 1.5 million square feet,
and which is a large inventory in BKC. Where we are talking about the Nepean Sea Road, it is
just close to 2 lakh square feet. So, there is totally a different micro market and different sizes.
And just to tell you where BKC we have already sold more than 80% of the inventory. It is this
last 10%-15% of the inventory which is there with us. And that inventory you have to understand
and appreciate that when we started BKC, we started at Rs. 15,000 a square feet was the micro
market price. In fact, Sunteck created the value in BKC for residential only after the Sunteck

project came into that micro market. Otherwise, Bandra East was always considered for low-income group or mid income group. In fact, Sunteck could change the perception of the low-income group location to a high-income group. And today, every developer or anybody or everybody would aspire to create a luxury project in and around BKC. In fact, there is nothing which is available in BKC in and around BKC. So there the inventory was very large and here the inventory is much lower. And that micro market, how much is the absorption is much more in Nepean Sea Road, that micro market has a higher absorption of luxury than the micro market of BKC. That's how it is.

Sri Karthik Velamakanni: I have a question to Prashant on the core EBITDA margin calculations, if you could explain what are the direct attributable costs that you are assuming in arriving at a 45% EBITDA margin. And in this context, when you're selecting your EPC contractor, I know some of the construction you do or most of the construction you do on your balance sheet. But in case if you are selecting a contractor, what would be the margin at which you are signing those contracts?

Prashant Chaubey: So basically, the intention was, Sri, this time is that to bifurcate between attributable costs and non-attributable costs. What we mean by that is that the projects which were getting recognized as revenue in the P&L against those projects only how much cost was getting attributed. So that direct cost included both cost of construction, it included employee benefit expense, and it included other overheads as well. But these were directly attributable to the projects wh

ich were getting recognized in the P&L. So, this gives us a better understanding of the margin that is being made by that project which has been completed. So, this is what we wanted to show this time in our presentation because we follow the project completion method of accounting and as

per accounting standards, the other indirect costs which is like advertising, brokerage, these were earlier getting deferred. They were treated as deferred revenue expenditure. But now they have to get amortized in the quarter in which you are spending irrespective of whether you are recognizing the revenue from that project in the P&L or not. So that is the reason why we wanted to show this bifurcation and help people like you understand that the projects which are getting recognized, though the amount is small, but the kind of profit that we are making on that is huge. So, we wanted to show that. The objective was to show the margin.

Sri Karthik Velamakanni: And this would also include your head office costs that you would attribute to the specific projects, right?

Prashant Chaubey: Absolutely, Sri.

Sri Karthik Velamakanni: And lastly, let's say in this quarter there's a 40-crore indirect cost number essentially from what I understand, all of this pertains to potentially the sales and the advertisement and stuff that's going on outside the projects where you have recognized revenues. Is there anything else that is part of this indirect cost?

Prashant Chaubey: You are absolutely right on that understanding.

Sri Karthik Velamakanni: And the second question on potential margins at which you are basically signing contracts to any of these EPC contractors.

Kamal Khetan: We don't give any third party. The total construction is in-house. There is nothing which we…there will be small-small maybe contracts, but those like obviously any contractors margin would be like 10% to 15% or highest in any specific small contracts or something would be 15%-20% max-max. But that is the advantage. But all the constructions Sunteck does is in-house, so we can maintain better quality and better margins.

Moderator: Ladies and gentlemen, due to time constraints that was the last question. I would now like to hand the conference back to the Chairman and Managing Director, Mr. Khetan, for closing comments. Please go ahead.

Kamal Khetan: Thank you all for taking out the time for Sunteck earning calls. In case, if any of your queries have been left unanswered, you can get in touch with me or my team. We look forward to your continued support. Thank you everybody.

Moderator: Thank you, members of the management. Ladies and gentlemen, on behalf of Sunteck Realty, that concludes this conference. Thank you for joining us, and you may now disconnect your lines.

Call: Oct 2023

Sunteck Realty Ltd.

"Sunteck Realty Q2 and H1 FY24 Earnings Conference Call"

October 23, 2023

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN AND MANAGING DIRECTOR, SUNTECK REALTY
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER, SUNTECK REALTY
MR. ABHISHEK SHUKLA – VICE PRESIDENT OF STRATEGY & INVESTOR RELATIONS , SUNTECK REALTY

Moderator: Ladies and gentlemen, good day and welcome to Sunteck Realty's Earnings Conference call for Q2 and H1 FY24.

We have with us today, Mr. Kamal Khetan – the Chairman and Managing Director of the Company; Mr. Prashant Chaubey – the Chief Financial Officer and Mr. Abhishek Shukla, the Vice President of Strategy and Investor Relations.

Please note this call will be for 30 minutes and for the duration of the conference call, all participant lines will be in the listen-only mode. This conference is being recorded and the transcripts for the same may be put up on the website of the Company. After the management discussion, there will be an opportunity for you to ask questions. There is a Q&A session, and we request to restrict questions to 2 per participant. Should you need assistance during the conference call, please signal an operator by pressing '*' then '0' on your touchtone telephone.

Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based historical information or facts and may be forward-looking statements, including those related to business statements, plans and strategies of the Company, its future financial condition and growth prospects. These forward-looking statements are based on the expectations and projections and may involve the number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.

I would now like to turn the conference over to Mr. Khetan – the Chairman and Managing Director of the Company. Thank you and over to you, sir.

Kamal Khetan: A very good afternoon to everyone for joining us today and thank you for taking the time to participate in our Company's Earning Conference Call for the 2nd Quarter and first half of the Financial Year 2024.

On the operational performance front, we have recorded a strong presales of Rs. 782 crores in the first half of Financial Year '24. Similarly, our customer collections have crossed Rs. 500 crores during the same time period. This strong cash flow has allowed us to further reduce our negligible net debt to Rs. 259 crores. With this, our net debt to equity ratio stands strong at 0.09X. With respect to revenue recognition in the financial statement as per IndAS, the Indian Accounting Standards, the Company follows the project completion method and not the percentage completion method of accounting. Hence, to understand the financials of the Company better, it is suggested that one should look at earnings number on yearly basis rather than quarter-on-quarter basis.

In Financial Year '24, our project Sunteck Maxx World is getting completed. Due to this, a significant revenue of Rs. 750 crores to Rs. 850 crores shall be recognized by the end of Financial Year 2024. Similarly, in FY25 we are completing Sunteck City 4th Avenue in ODC Goregaon West. This will lead to a revenue recognition of Rs. 950 crores to Rs. 1,050 crores by the end of Financial Year FY2025.

With regards to project launches, we are happy to share that we have received all the approvals for the first phase of Kalyan projects and are gearing to launch the same before Diwali. Post Kalyan launch, Sunteck will have 6 large projects as growth engines. We are looking forward also to start our 7th project of Nepean Sea Road as a new growth engine in the Financial Year FY25.

Over and above this, in Financial Year '24, we have completed one commercial project, Sunteck BKC51, which is fully leased out for 29 years and now we are nearing completion the second commercial project Sunteck Icon at BKC Junction, which will be also completed in Financial

Year 2024. These two rented assets will fetch an average return of 30% on the invested capital.
I am

happy to share that we have tied up with International Finance Corporation IFC, a member of World Bank group, to create a joint platform with a total equity investment of Rs. 750 crores. This platform will focus on building high quality, large scale green housing projects targeting the mid-income demographics. This equity partnership is a testament to our strong systems and processes, scalable business model and focus on environment sustainability. Talking about sustainability, we are also pleased to share that Sunteck Realty has received 5-star rating and has been ranked third in Asia-Pacific Diversified Office and Residential Peer comparison by Global Real Estate Sustainability Benchmark that is GRESB. We have a strong conviction in our business model, and we look forward to a bright future as we continue to expand our horizons in a financially prudent way. I will now hand over the call to Prashant Chaubey – our CFO for our information on earning performance of H1 FY24. Over to you, Prashant.

Prashant Chaubey: Thank you, sir. Good afternoon, everyone and welcome to the Earnings Call for the 2nd Quarter and First Half of Financial Year 2024. The financial and operational numbers have already been published on the stock exchanges. I believe all of you must have gone through the same.

Let me give you some of the brief highlights of the financial performance. Our presales stood at Rs. 395 crores and collections stood at Rs. 214 crores for the 2nd Quarter ended FY2024 and I am also happy to share that our presales and collections CAGR since FY21 has increased in tandem to 25% and 27% respectively.

Our operating cash flow surplus has also surpassed Rs. 1,000 crores in the last 3.5 years and for the first half ended FY24 as the Company follows project completion method of accounting, our revenue reported was Rs. 95 crores with a core EBITDA margin of 43%.

With this, we can now open the forum for questions from the participants. Thank you very much.

Moderator: Thank you very much. We will now begin the question-and-answer session. We have a first question from the line of Sarang Gupta from Briarwood Chase Management LLC. Please go ahead.

Sarang Gupta: Congratulations on the strong quarter. I want you to touch in on the deal with IFC because it is good to see a vote of confidence on the Company and corporate governance from such a well-

reputed institution. Can you just give us more background on this deal, like how long have you been working on this or talking to IFC? What type of due diligence they did? And why did they choose Sunteck?

Kamal Khetan: Thanks, Sarang for the question. So, we have been obviously working on this deal for almost more than 1.5 years, it is almost 2 years I would say and obviously, IFC being very prudent in their due diligence, so they have done all the due diligence looking financial, technical and economic, all that due diligence and in fact they visited multiple times to Mumbai from US and they met each and every person in the senior management team, I would say and to that extent, I think they visited each and every construction site also and seen the quality and safety measures taken while doing the in-house construction and I could say that they were really very much impressed. And that is how it was done. Now taking to the transaction with IFC, this is an equity transaction, pure equity transaction, this platform will focus on building high quality large scale green housing projects targeting the mid-income demographics. This platform will invest in new project acquisition, as we do not require any capital investment in our any existing projects. This highlights, in fact, once again I will say the strong brand recognition, sound financial and strong systems and processes in-house construction capabilities of Sunteck. We expect definitely this platform to be substantially GDV accretive for Sunteck.

Saran

g Gupta: And then just you mentioned GDV accretive, like how big could this platform be? And kinds of what time horizon are you looking at deploying this and then harvesting the returns from this platform?

Kamal Khetan: So, the size of the platform initially what we have decided is Rs. 750 crores and obviously this can add to another Rs. 8,000 crores to Rs. 10,000 crores of GDV accretion and over a period of let us say 2 to 3 years what we are looking at.

Moderator: Thank you. We have our next question from the line of Puneet Gulati from HSBC. Please go ahead.

Puneet Gulati: Just continuing on this IFC deal once again. Can you give us a really a broad boundary that IFC has laid down in terms of what is the ticket size that would be allowed to build in , in terms of units because I presume it is more affordable housing? And second, what all geographies would you be able to operate in?

Kamal Khetan: So, Puneet, one thing I want to clear, it is not only affordable because in the launch itself, we can go a minimum ticket size of Rs. 1.5 crores, so which is like mid-income focused and it is more of a sustainable project, so if you see in every project whether it is IFC is a partner or not, so we are taking too much care and attention about ESG and that is obviously also has impressed them to invest in Sunteck platform the joint platform, so we are focused on the projects to be environment sustainable, as well as obviously we are looking at mid-income segment more of deploying this money with the ticket size should be close to Rs. 1.5 crores.

Puneet Gulati: So, that is a decent ticket, right? And in terms of ESG are there some specific costs that you would have to incur to or initiative you have to do in the ESG front to meet the investment criteria?
Kamal Khetan: So, we are already doing, that is what I told in my opening remarks that we are ranked up third in the Asia-Pacific and that is a miniscule cost. I feel it is more an effort, but we don't mind spending that cost. We don't want to save that cost to compromise ESG.
Puneet Gulati: And secondly, if you can talk a bit about any price increases that you have taken in any of your projects this quarter?
Kamal Khetan: So, I would not say any substantial increase in prices across most of the project, but in certain projects I won't be able to give you anything specific right now, but at places like especially Sky Park and ODC, we have been able to increase some price rise even in this quarter.
Puneet Gulati: Lastly, if I may, the collections were down Q-on-Q, can you help us understand the technicality behind it?
Prashant Chaubey: So, Puneet, our receivables from sales booked is in around Rs. 2,250 crores, which will come as we progress with the construction of our projects. So, this time what you see the collection is down is not a function of anything else. You will see those collections coming through in the coming quarters.
Puneet Gulati: It is just the sales basically got done towards the last part of the quarters.
Prashant Chaubey: Yes.
Moderator: Thank you. We have a next question from the line of Abhinav Sinha from Jefferies India. Please go ahead.
Abhinav Sinha: Congratulations on the IFC deal, just going back to the initial questions there, you have already talked about how much you can add on GDV, so can you guide us when does this platform sort of become operational and where do we see sales say in the next 3-4 years?
Kamal Khetan: So, I will answer this in 2-3 parts like Sunteck is obviously you know we have been always well timed in our capital allocation while doing business development acquisitions especially, so we feel this is a good time to do acquisitions and business development. So, today, if you see we have a portfolio of 7 large projects which are as good as almost launched with GDV value of close to Rs. 30,000 crores and in next 2 years to 3 ye

ars, I can say irrespective of IFC platform, we are very confident that we want to grow this portfolio from Rs. 30,000 crores to Rs. 50,000 crores and while doing so, we are ensuring that we have a balanced portfolio across all the segments from uber luxury segment to even the aspirational luxury segment. I think Abhinav, I have answered or if you have any other further questions or anything which you want me to answer.

Abhinav Sinha: Just dwelling a bit on this, with around 300 billion of projects we are doing around, let us say 20 billion of sales, so that is the target for the current year. So, does this become materially say 2X in 3 years or we are looking to continue with the 20% CAGR or 15-20 I mean that is what I was looking for?
Kamal Khetan: So, definitely we will be adding more projects. From the existing projects we can definitely look a growth of close to 15%-20%, but from whatever adding projects that will be additional and if you put everything together then obviously, we look nearly double in close to 3 years to 3.5 years or 4 years, 3 years we should double.
Abhinav Sinha: So, secondly, on P&L, you did mention that we are sort of because of the accounting issues, it is lagging a bit. Now couple of things here, a) on the 2 projects that you have outlined for delivery, so the sales are already done, or we are expecting for example ODC to see more sales to deliver this number? And b) what are the margins we are expecting here broadly?
Kamal Khetan: So, the numbers which I have mentioned to you in my opening remarks, and it is also on the presentation, which is uploaded, the numbers are from the existing current sales, we are not considering any sales till that time. If those sales obviously will come up more sales, then that will take definitely the revenue number to a higher number or on the upper side of the bracket. So, I have given a range which will either surpass the upper range or the lowest, I have given the lowest range also like Rs. 750 crores to Rs. 850 crores for Financial Year ‘24 which will

come from the Sunteck Maxx World Project and Rs. 950 crores to Rs. 1,050 crores which will further go up obviously with the additional sales in the Financial Year 25 and that is from our Sunteck City 4th Avenue ODC Goregaon project and that is about it.

Abhinav Sinha: And what are the margins we are expecting?

Prashant Chaubey: So, if you look in our case study also that we have published with our presentation, you will see that in the Sunteck World project, we are having an operating margin of 30% and going forward we are more bullish on that then the margins will only go up. Similarly, for our ODC project, we have been given an operating margin of 35%, but 4th Avenue is operating at a much higher margin which is close to 40%. So, you will see that the margins will be very strong going forward for both of these projects.

Moderator: Thank you. We have a next question from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.

Pritesh Sheth: First is on again on IFC, just we have dwelling in that a bit, so profit would be 50-50 shared or how is the share? Is there any minimum expectation of equity return by IFC?

Kamal Khetan: So, there is no minimum return expectation. It is a pure equity deal, and they can invest a maximum of up to 50% not more than 50%, but we can give them 25%-30% it has to be mutually agreed. Also, we have a waterfall structure, which definitely gives us a much better return than

what obviously IFC takes. So, it depends on the IRR what they make after certain IRR hits, maximum profit comes to Sunteck and then only the nominal profit goes to them.

Pritesh Sheth: And what is that benchmark IRR, if you can just help us?

Kamal Khetan: The details, I think we will be able to share with you maybe separately, I don't think I will be able to give it here.

Pritesh Sheth: And in terms of the Kalyan launch, which is upcoming, what is the initial size that we have thought about in terms of that launch? Is it a smaller launch or Rs. 1,500 crores, Rs. 2,000 crores kind of launch that we are planning?

Kamal Khetan: So, the first phase of Kalyan which consists of four towers what we are launching means we are not launching the entire first phase, these are four towers, and which will have obviously a revenue potential as you rightly said from Rs. 1,200 crores to approximately Rs. 1,400 crores. Right now, what we are planning to launch is what we have got the approval for 2 towers, and which will have a potential sales of close to Rs. 600 crores.

Pritesh Sheth: So, we will go ahead with the 2 towers launch or we will wait for another 2 towers and launch altogether?

Kamal Khetan: Obviously not. We will obviously go with 2 towers launch Pritesh. Definitely we will go with the 2 towers launch.

Moderator: Thank you. We have our next question from the line of Ashutosh Mittal from Axis Capital. Please go ahead.

Ashutosh Mittal: So, my first question is related to the amounts spent on business development in H1, so of this how much is for towards projects that have not been announced yet or not launched yet?

Prashant Chaubey: If you look at slide 26 of our presentation, you will see that we have spent close to Rs. 64 crores on business development, landowners funding and JDA cost. Out of this, what is happening is the majority of the amount is for our existing JDA projects and some of it is for our new projects. Roughly you can say around Rs. 10 crores to Rs. 15 crores is towards new projects which has not been announced yet and the balance is all for existing projects.

Ashutosh Mittal: And my second question is related to how does the demand pipeline in BKC projects look like? Specifically, if you can give it for Island and how does it look like for Pearl and Isle?

Kamal Khetan: So, this quarter I think in presales number you must have seen we have sold 2 units and I think this is obviously compared to last quarter nothing and the quarter before that there was nothing. So, we are seeing traction building up and we are quite positive that this will continue every quarter-on-quarter. So, we will see incremental sales happening every quarter. Thank you.

Moderator: Thank you. We have our next question from the line of Anupama Prakash Bhootra from Arihant Capital. Please go ahead.

Anupama P. Bhootra: I just want an update about the Sky Park Mira Road contribution in the Q2 sales, I can get an update?

Prashant Chaubey: So, Anupama out of Rs. 395 crores, roughly around Rs. 98 crores came from Sunteck's Sky Park Mira Road in the 2nd Quarter. Sunteck Sky Park, Anupama has been the response for that project for Sunteck has been quite encouraging and we are doing good sales there. Thank you.

Moderator: Thank you. Ladies and gentlemen, that was the last question for today. I would like to hand the conference over to the Chairman and Managing Director, Mr. Khetan for closing comments.

Over to you, sir.
Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case any of your queries have been left unanswered, you can get in touch with me or my team. We look forward to your continued support. Thank you once again for joining us.
Moderator: Thank you, members of the management, and thank you all for taking out the time for Sunteck Earnings Call. In case any of your queries have been left unanswered, you can get in touch with the team. We look forward to your continued support. Thank you.

“Sunteck Realty Q2 and H1 FY24 Earnings Conference
Call”

October 23, 2023

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN AND MANAGING
DIRECTOR, SUNTECK REALTY
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL
OFFICER, SUNTECK REALTY
MR. ABHISHEK SHUKLA – VICE PRESIDENT OF
STRATEGY & INVESTOR RELATIONS , SUNTECK
REALTY

Moderator: Ladies and gentlemen, good day and welcome to Sunteck Realty’s Earnings Conference call for Q2 and H1 FY24.
We have with us today, Mr. Kamal Khetan – the Chairman and Managing Director of the Company; Mr. Prashant Chaubey – the Chief Financial Officer and Mr. Abhishek Shukla, the Vice President of Strategy and Investor Relations.
Please note this call will be for 30 minutes and for the duration of the conference call, all participant lines will be in the listen-only mode. This conference is being recorded and the transcripts for the same may be put up on the website of the Company. After the management discussion, there will be an opportunity for you to ask questions. There is a Q&A session, and we request to restrict questions to 2 per participant. Should you need assistance during the conference call, please signal an operator by pressing ‘*’ then ‘0’ on your touchtone telephone.
Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based historical information or facts and may be forward-looking statements, including those related to business statements, plans and strategies of the Company, its future financial condition and growth prospects. These forward-looking statements are based on the expectations and projections and may involve the number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.
I would now like to turn the conference over to Mr. Khetan – the Chairman and Managing Director of the Company. Thank you and over to you, sir.
Kamal Khetan: A very good afternoon to everyone for joining us today and thank you for taking the time to participate in our Company's Earning Conference Call for the 2nd Quarter and first half of the Financial Year 2024.
On the operational performance front, we have recorded a strong presales of Rs. 782 crores in the first half of Financial Year ‘24. Similarly, our customer collections have crossed Rs. 500 crores during the same time period. This strong cash flow has allowed us to further reduce our negligible net debt to Rs. 259 crores. With this, our net debt to equity ratio stands strong at 0.09X. With respect to revenue recognition in the financial statement as per IndAS, the Indian Accounting Standards, the Company follows the project completion method and not the percentage completion method of accounting. Hence, to understand the financials of the

Company better, it is suggested that one should look at earnings number on yearly basis rather than quarter-on-quarter basis.
In Financial Year ‘24, our project Sunteck Maxx World is getting completed. Due to this, a significant revenue of Rs. 750 crores to Rs. 850 crores shall be recognized by the end of Financial Year 2024. Similarly, in FY25 we are completing Sunteck City 4th Avenue in ODC Goregaon West. This will lead to a revenue recognition of Rs. 950 crores to Rs. 1,050 crores by the end of Financial Year FY2025.

With regards to project launches, we are happy to share that we have received all the approvals for the first phase of Kalyan projects and are gearing to launch the same before Diwali. Post Kalyan launch, Sunteck will have 6 large projects as growth engines. We are looking forward also to start our 7th project of Nepean Sea Road as a new growth engine in the Financial Year FY25.
Over and above this, in Financial Year ‘24, we have completed one commercial project, Sunteck BKC51, which is fully leased out for 29 years and now we are nearing completion the second commercial project Sunteck Icon at BKC Junction, which will be also completed in Financial Year 2024. These two rented assets will fetch an average return of 30% on the invested capital. I am

happy to share that we have tied up with International Finance Corporation IFC, a member of World Bank group, to create a joint platform with a total equity investment of Rs. 750 crores. This platform will focus on building high quality, large scale green housing projects targeting the mid-income demographics. This equity partnership is a testament to our strong systems and processes, scalable business model and focus on environment sustainability. Talking about sustainability, we are also pleased to share that Sunteck Realty has received 5-star rating and has been ranked third in Asia-Pacific Diversified Office and Residential Peer comparison by Global Real Estate Sustainability Benchmark that is GRESB. We have a strong conviction in our business model, and we look forward to a bright future as we continue to expand our horizons in a financially prudent way. I will now hand over the call to Prashant Chaubey – our CFO for our information on earning performance of H1 FY24. Over to you, Prashant.
Prashant Chaubey: Thank you, sir. Good afternoon, everyone and welcome to the Earnings Call for the 2nd Quarter and First Half of Financial Year 2024. The financial and operational numbers have already been published on the stock exchanges. I believe all of you must have gone through the same.
Let me give you some of the brief highlights of the financial performance. Our presales stood at Rs. 395 crores and collections stood at Rs. 214 crores for the 2nd Quarter ended FY2024 and I am also happy to share that our presales and collections CAGR since FY21 has increased in tandem to 25% and 27% respectively.
Our operating cash flow surplus has also surpassed Rs. 1,000 crores in the last 3.5 years and for the first half ended FY24 as the Company follows project completion method of accounting, our revenue reported was Rs. 95 crores with a core EBITDA margin of 43%.
With this, we can now open the forum for questions from the participants. Thank you very much.
Moderator: Thank you very much. We will now begin the question-and-answer session. We have a first question from the line of Sarang Gupta from Briarwood Chase Management LLC. Please go ahead.
Sarang Gupta: Congratulations on the strong quarter. I want you to touch in on the deal with IFC because it is good to see a vote of confidence on the Company and corporate governance from such a well-

reputed institution. Can you just give us more background on this deal, like how long have you been working on this or talking to IFC? What type of due diligence they did? And why did they choose Sunteck?
Kamal Khetan: Thanks, Sarang for the question. So, we have been obviously working on this deal for almost more than 1.5 years, it is almost 2 years I would say and obviously, IFC being very prudent in their due diligence, so they have done all the due diligence looking financial, technical and economic, all that due diligence and in fact they visited multiple times to Mumbai from US and they met each and every person in the senior management team, I would say and to that extent, I think they visited each and every construction site also and seen the quality and safety measures taken while doing the in-house construction and I could say that they were really very much impressed. And that is how it was done. Now taking to the transaction with IFC, this is an equity transaction, pure equity transaction, this platform will focus on building high quality large scale green housing projects targeting the mid-income demographics. This platform will invest in new project acquisition, as we do not require any capital investment in our any existing projects. This

highlights, in fact, once again I will say the strong brand recognition, sound financial and strong systems and processes in-house construction capabilities of Sunteck. We expect definitely this platform to be substantially GDV accretive for Sunteck.
Saran

g Gupta: And then just you mentioned GDV accretive, like how big could this platform be? And kinds of what time horizon are you looking at deploying this and then harvesting the returns from this platform?
Kamal Khetan: So, the size of the platform initially what we have decided is Rs. 750 crores and obviously this can add to another Rs. 8,000 crores to Rs. 10,000 crores of GDV accretion and over a period of let us say 2 to 3 years what we are looking at.
Moderator: Thank you. We have our next question from the line of Puneet Gulati from HSBC. Please go ahead.
Puneet Gulati: Just continuing on this IFC deal once again. Can you give us a really a broad boundary that IFC has laid down in terms of what is the ticket size that would be allowed to build in , in terms of units because I presume it is more affordable housing? And second, what all geographies would you be able to operate in?
Kamal Khetan: So, Puneet, one thing I want to clear, it is not only affordable because in the launch itself, we can go a minimum ticket size of Rs. 1.5 crores, so which is like mid-income focused and it is more of a sustainable project, so if you see in every project whether it is IFC is a partner or not, so we are taking too much care and attention about ESG and that is obviously also has impressed them to invest in Sunteck platform the joint platform, so we are focused on the projects to be environment sustainable, as well as obviously we are looking at mid-income segment more of deploying this money with the ticket size should be close to Rs. 1.5 crores.

Puneet Gulati: So, that is a decent ticket, right? And in terms of ESG are there some specific costs that you would have to incur to or initiative you have to do in the ESG front to meet the investment criteria?
Kamal Khetan: So, we are already doing, that is what I told in my opening remarks that we are ranked up third in the Asia-Pacific and that is a miniscule cost. I feel it is more an effort, but we don't mind spending that cost. We don't want to save that cost to compromise ESG.
Puneet Gulati: And secondly, if you can talk a bit about any price increases that you have taken in any of your projects this quarter?
Kamal Khetan: So, I would not say any substantial increase in prices across most of the project, but in certain projects I won't be able to give you anything specific right now, but at places like especially Sky Park and ODC, we have been able to increase some price rise even in this quarter.
Puneet Gulati: Lastly, if I may, the collections were down Q-on-Q, can you help us understand the technicality behind it?
Prashant Chaubey: So, Puneet, our receivables from sales booked is in around Rs. 2,250 crores, which will come as we progress with the construction of our projects. So, this time what you see the collection is down is not a function of anything else. You will see those collections coming through in the coming quarters.
Puneet Gulati: It is just the sales basically got done towards the last part of the quarters.
Prashant Chaubey: Yes.
Moderator: Thank you. We have a next question from the line of Abhinav Sinha from Jefferies India. Please go ahead.
Abhinav Sinha: Congratulations on the IFC deal, just going back to the initial questions there, you have already talked about how much you can add on GDV, so can you guide us when does this platform sort of become operational and where do we see sales say in the next 3-4 years?
Kamal Khetan: So, I will answer this in 2-3 parts like Sunteck is obviously you know we have been always well timed in our capital allocation while doing business development acquisitions especially, so we feel this is a good time to do acquisitions and business development. So, today, if you see we have a portfolio of 7 large projects which are as good as almost launched with GDV value of close to Rs. 30,000 crores and in next 2 years to 3 ye

ars, I can say irrespective of IFC platform,
we are very confident that we want to grow this portfolio from Rs. 30,000 crores to Rs. 50,000 crores and while doing so, we are ensuring that we have a balanced portfolio across all the segments from uber luxury segment to even the aspirational luxury segment. I think Abhinav, I have answered or if you have any other further questions or anything which you want me to answer.

Abhinav Sinha: Just dwelling a bit on this, with around 300 billion of projects we are doing around, let us say 20 billion of sales, so that is the target for the current year. So, does this become materially say 2X in 3 years or we are looking to continue with the 20% CAGR or 15-20 I mean that is what I was looking for?
Kamal Khetan: So, definitely we will be adding more projects. From the existing projects we can definitely look a growth of close to 15%-20%, but from whatever adding projects that will be additional and if you put everything together then obviously, we look nearly double in close to 3 years to 3.5 years or 4 years, 3 years we should double.
Abhinav Sinha: So, secondly, on P&L, you did mention that we are sort of because of the accounting issues, it is lagging a bit. Now couple of things here, a) on the 2 projects that you have outlined for delivery, so the sales are already done, or we are expecting for example ODC to see more sales to deliver this number? And b) what are the margins we are expecting here broadly?
Kamal Khetan: So, the numbers which I have mentioned to you in my opening remarks, and it is also on the presentation, which is uploaded, the numbers are from the existing current sales, we are not considering any sales till that time. If those sales obviously will come up more sales, then that will take definitely the revenue number to a higher number or on the upper side of the bracket. So, I have given a range which will either surpass the upper range or the lowest, I have given the lowest range also like Rs. 750 crores to Rs. 850 crores for Financial Year '24 which will come from the Sunteck Maxx World Project and Rs. 950 crores to Rs. 1,050 crores which will further go up obviously with the additional sales in the Financial Year 25 and that is from our Sunteck City 4th Avenue ODC Goregaon project and that is about it.
Abhinav Sinha: And what are the margins we are expecting?
Prashant Chaubey: So, if you look in our case study also that we have published with our presentation, you will see that in the Sunteck World project, we are having an operating margin of 30% and going forward we are more bullish on that then the margins will only go up. Similarly, for our ODC project, we have been given an operating margin of 35%, but 4th Avenue is operating at a much higher margin which is close to 40%. So, you will see that the margins will be very strong going forward for both of these projects.
Moderator: Thank you. We have a next question from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.
Pritesh Sheth: First is on again on IFC, just we have dwelling in that a bit, so profit would be 50-50 shared or how is the share? Is there any minimum expectation of equity return by IFC?
Kamal Khetan: So, there is no minimum return expectation. It is a pure equity deal, and they can invest a maximum of up to 50% not more than 50%, but we can give them 25%-30% it has to be mutually agreed. Also, we have a waterfall structure, which definitely gives us a much better return than

what obviously IFC takes. So, it depends on the IRR what they make after certain IRR hits, maximum profit comes to Sunteck and then only the nominal profit goes to them.
Pritesh Sheth: And what is that benchmark IRR, if you can just help us?
Kamal Khetan: The details, I think we will be able to share with you maybe separately, I don't think I will be able to give it here.
Pritesh Sheth: And in terms of the Kalyan launch, which is upcoming, what is the initial size that we have thought about in terms of that launch? Is it a smaller launch or Rs. 1,500 crores, Rs. 2,000 crores kind of launch that we are planning?
Kamal Khetan: So, the first phase of Kalyan which consists of four towers what we are launching means we are not launching the entire first phase, these are four towers, and which will have obviously a revenue potential as you rightly said from Rs. 1,200 crores to approximately Rs. 1,400 crores. Right now, what we are planning to launch is what we have got the approval for 2 towers, and which will have a potential sales of close to Rs. 600 crores.
Pritesh Sheth: So, we will go ahead with the 2 towers launch or we will wait for another 2 towers and launch altogether?
Kamal Khetan: Obviously not. We will obviously go with 2 towers launch Pritesh. Definitely we will go with the 2 towers launch.
Moderator: Thank you. We have our next question from the line of Ashutosh Mittal from Axis Capital. Please go ahead.
Ashutosh Mittal: So, my first question is related to the amounts spent on business development in H1, so of this how much is for towards projects that have not been announced yet or not launched yet?
Prashant Chaubey: If you look at slide 26 of our presentation, you will see that we have spent close to Rs. 64 crores on business development, landowners funding and JDA cost. Out of this, what is happening is the majority of the amount is for our existing JDA projects and some of it is for our new projects. Roughly you can say around Rs. 10 crores to Rs. 15 crores is towards new projects which has not been announced yet and the balance is all for existing projects.

Ashutosh Mittal: And my second question is related to how does the demand pipeline in BKC projects look like? Specifically, if you can give it for Island and how does it look like for Pearl and Isle?
Kamal Khetan: So, this quarter I think in presales number you must have seen we have sold 2 units and I think this is obviously compared to last quarter nothing and the quarter before that there was nothing. So, we are seeing traction building up and we are quite positive that this will continue every quarter-on-quarter. So, we will see incremental sales happening every quarter. Thank you.

Moderator: Thank you. We have our next question from the line of Anupama Prakash Bhootra from Arihant Capital. Please go ahead.
Anupama P. Bhootra: I just want an update about the Sky Park Mira Road contribution in the Q2 sales, I can get an update?
Prashant Chaubey: So, Anupama out of Rs. 395 crores, roughly around Rs. 98 crores came from Sunteck's Sky Park Mira Road in the 2nd Quarter. Sunteck Sky Park, Anupama has been the response for that project for Sunteck has been quite encouraging and we are doing good sales there. Thank you.
Moderator: Thank you. Ladies and gentlemen, that was the last question for today. I would like to hand the conference over to the Chairman and Managing Director, Mr. Khetan for closing comments. Over to you, sir.
Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case any of your queries have been left unanswered, you can get in touch with me or my team. We look forward to your continued support. Thank you once again for joining us.
Moderator: Thank you, members of the management, and thank you all for taking out the time for Sunteck Earnings Call. In case any of your queries have been left unanswered, you can get in touch with the team. We look forward to your continued support. Thank you.

"Sunteck Realty Limited
Q3 FY24 Earnings Conference Call"
January 22, 2024

MANAGEMENT : MR. KAMAL KHETAN – CHAIR MAN AND MANAGING DIRECTOR – SUNTECK REALTY LIMITED
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER – SUNTECK REALTY LIMITED
MR. ABHISHEK SHUKLA – VICE PRESIDENT OF STRATEGY AND INVESTOR RELATIONS – SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to Sunteck Realty's Earnings Conference Call for Q3 FY '24. We have with us today Mr. Kamal Khetan, the Chairman and Managing Director of the company; Mr. Prashant Chaubey, the Chief Financial Officer; and Mr. Abhishek Shukla, the Vice President of S trategy and Investor Relat ions.

Please note this call will be for 30 minutes and for the duration of the conference call , all participant lines will be in the listen -only mode. This conference is being recorded and the transcript for the same may be put up on the website of the com pany. After the management discussion there will be an opportunity for you to ask questions . There is a Q&A session and we request to restrict questions to two per participant. Should you need assistance during th is conference call, please signal an operat or by pressing star and then zero on your touch -tone telephone.

Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call, may not be based on historical information or facts and may be forward -looking statements , including those related to business statements, plans and strategies of the company, its future financial condition and growth prospects. These forward -looking statements are based on the expectations and projections and may involve a number of risks, unc ertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.

I would now like to turn the conference over to Mr. Khetan, the Chairman and Managing Director o f the company. Thank you, and over to you, sir.

Kamal Khetan: A very good afternoon to everyone for joining us today and thank you for taking the time to participate in our company's Earnings Conference Call for the third quarter and 9 months of the finan cial year 2024.

On our operational performance front, we have registered a robust presales of INR 1,237 crores in 9 months of FY '24 as compared to INR 1,066 crores in the same period last year, which is a growth of about 16%. Our cash inflows, including collections, stands strong at INR 940 crores during the same period. This has enabled us to almost become a net debt 0 company by further reducing our total net debt to only INR 49 crores. Our net debt -to-equity ratio now stands at just 0.02x.

Today, we have a robust and diversified pipeline of projects, spanning over 50 million square feet. We have more than doubled our GDV in less than 3 years from INR 13,650 crores in FY '22 to now INR 30,000 crores in FY '24. We expect to maintain the same growth momentum in the coming years by once again doubling our GDV from INR 30,000 crores to INR 60,000 crores in less than 3 years. We have a strong foothold in MMR market and we are taking the maximum benefit of this deep consolidati on in the industry.

Now we are also expanding our annuity income business by creating the commercial portfolio at 2 key business districts of MMR, namely , Bandra -Kurla Complex and Oshiwara District Center, with total potential capital value of INR 5,000 crores. As we now already have completed 2 commercial projects at BKC Junction, namely , Sunteck Icon and Sunteck BKC51, and both

these commercial projects are fully completed and which are waiting -- one of which is already leased out, and second is almost we will be leasing out in this quarter.

With respect -- and both these 2 rental assets is fetching average return of 30% on the invested capital.

With respect to revenue recognition in the financial statement, I would like to reiterate today that per In d AS, the Indian Accounting Standard, the company follows the project completion method and not

the percentage completion method of accounting. Hence, to understand the financials of the company better, it is suggested that one should look at earning numbe r on a yearly basis rather than the quarter -on-quarter basis.

In FY '24, our project Sunteck Maxx World is getting completed. Similarly, in FY '25, we will be completing 4th Avenue, the phase of Sunteck City in Goregaon West. However, to give you a better perspective on the financial performance, we have provided pro forma P&L basis the operating performance that is the profitability of our operation in respect of the presales in the 9 months' period of the current financial year.

As you will observ e, the embedded EBITDA for 9 months FY '24 would be INR436 crores on presales of INR1,237 crores, resulting in an embedded EBITDA margin of 35%. We have been able to achieve this performance with the contribution of our highly experienced and talented

team that we have built at Sunteck over the last decade and support from our trusted investor community and other stakeholders.
I will now hand over the call to Mr. Prashant Chaubey, our CFO, for more information on the earnings performance of 9 months FY '24 . Over to you, Prashant.
Prashant Chaubey: Thank you very much, sir. And good afternoon, everyone, and welcome to the Earnings Call for the third quarter of financial year 2024. The financial and operational numbers have already published on the stock exch anges. I believe all of you must have gone through the same. Let me give you some of the brief highlights of the financial performance.
Our presales stood at INR1,237 crores and INR455 in 9 month of FY '24 and quarter 3 of FY '24 compared to INR1,066 crores and INR396 crores during the same period last financial year.
Our cash inflow stood strong at INR940 crores in 9 months FY'24 and INR438 crores in quarter 3 of FY '24. We have generated an operating cash flow surplus of INR304 crores in 9 mont hs of FY '24. On the P&L front, the company follows Project Completion Method of Accounting and have reported a revenue of INR138 crores and INR42 crores in 9 months of FY '24 and quarter 3 of FY '24, respectively.
With this, we can now open the forum for questions from the participants. Thank you very much.
Moderator: Thank you. We will now begin the question -and-answer session. The first question is from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.
Pritesh Sheth: Yes. Thanks for the opportunity, f irst question is on the presales. So I understand that Kalyan Sunteck Crescent Park was launched this quarter, but I don't see any mention of that project

contributing to in your presales for this quarter. So just wanted to know how has been the response and how much should we expect its contribution from next quarter onwards? That's my first question.
Prashant Chaubey: Hi Pritesh, Prashant this side. So in the quarter gone by, we have launched 1 tower of Kalyan Sunteck Crescent Park at the fa g end of the quarter. And from that, we have done a presales of close to around INR73 crores. And going forward, Pritesh, we are of the opinion that on an annual basis, we'll be able to do close to INR250 crores to INR300 crores of presales from Kalyan eve ry year.
Pritesh Sheth: So this INR73 crores is included in current quarter's number, is it?
Prashant Chaubey: Yes, Pritesh. Yes.
Pritesh Sheth: Okay. Got it. That clarifies . Secondly, on your presales guidance of INR2,000 crores for this, we are roughly INR750-odd crores kind of short of achieving that in Q4. So definitely, we would be launching certain projects. So what are our plan of launches in this quarter? Or do we expect that ongoing inventory, whatever we have, will be taking care of that shortfall that we have ?
Kamal Khetan: Yes, Pritesh, this is Kamal Khetan here. Pritesh, so we are now short of around close t

o INR750
crores for the final quarter. But if you see the last 3, 4 financial years, fourth quarter has been the strongest always for Suntec k in terms of presales, and that we are confident we'll maintain that. And because now there are 6 growth engines after the launch of Kalyan, so the sales what we are doing now continuously, that also will be added on the presales of this quarter of this Kalyan launch. So that is continuous because that is not -- because it was towards the fag end of the quarter.
So, most of the sales have also come in this quarter. So we are confident also we will be launching project -- the third tower of Mira Road, wher e we have almost exhausted our inventory, which we had launched 1 year back. So we see now more demand in that micro market. Plus we are launching 1 new phase in Naigaon. With all these 2 big launches, I think we are confident that we'll be able to achieve INR700 crores to INR750 crores to meet our target of INR2,000 crores of sales.
Pritesh Sheth: Sure, that is helpful. So I have few more questions I will jump back in the queue. Thank you.
Kamal Khetan: Thank you. Pritesh. Thanks
Moderator: Thank you. The next question is from the line of Mohit Agrawal from IIFL. Please go ahead.
Mohit Agrawal: Yes. Thanks for the opportunity, sir. Sir, my first question is on your business development strategy. So in your presentation, you mentioned that you are seeing multiple opportunities available in the distressed and the affordable side. So could you elaborate a bit what are we looking at? Are there any land parcels that you're looking at? Are there any redevelopment projects? So that is my first on the business de velopment.

Kamal Khetan: So Mohit, Kamal Khetan here. So we are confident because there are projects which are already we have -- there is a clear visibility from ongoing deals what we have done, that how we will be making, taking, we are confident that fr om INR30,000 crores to take it to INR60,000 crores. Ongoing -- the already acquired projects like Borivali, which we are confident that we will bring it to the GDV value because we are seeing the clearance happening very soon, which we have not taken into consideration, which was acquired, I think, more than two years back. Now we see that happening again.
We are increasing our size by acquiring adjacent plots in Nepean Sea Road. So there we are -- we will almost double the GDV value in our Nepean Sea Road . Plus, obviously, we are in talks with several -- one or two more projects which are towards South Mumbai, in the Uber Luxury Segment. With all this, we are confident that we will be like for INR30,000 crores another adding in next three years. We are see ing clear visibility for this year INR10,000 crores which will come very easily from the existing and the new projects what we are acquiring.
Mohit Agrawal: So just to understand this, sir, INR10,000 crores GDV from additional area that you are acquiring in Nepean Sea Road and one or two more projects in South Mumbai that you are seeing. Is that a correct assumption?
Kamal Khetan: Yes. And one, we are also talking one in Bandra, which hopefully we'll be announcing all of this very soon, you'll see. And plus a Borivali project, which is already acquired but not added to the GDV value because we were not certain about the approval status. Now we are quite confident that approval will come in the next few months. So we will be adding that also to the GDV value.
Mohit Agrawal: Sir, any GDV or any area in terms of the Bandra project? How big this could be? And like is it Bandra East or West? If you could give some clarity on that?
Kamal Khetan: I would not like to mention this on this call, very frankly.
Mohit Agr awal: Okay, sir. Okay. But no color on the GDV also, right?
Kamal Khetan: No. I can only tell you that it will be more than INR10,000

crores in this year itself -- in one year itself.
Mohit Agrawal: Okay. Understood, sir. And my second question actually wa s on the Borivali project, sir. You mentioned that that project is now moving. So any timeline that you can put? Can it launch within FY'25?
Kamal Khetan: So I can only say -- launching I won't be confident that whether we'll be able launch in FY'25. But w e'll be able to add because as we get the main key approval, which we are expecting very soon, we are confident that we'll add that into our portfolio like into the GDV value in this current -- in the coming financial year, FY'25 -FY'26 -- FY'24 -FY'25.
Mohi t Agrawal: Sure, sir. Sir, that's very helpful. I have some more questions. I'll come back in the queue.
Kamal Khetan: Thank you, Mohit.

Moderator: Thank you. The next question is from the line of Biplab Debbarma from Antique Stock Broking. Please go ahead.
Biplab Debbarma: Thank you. Good afternoon, sir. Thanks for the opportunity. Sir, my first question is on the commercial portfolio that you are building. In that ODC, when will you commence construction of the project? And how will it be funded, sir ? Hello?
Kamal Khetan: Biplab, yes hi. So for the commercial project. Biplab, yes, commercial project, obviously, what we are looking in ODC is the land is already paid for and -- fully paid for, so we don't need any debt on that. And obviously, we don't h ave any debt on the balance sheet. We can easily take the debt. But just to tell you the kind of cash flow which is there from the already presales what is done.
And also, when we are launching the commercial product, we'll start the execution of the comm ercial project in the 5th Avenue of Sunteck City, we will be also launching one or two towers of residential projects in the same 5th Avenue. So those one or two towers will be -- the cash flow from those two towers will be much more than the money require d for the construction cost of the commercial building of the 5th Avenue.
Biplab Debbarma: So can you assume that in FY'25, the construction will commence for commercial projects?
Kamal Khetan: Yes, commercial projects as well as we are looking to -- also in FY'25, we also want to launch one more tower because we are almost now getting depleted with the inventories in ODC. So we will be launching one residential tower also in the same 5th Avenue.
Biplab Debbarma: My second question is, you have six growth e ngines. As the inventory gets depleted, you'll launch a new phase in each of these projects. But in addition to these six growth engines, what would be the launch pipeline? I know ballpark launch pipelined for next one year. I mean, Nepean Sea Road, you ha ve mentioned Borivali and you have mentioned a few projects that is on the anvil. So is there any visibility in new locations? Which are the projects that will be launched?

Kamal Khetan: So new location, right now, I can only tell you that -- see our growt h of CAGR of what we are talking about 25% CAGR growth, which we are confident we will achieve, even we just launch in Nepean Sea Road, one Nepean Sea Road as far as -- if you see the numbers because of the six growth engines already there and the seventh if Nepean Sea Road gets added, we will easily achieve that CAGR. But I think -- let's hope we can launch more projects.
We are trying, obviously. I said in my last question, like we are confident that we will be able to put Borivali in the GDV value. But we'll try our best, but we are not sure whether if we can launch Borivali West or any other project which we are acquiring or acquired -- or already acquired. But here, we are pretty confident about, right now, Nepean Sea Road, which will at least give us a guaranteed growth of 20%, 25% CAGR.
Biplab Debbarma: And sir, one final question.
Moderator: Sorry to interrupt. We request you to please rejoin t

he queue for follow -up questions.

Biplab Debbarma: Okay. Sure.
Moderator: Thank you. The next question is fr om the line of Abhinav Sinha from Jefferies India. Please go ahead.
Abhinav Sinha: Hi. A couple of questions. Firstly, on the BKC, we have seen good movement now for a couple of quarters. So what do you attribute this to? And what can be the sales run rate now from here?
So that's the first question.
Kamal Khetan: So Abhinav, yes. Great. We did -- already last quarter, we did two sales. This quarter, again, we have done two sales from BKC. We are confident that with this momentum, the way that we are seeing the inquiries picking up in BKC -- we are confident that we'll be able to maintain this momentum and this will go on. I think this should deplete our inventory faster than what we were anticipating.
Abhinav Sinha: Great. And these are not in revenue this quarter, right, I understand?
Kamal Khetan: Yes, yes. So this should be coming in the revenue maybe in the fourth quarter or the next year.
It will come into the revenue depending on the registration.
Abhinav Sinha: Sure. And sir, second question is on the debt side. So now we are almost net cash. But I just wanted to check, with a lot of the GDV addition opportunities, what are you comfortable with here in the medium term on the debt addition of year end?
Kamal Khetan: So fortunately, we know -- there is a huge consolidation which has happened into the industry.
If we are getting the projects, Abhinav, without putting the money, or why should I just put the money and just to -- I can even go with the current cash flows, the debt of even 0.25, 0.3, which can be enough money for the company to further growth.
But the cash flows are so strong, fortunately -- if you ask me today, I don't think I -- even if I grow very exponentially and very crazily, I don't need to go about 0.2 -- 0.25 or 0.3. But I don't think we will be able to reach that kind of debt looking at our strong cash flows.
Moderator: Thank you. The next question is from the line of Sarang Gupta from Dwyer Asset Management.
Please go ahead.
Sarang Gupta : Hi, sir. Just a quick question on the GDV addi tion. Like how do you think about the current market conditions and the market -- the real estate markets have been doing well and the listed companies have been -- the stocks have been performing well. Sentiment is well. Do you still think that there are opportunities in this market for you to acquire projects like you have in the past with high margins and returns?
Or do you expect that the newer crop of projects that you're acquiring won't be as attractive as what you have done in the past?
Kamal Khetan: Hi, Sarang. So current market conditions, I would say today, we are actually, if you see, Sarang, we are in stable housing loan rates, at least the rates have been stable now. Comfortable affordability what we look at. Low inventory hangover is now in MMR region. Government

pushed towards the infrastructure growth. And seeing that government is putting too much of money into the infrastructure, especially in MMR market.
Rising income levels of the people, consolidations and preference towards the reputed brands.
With this, we are very, very confident that we should be able to see this growth going forward at least for couple of years. And in terms of acquisitions, very clearly, I think, Sarang, I mentioned in my last few questions as well that we will be g rowing our GDV value from INR30,000 crores to INR60,000 crores in less than three years.

And all this what we are talking, without any compromising in margins and maybe not putting too much money in the projects also. That's why -- so these -- because the consolidation has become -- the last few years, the consolidation has been so strong, I think w

e will take the maximum benefit out of that consolidation.

Sarang Gupta : Very helpful. That was all I have. Thank you.

Kamal Khetan: Thank you, Sarang. Thanks.

Moderator: Thank you. The next question is from the line of Prem Khurana from Anand Rathi. Please go ahead.

Prem Khurana: Yes. Thank you for taking my question sir. Sir my first question was with respect to our partnership with IFC. Would you be able to off er any comments on, have you made any progress on that platform structure? Have you been able to identify anything? And related to this, I mean, this quarter, we sold our treasury shares, which is why the balance sheet has turns sturdier.

So I mean eventua lly, when I look at your balance sheet today and the way it is with your cash flow situation, it does not seem, I mean you need any IFC money to be able to grow. So now when you say and you want to go from 30 to 60, would this 30 additional include IFC pla tform or this is without IFC?

Kamal Khetan: So definitely, we have IFC platform. We don't need money. But since we have signed that with IFC, we would definitely like to do at least as a good partner -- it's a reputable partner, and we look at growing expo nentially. And this is in the low mid -income segment, where we can do acquisition and make our -- we can buy the land and make it asset light. So that is a big strategy. Because we can make money from the -- we can make more better IRR from the upside. So there we don't compromise our return on our equity, and we still make good money out there. Because the margins in lower mid -income segment is, obviously, margins would be lesser than the premium segment and the uber luxury segment. That helps us to maint ain our margins. So that is one of the reason also. And being such a reputable partner, I think we would like to go ahead and put some projects in that platform.

We are exploring already two or three opportunities with IFC. And if that fits into our crite ria, and we are working on that. We will obviously update the market about it as well. We definitely

don't need just the capital for any other further growth, which I already mentioned in my last question as well.

Prem Khurana: Sure. And sir, I mean, event ually, when you -- let' say, you want to launch a new phase at Mira Road or Naigaon, you want to release some more inventory. How easy or difficult is it to be able to kind of configure your new offerings in a manner wherein these new offerings do not comp ete with whatever is already there available? Because I mean when I look at, let's say, locations like Mira Road or Naigaon, these are locations are meant for certain type of offerings, right? So how easy or difficult is it to be able to kind of differenti ate your new offering so that, I mean, the new units do not compete with the existing inventory and you get to have contribution from existing as well as the new launches?

Kamal Khetan: So, Prem, it's actually, in fact, when we have already launched the pr oject in Naigaon, when you are talking about in Naigaon, we have already launched three big, large phases. So -- which was first phase was Sunteck Westworld , second phase was Sunteck Maxx World , and the third phase was Sunteck OneWorld, means we were almos t more than 2,000 apartments in each phase.

So we have a large experience of that micro market, obviously, and we know that market, micro market, what inventory goes faster and what inventory goes slower. So obviously, when we are launching the fourth phas e, obviously, we will be launching the best inventory which will move faster. In fact, that becomes very easier.

It only sometimes becomes difficult when you are launching in some new locations, although we do a lot of research and marketing research and all. What ticket size will sell, what sizes will sell and what will be the fast -moving inventory. But sti

ll -- and when it comes to our location where we are already launched, we have enough data to understand what will sell, what will not sell.

So in cas e of Mira Road and Naigaon, Mira Road already we have done like two tower launches. So we know what inventory has moved faster and what inventory is moving slow. So when we are launching the third tower, it becomes very easy for us to see that which -- the inventory which has moved faster. If we launch that inventory, that will be easier for the market to absorb.

Prem Khurana: Sure, sir. Thank you. I have few more, I'll come back in queue. Thank you and all the very best for future.

Kamal Khetan: Thanks.
Moderator: Thank you. We have the next question from the line of Vasudev from Nuvama. Please go ahead.
Vasudev Ganatra: Thank you for the opportunity, sir. So my first question is on the pricing front. So what kind of price hikes and pricing scenario are we looking at? Like how much have we done so far? And for the new projects, what kind of premiums are we expecting to charge on the existing market prices?
Kamal Khetan: Yes, Vasudev, Kamal Khetan here. The focus of the company is now on the sales volume -- because we have good – already we have good EBITDA margins, prices have already increased

in past quarters. We are now focused towards the sales volume. We are very clear in terms of price increase. We have taken same in line with the market whatever we are selling right now. And the company at current prices is maintaining a healthy margin. So as a result, the focus will be only on more on the volume growth than the prices. And nevertheless, when we see there is an opportunity where we can increase the pric e, we will always look at it. But right now, if you ask me, we are more focused towards driving the volume than the prices.
Vasudev Ganatra: Okay. Got it, sir. And I just have a few bookkeeping questions. If you can help me with unsold inventory in Naigaon , Vasai, and Mira Road? And what is our current receivables and pending cost of construction against that?
Kamal Khetan: Vasudev, I'll connect with you offline and I'll give you this data. Prashant, this side.
Vasudev Ganatra: Okay, sure. No problem. Thank you.
Moderator: Thank you. We have the next question from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.
Pritesh Sheth: Thanks for the follow up. Just two questions. Firstly, since you mentioned that you are looking to acquire an adjacent plot at Nepean Sea Road, will that impact the launch timeline for Nepean Sea Road project?
Kamal Khetan: Yes. Pritesh, we are very clear that whatever we are acquiring, that has nothing to do with the launch timeline for the current project. We will be lau nching our current project irrespective of that second project, but the second project will only add to the value of it but it will not delay the project. That can only increase the number of floors. It will not be a separate building or something.
Pritesh Sheth: Got it. And second, on revenue recognition that is coming up for next quarter for MaxxWorld. You have mentioned about the revenue potential. In terms of margins, would it be like similar 20%-odd PAT margin that we have indicated in our presentation ? And with that, probably we are expecting around Tier 1 what crore of PAT from just that project, add to that whatever loss we have generated in first nine months. So can the PAT be the roughly INR120 -odd crores for the full year FY'24?
Prashant Chaubey: Pritesh, the margin that we have given basis the operational performance, that includes all the segments of the company. If we are talking particularly about Sunteck MaxxWorld, that will give us -- our internal targets for that project is 25% to 30% EBITDA margin. So that is what we work with there and basis that you should do your calculations.
Pritesh Sheth: Got

it. That’s helpful. That’s it from my side. All the best
Prashant Chaubey: Thank you.
Moderator: Thank you. Ladies and gentlemen, we will take th at as the last question. I would now like to hand the conference over to the Chairman and Managing Director, Mr. Khetan for closing comments. Over to you, sir.

Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case if an y of your queries have been left unanswered, you can get in touch with us. We look forward to your continued support. Thank you, once again, for joining us today. And please be safe. Thank you, once again.
Moderator: Thank you for taking out the time for S unteck Earnings Call . You may now disconnect your lines.

"Sunteck Realty Limited
Q3 FY24 Earnings Conference Call"
January 22, 2024

MANAGEMENT : MR. KAMAL KHETAN – CHAIR MAN AND MANAGING DIRECTOR – SUNTECK REALTY LIMITED
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER – SUNTECK REALTY LIMITED
MR. ABHISHEK SHUKLA – VICE PRESIDENT OF STRATEGY AND INVESTOR RELATIONS – SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to Sunteck Realty's Earnings Conference Call for Q3 FY '24. We have with us today Mr. Kamal Khetan, the Chairman and Managing Director of the company; Mr. Prashant Chaubey, the Chief Financial Officer; and Mr. Abhishek Shukla, the Vice President of S trategy and Investor Relat ions.

Please note this call will be for 30 minutes and for the duration of the conference call , all participant lines will be in the listen -only mode. This conference is being recorded and the transcript for the same may be put up on the website of the com pany. After the management discussion there will be an opportunity for you to ask questions . There is a Q&A session and we request to restrict questions to two per participant. Should you need assistance during th is conference call, please signal an operat or by pressing star and then zero on your touch -tone telephone.

Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call, may not be based on historical information or facts and may be forward -looking statements , including those related to business statements, plans and strategies of the company, its future financial condition and growth prospects. These forward -looking statements are based on the expectations and projections and may involve a number of risks, unc ertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.

I would now like to turn the conference over to Mr. Khetan, the Chairman and Managing Director o f the company. Thank you, and over to you, sir.

Kamal Khetan: A very good afternoon to everyone for joining us today and thank you for taking the time to participate in our company's Earnings Conference Call for the third quarter and 9 months of the finan cial year 2024.

On our operational performance front, we have registered a robust presales of INR 1,237 crores in 9 months of FY '24 as compared to INR 1,066 crores in the same period last year, which is a growth of about 16%. Our cash inflows, including collections, stands strong at INR 940 crores during the same period. This has enabled us to almost become a net debt 0 company by further reducing our total net debt to only INR 49 crores. Our net debt -to-equity ratio now stands at just 0.02x.

Today, we have a robust and diversified pipeline of projects, spanning over 50 million square feet. We have more than doubled our GDV in less than 3 years from INR 13,650 crores in FY '22 to now INR 30,000 crores in FY '24. We expect to maintain the same growth momentum in the coming years by once again doubling our GDV from INR 30,000 crores to INR 60,000 crores in less than 3 years. We have a strong foothold in MMR market and we are taking the maximum benefit of this deep consolidati on in the industry.

Now we are also expanding our annuity income business by creating the commercial portfolio at 2 key business districts of MMR, namely , Bandra -Kurla Complex and Oshiwara District Center, with total potential capital value of INR 5,000 crores. As we now already have completed 2 commercial projects at BKC Junction, namely , Sunteck Icon and Sunteck BKC51, and both

these commercial projects are fully completed and which are waiting -- one of which is already leased out, and second is almost we will be leasing out in this quarter.

With respect -- and both these 2 rental assets is fetching average return of 30% on the invested capital.

With respect to revenue recognition in the financial statement, I would like to reiterate today that per In d AS, the Indian Accounting Standard, the company follows the project completion method and not

the percentage completion method of accounting. Hence, to understand the financials of the company better, it is suggested that one should look at earning numbe r on a yearly basis rather than the quarter -on-quarter basis.

In FY '24, our project Sunteck Maxx World is getting completed. Similarly, in FY '25, we will be completing 4th Avenue, the phase of Sunteck City in Goregaon West. However, to give you a better perspective on the financial performance, we have provided pro forma P&L basis the operating performance that is the profitability of our operation in respect of the presales in the 9 months' period of the current financial year.

As you will observ e, the embedded EBITDA for 9 months FY '24 would be INR436 crores on presales of INR1,237 crores, resulting in an embedded EBITDA margin of 35%. We have been able to achieve this performance with the contribution of our highly experienced and talented team that we have built at Sunteck over the last decade and support from our trusted investor community and other stakeholders.

I will now hand over the call to Mr. Prashant Chaubey, our CFO, for more information on the earnings performance of 9 months FY '24 . Over to you, Prashant.

Prashant Chaubey: Thank you very much, sir. And good afternoon, everyone, and welcome to the Earnings Call for the third quarter of financial year 2024. The financial and operational numbers have already published on the stock exch anges. I believe all of you must have gone through the same. Let me give you some of the brief highlights of the financial performance.

Our presales stood at INR1,237 crores and INR455 in 9 month of FY '24 and quarter 3 of FY '24 compared to INR1,066 crores and INR396 crores during the same period last financial year. Our cash inflow stood strong at INR940 crores in 9 months FY'24 and INR438 crores in quarter 3 of FY '24. We have generated an operating cash flow surplus of INR304 crores in 9 mont hs of FY '24. On the P&L front, the company follows Project Completion Method of Accounting and have reported a revenue of INR138 crores and INR42 crores in 9 months of FY '24 and quarter 3 of FY '24, respectively.

With this, we can now open the forum for questions from the participants. Thank you very much.

Moderator: Thank you. We will now begin the question -and-answer session. The first question is from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.

Pritesh Sheth: Yes. Thanks for the opportunity, f irst question is on the presales. So I understand that Kalyan Sunteck Crescent Park was launched this quarter, but I don't see any mention of that project

contributing to in your presales for this quarter. So just wanted to know how has been the response and how much should we expect its contribution from next quarter onwards? That's my first question.

Prashant Chaubey: Hi Pritesh, Prashant this side. So in the quarter gone by, we have launched 1 tower of Kalyan Sunteck Crescent Park at the fa g end of the quarter. And from that, we have done a presales of close to around INR73 crores. And going forward, Pritesh, we are of the opinion that on an annual basis, we'll be able to do close to INR250 crores to INR300 crores of presales from Kalyan eve ry year.

Pritesh Sheth: So this INR73 crores is included in current quarter's number, is it?

Prashant Chaubey: Yes, Pritesh. Yes.

Pritesh Sheth: Okay. Got it. That clarifies . Secondly, on your presales guidance of INR2,000 crores for this, we are roughly INR750-odd crores kind of short of achieving that in Q4. So definitely, we would be launching certain projects. So what are our plan of launches in this quarter? Or do we expect that ongoing inventory, whatever we have, will be taking care of that shortfall that we have ?

Kamal Khetan: Yes, Pritesh, this is Kamal Khetan here. Pritesh, so we are now short of around close t

o INR750
crores for the final quarter. But if you see the last 3, 4 financial years, fourth quarter has been the strongest always for Suntec k in terms of presales, and that we are confident we'll maintain that. And because now there are 6 growth engines after the launch of Kalyan, so the sales what we are doing now continuously, that also will be added on the presales of this quarter of this Kalyan launch. So that is continuous because that is not -- because it was towards the fag end of the quarter.

So, most of the sales have also come in this quarter. So we are confident also we will be launching project -- the third tower of Mira Road, wher e we have almost exhausted our inventory, which we had launched 1 year back. So we see now more demand in that micro market. Plus we are launching 1 new phase in Naigaon. With all these 2 big launches, I think we are confident that we'll be able to achieve INR700 crores to INR750 crores to meet our target of INR2,000 crores of sales.

Pritesh Sheth: Sure, that is helpful. So I have few more questions I will jump back in the queue. Thank you.

Kamal Khetan: Thank you. Pritesh. Thanks

Moderator: Thank you. The next question is from the line of Mohit Agrawal from IIFL. Please go ahead.

Mohit Agrawal: Yes. Thanks for the opportunity, sir. Sir, my first question is on your business development strategy. So in your presentation, you mentioned that you are seeing multiple opportunities available in the distressed and the affordable side. So could you elaborate a bit what are we looking at? Are there any land parcels that you're looking at? Are there any redevelopment projects? So that is my first on the business de velopment.

Kamal Khetan: So Mohit, Kamal Khetan here. So we are confident because there are projects which are already we have -- there is a clear visibility from ongoing deals what we have done, that how we will be making, taking, we are confident that fr om INR30,000 crores to take it to INR60,000 crores. Ongoing -- the already acquired projects like Borivali, which we are confident that we will bring it to the GDV value because we are seeing the clearance happening very soon, which we have not taken into consideration, which was acquired, I think, more than two years back. Now we see that happening again.
We are increasing our size by acquiring adjacent plots in Nepean Sea Road. So there we are -- we will almost double the GDV value in our Nepean Sea Road . Plus, obviously, we are in talks with several -- one or two more projects which are towards South Mumbai, in the Uber Luxury Segment. With all this, we are confident that we will be like for INR30,000 crores another adding in next three years. We are see ing clear visibility for this year INR10,000 crores which will come very easily from the existing and the new projects what we are acquiring.
Mohit Agrawal: So just to understand this, sir, INR10,000 crores GDV from additional area that you are acquiring in Nepean Sea Road and one or two more projects in South Mumbai that you are seeing. Is that a correct assumption?
Kamal Khetan: Yes. And one, we are also talking one in Bandra, which hopefully we'll be announcing all of this very soon, you'll see. And plus a Borivali project, which is already acquired but not added to the GDV value because we were not certain about the approval status. Now we are quite confident that approval will come in the next few months. So we will be adding that also to the GDV value.
Mohit Agrawal: Sir, any GDV or any area in terms of the Bandra project? How big this could be? And like is it Bandra East or West? If you could give some clarity on that?
Kamal Khetan: I would not like to mention this on this call, very frankly.
Mohit Agr awal: Okay, sir. Okay. But no color on the GDV also, right?
Kamal Khetan: No. I can only tell you that it will be more than INR10,000

crores in this year itself -- in one year
itself.
Mohit Agrawal: Okay. Understood, sir. And my second question actually wa s on the Borivali project, sir. You mentioned that that project is now moving. So any timeline that you can put? Can it launch within FY'25?
Kamal Khetan: So I can only say -- launching I won't be confident that whether we'll be able launch in FY'25. But w e'll be able to add because as we get the main key approval, which we are expecting very soon, we are confident that we'll add that into our portfolio like into the GDV value in this current -- in the coming financial year, FY'25 -FY'26 -- FY'24 -FY'25.
Mohi t Agrawal: Sure, sir. Sir, that's very helpful. I have some more questions. I'll come back in the queue.
Kamal Khetan: Thank you, Mohit.

Moderator: Thank you. The next question is from the line of Biplab Debbarma from Antique Stock Broking. Please go ahead.
Biplab Debbarma: Thank you. Good afternoon, sir. Thanks for the opportunity. Sir, my first question is on the commercial portfolio that you are building. In that ODC, when will you commence construction of the project? And how will it be funded, sir ? Hello?
Kamal Khetan: Biplab, yes hi. So for the commercial project. Biplab, yes, commercial project, obviously, what we are looking in ODC is the land is already paid for and -- fully paid for, so we don't need any debt on that. And obviously, we don't h ave any debt on the balance sheet. We can easily take the debt. But just to tell you the kind of cash flow which is there from the already presales what is done.
And also, when we are launching the commercial product, we'll start the execution of the comm ercial project in the 5th Avenue of Sunteck City, we will be also launching one or two towers of residential projects in the same 5th Avenue. So those one or two towers will be -- the cash flow from those two towers will be much more than the money require d for the construction cost of the commercial building of the 5th Avenue.
Biplab Debbarma: So can you assume that in FY'25, the construction will commence for commercial projects?
Kamal Khetan: Yes, commercial projects as well as we are looking to -- also in FY'25, we also want to launch one more tower because we are almost now getting depleted with the inventories in ODC. So we will be launching one residential tower also in the same 5th Avenue.
Biplab Debbarma: My second question is, you have six growth e ngines. As the inventory gets depleted, you'll launch a new phase in each of these projects. But in addition to these six growth engines, what would be the launch pipeline? I know ballpark launch pipelined for next one year. I mean, Nepean Sea Road, you ha ve mentioned Borivali and you have mentioned a few projects that is on the anvil. So is there any visibility in new locations? Which are the projects that will be launched?

Kamal Khetan: So new location, right now, I can only tell you that -- see our growt h of CAGR of what we are talking about 25% CAGR growth, which we are confident we will achieve, even we just launch in Nepean Sea Road, one Nepean Sea Road as far as -- if you see the numbers because of the six growth engines already there and the seventh if Nepean Sea Road gets added, we will easily achieve that CAGR. But I think -- let's hope we can launch more projects.
We are trying, obviously. I said in my last question, like we are confident that we will be able to put Borivali in the GDV value. But we'll try our best, but we are not sure whether if we can launch Borivali West or any other project which we are acquiring or acquired -- or already acquired. But here, we are pretty confident about, right now, Nepean Sea Road, which will at least give us a guaranteed growth of 20%, 25% CAGR.
Biplab Debbarma: And sir, one final question.
Moderator: Sorry to interrupt. We request you to please rejoin t

he queue for follow -up questions.

Biplab Debbarma: Okay. Sure.
Moderator: Thank you. The next question is fr om the line of Abhinav Sinha from Jefferies India. Please go ahead.
Abhinav Sinha: Hi. A couple of questions. Firstly, on the BKC, we have seen good movement now for a couple of quarters. So what do you attribute this to? And what can be the sales run rate now from here?
So that's the first question.
Kamal Khetan: So Abhinav, yes. Great. We did -- already last quarter, we did two sales. This quarter, again, we have done two sales from BKC. We are confident that with this momentum, the way that we are seeing the inquiries picking up in BKC -- we are confident that we'll be able to maintain this momentum and this will go on. I think this should deplete our inventory faster than what we were anticipating.
Abhinav Sinha: Great. And these are not in revenue this quarter, right, I understand?
Kamal Khetan: Yes, yes. So this should be coming in the revenue maybe in the fourth quarter or the next year.
It will come into the revenue depending on the registration.
Abhinav Sinha: Sure. And sir, second question is on the debt side. So now we are almost net cash. But I just wanted to check, with a lot of the GDV addition opportunities, what are you comfortable with here in the medium term on the debt addition of year end?
Kamal Khetan: So fortunately, we know -- there is a huge consolidation which has happened into the industry.
If we are getting the projects, Abhinav, without putting the money, or why should I just put the money and just to -- I can even go with the current cash flows, the debt of even 0.25, 0.3, which can be enough money for the company to further growth.
But the cash flows are so strong, fortunately -- if you ask me today, I don't think I -- even if I grow very exponentially and very crazily, I don't need to go about 0.2 -- 0.25 or 0.3. But I don't think we will be able to reach that kind of debt looking at our strong cash flows.
Moderator: Thank you. The next question is from the line of Sarang Gupta from Dwyer Asset Management.
Please go ahead.
Sarang Gupta : Hi, sir. Just a quick question on the GDV addi tion. Like how do you think about the current market conditions and the market -- the real estate markets have been doing well and the listed companies have been -- the stocks have been performing well. Sentiment is well. Do you still think that there are opportunities in this market for you to acquire projects like you have in the past with high margins and returns?
Or do you expect that the newer crop of projects that you're acquiring won't be as attractive as what you have done in the past?
Kamal Khetan: Hi, Sarang. So current market conditions, I would say today, we are actually, if you see, Sarang, we are in stable housing loan rates, at least the rates have been stable now. Comfortable affordability what we look at. Low inventory hangover is now in MMR region. Government

pushed towards the infrastructure growth. And seeing that government is putting too much of money into the infrastructure, especially in MMR market.
Rising income levels of the people, consolidations and preference towards the reputed brands.
With this, we are very, very confident that we should be able to see this growth going forward at least for couple of years. And in terms of acquisitions, very clearly, I think, Sarang, I mentioned in my last few questions as well that we will be g rowing our GDV value from INR30,000 crores to INR60,000 crores in less than three years.

And all this what we are talking, without any compromising in margins and maybe not putting too much money in the projects also. That's why -- so these -- because the consolidation has become -- the last few years, the consolidation has been so strong, I think w

e will take the maximum benefit out of that consolidation.

Sarang Gupta : Very helpful. That was all I have. Thank you.

Kamal Khetan: Thank you, Sarang. Thanks.

Moderator: Thank you. The next question is from the line of Prem Khurana from Anand Rathi. Please go ahead.

Prem Khurana: Yes. Thank you for taking my question sir. Sir my first question was with respect to our partnership with IFC. Would you be able to off er any comments on, have you made any progress on that platform structure? Have you been able to identify anything? And related to this, I mean, this quarter, we sold our treasury shares, which is why the balance sheet has turns sturdier.

So I mean eventua lly, when I look at your balance sheet today and the way it is with your cash flow situation, it does not seem, I mean you need any IFC money to be able to grow. So now when you say and you want to go from 30 to 60, would this 30 additional include IFC pla tform or this is without IFC?

Kamal Khetan: So definitely, we have IFC platform. We don't need money. But since we have signed that with IFC, we would definitely like to do at least as a good partner -- it's a reputable partner, and we look at growing expo nentially. And this is in the low mid -income segment, where we can do acquisition and make our -- we can buy the land and make it asset light. So that is a big strategy. Because we can make money from the -- we can make more better IRR from the upside. So there we don't compromise our return on our equity, and we still make good money out there. Because the margins in lower mid -income segment is, obviously, margins would be lesser than the premium segment and the uber luxury segment. That helps us to maint ain our margins. So that is one of the reason also. And being such a reputable partner, I think we would like to go ahead and put some projects in that platform.

We are exploring already two or three opportunities with IFC. And if that fits into our crite ria, and we are working on that. We will obviously update the market about it as well. We definitely

don't need just the capital for any other further growth, which I already mentioned in my last question as well.

Prem Khurana: Sure. And sir, I mean, event ually, when you -- let' say, you want to launch a new phase at Mira Road or Naigaon, you want to release some more inventory. How easy or difficult is it to be able to kind of configure your new offerings in a manner wherein these new offerings do not comp ete with whatever is already there available? Because I mean when I look at, let's say, locations like Mira Road or Naigaon, these are locations are meant for certain type of offerings, right? So how easy or difficult is it to be able to kind of differenti ate your new offering so that, I mean, the new units do not compete with the existing inventory and you get to have contribution from existing as well as the new launches?

Kamal Khetan: So, Prem, it's actually, in fact, when we have already launched the pr oject in Naigaon, when you are talking about in Naigaon, we have already launched three big, large phases. So -- which was first phase was Sunteck Westworld , second phase was Sunteck Maxx World , and the third phase was Sunteck OneWorld, means we were almos t more than 2,000 apartments in each phase.

So we have a large experience of that micro market, obviously, and we know that market, micro market, what inventory goes faster and what inventory goes slower. So obviously, when we are launching the fourth phas e, obviously, we will be launching the best inventory which will move faster. In fact, that becomes very easier.

It only sometimes becomes difficult when you are launching in some new locations, although we do a lot of research and marketing research and all. What ticket size will sell, what sizes will sell and what will be the fast -moving inventory. But sti

ll -- and when it comes to our location where we are already launched, we have enough data to understand what will sell, what will not sell.

So in cas e of Mira Road and Naigaon, Mira Road already we have done like two tower launches. So we know what inventory has moved faster and what inventory is moving slow. So when we are launching the third tower, it becomes very easy for us to see that which -- the inventory which has moved faster. If we launch that inventory, that will be easier for the market to absorb.

Prem Khurana: Sure, sir. Thank you. I have few more, I'll come back in queue. Thank you and all the very best for future.

Kamal Khetan: Thanks.
Moderator: Thank you. We have the next question from the line of Vasudev from Nuvama. Please go ahead.
Vasudev Ganatra: Thank you for the opportunity, sir. So my first question is on the pricing front. So what kind of price hikes and pricing scenario are we looking at? Like how much have we done so far? And for the new projects, what kind of premiums are we expecting to charge on the existing market prices?
Kamal Khetan: Yes, Vasudev, Kamal Khetan here. The focus of the company is now on the sales volume -- because we have good – already we have good EBITDA margins, prices have already increased

in past quarters. We are now focused towards the sales volume. We are very clear in terms of price increase. We have taken same in line with the market whatever we are selling right now. And the company at current prices is maintaining a healthy margin. So as a result, the focus will be only on more on the volume growth than the prices. And nevertheless, when we see there is an opportunity where we can increase the pric e, we will always look at it. But right now, if you ask me, we are more focused towards driving the volume than the prices.
Vasudev Ganatra: Okay. Got it, sir. And I just have a few bookkeeping questions. If you can help me with unsold inventory in Naigaon , Vasai, and Mira Road? And what is our current receivables and pending cost of construction against that?
Kamal Khetan: Vasudev, I'll connect with you offline and I'll give you this data. Prashant, this side.
Vasudev Ganatra: Okay, sure. No problem. Thank you.
Moderator: Thank you. We have the next question from the line of Pritesh Sheth from Motilal Oswal. Please go ahead.
Pritesh Sheth: Thanks for the follow up. Just two questions. Firstly, since you mentioned that you are looking to acquire an adjacent plot at Nepean Sea Road, will that impact the launch timeline for Nepean Sea Road project?
Kamal Khetan: Yes. Pritesh, we are very clear that whatever we are acquiring, that has nothing to do with the launch timeline for the current project. We will be lau nching our current project irrespective of that second project, but the second project will only add to the value of it but it will not delay the project. That can only increase the number of floors. It will not be a separate building or something.
Pritesh Sheth: Got it. And second, on revenue recognition that is coming up for next quarter for MaxxWorld. You have mentioned about the revenue potential. In terms of margins, would it be like similar 20%-odd PAT margin that we have indicated in our presentation ? And with that, probably we are expecting around Tier 1 what crore of PAT from just that project, add to that whatever loss we have generated in first nine months. So can the PAT be the roughly INR120 -odd crores for the full year FY'24?
Prashant Chaubey: Pritesh, the margin that we have given basis the operational performance, that includes all the segments of the company. If we are talking particularly about Sunteck MaxxWorld, that will give us -- our internal targets for that project is 25% to 30% EBITDA margin. So that is what we work with there and basis that you should do your calculations.
Pritesh Sheth: Got

it. That’s helpful. That’s it from my side. All the best
Prashant Chaubey: Thank you.

"Sunteck Realty Limited
Q4 FY'24 Earnings Conference Call"
May 31, 2024

MANAGEMENT : MR. KAMAL KHETAN – CHAIR MAN AND MANAGING DIRECTOR – SUNTECK REALTY LIMITED
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER – SUNTECK REALTY LIMITED
MR. ABHISHEK SHUKLA – VICE PRESIDENT OF STRATEGY AND INVESTOR RELATIONS – SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to Sunteck Realty's Earnings Conference Call for Quarter 4 and Full Year FY'24. We have with us today , Mr. Kamal Khetan, the Chairman and Managing Director of the Company; Mr. Prashant Chaubey, the Chief Financia l Officer; and Mr. Abhishek Shukla, the Vice President of Strategy and Investor Relations.
Please note, this call will be for 30 minutes and for the duration of the conference call, all participant lines will be in the listen -only mode. This conference is being recorded and the transcript for the same may be put up on the website of the Company. After the management 's discussion , there will be an opportunity for you to ask questions. There is a Q&A session and we request to restrict questions to two per pa rticipant. Should you need assistance during the conference call, please signal an operator by pressing star then zero on your touchtone phone.
Before I hand the conference over to the management, I would like to remind you that certain statements made du ring the course of this call may not be based on historical information or facts and may be forward -looking statements, including those related to business statements, plans and strategies of the Company, its future financial condition and growth prospects . These forward -looking statements are based on the expectations and projections and may involve a number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggeste d by such statements.
I would now like to turn the conference over to Mr. Khetan, the Chairman and Managing Director of the Company. Thank you, and over to you, sir.
Kamal Khetan: A very good afternoon to everyone for joining us today and thank you for ta king the time to participate in our Company's Earnings Conference Call for the Fourth Quarter and the Financial Year 2024.
We had a decent year on presales growth and another strong year on cash flow generation, which has been the main focus of the Company always. This has led to Sunteck achieving net debt zero as at the end of FY'24, yet again demonstrating our financial prudence. Gross debt is down 58% since FY'22 and stands at just INR295 crores with a gross debt to equity ratio at 0.09.
We believe we have a strong and liquid balance sheet and this gears up to do more work.
Inventory month at our under -construction projects from the area offered for sale stands as low as eight months, which we believe is amongst the lowest in the industry. With existing projects completing, we have geared up to release more area for sale in our large -scale projects across Goregaon West, Mira Road, Naigaon and Vasai. We are also in advanced planning stage for new launches in South Mumbai, which is Nepean Sea Road and Bandstand , Bandra West.
Both offerings are of GDV value, which is more than INR3,000 crores. The sales momentum at our BKC inventory has picked up in FY'24 , as we sold last year INR245 crore s worth of stock versus only INR203 crores so ld in the previous three years all put together. With this momentum across projects, we are geared up to achieve a presales growth of at least 30% -35% in FY'25 and a higher growth of operating cash flow.

On adding new projects, we are in discussions for adding projects in Mumbai City, especially in Western suburbs and more in South Mumbai. As communicated earlier, we have embarked on the ambitious yet achievable roadmap of doubling our GDV, which is gross development value, from INR30,000 crore s to INR60, 000 crore s in the coming years.

Our confidence to achieve this stems from our strong foothold in the market and our ability to capitalize on the deep consolidation within the industry. In the past, t

hrough meticulous planning and execution, we have seen o ur GDV double in less than three years till end of FY'24.
On the annuity front, both our marquee properties around BKC are now fully leased out with long-term lease signed. We have also moved ahead on planning for our commercial portfolio at Oshiwara Dist rict Center at Goregaon West. We will be able to confirm the commencement plans on this very soon.
I will now hand over the call to Mr. Prashant Chaubey, our CFO, for more information on earnings performance of Q4 and full year FY'24. Over to you, Prashant.
Prashant Chaubey: Thank you, sir, and good afternoon , everyone, and welcome to the earnings call for the fourth quarter and full year of financial year 2024. The financial and operational numbers have already been published on the stock exchanges. I believe all of you must have gone through the same.
Some of the brief highlights of the finan cial performance are as follows .
We sold INR1,915 crores worth of area in FY'24, which is a 20% growth over FY'23.
Cash in flows, including collections for the full year of FY'24, stood at INR1,236 crores, resulting in our net cash flow surplus during the same time period of INR484 crores. The cash flow yield stood at 21%.
In Quarter 4 FY'24, we recognized some revenue from Maxx World as we received Occupation Certificate and started handing over pos sessions and BKC projects. We have recognized approx INR284 crores from Naigaon, and the project level margin stands at 30%.
We are on track to complete Sunteck City 4th Avenue project in FY'25 and due to better realizations , we expect to record higher EBITDA margins in this project from the revenue recognition. We expect to see a strong jump in profitability as well as margins in FY'25. And finally, I'm happy -- I'm pleased to report that the long -term credit rating of Sunteck has been upgraded from AA - to AA with a stable outlook.
Thank you and with this, we open the floor for questions.
Moderator: Thank you very much, sir . We will now begin the question -and-answer session. The first question is from the line of Kunal Lakhan from CLSA.
Kunal Lakhan: Sir, my first question is on new launches for FY'25. You did said that in Nepean Sea Road and Bandstand something that will get launched. Bu t are these the only 2 new launches in FY'25 or will there be more?

Kamal Khetan: So launch pipeline, first, you have to understand -- Q1 will be, obviously, what we are talking is mostly sustenance sales from all our 6, 7 projects, which are already launc hed and they are there.
Q2, we are targeting the new phase launches of Mira Road and new phase launching of Naigaon.
And in Q3, we are looking to launch a new phase launch, which is 5th Avenue in ODC, which is Goregaon West. And by the year -end, we will b e -- obviously, we are trying to get ready for the launch of our South Mumbai project.
You need to also understand we also have sust enance sales, Kunal, at Sunteck Crescent Park, which is Kalyan and Sunteck Beach Residences, Vasai, where we are obviously marketing also -- all these projects are also obviously there.
Kunal Lakhan: Sure. Understood. But in the past, when we have seen your sales really do very well is generally when we have seen your new greenfield launches come through. So in terms of greenf ield launches, Nepean Sea Road is the only -- and of course, like I think 5th Avenue, seems like the 2 launches, which are going to be large ones.
Kamal Khetan: And obviously, the Mira Road, the new tower, because we have already got a best response in Mira Road Tower 1. When we launched second time, we did exactly something similar sales in Tower 2 as well. And now when we launch Tower 3, I'm confident we will do a similar sales in Tower 3 also.
Each tower is as good as 1 phase. And plus Naigaon is almost li

ke we'll be launching more than 1 million square feet. And always, if you see Naigaon, whenever we have launched, we have sold close to INR300 crores to INR500 crores in each launch in the past every time when we launched.
Kunal Lakhan: Sure. Understood. My second question was on the enabling resolution that you have taken for raising up to INR1,500 crores of NCDs and about INR750 crores of equity. Do you intend to execute this or raise this kind of money or is it just an enabling resolut ion?
Kamal Khetan: Yes. You're right. So you know our net debt is a cash surplus of INR8 crores this year. Obviously, we don't want this. But as a practice, we have been taking this for the years from last

few years that this enabling resolution is always there. But obviously, we don't plan to raise any
equity or increase the debt, we are already net debt positive.
Moderator: The next question is from the line of Pritesh Sheth from Motilal Oswal.
Pritesh Sheth: First is on the cash flows that we generated t his year roughly INR400 crores of net cash flow...
Moderator: I'm sorry to interrupt, there is an echo on the line, it's difficult to understand what you're
speaking. May I request you to use your handset?
Pritesh Sheth: Sir, just on the cash flow, you gen erated INR400 crores of surplus cash flows post capex and
obviously, next year, we'll see another increase on that number. How do you intend to spend all
these cash flows that you're getting? Obviously, you have cleared out on intentions on doing

more busi ness development. But any clarity in terms of pipeline of projects that you might
acquire this year would be helpful .
Kamal Khetan: So thanks, Pritesh. So Pritesh, obviously, we have been doing more of JDA now. Obviously,
we'll treat JDA as well as some bu yout, but without compromising on IRR and our returns, we
are very clear. Plus, we feel now with leasing out these 2 commercial towers on the junctions of
BKC. On our investment, we are making like a return of 30% return on our investments ROI.
And once we start the ODC 1 million square feet close to a commercial property, and we are
looking to start 1 more property somewhere in for commercial. So we are well gearing ourselves
to deploy this, all this strong cash flow, which we are seeing -- which will be coming over the
next few quarters to either put it in business development, obviously, again, at the cost of
repetition without compromising on our returns.
And also, we will be investing obviously more into the commercial property where we can make
like a similar return what we are doing in our existing Sunteck Icon and Sunteck BKC 51, the 2
properties, which we leased out for 29 years on the junctions of BKC .
Pritesh Sheth: Sure. And on business development, we will surely see some transactions getting closed out this
year? Or we are -- since we have so much of projects anyways in the pipeline, it would be an
opportunistic transaction for us?
Kamal Khetan: No. So Pritesh, we are aggressively looking for more projects because looking at such strong
cash flows. We have enough on our plate, but we want to grow. And most likely, we would love
to grow more than 30%, 40% -- 30%, 35% what we are claiming right now, and we are gearing
ourselves towards that.
Pritesh Sheth: And secondly, on the revenue recognition. So I think there's just really partial revenue, as you
have mentioned, has got recognized as we progress on possession for Maxx World, and we will
have Sun teck 4th Avenue getting completed this year, overall how we see revenue recognition
in FY'25 in terms of absolute numbers, if you can guide us on that?
Prashant Chaubey: Pritesh, Prashant here, we have already elaborated in our opening remarks, in FY'25,
we expect Sunteck City 4th Avenue to start getting recognized and the Sunteck Maxx World
project also will be part

ially getting recognized in the FY'25. So overall, FY'25 numbers are
looking quite strong, but it will be difficult to give any guidance on that. Over and above that,
you will have BKC sales as well, which will come through. So that's why we are quite confident
of having a good revenue recognition in FY'25 as well.
Pritesh Sheth: If you can just quantify the total potenti al, obviously, I can understand, we will obviously
recognize once possession starts, but just the potential between the 2, what is left in Maxx World
and what is the total potential at Sunteck 4th Avenue?
Prashant Chaubey: So Pritesh, again, I cannot quantify the number, but definitely can assure you that this number
will be much, much bigger than the FY'24 number.
Moderator: The next question is from the line of Biplab Debbarma from Antique Stock Broking .

Biplab Debbarma: Good afternoon Sir. So my fir st question is on Nepean Sea Road project. Sir, recently, I visited
your Nepean Sea Road project. It's a very -- it's an excellent land parcel. So sir, where are we at
this project? What is the status of the project? I understand you will launch it by Q4. But
currently, what is the status of this project in terms of the approval or any other processes?
Kamal Khetan: So Biplab, first thing I want to clarify that we are definitely looking to launch towards Q4.
It may go to Q1 of FY'26. I don't promise you that, but I can only tell you that project is -- we
have almost vacated everybody, and we are in the process of getting all the approvals.
And without irrespective of this project coming or not coming, we are very clear that we will
make minimum 30% to 35% presales growth and plus -- and we have discussed on the revenue

already.
Biplab Debbarma: Okay. That's g reat. And sir, in the business development front within MMR, what are the locations you are looking at? And I mean, just trying to understand, w ould you be looking at a project with GDV of 600 ballpark number, typical ticket size or you have some target like I would be looking at INR2,000 crores GDV, INR5,000 crores? Is there any ball -- any typical ticket size of GDV projects that you are looking at?
Kamal Khetan: You know, Biplab, that we look at only large projects, even when we were doing more projects in MMR, all our projects are very large, including if you see, when we look at South Mumbai, Nepean Sea Road, which is more than like INR2,500 crores, INR3,000 crores almost to today's value, it is more than INR3,000 crores of GDV value.
So what projects right now, we are looking more projects, not in MMR, I would specify that it is more in the MCGM li mits. Mumbai Municipal Corporation 's limit and more towards South Mumbai and these locations. And we are quite confident that we -- in each project, we don't want to do very small, small projects. We are looking at sizable projects, and you will see some good news coming in FY'25, for sure.
Biplab Debbarma: That's great. And my final questions are on the launches, the new phase launches that you have mentioned, sir, Mira Road, Naigaon, ODC phases. Basically, what would be the GDV of these 3 phases, INR1,000 crores - INR2,000 crores?
Kamal Khetan: So if you are talking about Mira Road, Naigaon, Goregaon, all put together, the GDV value of these projects, all 3 put together will be more than INR4,000 crores - INR5,000 crores. So these stages put together. But we are talking -- just to give you a clarification, we are talking a sizable Goregaon, which is Avenue 5, which will be close to 1 million square feet, which itself is more close to INR3,000 crores of GDV value.
And when we talk about Naigaon , 1 million square feet, which is again close to INR2,000 crores which is almost like -- so like Sunteck City, the GDV value will be more than INR2,500 crores.
Sky Park, ag

ain, what we are launching, we'll be launching 1 more tower, which will be the GDV v alue close to INR800 crores. Sunteck World, which is Naigaon, which is more than close to INR1,000 crores.

So we have enough in the pipeline plus we have the sustenance plus obviously, we are looking forward to launch as soon as possible the Nepean Sea R oad as well. But irrespective of -- let me give this at the cost of repetition . Irrespective of Nepean Sea Road, we are very confident we'll grow minimum 35% to 40% -- 30% to 35% in our presales number.
Moderator: The next question is from the line of Vasu dev from Nuvama.
Vasudev: Thank you for the opportunity, sir and congratulations on good set of numbers. So while most of my questions are answered, just 1 thing. What would be your thoughts on the Borivali launch. And just to confirm that you said Bandsta nd also, are we looking to launch in Q4 of FY'25 or could it slip to FY'26?
Kamal Khetan: So definitely, we are not talking about Ban dstand right now, but we are looking to launch every project as soon as possible. We want to give top conservative number and commit less and deliver more. That will be our endeavor. That's what we want to do. And plus, obviously, you have asked from Bandstand and then the Borivali. So the Borivali obviously, we -- I don't know whether you are aware that was in a special development zone, SDZ. And government has come up with a policy for special development zone. So now we see that project getting fructifying that project, and we are working towards planning and other things. and I think very soon, we'll b e able to give you good news on that as well. But we can not promise that it will be in FY'25 or worst case obviously FY'26. We are talking about only those projects where we are 100% confident, and we are very near to the approvals.
Vasudev: Okay, sir. An d can I get the inventory numbers for ODC, Naigaon, Vasai and Mira Road?
Kamal Khetan: Yes, Prashant?
Prashant Chaubey: So Vasudev, Prashant this side. So the inventory numbers, the ready -to-move -in inventory is close to around INR1,500 crores to INR1,600 crores and the ongoing projects have an inventory of around INR1,500 crores.
Moderator: The next question is from the line of Riddhi from Arihant Capital.
Abhishek Jain : This is Abhishek Jain . I have 2 questions. Can you let me know what is our thoug ht process of capital allocation of we have got an approval for INR2,250 crores of fundraising, where exactly we are going to do that? And what will be the project s which we are online because as most of the projects which we are doing right now is basical ly joint lending only right now, co-development only , so can you share some thought process on the same? Also, the second question is on what is your thought process on Nepean Sea Road , when is the timeline to -- when

we are planning to launch that?
Kamal Khetan: So to answer to your first question, I think we already answered this question that this is just an enabling resolution. This is just an enabling resolution like every year what we take. Obviously, we are not inte rested in raising any funds. I believe you were not part of the earlier Q&A round because this question has already been answered. And I think your second question about Nepean Sea Road , I think I've already answered that as well. And if you want, I'll, at the cost of repetition, I'll answer once again.

Moderator: We'll take the next question from the line of Prem Khurana from Anand Rathi Shares & Stock Broker.
Prem Khurana: Sir, when I look at our presentation and what I observe is Uber Luxury seems to hav e picked up, I mean fairly well, for us this year versus last year, INR76 crores to almost around INR250 crores. What w ould you attribute this

jump to? I mean, has there been any change in the way we've been approaching sales in Uber Luxury now?
And where do you see this number next year in terms of trend, not necessarily the exact number, but in terms of trend? I mean do you see this to move up substantially or it will move up in line with your blended growth guidance that you shared with us?
Kamal Khetan : So Prem, so what we are talking about is Luxury obviously is doing sales much better than -- and faster than the sales of any mid -segment or we are seeing all of us are observing that sales of Uber Luxury segment is faster than the mid -income segment or the affordable segment.
So we are all geared up towards that. That's why we want to launch even the Nepean Sea Road as early as possible. As I mentioned in my opening remarks that if you see BKC, in last year -- this year, we sold an inventory of close to INR245 crores versus INR203 crores sold in the previous 3 years put together. So what we sold in previous 3 years, we sold in the last year, which was more than that. And we see this momentum to continue and you will see better sales, in fact, in FY'26 th an what we have seen in FY'25.
Prem Khurana: Sure. No sir, the idea was to try and understand, I mean, as you were rightly said in the last 3 years, I mean you did almost around INR200 crores business ending in this year, we've done INR245 crores, so have you changed anything in the way we approach sales because I mean the demand for Luxury has been there for almost 2, 3 years. After COVID, we saw -- the first segment that revived was the Luxury. But for some reason, for us it took some time to be able to pick up. So this year, since it has been extraordinary, has there been any incremental effort that we've put in or this is organic? It was supposed to be there , just that it took us some time?
Kamal Khetan: So obviously, we are trying to put more and more effort when we were seeing not happening -- sales were not happening in Luxury and BKC. I think BKC took some slightly more time as well. One was -- and it's a mix of 2, 3 things. Obviously, we started putting more effort that why BKC is not picking up. I think BKC took slightly more time than the other luxury because it's a different market. And like there is not too much of market within BKC. So whatever market you see in Bandra is outskirts of BKC and this is very, very luxury.
And the target audience a re much lesser. But obviously, once it has whatever we have done, it's working right now, and it is doing well, and we'll continue with that, and I think we'll continue to make this sales grow further in this year and going forward the next y ear onwards.
Prem Khurana: Sure. And sir, second question was on Borivali the Eskay project. So I think -- I mean, now it would come under SD Z scheme. Would that make the potential change substantially and would the original agreement still hold or you wou ld have to kind of renegotiate because the numbers were changed, which is where the landowner could try and renegotiate with you or the original agreement still holds?

Kamal Khetan: So agreement is stamp duty registered. Why would a landowner renegotiate? It is in the mutual interest -- and I think numbers don't change because of this SDZ policy coming in soon means, it was indefinite when it will come this year or next year. But now since the policy is there, -- only the approvals will come faster and it w ill quickly start without changing any commercial.
It has nothing to do with commercial s.
Moderator: We'll take the next question from the line of Ronald Siyoni from Sharekhan Limited.
Ronald Siyoni: Good afternoon Sir. Congratulations on good presales num bers and healthy revenue booking.
Sir, on the Nepean Sea Road project, are we looking at adjacent line and if yes, then at what stage we are there, it can potential

ly double the project size?
Kamal Khetan: So, Ronald, obviously, we like to work with large projects and large scales. Obviously, we are trying to consolidate and make this project bigger size, 2 at the initial stage. We don't want to commit anything on that. We are working on it. But we are quite confident that we want to launch this project as soon as possible, either in Q4 of FY'25 or as early as early quarter o f Q1 of FY'26.
Ronald Siyoni: Okay and second one and last one would be, sir, sales has been strong, but collections, barring BKC projec ts, it has been a little bit slow during the Quarter 4. So have you changed some terms with respect to payments , with respect to construction or are there any sales which have been going on? So just wanted to understand that.
Prashant Chaubey: Hi Ronald, P rashant here. So, Ronald, as you are aware, we got the Occupation Certificate of Sunteck Maxx World in the last month of financial year FY'24 and those collections will -- are coming in the first quarter of FY'25 -- and second quarter of FY'25. So that's w hy -- that's the reason why there was a slight collection, which has over flown to the next quarter and next financial year.
Kamal Khetan: Also, you will see that that's why the collections in this year financial year and the net operational cash flow numb er will be much bigger, in fact, much, much bigger than FY'24.
Moderator: Ladies and gentlemen, we will take that as the last question for today. I would now like to hand the conference over to the Chairman and Managing Director, Mr. Khetan, for closing comments . Over to you, sir.
Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case if any of your queries have been left unanswered, you can get in touch with us. We look forward to your continued support. Thank you once again for joining us today, and please be safe. Thank you.
Moderator: Thank you, members of the management. We thank you for taking out time for Sunteck Realty's Earnings Call. You may now disconnect your lines. Thank you, sir.

"Sunteck Realty Limited Q1 FY 2025 Earnings Conference Call"

August 16, 2024

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN AND MANAGING DIRECTOR - SUNTECK REALTY
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER - SUNTECK REALTY
MR. ABHISHEK SHUKLA – VICE PRESIDENT , STRATEGY AND INVESTOR RELATION - SUNTECK REALTY

Moderator: Ladies and gentlemen, good day, and welcome to the Sunteck Realty's Earnings Conference Call for Q1 and FY '25.
We have with us today, Mr. Kamal Khetan – the Chairman and Managing Director of the Company; Mr. Prashant Chaubey – the Chief Financial Officer; and Mr. Abhishek Shukla – the Vice President of Strategy and Investor Relation.
Please note, this call will be for 30 minutes. And for the duration of the Conference Call, all participants' line will be in listen-only mode. This Conference Call is being recorded, and the transcript for the same may be put up on the website of the company. After the Management's Discussion, there will be an opportunity for you to ask question.
There will be a Q&A session, and we request to restrict questions to two per participant. Should you need assistance during the conference call, please signal an operator by pressing "*:", then "0" on your touchtone phone.
Before I hand the conference over to the Management, I would like to remind you that certain statements made during the course of this call may not based on historical information or facts, and may be forward-looking statements, including those related to business statements, plans and strategies of the company, its future financial condition, and growth prospect.
These forward-looking statements are based on the expectations and projections, and may involve a number of risks and uncertainties, and other factors that could cause actual results, opportunities, and growth potential to differ materially from those suggested by such statements.
I would like to turn the conference over to Mr. Khetan – the Chairman and Managing Director of the company. Thank you, and over to you, Sir.
Kamal Khetan: A very good afternoon to everyone for joining us today and thank you for taking the time to participate in our Company's Earning Conference Call for the 1st Quarter of the Financial Year 2025.
We have started FY '25 on the strong note with several positives, I would like to share five key highlights before our CFO – Prashant Chaubey, speaks on the financials.
We did Rs. 500 crores of pre-sales in Q1 FY '25, this is 30% year-on-year growth with contribution from all projects. BKC project recorded Rs. 110 crores from the above. I am happy on the momentum pickup at BKC, as it is also directly close to our operating cash flow surplus. With a strong start to this financial year, we remain confident to achieve 30% to 35% growth in pre-sales for FY '25, as we had guided at the beginning of the year.
Our operating cash flow grew slightly higher at 32% year-on-year and stood at Rs. 100 crores during the quarter. With the higher sales in BKC, two big project completion in FY '25, and higher pre-sales, I am confident Sunteck will deliver a stronger operating cash flow surplus growth in FY '25.

Balance sheet continues to remain strong. We remain a net cash positive company. Gross debt is down over 60% since FY '22, today at 0.09x of the equity and it is less than one quarter cash collection.
On execution, we have made a significant progress with completion of Sunteck Maxxworld project at Naigaon, and handover of units to almost 2,500 families. This marks a major milestone for us as cumulatively we have delivered more than 5,000 apartments in Sunteck World, Naigaon, over the past two years. The second project, Sunteck City, 4th Avenue at ODC Goregaon West, is also nearing completion, and shall be delivered in FY '25, well before the stipulated timeline.
And lastly, happy to share progress at two of our major upcoming uber luxury projects. We have activated our investments in Dubai. Our project in Dubai is likely to be launched in the next 12 to 15 months in FY '26. It has the potential of generating over Rs. 9,000 crores of sales, and our investment in the project is just around Rs

. 250 crores for 50% of the profit share. Just to give you
an idea that the project is in most sought-after locations of Burj Khalifa community area in Downtown near Dubai Mall.

The Nepean Sea Road project, our second project is progressing well, and is in one of the best locations of South Mumbai. It is on the sea with an uninterrupted lifetime sea view. We are in an advanced stage of planning and started the process of site clearance. The project has a potential of Rs. 2,500 crores of gross development value.

We are excited about these positive developments. And with low inventory months at our projects, we are likely to launch more in the coming quarters. We continue to be aggressive in identifying more opportunities which align with a high equity multiple philosophy to further exponentially expand our portfolio.

I will now hand over the call to Prashant Chaubey for more information on Earning Performance of Q1 FY '25. Over to you, Prashant.

Prashant Chaubey: Thank you, Sir. Good afternoon, everyone. I trust you have had the opportunity to go through our latest results and the investor presentation which are published on our company website and the stock exchanges. I would like to take this opportunity to share a brief update on financial and operational performance of Q1 FY '25. The key details are as follows:

We sold Rs. 502 crores worth of area in Q1 FY '25, which is a 30% growth over Q1 FY '24.

Collections for Q1 FY '25 stood at Rs. 342 crores, which is a 19% growth over Q1 FY '24. The strong collections have resulted in a net operating cash flow surplus of Rs. 100 crores as against Rs. 76 crores in Q1 FY '24.

Operating revenue in the P&L grew by 348% year-on-year for the three months ended June '24 to Rs. 316 crores in comparison to Rs. 71 crores in the same period in the last financial year. This was because of recognition of revenues from Sunteck Maxxworld, Naigaon, and BKC projects.

Our core EBITDA stood at Rs. 79 crores. However, except for a one-time charge, it would have been close to Rs. 170 crores. Adjusted for this, our core EBITDA margin is close to 50%, and reported EBITDA margin shall be close to 40%.

We were expecting certain height approvals to utilize additional FSI in our existing development at Sunteck City Avenue 2 at ODC, Goregaon West. In line with this, the related costs were inventorized in the balance sheet. As we do not want to wait any further for the same, we have now amortized it in the P&L.

We reported a net profit of Rs. 23 crores for the quarter ended June '24. Our net debt-to-equity stood at minus 0.01x with a cash surplus of Rs. 39 crores. Our total GDV excluding pre-sales already done stood at Rs. 37,480 crores.

Thank you. With this, we open the floor for questions.

Moderator: Thank you very much. We will now begin the question-and-answer session. The first question is from the line of Puneet Gulati from HSBC. Please go ahead.

Puneet Gulati: Thank you so much and congratulations on good pre-sales momentum and also on the new project. Can you help me understand the broad economics of the Dubai project? How much would it cost you to build? And how would the money flow in from India to Dubai and back from Dubai to India? Is there any tax implication we will need to be ready with? Thank you.

Kamal Khetan: So, this project is in 100% subsidiary of Sunteck. We have invested close to approximately just Rs. 250 crores, so it is a quite asset-light model. And the project is obviously, I have said in my opening remarks, is in the heart of Downtown in the Burj Khalifa community near Dubai Mall. And so, most of the money obviously will come from the pre-sale. Just for maybe a little bit more investment in the beginning, and no incremental investments we are looking at them, very clear. Some small money for the launches and all which may be required, which may go from India, which will b

e negligible with respect to the size of the project. And cost, obviously, the cost of the project is around Rs. 2,000 crores. And which should, most of it should come from the pre-sales. And we all know the Dubai market is doing extremely crazy well, on the launches the projects are getting sold almost to the 100%, tune of. And being this project in the heart of the, once again at the cost of repetition, heart of the Downtown, next to Dubai Mall, we do not see any problem there.

Puneet Gulati: So Rs. 9,000 crores GDV, Rs. 2,000 crores construction cost. And from that, we should look at your share at 50%.

Kamal Khetan: Yes.

Puneet Gulati: And what will be the time to complete? And who will be the construction partner there?

Kamal Khetan: So, we are identifying the contractors. So, one thing I am sure you must be knowing, Dubai today has the best, what we struggle in India to find a contractor, Dubai has best of the world's contractors working in Dubai. It is the international, now, capital of the world. So, we do not see any problem

in finding a contractor to do construction. And we will not be doing construction ourselves as what we do in India. So, we are very clear on that.
Puneet Gulati: And who is the partner? And time to complete?
Kamal Khetan: The partner is a group called MAS, M-A-S.
Puneet Gulati: And time to complete?
Kamal Khetan: So, time to complete should be three to four years.
Puneet Gulati: And secondly, if you can talk a bit about the progress on the IFC platform, is there anything that you're likely to conclude? And plus, if you can detail the launch plan for this space?
Kamal Khetan: So, IFC, we have already done a platform, you must be aware. We remain committed to that platform and build on that partnership. We are in process of evaluating the right project, and obviously hopeful of closing it soon.
Moderator: Thank you. The next question is from the line of Abhinav Sinha from Jefferies Group. Please go ahead.
Abhinav Sinha: Congratulations to the team on a great quarter. So, first question is on Nepean Sea Road, where are we in the approval process? And do you see the launch this year or maybe next year?
Kamal Khetan: Yes, good evening, Abhinav. Can you repeat your questions, please? Once again, if you do not mind.
Abhinav Sinha: On Nepean Sea Road, where we are on the approval process and what are the launch timelines?
Kamal Khetan: So, Nepean Sea Road, we have vacated most of the tenants there, and we are clearing the site. And approvals are in the process. We are at the also advanced stage of designing of the project. As far as launch timeline, I have already mentioned in my last quarter call that we should be looking to launch this in either Q4 of FY '25 or Q1 of FY '26. That is at the cost of repetition I have mentioned that earlier, in the last quarter call also.
Abhinav Sinha: Right. Sir, secondly, for our growth guidance of this year, it has been a good start. So just wanted to check, A) how much unsold inventory do we have in all of the projects, as in which is launched but not sold, barring the BKC one? And what is the launch pipeline looking like?
Kamal Khetan: So, to start with your second question first, our launch pipeline. So, the launch pipeline, we have lined up a few launches in the obviously the coming quarter. The combined launches of the Sunteck for this year what we are planning is close to the GDV value of Rs. 5,000 crores, but we are looking at one new phase launch of Sunteck World in Naigaon, one new tower launch in Sunteck Skypark at Mira Road. One new phase again a launch of 5th Avenue after now as we are almost completing 4th Avenue, so 5th Avenue at ODC Goregaon West. And one or two more new towers in Sunteck Beach Residences, our SBR project. Plus, again, in one or two more towers in Sunteck Crescent

Park at Kalya

n. So, with all these obviously strong launch pipelines and sustenance sales, and again to repeat, combined GDV value of close to Rs. 5,000 crores, we expect our pre-sales to grow 30% to 35% in FY '25.
Prashant Chaubey: Abhinav, Prashant this side. With regards to your first question of the unsold inventory. In our ready-to-move-in project in BKC, our unsold inventory is close to Rs. 1,200 crores. And in our ongoing projects, the unsold inventory is close to around Rs. 1,600 crores to Rs. 1,700 crores. And in terms of the cost to be incurred for our ongoing projects, it is close to Rs. 1,300 crores to Rs. 1,400 crores.
Moderator: Thank you. The next question is from the line of Riddhi from Arihant Capital. Please go ahead.
Riddhi Shah: Congratulation on a good set of numbers. Sir, I had one question regarding the pre-sales guidance as well as the EBITDA margins for FY '25, and also for the next two years if you could provide, Sir?
Kamal Khetan: You are not clear. Can you mute some instruments around you? I think there is a problem.
Riddhi Shah: Sir, I just wanted to know the pre-sale as well as EBITDA guidance for FY '25 and also for next two years.
Prashant Chaubey: So Riddhi, as we have already spoken in our opening remarks, we are looking at a pre-sale growth of achieving 30% to 35%, that is what we are targeting. And in terms of our EBITDA margin, those numbers are already published in our presentation, and you can look at it from there.
Riddhi Shah: Sir, would you provide for FY '26 and FY '27 as well, if you could give some ballpark figure?
Prashant Chaubey: Riddhi, on a continuous basis, we are looking at 30% to 35% growth year-on-year.
Riddhi Shah: And also, Sir, Dubai project if you could provide, like are we going to launch phase-wise the project, or if you could elaborate more on that?
Kamal Khetan: So, Riddhi, Dubai, it's a one single land parcel, and you cannot have the phase-wise kind of a thing. So I think we will launch at a time, it's a one single project with maybe one tower or two towers. And that's how it is, so it will be launched at one single time.
Moderator: Thank you. The next follow-up question is from the line of Puneet Gulati from HSBC. Please go ahead.

Puneet Gulati: Just from the cash flow clarification perspective, so would it be fair to assume that had the collection from BKC not been accounted for, the operating cash flow would have been negligible? And if that is the case, why should that be?
Prashant Chaubey: Puneet, your understanding is slightly incorrect. Basically, when you are looking at a cash flow, from a cash flow perspective you have to consider the cash flow from all the projects that we are getting. And in certain quarters, the cash flow from one project is higher than the cash flow in the

other quarter. So, if you look at the number on a yearly basis, like last year we did Rs. 484 crores of operating cash flow surplus, before that we did Rs. 428 crores of operating cash flow surplus. At which time my collections from BKC was very negligible. In fact, it was nothing. So, I would say that you should not look at it from just one quarter perspective. It has to be a more like a three or four quarter perspective, then only you will get to know the right picture. However, BKC collections are definitely helping us in our operating cash flows.
Puneet Gulati: So, it's just a one quarter anomaly here at this time?
Prashant Chaubey: Yes.
Puneet Gulati: And secondly, in respect to your BD cost for the projects that you already have in hand, what is the balance to spend on BD?
Prashant Chaubey: So, Puneet, the balance cost to be spent on our BD of our existing projects is zero, is nothing.
Moderator: Thank you. The next question is from the line of Biplab Debbarma from Antique Stock Broking. Please go ahead.
Biplab Debbarma: Sir, my first question is on your business development. So currentl

y, how many projects are we evaluating? And what would be the total GDV of these projects?
Kamal Khetan: Biplab, so we are evaluating obviously a couple of projects. You all know market is good. We have obviously a strong BD team. But it will be very hard for me to disclose anything on this call that what are these projects and what will be their GDV value.
Biplab Debbarma: My second question is, Sir, on the ongoing projects what would be the receivables from these ongoing projects from the sold units?
Prashant Chaubey: Biplab, Prashant this side. The receivables from the ongoing projects is close to around Rs. 2,300 crores to Rs. 2,400 crores.
Moderator: Thank you. The next question is from the line of Sarang Gupta from Briarwood Capital. Please go ahead.
Sarang Gupta: You have given the guidance on FY '26 and FY '26 pre-sales growth as well. You were saying you expect 30%, 35% growth to continue. Maybe just asking you about what are the drivers of this pre-sale growth continuing? Are you seeing your GDV, right, year-on-year the GDV is growing about 40%, so basically is this GDV growth that you think will lead to continue 30%, 35% growth? What are the trends you are seeing that give you confidence that we can pin this not just in '25, but also in '26?
Kamal Khetan: Yes. So, we will update you with, obviously, the new FY '26 guidelines to you slowly. But we all know whatever growth we are talking about in FY '25, which is only from the existing projects. We have not even considered Nepean Sea Road and Dubai into this, because both those projects are going for the launch. We are considering that if we miss out on Q4 for the Nepean Sea Road

launch, still we are confident that we will achieve 30% to 35% pre-sales growth from our existing projects. Because we are launching in every project, because we are left with very little inventory for all the existing projects. So, we are launching new phases and new towers in every project. And these existing projects which we call our growth engines, these are projects with the inventories of like six to seven years and eight years. And obviously, while we are talking this, we are also talking about that right now our GDV value is Rs. 30,000 crores, which we are saying that we will continue to add and we will make it to Rs. 60,000 crores over a period of next two to three years. And before even completion of FY '25, we have added this Rs. 9,000 crores of GDV from our Dubai project, so which has already taken us close to Rs. 40,000 crores. So, I think that explains itself, it is self-explanatory that for achieving this 30%, 35% growth year-on-year on the pre-sales for the next few years is very easily possible.
Sarang Gupta: Basically, you are saying in FY '25 you get 30%, 35% growth from your existing portfolio, just launching new inventories there. And then next year you will have the impact of launch of Burj Khalifa and Nepean Sea Road which is Rs. 9,000 crores of total GDV. And so, then that will help you continue this growth into the next two years essentially?
Kamal Khetan: Yes. I think that growth will be, in fact, ideally it should be more than that. And plus there is many more projects of which already acquisition has been done but it has not been added to the GDV

value. So, to give you one more example, let's say, Borivali, ESKAY Resorts, which is also there. Plus there is a Bandstand which is there, plus there are few more projects which we are contemplating, which I do not want to disclose before we complete the transaction, three-four projects which are sizable projects and which we would like to, as soon as we close those transactions, we would like to disclose it to the market.
Sarang Gupta: And maybe just last question from my side is how, both Dubai and Nepean Sea kind of large projects in terms of year one pre-sales, you think when we launch them in FY '26, that will be a

big boost to your annual sales? Like how do you think about sales expectations at Dubai?
Kamal Khetan: So, we want to be conservative when we are giving our guidance which we have maintained at 30%, 35%. We all know if, obviously, the launches in Nepean Sea Road and Dubai looking at the current status of the market. Obviously, we may achieve much more than 30%, 35%. But we do not want to over-commit and then under-deliver. We are very clear on that.
Moderator: Thank you. The next question is from the line of Kunal Lakhan from CLSA Group. Please go ahead.
Kunal Lakhan: Just a clarification on the Dubai project. So the Rs. 2,000 crores construction cost includes approvals as well as sales and marketing or it will be over and above that?
Kamal Khetan: No, I think that includes most of the cost, which includes your sales and marketing and approval cost, as well as your construction cost, which is we are talking about almost close to AED1 billion, so which is quite enough for a FSI which is -- for a sale area, which is close to 1 million square feet.

Kunal Lakhan: And secondly, on the Borivali project, what is the status there, and what will be the launch timeline?
Kamal Khetan: So Borivali project, Kunal, I think when we are even a little bit uncertain, we do not add the project, we follow this discipline of not adding the project to the GDV value. And hence, I would like to refrain myself to give you any commitment or any timeline about that. At the moment we see the possibility of approvals getting expedited, obviously, we would first like to add it to the GDV value, and then come up with the timelines.
Moderator: Thank you. The next question is from the line of Ronald Siyoni from Sharekhan Limited. Please go ahead.
Ronald Siyoni: Thank you for the opportunity and congratulations on the great set of numbers. Sir, I had a question regarding BKC sales/ What I have seen is a quite a good improvement, so has there been a change in terms of strategy, in terms of selling or pricing? And what kind of output you can give there, whether this run rate should continue going ahead, or this would be a lumpy each quarter, and I know there will be some target with respect to BKC.
Prashant Chaubey: Ronald, Prashant this side. So, if you see in BKC in the last 12 months, we have done a pre-sales of close to Rs. 355 crores, and this is against Rs. 203 crores that we did in previous three financial years all put together. So overall, the momentum has definitely picked up in BKC by quite a margin, and we are quite confident that this will continue, and it will keep on continuing.
Moderator: Thank you. Ladies and gentlemen, we will take that as the last question. I would now like to hand the conference over to Mr. Kamal Khetan for closing comments.
Kamal Khetan: Thank you all for taking out the time from your busy schedule today. In case if any of your queries have been left unanswered, you can get in touch with us. We look forward to your continued support. Thank you once again for joining us today, and please be safe. Thank you once again. Thanks. Bye.
Moderator: On behalf of Sunteck Realty, that concludes this conference. Thank you for joining us. And you may now disconnect your lines.

"Sunteck Realty Limited
Q2 & H1 FY '25 Earni ngs Conference Call"
November 13, 2024

MANAGEMENT : M R. KAMAL KHETAN – CHAIRMAN AND MANAGING
DIRECTOR – SUNTECK REALTY LIMITED
M R. PRASHANT CHAUBEY – CHIEF FINANCIAL
OFFICER – SUNTECK REALTY LIMITED
M R. ABHISHEK SHUKLA – VICE PRESIDENT OF
STRATEGY AND INVESTOR RELATIONS – SUNTECK
REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to the Sunteck Realty's Earnings Conference Call
for Q2 and H1 FY '25. We have with us today, Mr. Kamal Khetan, the Chairman and Managing

Director of the company; Mr. Prashant Chaubey, the Chief Financial Officer; and Mr. Abhishek
Shukla, the Vice President of St rategy, and Inve stor Relations.
Please note this call will be for 30 minutes and for the duration of the conference call, all
participant lines will be in the listen-only mode. This conference call is being recorded and the
transcript for the same may be put up on the website of the company. After the management's
discussion, there will be an opportunity for you to ask questions. There will be a Q&A session, and we request to restrict questions to two per participant. Should you need assistance during
this conference call, please signal an operator by pressing star and then zero on your touchtone phone.
Before I hand the conference over to the management, I would like to remind you that certain
statements made during the course of this call may not be based on historical information or
facts and may be forward-looking statements, including those related to business statements,
plans and strategies of the company, its future financial condition and growth prospect.
These forward-looking statements are based on expectations and projections and may involve a
number of risks and uncertainties and other factor s that could cause actual results, opportunities,
and growth potential to differ materially from those suggested by such statements.
I would like to turn the conference over to Mr. Khetan, the Chairman and Managing Director of
the company. Thank you, and over to you, sir.
Kamal Khetan: A very good afternoon to everyone and thank you for joining us today to participate in our
company's earnings conference call for second quarter and first half of the financial year FY '25.
I would like to take you through the key developments in this period. We had a strong second quarter and first half of financial year '25.
We have registered a growth of 33% and 31% in pre-sales, respectively, during this period. Our
consistently strong sales at our BKC projects has added to this sales mome ntum. Better pre-sales
has been reflected in higher collections. This has enabled in doubling our net operating cash
flow surplus to INR191 crores in first half of financial year '25.
Further strengthening our balance sheet, our net cash surplus now stands at nearly INR100
crores. At Sunteck City 4
th Avenue project at ODC, Goregaon West, is nearing completion. This
will further boost our cash flows in the coming quarters. We have launched one more new phase at our Naigaon project with a name Sunteck Ultra World and with a potential GDV of INR600
crores. And the response for that was very overwhelming.
We are also geared up to launch one tower in the new phase at Sunteck City, ODC, Goregaon
West, which has a potential GDV value of approximate INR1,500 crores. We are excited and
keenly awaiting the launch of one of our biggest and the most luxurious project in the country,
which is on the sea at Nepean Sea Road. At the same time, we are preparing ourselves for getting
the necessary approvals for our Dubai Downtown project and our sea view project at Bandra Bandstand.

We are excited about our growth opportunities in the MMR market. With our strong balance
sheet and robust operating cash flows, we contin ue to remain aggressive and prudent in our
business development. While we are evaluating many projects aggressively, we continue to
focus on our high equity multiple philosophy.
Now last but not the least, on sustainability front, I'm pleased to share that Sunteck Realty has
been conferred the prestigious Sector Leader Award in 2024 GRESB Real Estate Assessment
for the

development benchmark.
I shall now hand over the call to Prashant Chaubey, the CFO, to take you through the financial
performance of H1 FY '25.
Prashant Chaubey: Thank you, sir. Good afternoon, everyone. I trust you have had the opportunity to go through
our latest results and the investor presentation, which are published on our company website and
the stock exchanges. I would like to take this opportunity to share a brief update on financial and operational performance of quarter 2 and first half of FY '25.
The key details are we sold INR524 crores worth of area in quarter 2 FY '25, which is a 32.7%
growth over quarter 2 of FY '24. During first ha lf of FY '25, pre-sales registered a growth of
31.2% over H1 of FY '24. Collections for quarter 2 FY '25 stood at INR267 crores, which is a 24.8% growth over quarter 2 of FY '24. While for first half, FY '25 collections stood at INR609
crores, a growth of 21.3%.
The strong collections have resulted in a net operating cash flow surplus of INR191 crores,
which is a 112% growth over H1 of FY '24. Operating revenue grew by 578% year-on-year for the 3 months ended September 2024 to INR169 cr ores in comparison to INR25 crores in the
same period in the last financial year, owing to recognition of revenues from our completed
Sunteck Maxx World project in Naigaon.
EBITDA stood at INR37 crores and EBITDA ma rgin stood at 22%. Net profit stood at INR35

crores with a net profit margin of 20%. For the half year ended FY '25, operating revenue grew
by 408% to INR485 crores and EBITDA stood at INR69 crores for H1 of FY '25. We reported
a net profit of INR57 crores for the half year ended September 2024. Our net debt to equity stood at minus 0.03x with a net cash surplus of INR98 crores during H1 of FY '25.
Thank you. With this, we open the floor for questions. Moderator: The first question from the line of Biplab Debbarma from Antique Stock Broking.
Biplab Debbarma: My first question is on the launches in FY -- in the second half of FY '25. So you have launched
Naigaon. Congratulations on that, it has received good response. And you are gearing for launch
a new tower in Sunteck City. Besides these 2 projects, are there any launches expected in the second half of FY '25?
Kamal Khetan: Yes. Biplab, season greetings to you as well. And so we -- as you know that we have already
launched our project phase -- new phase in Naigaon, which is Sunteck Ultra World. And now

we are going to launch in this coming next half of the financial year, H2. We are looking to
launch at least one tower in the new phase, which is 5th Avenue in ODC, Goregaon West.
We are looking to launch 1 or maybe 2 towers, in fact, Sunteck Beach Residences at Vasai. And
we are looking to launch one more new tower in Sunteck Sky Park at Mira Road and 1 or 2
towers in Sunteck Crescent Park at Kalyan. So these are the launches which we are looking in H2 of the coming financial year.
Biplab Debbarma: What would be this GDV of these projects?
Kamal Khetan: So for 1 tower of 5
th Avenue, GDV will be close to INR1,500 crores. 2 towers of Sunteck Beach
Residences will be INR400 crores to INR500 cr ores. And 1 tower in Sunteck Sky Park Mira
Road will be close to INR600 cr ores to INR700 crores. And 2 towers at Sunteck Crescent Park
will be close to INR300 crores.
Biplab Debbarma: And my second question is on the projects that you have mentioned, sir, Nepean Sea Road, and
the Dubai project. So by, when do you think it would be launch ready, Nepean Sea Road and
Dubai projects? FY '26, can you be certain that by FY '26, it would -- these 2 projects would be launch ready?
Kamal Khetan: So yes, good question, Biplab. We are very, very confident that before FY '26, we will be able
to launch both these projects, both Nepean Sea Road and Dubai. And this quarter, we have also
added our new project in Bandra West, which we have acquired 1 or 2 q

uarter back, which we have already announced in the market.
We only put any new project in GDV value when we are confident that we will be able to launch
in the next 12 to 15 months. So we are very, very confident that all these 3 projects which are
newly added in the GDV value, which is Nepean Sea Road, Dubai, and the Bandra West project, all 3 projects will be launched in FY '26 -- before the end of FY '26.
Moderator: We have the next question from the line of Abhinav Sinha from Jefferies India.
Abhinav Sinha: Sir, congratulations on the strong performance that we have seen in the first half. So now sales
have started growing faster versus the previous couple of years. And you are also highlighting
the large launch pipeline with Nepean Sea and Dubai and Bandra in the next 12, 15 months.
So my question is that what is the GDV value we are looking at, say, medium term or 3 years
down the line? So that's the first question. And secondly, also wanted to hear your take on the
Mumbai projects -- Mumbai market in general on pricing, particularly.
Kamal Khetan: So GDV value for the -- we are very confident. If you see the growth of our GDV value, we
have been able to double our GDV value in spite of growing sales every less than 3 years, every
3 years. And we continue to mention in our past calls also and current calls also that we will continue to grow our GDV value also aggressively and continue to maintain our strong balance
sheet.

for the next few years, we'll continue to grow like in 3 years, we'll double the GDV value. We'll
continue to double our GDV value. So that is where we are on the GDV value. And the second
question was?
Abhinav Sinha: Mumbai market price.
Kamal Khetan: So Mumbai market price. So Mumbai market, I th ink is -- obviously, we are seeing very robust
market. And so pricing have only firmed up. We believe that now the pricing, we are not
considering any increase in pricing at least at any of our projects. We are very clear that pricing
is quite appreciated in last few quarters. And we want to be -- we are seeing a stable pricing and increasing the momentum by selling more volumes.
Abhinav Sinha: Right. Sir, where would you have launched th e Ultra World project at what price point?

Kamal Khetan: So it's in Naigaon.
Abhinav Sinha: Yes. But what is the price point here?
Kamal Khetan: Naigaon, as you know, the price point is close to INR10,000 a square feet, and we have launched it at that same pricing, INR10,000 a square feet.
Moderator: We have the next question from the line of Pritesh Sheth from Axis Capital.
Pritesh Sheth: So two questions. First, on Dubai, what would be your strategy in terms of launch there? It's a INR10,000 crores worth of project. But how would you go about the launches, whether you'll be able to -- and you will go tower by tower there with -- and what kind of GDV launch can we expect there?
And second question is on the collections. This quarter, while sales in our luxury project was good, we have maintained that momentum, but I think collection was just INR1 crores, INR1.5 crores or INR14 crores rather. So why was it lower that way? So those are two questions.
Prashant Chaubey: Pritesh, Prashant here. So I'll answer the second question first. So as far as the collections goes, if you look in the first half, in the first half, we have done luxury sales of close to INR271 crores, and we have collected INR128 crores. And going forward, you will see as we give possession in BKC, this collection will come up in the coming quarters. So there is no -- so that is how it is. As possession is still pending, that's why the collection is slightly lower. You will see that recovering in the coming quarters.
Pritesh Sheth: Sure. And the first question on Dubai strategy?
Kamal Khetan: Yes. Kamal here, Pritesh. So what we are telling Du bai, there will be only 2 towers. It is not that there ar

e multiple towers. It's in the -- so just to give you an idea, our Dubai project is in the Burj Khalifa location, which is the heart of downtown, which is very near to the -- or almost, I can say, adjacent to the Dubai mall. So it is a high-ticket price and high-ticket size inventory. So it is not the volume. So we are looking at a sale of almost close to 1 million squa re feet of the sale area, which will come in 2

towers. We may launch 1 tower at a time. And we are looking to exhaust this inventory in, let's say, 2 to 3 years or 3 to 4 years maximum. That's how we see Dubai projects in terms of sales launch and all.
Pritesh Sheth: 3 to 4 years for full project or 1 tower?
Kamal Khetan: So we are talking about both the towers in 3 to 4 years.
Pritesh Sheth: Okay, awesome. And just lastly on Naigaon, generally we have a very good response whenever we have launched the phase there. Obviously, I can understand Ultra World was launched much later in the quarter. But how do you think the response overall has been since we are already 1, 1.5 months through the quarter. So the response to that project?
Kamal Khetan: It is up to our expectations. The launch has been very good. And we are satisfied the way the launch has happened. And we are quite bullish on overall sales, and we will continue to get our numbers of pre-sales. What we have been talking 30% growth year-on-year on our pre-sales number. I think we will very easily achieve that pre-sales number growth with all the launches and including the launch of Ultra World, what we have done.
Moderator: We have the next question from the line of Kunal Lakhan from CLSA.
Kunal Lakhan: Sir, you said earlier that you want to double your GDV in the next 3 years. So essentially, what you're saying is you'll add about INR38,000 crores worth of additional projects in the next 3 years. Is that the correct understanding?
Kamal Khetan: Sorry, we lost you Kunal.
Kunal Lakhan: Okay. Yes, I'll just repeat myself. Am I audible now?
Kunal Lakhan: Okay. So Kamal ji, you mentioned earlier that you will double the GDV in the next 3 years. Just correct me if I'm wrong, you're talking about the -- so essentially, what you're saying is you'll add INR38,000 crores worth of GDV in the next 3 years in terms of new projects? Is that what you're saying?
Kamal Khetan: Yes. So what -- if you see our GDV value chart, what we have done. In FY '22, we were with a GDV value of INR13,650 crores. And when we tell -- in FY '25, we are more than double. We are almost triple in GDV value from FY '22 to FY '25. Today, if you look at FY '25, we are at INR37,000 crores almost. So more than, in fact, triple, almost triple..
And if you look at FY '23, once again, so in FY '23, we were at IN R19,000 crores GDV value.
So in FY '26, if you look 3 years from FY '23, we should be INR38,000 crores. We are already INR37,000 crores. And again, if we take FY '24, which is INR26,000 crores, we are talking that in FY '27, I should be INR52,000 crores. So if you tell me in FY '27, whether we'll be INR52,000 crores, yes, we are confident we'll be -- in FY '27, we will be INR52,000 crores. I hope I've answered your question, Kunal.
Kunal Lakhan: Sure. So you're saying that y ou'll add about INR1 5,000 crores of additional projects in the next 2 years?

Kamal Khetan: Yes, minimum. Minimum.
Kunal Lakhan: Correct. Correct. And any color on -- like just a related question on that, any color on like where you'd be adding these projects within the city limits or outside of the city limits, if you can share?
Kamal Khetan: So Kunal, very good question once again. So if you see, we have all the new projects which have been added are in the main city limits, and it is between like mainly, in fact, it is in South Mumbai or in the Bandra locations. So we are clear that we want to k

eep our portfolio fully balanced in every -- because we are Mumbai focused in MMR focused, we want to be across the city limits. And now we feel that our more addition will be towards the South Mumbai or in the city limits.
Kunal Lakhan: Okay. Great. Good to know, sir. My second questi on, sir, is on the rental portfolio. You have highlighted that by '27, '28, you'll have Sunteck City 5
th Avenue commissioned and ready sort
of. Where are we in terms of approvals and plans here for the 5th Avenue?
Kamal Khetan: Yes. In commercial portfolio, we have got th e main approval, which we were not getting it, which we have already -- I think I mentioned in the last call or before that, that we have got that approval through the court. And now we are in the process of any time launching that -- start the construction, but basically, we want to lease out that property. So we will be very soon starting the construction on it.
Kunal Lakhan: Okay. Understood. And lastly, sir, like what's the approval status for Borivali now? And what's the launch pipeline for that?
Kamal Khetan: So we are approval process very -- frankly, we are not clear right now since there is a change in the government, what will be the new government policy. I just want to share that it is -- it comes under some SDZ policy. So this government has given some SDZ policy. I think most of the -- all the people who are waiting for the clear SDZ policy are just waiting.
We know that we are very close to the election dates. And as and when the new government comes, if there is more clarity on that SDZ policy, we will like to take that approval. In fact, the scope of getting the approval is in -- the scope is with the landlord. It is in landlord scope to get the approval. So obviously, he's waiting for this SDZ policy to be cleared once the new government comes. And I think we should be very soon getting a lot of clarity once the new SDZ policy is in place.
Kunal Lakhan: Great. So does that mean that FY '26 launch is more likely?
Kamal Khetan: Kunal, I just mentioned that when there is a clar ity, we would like to give you an exact day and time, at least we will be able to tell you that we 'll be able to launch in the next 6 to 9 months.
And if that clarity would come, firstly, we will add to our GDV value -- this project to our GDV value. And that's why we have so much of confidence that we'll continue to put more projects in the GDV value because we know what we are negotiating right now in the market and some of the projects we are at a very advanced stage in getting into the GDV value as well as we are negotiating some very new projects, which is in South Mumbai and Bandra locations. And we are confident that as soon as we get clarity for ESKAY Resorts, which is in Borivali, we will be able to maybe ideally put that at l east in GDV value in FY '26 for sure.

Moderator: Ladies and gentlemen, we will conclude our question-and-answer session at this point. I would now like to hand the conference over to the Chairman and Managing Director, Mr. Khetan, for closing comments. Over to you, sir.
Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today. In case if any of your queries have been left unanswered, please feel free to reach out to our Investor Relations team. We truly value your continued support and look forward to strengthen this relationship.
Stay safe, everyone, and thank you.
Moderator: Thank you. Thank you all for taking the time out for Sunteck's earnings call.

Call: Jan 2025

January 2 1, 202 5

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN AND MANAGING

DIRECTOR – SUNTECK REALTY LIMITED
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL
OFFICER – SUNTECK REALTY LIMITED
MR. ABHISHEK SHUKLA – VICE PRESIDENT OF
STRATEGY AND INVESTOR RELATIONS – SUNTECK
REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to the Sunteck Realty's Earnings Conference Call for Q3 and 9 months FY '25. We have with us today, Mr. Kamal Khetan, the Chairman and Managing Director of the Company; Mr. Prashant Chaubey, the Chief Financial Officer; and Mr. Abhishek Shukla, the Vice President of Strategy and Investor Relations. Please note this call will be for 30 minutes and for the duration of the conference call, all p articipant lines will be in the listen -only mode.
This conference call is being recorded and the transcript for the same may be put up on the website of the company. After the management's discussion, there will be an opportunity for you to ask questions. There will be Q&A session and we request to restrict questions to two per participant . Should you need assistance during this conference call, please signal an operator by pressing star then zero on your touch -tone phone.
Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this ca ll may not be based on historical information or facts and may be forward looking statements, including those related to business statements, plans and strategies of the Company, its future financial condition and growth prospect.
These forward -looking st atements are based on expectations and projections and may involve a number of risks and uncertainties and other factors that could cause actual results , opportunities and growth potential to differ materially from those suggested by such statements.
I wou ld like to turn the conference over to Mr. Khetan, the Chairman and Managing Director of the Company. Thank you, and over to you, sir.
Kamal Khetan: A very good afternoon to everyone and thank you for joining us today to participate in our Compa ny's Earnings Conference C all for the third quarter and 9 months of the financial year FY '25. I would like to take you through the key developments in this period. We registered a strong presales growth of 40% in our third quarter surpass ing our growth guidance of 30% - 35%. We now stand at INR1,661 crores presales for the 9 -month FY '25, our highest ever so far.
The strong growth in presales was driven by our Uber Luxury segment, which comprises of our 3 BKC projects, namely Signature Island, Signia Isles and Signia Pearl. A nd now , Nepean Sea Road project. We have strategized our portfolio to have higher sales contribution from the Uber Luxury projects, which has a very high embedded EBITDA margin.
On the business developm ent front , we have added Nepean S ea project 2, which brings an additional gross development value – GDV value of approx INR2,400 crores. This addition boosts the total GDV of the Nepean Sea Road project...
Moderator: The line for the management has been disconnected. Please stay connected while we reconnect the line for the management. Ladies and gentlemen, we have the line for the management reconnected. Please go ahead sir.
Kamal Khetan: Sorry. Apologies for this te chnical sna g. I think I will repeat once again. So , from the strong growth in pre -sales was driven by our Uber Luxury segment, which comprises of 3 BKC

projects, namely Signature Island, Signia Isles and Signia Pearl. A nd now Nepean S ea Road project. We hav e strategized our portfolio to have higher sales contribution from the Uber Luxury projects, which has a very high embedded EBITDA margin.
On the business development front, we have added Nepean Sea project 2, which brings an additional gross development v alue to approximately INR2,400 crores. This addition boosts the total GDV of our Nepean S ea Road project to around INR5,400 crores, marking a significant milestone in our growth trajectory.
The total GDV of

Sunteck as of 9 months FY '25 stands at INR40,225 crores, which has more than doubled in last 2 years. We are quite upbeat on our business development pipeline. And you will see s imilar growth in times to come, which all will be with higher EBITDA margins.
A strong net operating cash flow surplus of approximately INR312 crores in 9 months of FY '25

has further strengthened our balance sheet with a net cash surplus of INR61 crores . We are now gearing up to launch a new phase in Sunteck City at ODC Goregaon Wes t, the total GDV of this phase is INR3,000 crores distributed over 2 towers.
We are also preparing a launch for 1 more new tower at Sunteck Sky Park , Mira Road. We expect Q4 FY '25 to be the best -ever quarter on presales till date for Sunteck given our upcoming launches and strong pre sales momentum.
I shall now hand over the call to Prashant Chaubey to take you through the financial performance of 9 months FY '25.
Prashant Chaubey : Thank you, sir. Good afternoon, everyone. I t rust you have had the opportunity to go through our latest results and the investor presentation, which are published on our Company website and the Stock Exchanges. I would like to take this opportunity to share brief update on financial and operational performance of Q3 and 9 months of FY '25. The key details are as follows .
We sold INR635 crores worth of area in quarter 3 FY '25, which is a 40% growth over quarter 3 of FY '24. During the 9 months FY '25 , presales registered a growth of 34% with booking value of INR1,661 crores over INR1,237 crores for 9 months FY '24. Collections for quarter 3 FY '25 stood at INR336 crores versus INR438 crores in quarter 3 FY '24. While for 9 months FY '25 , collections stood at INR945 crores versus INR940 crores in 9 mon ths FY '24. The strong collections have resulted in a net operating cash flow surplus of INR312 crores as of 9 months FY '25.
Operating revenue grew by 281% year -on-year for 3 months ended December '24 to INR162 crores in comparison to INR42 crores in the same period in the last financial year, owing to recognition of revenues from Sunteck World projects and the BKC projects. EBITDA stood at INR48 crores in quarter 3 FY '25 versus an EBITDA loss of INR15 crores in the same period last year. EBITDA margin st ood at 30%.
We reported net profit of INR43 crores over quarter 3 FY '24 net loss of INR10 crores. For the 9 months ended FY '25, operating revenue grew by 369% to INR647 crores on a year -on-year

basis. EBITDA stood at INR117 crores and we reported a net profit of INR99.9 crores. We are a net debt zero company with a net cash surplus of INR61 crores.
And with this, we open the floor for questions. Thank you.
Moderator: Thank you very much. We will now begin the question -and-answer session. Our first question comes from Pritesh Sheth from Axis Capital .
Pritesh Sheth : First, just to clarify, you mentioned that this quarter's Uber Luxury sales was contributed by -- some of the contribution came from N epean Sea Road project as well did I heard that correctly?
Kamal Khetan: So, it is, Pritesh the Uber Luxury sales come from both BKC and our Nepean Sea Road project as well.
Pritesh Sheth : Can you give us some contribution how much it was? Just if you can?
Kamal Khetan: The total contribution from Uber Luxury segment was close to INR422 crores.
Pritesh Sheth : Second, on the GDV increase that I see for Nepean Sea Road project versus the last disclosure I think Q2 we mentioned that it’s around INR2 ,500 crores for this first Nepean Sea Road project.
Now it has increased to INR2,635 crores. Is it because of some area increase? We are developing something higher? Or it's purely because of some realization increase?
Kamal Khetan: No. So , it's due to the area increas e, now the area terms, the total area from both Nepean Sea Road 1 and 2 becom

es close to 2,50,000 to 2,75,000 . And that is how -- and the total GDV
becomes by addition of another INR2,400 crores, the total GDV becomes INR5,400 crores.
Pritesh Sheth : And sir, congrats on 1 more project in Nepeansea. Now overall, how do you look at the potential in Nepean Sea? Do you see in the future any more societies etc being acquired by us for its funding or portfolio in Napeansea Road?
Kamal Khetan: So, Nepean Sea Road see we are very c lear that, obviously, we are going to do -- we are very upbeat about our new acquisitions which are going on . And which we are very clear at the same time, which will be at a very high EBITDA margin. We'll not be taking redevelopment just at very low margin s, even there is a competition. So , we are only eyeing at those locations.
And obviously, we all know that Uber Luxury segment is the most -- the best segment, which is doing the best. So , the most of our incremental B D you will see in that segment and without compromising on EBITDA margins.
Pritesh Sheth : But any more potential you see there in Nepean Sea Road?
Kamal Khetan: Yes, we see this potential to grow further looking at that for sure.
Moderator: The next question comes from Biplab Debbarma from Antique Stockbroking.

Biplab Debbarma : Good evening, sir. I got disconnected momentarily. I don't know whether you have answered this. Just wanted to know, sir, since you have sold in Nepean Sea Road project, could you give us some insight about the project in terms of what kind of products, ticket size and how many towers. And also in this quarter 's basis , what was the contribution of just Nepean Sea Road ?
Kamal Khetan: Biplab I want to very clearly say that we are looking this project to be one of the best high -end projects of the country. This we want to -- we have decided to -- we have conceptualized this project to be among st the best in the country . And one of the -- and the largest in high profile micro marke t.
We are already seeing , witnessing a strong interest from all ultra HNIs and industrialists. And what we have done is , we have right now given to the owners we have committed and given that areas to the existing high -profile owners of the apartment. What we have done right now.
Biplab Debbarma : So, this is not presales, sir?
Kamal Khetan: This is a presale. We have taken also the -- accordingly, we have done the agreement and documentation. This is a part of the presales.
Biplab Debbarma : And in terms of launches in 4Q, what would be the actual -- I mean you have 2 towers you're planning to launch in Oshiwara a nd in Mira Road. I just wanted to understand in terms of actual GDV, what would be the launch pipeline in 4Q?
Kamal Khetan: So that's why we are quite confident. That's why we said Q4 will be I think you got disconnected. So Q4 we – that's what we are trying to say that our Q4 expecting to be the best ever quarter on presales till the date for Sunteck because of, obviou sly, the upcoming launches, which is one -- we are looking at new phase launch at ODC which is at Goregaon West obviously.
The GDV value of that is INR3,000 crores. This will comprise of -- that phase will comprise of 2 towers which is INR3,000 crores. And 1 tower, which we are looking to do at Sunteck Beach Residences, SBR . And 1 new tower at Sunteck Sky Park at Mira Road. And the 1 tower at Sunteck Beach Residences, we are looking to that to be at the GDV value of close to INR250 crores to INR300 crore s. And another tower, which is at Sunteck Sky Park at Mira Road, the GDV value is close to INR600 crores to INR700 crores.
Moderator: Thank you. The line for the current participant has stopped from the queue. We'll move on to the next question. The next q uestion comes from Parvez from Nuvama Group. Please go ahead.
Parvez: Congratulations, sir, for a great set of numbers and the s

trong pipeline of launch in Q4. So, my question is with regards to FY '26. I mean, you did mention that we'll have 3 launches in Q4. But in FY '26, what incremental new projects or phases can we see coming up for launches across our existing as well as pipeline projects? Thank you.
Kamal Khetan: So Parvez, there is, frankly. So, we have all -- what we talk about our growth engines. These are all large projects. So, we don't have to very frankly worry. If you see Sunteck City, we are sitting

on the large parcel of land. So definitely, we'll be launching something new in ODC, again, Goregaon West when we are talking about FY '26.
And when it comes to Naigaon, obviously, we will be ob viously launching one more phase . And when it comes to Sky Park, we can look at launching at least 1 more tower there again in FY '26. So, you will see the launches across all th e projects, which are larger projects and plus, obviously, we will look at something new, which we can launch.
We can obviously look at launching from our existing other portfolio s, which has not been launched, we can look at that in queue over and above w hat we are looking. So, we have -- what guidance we have surpassed our guidance almost what we have committed for this year. And we are quite confident that what is -- what are launches which are there for the next year, FY '26. There also we are quite optimistic about having a similar or a better growth than this.
Parvez: So, can we target l ets say, 25%, 30% presales growth in FY '26 also?
Kamal Khetan: Yes, very easily and very confident about it.
Parvez: Sure, sir. Second question is with regards to under -construction annuity projects at ODC. So, when do we see that getting completed?
Kamal Khetan: So what we are talking about to start that project is after our launch of very soon the launch of this -- for 5th Avenue, which we are launching in ODC and we are looking to complete that project, the commercial project in FY '27, FY '28.
Parvez: Sure, sir. Thanks and all the best.
Moderator: Thank you. The next question comes from Vaibhav Saboo from Nippon AIF. Please go ahead.
Vaibhav Saboo: Congrats to the team on a good quarter. Sir, just a couple of things. I wanted to understand in terms of approvals for the launches that you have mentioned, how are we…
Kamal Khetan: Vaibhav, can I interrupt -- just can you start -- initially, you were not sounding properly. I was

not able to hear you. Can you start the question once again?
Vaibhav Saboo: Yes, sure. So, in terms of the projects that you have mentioned for the launches which we are going to do in Q4, how far a re we in the terms of approvals?
Kamal Khetan: Obviously, when we are talking about Vaibhav any project, which is we are looking to launch in this quarter, current quarter. We are obviously at a very advanced stage and we are -- that's why we are very conf ident even if we are talking about 3 to 4 launches and even if we are confident even if we skip 1 due to some approval problems or something, we are confident that our targets will be easily surpassed than what it is.
Vaibhav Saboo: And sir, just one more thing. In Sunteck City ODC around what would be the area which we would be launching?

Kamal Khetan: So, in 1 tower, we will be close to point, we will be close to 4 lakhs to 5 lakh square feet.
Vaibhav Saboo: So, the total would be around, let's say, 0.9 m illion to 1 million square feet?
Kamal Khetan: 0.8 million to 1 million square feet in both the towers put together. So, we're looking to launch 1 tower right now immediately in Q4.
Vaibhav Saboo: And just for the FY '26 pipeline, can we expect that Dubai project to commit for FY '26?
Kamal Khetan: As I said whatever projects which are new pro

jects, which are there in queue , we're definitely very optimistic like we committed about the Nepean S ea Road, and we are well in time, we can see that w e are trying to get back in line. Similarly, we are looking at Dubai also to launch in FY '26.
Vaibhav Saboo: Understood. And, sir, just one last thing if I could…
Kamal Khetan: Just to make you aware, we also have Bandra, we also have Borivali. And we als o have 1 or 2 more new projects which are there in our portfolio. So at least we are confident even if we launch 2 or 3 out of them, we will easily achieve our against growth targets we are targetin g at close to 30% plus in pre -sales .
Vaibhav Saboo: Sir, just one last, if I could squeeze in. Just on the launch strategy . So, we would be launching Nepean S ea project 2 only p ost complete holdout of Nepean S ea project 1 or whether th is would come in at a later stage even, let's say, when we have some inventory in project once.
Kamal Khetan: Vaibhav, it will be very hard to explain you what are our plans on the call. I think we can discuss this offline. What definitely we will -- this is part of first launch only when we ar e talking Nepean Sea 1, Nepean S ea 2 that is part of the same tower and same launch.
Vaibhav Saboo: Understood. Sure, sir. Thank you and all the best.
Moderator : Thank you. We have the next follow -up question coming from the line of Pritesh Sheth fro m Axis Capital. Please go ahead.
Pritesh Sheth: Just one question on collections. It's still lagging the presales, but I think given we are about to deliver Avenue 4, how do you expect this collection trajectory moving forward? And what could be the key triggers for this collection to scale up from here on?
Prashant Chaubey: Pritesh, Prashant this side. So, as you know , connections are milestone -driven on completion of Sunteck City 4th revenue at ODC Goregaon West plus initiation of construction at Sunteck Sky Park, Mira Road, you will see collection s jumping in the coming quarters. Moreover, with further progress in construction at Sunteck Beach Residences, Vasai and Sunteck Crescent Park at Kalyan you will see growth in collecti ons. Thank you.
Pritesh Sheth: Got it. And these figures are like will happen in the next 1 or 2 quarters? Or some of them will probably take a little longer?

Prashant Chaubey: Whatever we are talking about, it will happen in the near -term quarters as well , and it will sustain because construction will keep on moving up at a fast pace.
Pritesh Sheth: Got it. Fair enough. Thank you, that's it from my side. All the best.
Kamal Khetan : So Pritesh , just to reiterate. So Q4, you will see Q4 and Q1 of FY '26, definitely, you will see the big jump coming from the -- giving the possessions of 4th Avenue, and plus then there will be follow -up other projects possession . So, this will be sustained basically. That's what we are trying to see.
Pritesh Sheth: Sure. That's very helpful sir. Thank you.
Moderator: Thank you. Ladies and gentlemen, we would take that as our last question for today. I would now like to hand the conf erence over to the Chairman and Managing Director, Mr. Khetan for closing comments.
Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today. In case if any of

your queries have been left unanswered, please feel free to re ach out to our Investor Relations Team. We truly value your continued support and look forward to strengthen this relationship. And thank you once again. Thank you, everyone.

Moderator: Thank you for taking out the time for Sunteck Earnings Conference Call . You may now disconnect.

Page 2 of 7
Moderator: Ladies and gentlemen, good day and welcome to the Sunteck Realty Limited Earnings
Conference Call for Q4 FY25.We have with us today, Mr. Kamal Khetan – the Chairman and Managing Director of the

Company, Mr. Prashant Chaubey – the Chief Financial Officer and
Mr. Abhishek Shukla – the Vice President of Strategy and Investor Relations.
Please note that this call will be for 30 minutes and for the dura tion of the conference call, all
participants will be in listen only mode. Th is Conference Call is being recorded and the
transcription of the same may be pu t up on the website of the Company.
After the Management's discussion, there will be an opportunity for you to ask questions. There
will be a Question-&-Answer session, and we request to restrict questions to two per participant.
Should you need assistance during the conference call, please signal an operator by pressing '*'
then '0' on your touchtone phone.
Before I hand the conference over to the Management, I would like to remind you that certain
statements made during the course of this call may be based on historical information or facts
and may be forward looking statements including those related to business standards, plans and
strategies of the Company, its future financial condition and growth prospect. These forward-
looking statements are based on the expectations and projections and may involve a number of
risk and uncertainty and other factors that could cause actual results, opportunity, and growth potential to differ materially
from t hose suggested by such statements.
I would like to turn the conference over to Mr. Khetan – the Chairman and Managing Director
of the Company. Thank you and over to you, sir.
Kamal Khetan: A very good afternoon to everyone and thank you for joining us today. I would like to take you
through the key developments for this period.
To start on positive note, we have registered our highest ever pre- sales of Rs. 870 crores for the
4
th Quarter of FY25 which led to the highest ever full year pre-sales of over Rs. 2,500 crores for
FY25, registering a robust growth of 32% over FY24. With this, we have grown faster in FY25
versus previous year, and we are confident of achieving similar growth in FY26 with higher
margins. Sales contribution was from all projects, especially our Uber-Luxury projects in
Mumbai. These sales give us better margins as well. The net GDV as of FY25 stands at about Rs. 40,000 crores which has
grown nearly three times from FY22. We continue to focus on
acquisition with higher EBITDA margins. We have spent more than Rs. 180 crores towards new
acquisitions in FY25. I am confident of announcing a few new acquisitions very soon. We have generated a strong net
operating cash flow surplus of Rs. 374 crores in FY25.
Our balance sheet remains strong wi th a net cash surplus of Rs. 125 crores. Our net debt to equity
has improved from (-0.02x) in 3
rd Quarter of FY25 to (-0.04x) at end of 4th Quarter of FY25.

As we move ahead in FY26, we remain focused on value-accretive project additions and more
projects coming up for revenue recognition. We ar e confident of surpassing the margins of the
previous years.
I shall now hand over the call to Prashant Chaubey to take you through the financial performance
of the full year FY25.
Prashant Chaubey: Good afternoon, everyone. I trust you have had the opportunity to go through our latest Results
and the Investor Presentation which are published on our Company Website and the Stock
Exchanges. I would like to take this opportunity to share brief update on "Financial" and
"Operational Performance" of Quarter 4 and full year of FY25.
The key details are:
We sold Rs. 2,531 crores worth of area in full year FY25 which is a 32% growth over FY24 pre-
sales of Rs. 1,915 crores. During Quarter 4 FY25 pre-sales registered a growth of 28% boo

king
value of Rs. 870 crores as compared to Rs. 678 crores in the same quarter last year. Collections for FY25 stood at Rs. 1,255
crores as compared to Rs. 1,236 crores in FY24 resulting in a net cash flow surplus of Rs. 374 crores.
The cash flow ROCE stood at 16%. Consolidated cash flow ROCE of past three years stands at
a weighted average of 20%.
On the profit and loss front, operating revenue grew by 51% year-on-year for the full year ended
FY25 to Rs. 853 crores in comparison to Rs. 565 crores in the same period in the last financial
year. EBITDA stood at Rs. 186 crores in FY25, 58% growth over FY24 EBITDA of Rs. 117
crores. EBITDA margin stood at 22%. We reported net profit of Rs. 150 crores which is 112%
growth over FY24 Net profit of Rs. 71 crores in FY24.
For Quarter 4 FY25 operating revenue grew by 27% to Rs. 206 crores quarter-on-quarter and
EBITDA stood at Rs. 69 crores. EBITDA ma rgin for Quarter 4 FY25 stood at 33%.
On a quarterly basis our EBITDA margin starting from Quarter 1 of FY25 has shown steady
improvement of 10% in Quarter 1 FY25 to 22% in Quarter 2 FY25, 30% in Quarter 3 FY25 and ended the year with 33% in
Quarter 4 FY25. We reported a net profit of Rs. 50 crores. Our net
debt to equity stands at (-0.04x) with a net cash surplus of Rs. 125 crores during FY25.
Thank you. With this we open the floor for questions.

Moderator: Thank you very much. We will now begin the qu estion-and-answer sessio n. The first question is from the line of Rishabh Gang from Sachet Family Office. Please go ahead.
Rishabh Gang: Good set of numbers. I wanted to understand what is the pre-sales split between Napean Sea and BKC which is in our Uber-Luxury ones.

Prashant Chaubey: Our sales for BKC in Quarter 4 was Rs. 150 crores and our sales in Napean Sea was Rs. 423 crores.
Rishabh Gang: Okay. Also, for the pre-sales at Nepean Sea, what kind of agreement are we doing? Because I think it is not yet RERA launch, right? and has the old building of Baug-e-Sara demolition started?
Kamal Khetan: So, the last question first. Old building of Ba ug-e-Sara demolition has st arted in full swing and what we have assigned now more areas to our high-profile owners and tenants of this existing building under the permissible norms under that we are doing this new sale that is a part of pre-sale.
Rishabh Gang: Okay. So, it is existing pe ople who are living there.
Kamal Ketan: Yes, who have the ownership rights and the tenancy rights.
Rishabh Gang: Okay, also sir what is the status of our Dubai project?
Kamal Khetan: So, the Dubai project as we have always been mentioning is obviously under the approval and designing stage an d we will be looking to la unch towards the latter part of the FY'26 or early FY'27.
Rishabh Gang: Just one more question from my end, which are the projects, which are going to lead our pre-sales for the next two quarters especially in Premium-Luxury and the Aspirational-Luxury one?
Kamal Khetan: So, we all know that Uber-Luxury is doing better than Premium-Luxury and Premium-Luxury is doing better than Aspirational-Luxury. So, Uber-Luxury will take more lead than Premium-Luxury but nevertheless there are lot of launches which are coming, new launches for us in Premium-Luxury as well so I think both will drive maximum growth, definitely much better than Aspirational-Luxury.
Moderator: Thank you. The next question is from the line of Pritesh Sheth from Axis Capital. Please go ahead.
Pritesh Sheth: Thanks for the opportunity. Firstly, congratulations, a good year for us both in terms of pre-sales as well as P&L profitability. The first question is on next year's growth what are the likely projects which are now going to contribute in te rms of growth and status in terms of launches for each of those if you can provide that would be very helpful. Thank you.
Kamal Khetan: So, Pritesh for the launches definitely we ar

e looking forward for the formal launch of Sunteck Nepean Sea Road project which is of GDV value of, on the current status more than Rs.5000 crores and the 5
th Avenue at ODC Goregaon West which is for one tower of GDV value of more than Rs.1,500 crores and Sunteck's Skypark one more tower which we look to launch in this current financial year which is again close to GDV value of Rs.700 crores. Then Sunteck's Beach

Residences Vasai which again we will be launching, SBR again one or may be two towers with a GDV value of close to, both the towers put together Rs.400 crores to Rs.450 crores and then one new phase of Sunteck World Naigaon which is again close to Rs.350 crores. So all these new launches what we are planning to see in this current financial year and with which we are confident that we will achieve our similar pre-sa les growth what we ha ve achieved in FY'25.
Pritesh Sheth: Sir, even Dubai right while you mentioned.
Kamal Khetan: So, Dubai we are not considering a lthough in this pre-sa les but we are trying our best to see that we can launch in FY'26 or else early FY'27.
Pritesh Sheth: Okay. If at all if it is early FY'27 what would be causing that de lay? Is it regulatory thing or --
Kamal Khetan: It will be the approvals, nothi ng else obviously approvals and it is that the designing stage work we were contemplating the mix of the projects that is why we had to change the design once or twice. Right now we are at a very advanced stage for our product mix because it is a large project. It is almost close to 3 acres land parcel next to Dubai Mall in heart of Dubai Downtown, so we want to be very cautious what we are launching, so now it is at the final stage, so now approvals and then obviously we have to look at launch.
Moderator: Thank you. The next question is from the line of Gurpreet Singh from Arihant Capital. Please go ahead.
Gurpreet Singh: Good Afternoon sir. First of a ll congratulations for th e wonderful set of results. I have a couple of questions. The first one is like collections seem to be more or less in line with the last year, so what kind of trajectory are we expecting on collections front and secondly how much revenue

recognition we are expecting in the coming financial year now?
Kamal Khetan: So, collections, one thing is very clear that this time more pre-sales if you see has come from the Uber-Luxury and the new projects, the new launches, projects which are just going to start. So obviously those collections at the initia l stage is low but knowing that now 4
th Avenue ODC
Sunteck City in the coming quarter we are expecting that to receive occupation certificate. So the collections because of the projects which ar e under completion will come in the next two - three quarters, we are expecting the collection to be obviously more robust this year than the last financial year. Coming to the next question I think I will leave it to Prashant to answer your next question.
Prashant Chaubey: With regards to revenue recognition definitely with the occupation certificate getting received for Sunteck City 4th Avenue so that project will come up for revenue re cognition in FY26.
Kamal Khetan: And we are confident, you will see that similar growth of 30%-35% in even our revenue and our margins as well as our bottom line.

Moderator: Thank you. The next question is from the line of Abhinav Sinha from Jefferies India. Please go ahead.
Abhinav Sinha: Congratulations on the strong qu arter and the year. On the sales trajectory just wanted to check so you are expecting growth to be approximately 30% next year ex of Dubai.
Kamal Khetan: I have said similar growth in spite where people are giving lesser guidance, but we are confident that we will have a similar growth this year irrespective of Dubai.
Abhinav Sinha: So north of 20% should that be a fa

ir number?
Kamal Khetan: Yes, easily, very confident.
Abhinav Sinha: Which segment do you think will dr ive this? This is basically BKC, Napean Sea or whole mix?
Kamal Khetan: Obviously this year also if you see our sales has been across all segment but we all have been saying that Uber-Luxury is definitely doing much better than Premium-Luxury and Premium-Luxury is doing much better than Aspirational- Luxury. So, our major focu s will be on Premium-Luxury as well as Uber-Luxury to drive this growth.
Abhinav Sinha: Secondly, I wanted to ask your observation on how pricing behavior has been across segment this year and what are your expectations for the same next year?
Kamal Khetan: We are not contemplating any price rise in any se gment, and we are hoping that even if the price remains stagnant, we have more focus on the veloci ty and we will try to see that we can do more velocity than the price rise; because our margins has improved a lot and it will continue to see irrespective of the price rise. We are confident of our margins to remain intact or only going better from here.
Moderator: Thank you. The next follow-up question is from the line of Rishabh Gang from Sachet Family Office. Please go ahead.
Rishabh Gang: Any senior management hire that we have done especially for sales and marketing and because you know we are going to have a lot of Uber-Luxury kind of inventory going forward?
Kamal Khetan: This is a regular process of hiring senior management in every department and everything. I think that process is already there, and we have enough staff for this new growth. We are also hiring more people to see that we continue to maintain this momentum of our pre-sales growth and we have no concerns about that. Any reason of asking this specific question?
Rishabh Gang: No, just in the sense of capability building.
Moderator: Thank you. The next question is from the line of Parvez Qazi from Nuvama group. Please go ahead.

Parvez Qazi: I wanted to get your thoughts on our Bandra project and when do we see that getting launched?
Kamal Khetan: Okay. Bandra, we have already started; toward the end of this financial year, we have almost acquired that project redevelopment. I think archit ecture designs are getting finalized and in the process of getting the approvals. I think once that approval comes, we are quite confident, I can give you on a conservative side towards the end of this financial year or toward the early next financial year we will be able to launch that project. But that is with a not very big GDV value, so we are not even considering that in our whatever numbers we are contemplating for the next. If it comes in this financial year, it is always better and more the merrier so that is how it is.
Moderator: Thank you. Ladies and gentlemen that was the last question for today. I now hand the conference over to Mr. Kamal Khetan for closing comments.
Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today. In case if any of your queries have been left unanswered, please feel free to reach out to our investor relation team. We truly value your continued support and lo ok forward to strengthening this relationship.

Stay safe everyone and thank you once again.
Moderator: On behalf of Sunteck Realty Limited that concludes this conference. Thank you for joining us and you may now disconnect your lines. Thank you.

"Sunteck Realty Limited Q1 & FY '26 Earnings Conference Call "

July 18 , 2025

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN & MANAGING
DIRECTOR , SUNTECK REALTY LIMITED
MR. PRASHANT CHAUBEY – CHIEF FINANCIAL
OFFICER , SUNTECK REALTY LIMITED
MR. ABHISHEK SHUKLA – VICE PRESIDENT
(STRATEGY & INVESTOR RELATIONS), SUNTECK
REALTY LIMITED

Moderator: Ladies and gentlemen, good day and welcome to the Sunteck Realty Earnings Conference Call for Q1 FY '26.

We have with us today Mr. Kamal Khetan – the Chairman and Managing Director of the company ; Mr. Prashant Chaubey – the Chief Financial Officer ; and Mr. Abhishek Shukla, the Vice President of Strategy and Investor Relations.

Please note, this call will be for 30 minutes . And for the duration of this conference call, all participant lines will be in the listen -only mode. This conference call is being recorded, and the transcript for the same may be put up on the website of the company.

After the management's discussion, there will be an opportunity for you to ask questions. There will be a Q&A session, and we request to restrict questions to two per participant. Should you need assistance during this conference call, please signal an operator by pressing "*", then "0" on your touch -tone phone.

Before I hand the conference over to the Management , I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts, and may be forward -looking statements, including those related to business statements, plans, and strategies of th e company, its future financial condition, and growth prospects. These forward -looking statements are based on expectations and projections, and may involve a number of risks and uncertainties, and other factors that could cause actual results , Opportunities , and growth potential to differ materially from those suggested by such statements.

I would like to turn the conference over to Mr. Khetan – the Chairman and Managing Director of the company. Thank you and over to you, sir.

Kamal Khetan: A very good afternoon to everyone . And thank you for joining us today. We are off to a strong start with several positive developments that sets the tone for the year ahead. I would like to highlight a few key achievements that showcases our progress and momentum.

We achieved a significant milestone with highest ever 1st Quarter pre-sales bookings of Rs. 657 crores in Q1 of FY '26, representing a year -on-year growth of 31% as against Rs. 502 crores in Q1 of FY '25.

Building on our strong performance, we reaffirm our guidance of achieving similar or a better growth for the full year of FY '26. As the Uber Luxury and Premium Luxury segment continues to drive a larger share of our pre -sales, we anticipate further margin expansion contributing to our overall profitability.

On the business development front, I am pleased to share the addition of 2.5 acres of redevelopment project at Andheri, Mumbai , near Western Express Highway, with gross development value of Rs. 11 billion. With this project , and more to be added in coming quarters,

we are confident of taking our GDV to more than Rs. 500 billion from the current GDV of Rs. 400 billion. We are accelerating our BD activity and have already invested more than Rs. 3 billion in current quarter compared to Rs. 1.8 billion for the full year FY '25.

We continue to scale our operations by aggressively investing to drive the growth . But at the same time , our prudent cash flow management allows our balance sheet to remain strong with negligible net debt to equity ratio of 0.02x.

As we are increasing our GDV value exponentially, we are gearing up for the new launches. And we have set a target to launch new projects worth Rs. 110 billion GDV in the coming three

quarters of the financial year FY '26. I repeat this, we have set a target to launch new projects
worth Rs. 110 billion GDV value in the coming three quarters of the financial year FY '26.
Our strong financial foundation enables us to pursue strategic initiative and be more agile and
responsive to changing market condition, ultimately

driving long term value creation for the
company.
I shall now hand over the call to Prashant Chaubey to take you through the financial performance
of Q1 FY '26.
Prashant Chaubey: Thank you , Sir. Good afternoon , everyone. I trust you have had the opportunity to go through
the latest results and the investor presentation, which are published on our company website and
the stock exchanges. I would like to take this opportunity to share brief update on financial and
operational performance of Q1 FY '26.
The key details are : We sold Rs. 657 crores worth of area in Q1 of FY '26, which is a 31%
growth over Q1 FY '25. Collections for Q1 FY '26 stood at Rs. 351 crores as compared to Rs.
342 crores in Q1 of FY '25. The strong co llections has resulted in a net operating cash flow
surplus of Rs. 108 crores in Q1 of FY '26.
On the P&L front, operating revenues stood at Rs. 188 crores for Q1 of FY '26. EBITDA stood
strong at Rs. 48 crores in Q1 of FY '26 representing 52% growth over Q1 of FY '25's EBITDA
of Rs. 31 crores. EBITDA margins stood at 25%, up 15% on year -on-year basis.
We reported net profit of Rs. 33 crores, which is a 47% growth over Q1 of FY '25. And net profit
margins stood at 18%. Our net debt -to-equity stood at 0.02x and Fitch India Ratings has affirmed
long-term credit rating of AA stable to us.
With this, we open the floor for questions. Thank you.
Moderator: Thank you. Ladies and gentlemen, we will now begin the question -and-answer session. We take
the first question from the line of Biplab Debbarma from Antique Stock Broking. Please go
ahead. Biplab, if you can please unmute your line and ask your question. Since there is no
response, we will move on to the next question, which is from the line of Sourabh Gilda from

JM Financial . Please go ahead. We take the next question from the line of Abhishek Lodhiya
from Motilal Oswal Financial Services Limited. Please go ahead.
Abhishek Lodhiya: Yes. Good afternoon , Sir. So, my question is about collections. Collections somehow looks little
weaker. Is there any reason to it, or how should one look at the collections?
Prashant Chaubey: Hi Abhishek, Prashant this side. So, if you look at the collections, both on a Q -on-Q basis and
on a year -on-year basis, our collections have gone up and in the coming quarters you will see
these collections improving even further, as you are witnessing our pre -sales is coming from
newly launched projects. So, as the construction moves ahead, you will see collections
momentum gaining further strength going forward.
Abhishek Lodhiya: Okay sir, thank you. Thank you.
Moderator: Thank you. We take the next question from the line of Vasudev from Nuvama Wealth
Management Limited. Please go ahead. Sir, then we will move on to the next question from the
line of Abhinav Sinha from Jefferies. Please go ahead.
Abhinav Sinha: Okay. So, let me just go ahead with my questions. So, good to see the strong numbers , just a
couple of things. One is , on the new launch project target that you have said of Rs. 110 billion
in the next nine months , so can you detail what are these projects?
Kamal Khetan: Yes, Abhinav. So, this is the launches from ODC 5th Avenue, Sunteck City, which is close to
more than Rs. 1,500 crores. And then Bandra Bandstand, which is more than Rs. 1,000 crores.
Andheri, this Western Express Highway, which is the new acquisition, which is again Rs. 1,100
crores. Mira Road, we are looking to launch one more new tower, which is again Rs. 1,000
crores. Vasai, Sunteck Beach Residences, which is again two more new towers, because from
the old inventories we are almost exhaust ing most of the inventories, so two more new towers
there , close to Rs. 500 crores, Rs. 600 crores there. Naigaon, Sunteck World, the one more new
phase , from there we are looking to again garner another Rs. 500 crores laun

ch, a new launch of
GDV value of Rs. 500 crores. So, total GDV value from this launch pipeline, including Nepean
Sea Road should be close to Rs. 11,000 crores, what we look at these three quarters.
Abhinav Sinha: Okay and how much of this you think is the 2Q versus second half of the year , should we build
in something like that?
Kamal Khetan: So, Abhinav, we all know that we are in the world of uncertainty in the case of approvals, when
it comes, it is not in the company's hands most of the time. So, we want to that's why give targets
for the full year. And we are confident that we will be able to launch this kind of a GDV value
for this financial year of FY '26.
Abhinav Sinha: Sure. The second question is on the business development side where you spent close to Rs. 3

billion this quarter , so how much of this is for Andheri, if you can guide us ? And what is, say, on the horizon from this money?

Kamal Khetan: So, I would say , Andheri would be very negligible or in fact for most of the things its new horizon, or maybe in one or two existing ones, to increase the size of it.
Abhinav Sinha: Okay and Sir, this Rs. 500 billion GDV target, this we should achieve by March or maybe sometime next year?
Kamal Khetan: We are talking about FY '26 March.
Abhinav Sinha: FY '26. Okay , we are yet to see the strong sort of outlook here. Thanks.
Kamal Khetan: Thanks, Abhinav. Thanks.
Moderator: Thank you. We take the next question from the line of Sourabh Gilda from JM Financial. Please go ahead.
Sourabh Gilda: Yes. Hi , Congrats on the good set of numbers. Just wanted to get your outlook on the Nepean Sea project. I think it has been doing very well since the launch, and in this quarter also I think it has driven the luxuries sales. So, how do you see the trajectory in FY '26?
Kamal Khetan: So, if you see , the sales are coming from both the luxury project , BKC and Nepean Sea as well. And we are looking, obviously, that's why to launch all our very premium end segments including Bandstand, Bandra West and that's why even the Western Suburbs are also driving good sales we are seeing , so that's why ODC and Andheri. So, that's how we are looking. And this will continue in FY '26 and FY '27. So, we are more focused on now uber luxury and premium luxury.
Sourabh Gilda: Okay. Thanks and just taking the collection part again, is there any collection guidance that one can look at this year?
Kamal Khetan: So, collection guidance, giving guidance of collection would be very hard, but we can say that we will be definitely doing much higher than what we have done collections last year. Because new sales which are happening is from the new launches. So, once th e construction of these project starts, obviously the collections , you will see the exponential growth in the collections accordingly for sure. But it will be substantially more than what we have collected last year, I can say. So, we are talking about sales, pre -sales growth of more than 30%. Where we can say, here also there can be a similar or something, there will be a substantial growth I can say , some similar growth we can look at the collections also.
Sourabh Gilda: Okay. Similar as the sales growth?
Kamal Khetan: Not exactly I would say, because I am just understanding. We can at least say 0.9% of that, because see, you have to understand what we are doing is the new sales, which are pre -sales of the new launches. So new launches, the construction starts and it picks up, then the collections

will pick up. So, that's how it is. But I can say it will be substantial more than the last year. Collection guidance will be very difficult for us to give it right now.
Sourabh Gilda: Okay. That's helpful. Thanks so much.
Kamal Khetan: Thank you.
Moderator: Thank you. We take the next qu

estion from the line of Shreyans Mehta from Equirus. Please go ahead.
Shreyans Mehta: Yes. Thanks for the opportunity. Sir, first on, any updates on our Dubai project ? I mean, when can we expect that to come on stream ? And secondly, as far as our commercial asset of Avenue is concerned, will the resi and commercial both come together?
Kamal Khetan: Yes. So, when it comes to Dubai project, I have maintained in fact even in my last call that Dubai launch will be, we are looking to be launching it closer to either Q4 of FY '26 or Q1 of FY '27. That's what we are targeting . And we continue to maintain that. And when it comes to your commercial launch, because our same resi launch and ODC launch commercial, both are 5th Avenue and both are related to this environment clearance approval. Once we get that approval for the resi, simultaneously w e are expecting the approval for the commercial to also come .
Shreyans Mehta: Got it. and Sir, one last if I can. In terms of our new GDV which we are targeting, will it be on our asset -light model o r will we go for some land acquisition? How can one look at it?
Kamal Khetan: So, it will be a combination of, I would say, all three. All three when I say , in asset -light it will be re -development as well as JD- JVs. And when it comes to asset -heavy, we have been doing. So, if you see, this quarter we have invested almost Rs. 300 crores in just one quarter for new acquisitions. And if you see, vis -a-vis Rs. 180 crores , which was invested in the last full financial year of FY '25. So, we are very clear that we want to go aggressively. At the same time, we also want to launch this GDV aggressively.

Shreyans Mehta: Got it. That's it from my side. Thank you, and All the best.
Kamal Khetan: Thank you.
Moderator: Thank you. We take the next question from the line of Anuj Upadhyay from Investec. Please go ahead.
Anuj Upadhyay: Yes. Hi, Thanks for the opportunity, Sir. Sir, I do understand it's difficult for you to quote a number on the collection growth for the year. But at least to get kind of a sense which are the projects from where we can expect in the collection to be higher, relative basis , that would be helpful. Who would be the major contributor in terms of the collection s?

Kamal Khetan: So, obviously, major contribution whatever we have already launched and the constructions have already started and incremental sales happening in those like ODC, 4th Avenue, which is we have already received the occupation certificate , there we are seeing a large collections coming up. Mira Road, which was launched last year and we have launched three towers and the construction is going at the full swing there. There we will see a huge collection. Vasai, there we have sold very heavily and th ere are six towers which are under construction , there you will see a huge collection.
All this will give you numbers which is higher than the current FY '25 number, which is much higher. So, if I am saying, I want to very clarify that if our pre -sales grow by 30% -35%, we might not grow collection by 30% -35% but we can decently look at anything closer to 20% or around that area. So, that's how we are looking at.
Because more sales, pre -sales if you see are coming from the new launches. So, the new launches obviously, next year you will see that effect of those coming. So, incrementally you might see next year maybe we will be in line with the pre -sales growth, collection growth or maybe more than that.
Anuj Upadhyay: Fair point, Sir. This is very helpful. Thanks for that.
Kamal Khetan: Thank you. Thank you.
Moderator: Thank you. Ladies and gentlemen, we take that as the last question. And I now hand the conference over to the management for their closing comments.
Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today for the c

all. In case
if any of your queries have been left unanswered, please feel free to reach out to us. We truly value your continued support and look forward to strengthen t his relationship. Thank you.
Moderator: Thank you. On behalf of Sunteck Realty, that concludes this conference. Thank you for joining us and you may now disconnect your lines.

"Sunteck Realty Limited Earnings Call for Q2 & H1 FY'26"

October 20, 2025

MANAGEMENT : MR. KAMAL KHETAN - CHAIRMAN & MANAGING DIRECTOR, SUNTECK REALTY LIMITED
MR. PRASHANT CHAUBEY - CHIEF FINANCIAL OFFICER, SUNTECK REALTY LIMITED
MR. ABHISHEK SHUKLA - VICE PRESIDENT (STRATEGY & INVESTOR RELATIONS), SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day and welcome to Sunteck Realty's Earnings Call for Q2 & H1 FY'26. We have with us today Mr. Kamal Khetan – the Chairman & Managing Director of the Company, Mr. Prashant Chaubey – the Chief Financial Officer and Mr. Abhishek Shukla – the Vice President of Strategy & Investor Relations.
Please note this call will be for 30 minutes and for the duration of this conference call, all participant lines will be in a listen-only mode. This Conference Call is being recorded and the transcript for the same may be put on the Company's website.
After the management discussion, there will be an opportunity for you to ask questions. There will be a Q&A session and we request to restrict questions to two per participant. Should you need assistance during this conference call, please signal an operator by pressing * then 0 on your touchtone phone.
Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts and may be forward-looking statements, including those related to business statements, plans and strategies of the company, its future financial condition and growth prospect. These forward-looking statements are based on expectations and projections and may involve a number of risks and uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.
I would like to turn the conference over to Mr. Khetan, the Chairman & Managing Director of the Company. Thank you and over to you, sir.
Kamal Khetan: A very good afternoon and Happy Diwali to everyone and thank you for joining us today. I would like to take you through the key development for this period.
We achieved yet another good pre-sales performance of Rs. 7 billion in Q2 of FY'26, representing a year-on-year growth of 34%. On a half-yearly basis, our pre-sales has strongly grown by 32% to nearly Rs. 14 billion. The growth in pre-sales was driven by a project both in Uber luxury and premium luxury segment. We are confident of achieving similar growth for the full year of FY'26.
Now, on the cash flow front:
We have generated a strong net operating cash flow surplus of Rs. 2.6 billion in first half of FY'26, a growth of 35% year-on-year. This has enabled us to maintain our net debt equity at negligible levels of 0.04x despite the strong investments in business development. We have invested Rs. 4.3 billion in first half of the year in business development compared to Rs. 1.8 billion for the full year of FY'25. This demonstrates that we are committed towards expanding our development portfolio.

In the first half, we have added two projects in the western suburbs of MMR. The first one is a large redevelopment project at Andheri near Western Express Highway with a GDV value of Rs. 11 billion and second one in joint development at Mira Road on Western Express Highway with a GDV of Rs. 12 billion.
Now, I would like to share about a latest by-invite only a real estate lifestyle brand Emaance . Emaance is a new word actually authored by Sunteck that unites magnitude and magnificence and immensity with indulgence. Through this brand, Sunteck aims to take the luxury living to the next level and sets new benchmark that the Indian real estate market has never seen. The

inaugural portfolio under the Emaance includes a marquee project of Nepeansea Road which will be the most luxury and the exclusive residential development of the country.

Now, last but not the least, on the sustainability front, the Company has been awarded coveted five-star rating by Global Real Estate Sustainability Benchmark, GRESB with an outstanding score of 99 out of 100 in 2025, a sig

nificant three-point improvement over the previous year, highlighting the Company's strong focus on environment, social and governance excellence. I shall now hand over the mic to Prashant Chaubey to take you through the financial performance of Q2 & H1 FY'26.

Prashant Chaubey: Thank you sir. Good afternoon, everyone. I trust you had the opportunity to go through our latest results and the investor presentation, which are published on our Company website and the stock exchanges.

I would like to take this opportunity to share a brief update on the financial and operational performance of Q2 & First Half of FY'26.

The key details are as follows:

We sold Rs. 702 crores worth of area in Q2 FY'26, which is a 34% growth over Q2 FY'25 of Rs. 524 crores. During the first half of FY'26, we booked pre-sales of Rs. 1,359 crores, registering a growth of 32% over H1 FY'25. Collections for Q2 FY'26 stood at Rs. 331 crores, which is a 24% growth over Q2 FY'25. While for the first half, FY'26 collections stood at Rs. 682 crores, a growth of 12% over H1 FY'25. The strong collections have resulted in a net operating cash flow surplus of Rs. 258 crores, which is a 35% growth over H1 FY'25.

On the profit and loss front:

Operating revenues stood at Rs. 252 crores for Q2 FY'26 as against Rs. 169 crores in the same period last financial year. EBITDA stood strong at Rs. 78 crores in Q2 FY'26, 108% growth over Q2 FY'25 EBITDA of Rs. 37 crores. EBITDA margins stood at 31% up by 8.73% on year-on-year basis. We reported net profit of Rs. 49 crores, which is a 41% growth over Q2 FY'25 net profit of Rs. 35 crores. Net profit margins stood at 19%.

On half-yearly basis, operating revenues stood at Rs. 441 crores as against Rs. 485 crores in the same period last financial year. EBITDA stood strong at Rs. 126 crores, 83% growth over H1 FY'25. EBITDA margins stood at 28%, which is up by 1,433 basis points on year-on-year basis. We reported a net profit of Rs. 82 crores, which is a 44% growth over H1 FY'25. Net profit margins stood at 19%. Net debt-to-equity stood at 0.04x.

Thank you. With this, we open the floor for questions.

Moderator: Thank you very much. We will begin with a question-and-answer session. First question comes from the line of Pritesh Sheth with Axis Capital. Please go ahead.

Pritesh Sheth: Thanks for the opportunity. Firstly, Diwali wishes to everyone at Sunteck and their respective families. My first question is on, I think we are seeing a very steady scale-up in terms of pre-sales over last quite a few quarters. So, congrats for that. Question is on the collections. I know we were facing some challenges in terms of execution and all but what would be the exact timeline of improvement in collections going ahead? Will we see the scale-up this year onwards or probably sometime next year is when we expect? That is my first question.

Prashant Chaubey: Hi, Pritesh. We have registered a growth of 24% in Q2 FY'26 on a year-on-year basis. And as we progress with deliveries of our projects, we continue to build on the momentum. Moreover, all our projects are construction linked and we book the collections accordingly for all our ongoing projects. From our ongoing and completed projects, our collection efficiency for the first half of FY'26 stands at 80%.

Kamal Khetan: So, Pritesh, collections, you will definitely obviously see further improvement as the new projects like the many pre-sales are coming from the Nepeansea road. So, we all know that and from the luxury. So, it will catch up for sure. And you may start seeing that catch up in maybe the last Q4 of this financial year and definitely in the next financial year for sure.

Pritesh Sheth: Sure. So, launch of Nepeansea officially would be Q4 of this year or Q1 next year?

Kamal Khetan: So, if you see, we are already doing the sales for the existing customers and all. And we have d

one the substantial sales there. So, official launch, we are looking definitely Q4.

Pritesh Sheth: Sure. Just on the second one, we did Rs. 500 crore of preferential issue recently and we have seen our BD activity also going up since last, I would say, couple of quarters and even more. How should one think about it going ahead, whether this capital that we have raised would largely be utilized for unlocking the existing business development that we have done or if we would continue to look for new projects as well?

Kamal Khetan: So, Pritesh, definitely, obviously, we do not want to definitely slow down our BD activity. But at the same time, we were seeing that there will be a lot of requirement of the funds, which will be required in Nepeansea Road and Dubai, as well as commercial building of 5th Avenue, plus the new business development. So, we do not want to slow down our business development at

any point of time because of the existing commitments. And so, we wanted to be over-cautious. And hence, I think we did this. And that is how we will be liking to put our money going forward, including the new business development, which we are already aggressively looking at some of the good new opportunities over and above the existing ones.

Pritesh Sheth: And just a follow up, in which segment you are eyeing to build further? Since we are now doing more of luxury - uber luxury, that is the segment we want to target or eventually at the stage that we are in terms of cycle, we also will start looking at mid-income segment, which might probably a couple of years down the line start doing well. So, your segment of interest?

Kamal Khetan: So, we do not want to speculate too much. So, that is why looking at the market, we see already a good demand like in the ODC already and most of the sales that you are seeing is not only coming from Uber luxury segment, but also the premium luxury. So, we are looking in both this segment, definitely not in the aspirational luxury segment, but more into the premium luxury segment going forward than the Uber luxury segment. But we want to be balanced in both the segments.

Pritesh Sheth: Got it. Very clear. That is it from my side and all the best.

Kamal Khetan: Thank you, Pritesh. Thanks a lot.

Moderator: Thank you. The next question comes from the line of Sourabh Gilda with JM Financial. Please go ahead.

Sourabh Gilda: Hello, Diwali wishes to everyone and congrats on a great set of numbers. So, just wanted to take up the last question forward and get more details on your strategy for commercial development. I understand you mentioned about construction for Nepeansea and Dubai also, but given that these projects are largely high margin and can become self-funding after some initial capital infusion, but is there any now a concrete strategy to build up your commercial portfolio and can you share any timeline, if any, for the 5th Avenue specification?

Kamal Khetan: So, Sourabh, Happy Diwali to you as well. So, if you see 5th Avenue commercial, we are very clear that we want to start the construction of even 5th Avenue commercial also and we want to continue to build our commercial portfolio. But as you know, we are awaiting our approval for our 5th Avenue residential. At the same time, we will be similar timelines, we'll get the approval for our commercial. So, you will see the construction of both the starting 5th Avenue residential as well as the 5th Avenue commercial, both to be starting at the similar timeline and that's how and definitely we want to build the commercial portfolio more and more and we are exploring that while we are doing our BD activities.

Sourabh Gilda: Sure. Thank you and just one more last question from my side. If you can highlight the launch pipeline for next two quarters, which one can come first? I hope 5th Avenue is the advanced stage of launches, but anything, if

you can highlight from a launch perspective for the next two quarters?

Kamal Khetan: Sourabh, we don't want to commit which one will come first and which one will be second, but as you see, there are enough launches which are going to happen, plethora of launches, I would say, for Sunteck, which we are seeing, ODC, obviously, 5th Avenue residential, then when we are talking about the new redevelopment project, which we have acquired, even that is in the advanced stage in Andheri Western Express Highway, then we are looking to launch one tower in Mira Road, which is Sunteck Sky Park, fourth tower, and then Vasai, we are looking to launch two more towers. Again, Naigaon, we are looking to launch now, since we are depleting the inventory there also, we want to launch one more phase in Naigaon as well. Plus, obviously, we know that Nepeansea Road also we are selling some apartments, but we are looking forward to launch that and increase the GDV value while we are doing BD activity to expand that portfolio. Plus, obviously, the launch of Dubai, which whenever it comes, even that we are looking at. So, there are plethora of launches going forward, and we are looking forward for all these launches, for sure.

Sourabh Gilda: Okay, thank you so much.

Kamal Khetan: Thank you.

Moderator: Thank you. The next question comes from the line of Harsh Pathak with Emkay Global. Please go ahead.

Harsh Pathak: Hi, sir. Thanks for the opportunity and congratulations on the strong quarter and unveiling of the Emaance brand. So, my first question is on the Emaance brand itself. So, what is the status

of the construction at Nepeansea? When do we expect to start the construction there? And when can we expect the Dubai launch?
Kamal Khetan: Yes, so, good afternoon, Harsh. So, in Nepeansea, we already started the demolition of the main building, which is Baug-E-Sara, the first phase of Nepeansea Road. And so, demolition is at very, very advanced stage. We should complete the demolition in the next 15 days to one month, and our approvals are at a very advanced stage. So, we will look for those completion of approval, and obviously, thereafter RERA and we'll be looking to launch that ASAP. Then, when it comes to Dubai project, so, just to give you one good news that obviously, we have already taken a big office where we can do a sales pavilion as well as in Dubai. And we have already started setting up already that interiors and everything have started on that Dubai office and the sales pavilion. Designs of all the full project in Dubai has been totally finalized and as good as freezed. Approvals again to mention is in the advanced stage. And looking forward to the launch ASAP, that's how it is both the projects Dubai and Nepeansea Road.
Harsh Pathak: That's encouraging to hear. And so, like you mentioned, we have deployed Rs. 430 crores in the first half towards BD. So, how much more deployment do we expect since we have also done the fund raise? So, how much deployment there and so our inventory GDV, which is currently at around Rs. 39,000 crores, where do we see that in FY'26 and maybe FY'27?

Kamal Khetan: So, we have been always very clear that looking at the strong balance sheet, we will not stop our BD development activity anywhere looking, due to any fund constraint for Sunteck. Sunteck, today the balance sheet strength is so strong. I think one of the strongest balance sheet in the industry. Even we don't, didn't want it to even have a 0% hesitation while we do BD, hence we raised that Rs. 500 crores also as a Pref. And that's the reason that we don't want to compromise on BD at all when we are, and we'll continue to pour money as and when we see a good opportunity coming with a Sunteck style where we have a good IRR and good ROI, we will continue to take good projects.
Harsh Pa

thak: Sure. So, our GDV target, which is at Rs. 39,000 crores right now?
Kamal Khetan: So, we have always, you see a doubled, almost that GDV in 3 to 4 years, and we will continue to do that.
Harsh Pathak: Sure. And my last question on the pre-sales mix. So, how do we see the pre-sales mix evolving in terms of the share of Uber luxury, premium luxury and aspirational maybe over the next 2-3 years, since we have this Nepeansea?
Kamal Khetan: So, if you see our GDV, if you see in the presentation also what we have uploaded on the website and everywhere, our GDV mix is very balanced. If you see, the Uber luxury is now 38% and premium luxury is close to 29% and aspirational luxury is 34%. So, we can look at some similar sales momentum as well when it comes to the split of sales. And that's how we want to be very balanced. We don't want to exactly time the market that, I mean, you cannot predict really the market. Obviously, we would like to time it well. But it is very difficult to predict any market what it will be. So, we want to be prepared in every three segments and we will continue to maintain this. That's why we are confident of 30%-35% growth in even our pre-sales and GDV as well.
Harsh Pathak: Sure, sir. I think that answers my question. Thanks a lot for taking and Diwali wishes to you and the entire team.
Kamal Khetan: Thank you. Diwali wishes to you as well. Thank you.
Harsh Pathak: Thanks.
Moderator: Thank you. That was the last question for today. I now hand the conference over to the management for their closing comments.
Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today for the call. In case if any of your queries have been left unanswered, please feel free to reach out to us. We truly value your continued support and look forward to strengthening this relationship. Lastly, once again, I would like to wish you all and your loved ones a very happy and a prosperous Diwali. Thank you. Thank you once again.

Moderator: Thank you. On behalf of Sunteck Realty that concludes this conference. Thank you for joining us and you may now disconnect your lines. Thank you.

"Sunteck Realty Limited
Q3 & 9M FY26 Earnings Conference Call"
January 28, 2026

MANAGEMENT : M R. KAMAL KHETAN – CHAIRMAN AND MANAGING DIRECTOR – SUNTECK REALTY LIMITED
M R. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER – SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to Sunteck Realty's Earnings Call for Q3 and 9

Months FY '26. We have with us today Mr. Kamal Khetan, the Chairman and Managing Director of the Company; and Mr. Prashant Chaubey, the Chief Financial Officer. Please note this call
will be for 30 minutes and for the duration of this conference call all participant lines will be in
the listen only mode.
This conference call is being recorded, and the transcript for the same may be put on the
company's website. After the management’s discussion there will be an opportunity for you to
ask questions. There will be a qu estion and answer session and requested to restrict your
questions to two per participants.
Should you need assistance during this conference call, please signal an operator by pressing
star then zero on your touch-tone phone. Before I hand the conference over to the management,
I would like to remind you that certain statements made during the course of this call may be
based on historical information or facts and may be forward-looking statements, including those related to business statements, plans and strategies of the company, its future financial condition
and growth prospects.
These forward-looking statements are based on expectations and projections and may involve a
number of risks and uncertainties and other factor s that could cause actual results, opportunities
and growth potential to differ materially and from those suggested by such statements.
I now hand the conference over to Mr. Kamal Khetan from Sunteck Realty Limited. Thank you,
and over to you, Sir.
Kamal Khetan: A very good evening to everyone, and thank you for joining us today. I would like to take you
through the key developments for this period. We delivered a robust financial performance in
the first 9 months of FY '26 with revenue growth of 21% year-on-year, EBITDA growth of 77%
year-on-year and a PAT growth of 39% year-on-year, demonstrating our strong operational resilience and profitability.
We achieved another decent presales performance of INR7.3 billion in Q3 of FY '26,
representing a year-on-year growth of 16% on a 9-month basis, our presale registered its best
ever performance strongly, growing by 26% year-on-year to INR21 billion.
As the uber luxury and premium luxury segment continues to drive a larger share of our presales,
we anticipate further margin expansion contributi ng to our overall profitability. On the business
development front, we acquired a 1.75 acre land parcel located at Andheri near the International
Airport Mumbai with a development potential of approximately 6 lakh square feet. This project has an estimated gross development value of INR25 billion.
This acquisition marks the comp any's third strategic addition to its development portfolio in the
current financial year following the Mira Road project on Western Express Highway and the
redevelopment project at Andheri near -- again, near Western Express Highway. The combined
estimate gross development value of all th ese 3 projects stands at INR50 billion.

Now on the cash flow front, we have generated a strong net operating cash flow surplus of
INR3.5 billion in first 9 months of FY '26. This has enabled us to maintain our net debt to equity
at negligible level of 0.07x despite the strong investments in our business development. We have
invested INR6.8 billion in first 9 months of our financial year in business development compared
to INR1.8 billion for th e full year of FY '25. We are excited about our growth opportunities in
the MMR market.
With our strong balance sheet and robust operating cash flows, we continue to remain aggressive
and prudent in our business development. While we are evaluating many projects aggressively,
we continue to focus on our high IRR and equity multipl

e philosophy. I shall now hand over the
call to Prashant Chaubey to take you through the financial performance of Q3 and 9 months FY
'26.
Prashant Chaubey: Thank you, Sir. Good afternoon, everyone. I trust you have had the opportunity to go through
our latest results and the investor presentation, which are published on our company website and the stock exchanges. I would like to take this opportunity to share a brief update on the financial
and operational performance of quarter 3 and 9 months of FY '26. The key details are we sold
INR734 crores worth of area in quarter 3 of FY '26, which is a 16% growth year-on-year.
During 9 months of FY '26, we booked presales of INR2,093 crores, registering a growth of
26%. Collections for quarter 3 FY '26 stood at INR319 crores, while for 9 months FY '26,
collections stood at INR1,001 crores. The strong collections have resulted in a net operating cash
flow surplus of INR349 crores, which is a 12% growth over 9 months of FY '25.
On the P&L front, operating revenue stood at INR344 crores for quarter 3 of FY '26. EBITDA
stood strong at INR82 crores with an EBITDA margin of 24%. We reported net profit of INR57
crores, which is a 34% growth over quarter 3 of FY '25. Net profit margin stood at 17%. On a
9-month basis, operating revenue stood at INR785 crores as against INR647 crores in the same period last financial year.
EBITDA stood strong at INR207 crores, a grow th of 77% year-on-year. EBITDA margin stood

at 26% and net profit stood at INR139 crores, registering a growth of 39% year-on-year. Net profit margin stood at 18%. Net debt to equity stood at 0.07x with an operating cash flow surplus of INR349 crores during 9 months. Thank you. With this, we open the floor for questions.

Moderator: Thank you very much. The first question is fro m the line of Rishith Sh ah from Axis Capital. Please go ahead.

Rishith Shah: Yes, Sir. So a couple of questions. First on the launches. So for the fourth quarter, I assume for the third quarter, we didn't have any launches. But for the fourth quarter, how are we placed with the launches of Andheri or even Bandra for that matter? Or are we looking to kind of launch any other projects that we added in this year?

Kamal Khetan: So just for your knowledge, we have as good as launched the 5th Avenue, our ODC project in our Goregaon West ODC. You must be seeing the ads, and we have already collected a good response on EOIs from the people. And when it comes to launches in the existing projects, we

did good launch in Naigaon. We got a good response of new towers. And so we have done in this quarter also as good as 2 launches.

And in fourth quarter, obviously, the spillover of whatever we have launched now mainly will come in the fourth quarter, the ODC launch, especially the Goregaon West launch. And that should be -- obviously, we are expecting a big number from there as well.

Rishith Shah: Okay. Okay. So any -- so maybe from these 2 projects, how was the contribution? So mainly the premium luxury segment consists of the bookings from these 2 projects, is it 5th Avenue and Naigaon?

Kamal Khetan: So premium luxury segment, 5th Avenue and you can say Sky Park. So if you ask me what will be the new launches in next 1 or 2 quarters or 3 quarters, I can say, obviously, the biggest will come from the 5th Avenue, which is already as good as the launch is going on.

And then Andheri, the one which is near the Western Express Highway, the redevelopment project, which we have acquired in this current financial year. And then the Mira Road, one more tower, we will be launching, the Sky Park, Sunteck -- Sky Park. And we are launching -- going to launch Vasai at least 2 towers there in SBR, Sunteck Beach Residences.

And then we again want to launch 2 or 3 more towers in Naigaon because we saw a good response in Naigaon this time. And we are seeing that segment is slightly picking up. So there, we want to launch 1 or 2 towers more. Plus, obviously, we will be continuing to see the sales coming from our other projects going on.

Rishith Shah: Sure. Sir, just to clarify the time line you're saying over the next 4, 6 months, is it?

Kamal Khetan: Next 2 quarters.

Rishith Shah: The launches that you spent off?

Kamal Khetan: Yes, next 2 quarters. You can say 2.5 months -- 6 months, you can say. Yes.

Rishith Shah: Great. Perfect, sir. And second question was on the financials. So we saw a considerable jump on the revenue side and also some part of jump in the other expenses. So if you can just elaborate where was this coming from?

Prashant Chaubey: So Rishith, as you are aware, we have completed our Sunteck City 4th Avenue project in ODC Goregaon West. So the revenue jump that you see is coming from that project. And as far as other expenses are concerned, basically, those projects which are -- from where revenues are not getting recognized, still we have to book certain expenses which we have incurred for those projects immediately in our P&L as per the Ind AS norms. So that's why you are seeing the expenses going higher.

Rishith Shah: Right. So mostly related to the launches that we are doing currently, right? Perfect sir, that answers the questions.

Moderator: The next question is from the line of Sucrit Patil from Eyesight Fintrade Private Limited.

Sucrit Patil: I have 2 forward-looking questions. My first

Moderator: Mr. Sucrit? Due to no response, we will take the next participant. The next question is from the line of Harsh Pathak from Emkay Global.

Harsh Pathak: So my first question is on this Andheri project that we are -- Sahar project that we have recently acquired. So I think in the amount spent on BD, I think there is an incremental around INR280 crores of cash outflow. So can we consider this -- sorry, INR260 crores of cash outflow, is this entirely towards this land parcel?

Kamal Khetan: No, this land parcel is only INR140 crores. The balance is for other BDs, other whatever we

have done. So if you want to split out the BD spend, we have spent in JB Nagar that Andheri
parcel INR140 crores. We have spent in our Andhe ri -- another acquisition in Andheri East near
the Western Express Highway, which is a redevelopment project, Bima Nagar, there we have
spent close to INR15 crores. Then we have spent additionally on our Nepeansea Road project,
which is close to INR200 crores.
So it's much more than what you're talking in our BD spend this year and in 9 months. And the
5th Avenue, what we just launched, which is going on, that is close to INR125 crores. This is just 9 months. And the number which you are giving, the total spend on BD right now is close
to INR623 crores in 9 months.
Harsh Pathak: Understood, sir. No, I was more talking about the implied number for Q3, that's a delta of
INR260 crores, but I got.
Kamal Khetan: No, no. Q3 is INR140 crores for Andheri and balance is for the other projects, ongoing projects,
which we are acquiring.
Harsh Pathak: Got it, sir. And what are the plans that...
Kamal Khetan: Sorry, go ahead.
Harsh Pathak: Yes. So I was asking what is the development that we are planning for this new Sahar land
parcel? Is this going to be a resi or a commercial one?
Kamal Khetan: So yes, we are contemplating. This location is very good near the international airport and on --
of Andheri Kurla Road, very good location. So we're contemplating between the residential and
commercial. We are exploring it. I think we should be firming up our decision in the next 1 or 2
months, looking at the market dynamics.
Harsh Pathak: Sure. And any update on...
Kamal Khetan: Sorry?
Harsh Pathak: And Dubai projects?
Kamal Khetan: We lost you. Can you repeat the question, if you don't mind?

Harsh Pathak:

Yes, sir. I was willing to know the update on Nepeansea and Dubai projects.
Kamal Khetan: So Nepeansea, obviously, you know we have broken the main parcel of land parcel under -- we
are doing this project, you must be knowing under the Emaance brand, the new brand which
Sunteck has launched. So this project is already as good as we are doing sales. You are seeing the numbers in presales.
And so -- and the groundwork has already commenced. So we have demolished the entire old
building on the existing land parcel, which is close to 1 acre. And obviously, this project is very
high end and only by invitation . And we will see the constructio n work also progressing very
soon.
Harsh Pathak: Sure sir, that answers my question, Thank you.
Moderator: We have the next question from the line of Anuj Upadhyay from Investec Capital Services
Private Limited.
Anuj Upadhyay: Sir any time line for the launch of Mira Road second project for which we have recently acquired
the land parcel over there.
Kamal Khetan: So yes, Anuj, we are -- first, we want to launch our last tower of -- our fourth tower of our
existing Mira Road 1. And obviously, we are preparing for Mira Road 2 launch also. But we want to first launch -- we don't want to cannibalize both the product -- both the project with our
own -- within Sunteck only. So we want to first launch fourth tower, which will be -- we are
expecting in next 1 or 2 quarters. And thereafter, immediately, you will see the launch of the new Mira Road project.
Anuj Upadhyay: Okay. And just a clarification, sir, 5th Avenue was launched during Q3 end or it's recently been
launched. That is in early Q4?
Kamal Khetan: So we have been taking EOIs. So some EOIs have been started from end of Q3. And most of it
is obviously now continuing in January, and you will see happening in February, the main
launch.
Anuj Upadhyay: Fair point, Sir. And just a macro level question, Sir, on the demand per se because we have
presence across ultra-luxury segment to the Aspiration 1 and right from the South Bombay is the extended part of the MMR?
So just to get a sense of the market, how exactly it's panning out because what we have been
hearing about is certain kind of a slowdown happening on the resi side, especially. So just want
to take -- have your take on this. And which segments continue to do well and which are the side where we can see some kind of a pain point happening? That's all from my side.
Kamal Khetan: So market, we all see is slightly fragile, definitely. I would not like to make any speculative
question. But if you see our performance, we have performed decently well even in Q3. And we
are confident about our guidelines -- guidance of Q4 as well and for the full year as well. And I
would like to say that market is right now stable.

It will be too early to give any speculative statements. And rightsized product in every market, good market is still selling. And in fact, we are seeing slight better performance in the lower category which is like mid-segment and lower mid-segment and affordable segment, which was not there in the past.
So slowly, the pickup, that's why we did good in even our Naigaon 1 or 2 towers, and that makes us -- give us more excitement to launch more in that product also. So till now, otherwise, only the ultra-luxury and premium luxury was doing well. But now going forward, we are seeing even that is picking up slowly. And hopefully, if we get something very good in the budget, that segment should take off faster than expected.
Anuj Upadhyay: Got it, Sir. And if may I just ask one more questi on, Sir, on the BKC project. So what inventory have we left off this? And how much did we sold in the quarter?
Kamal Khetan: So we sold one unit of the Signature Island, which is a larger unit. And we have been maintaining that every quarter, we sell close to approximate

ly INR100 crores. And I think -- and in full year, we are maintaining INR300 crores to INR400 crores. I think we are in line with that, and we will continue to maintain that. Okay, Anuj, anything else?
Anuj Upadhyay: On the inventory side, sir, how much inventory has been left there?
Prashant Chaubey: Anuj, Prashant this side, we are left wi th around INR655 crores of inventory.
Anuj Upadhyay: Okay, Thank you, thank you Prashant Sir. That’s it from my side.
Moderator: The next question is from the line of Abhishek Lodhiya from Motilal Oswal Financial Services Limited.
Abhishek Lodhiya: Just one question. From last 2 quarters, we are doing roughly INR700-odd crores of presales, and we have a guidance of roughly INR3,000 crores for a year, which means INR900 crores of run rate for a fourth quarter. Are we comfortable to achieve that number? And if that is so, what basically are we looking for, basically, the launches and where it will come from?
Kamal Khetan: So Abhishek, we are maintaining that -- we have been maintaining that our presales number will grow quarter-on-quarter by close to 25% to 30%. If you see 9 months number, it's already -- we have achieved more than 25%. And that's what I said, we will maintain our guidance, and we'll achieve our guidance, looking at the launch, which is existing going on of 5th Avenue, we are quite confident we'll meet our guidance of FY '26 entirely for 12 months as well.
Abhishek Lodhiya: Okay. Which means the most -- I mean, the number would come from Avenue 5 right? That's what...
Kamal Khetan: No, the numbers will come from everywhere, Abhishek. Why? Because there is not that we have exhausted any project. So it will come from SBR in Vasai. It will come from Naigaon Sunteck World, then it will come from, obviously, Goregaon West ODC with the 5th Avenue.
Then obviously, we are looking to launch even this project, our -- Andheri East near the Western Express Highway. Plus we are doing continuous sales from BKC and Nepeansea Road. So there

is no reason we should -- and we are not -- in fact, last 3 quarters, we have done, we are overconfident that we will achieve our guidance. We may only surpass it, but not -- I don't think we'll be lesser than our guidance.
Abhishek Lodhiya: Got it Sir, thanks.
Moderator: We have the next question from the line of Abhinav Sinha from Jefferies.
Abhinav Sinha: Sir, can you please update us on the Dubai project? And are you looking to add more in the geography?
Kamal Khetan: Abhinav, we have been maintaining -- right now, we are very clearly focusing on our current project in Dubai. We are not looking at any new acquisition in that geography immediately. And we are very clear, we are Mumbai focused, and we want to maintain our focus there.
And we are -- if you are seeing that's why we have been accruing now acquisitions very aggressively within Mumbai also as we -- so we are negotiating quite a lot. And as far as Dubai project is there, office and sales pavilion setup has already started in Dubai. I think -- and the designs have been totally finalized and the approvals are in the advanced stage. And you -- what will you will see the launch also happening very soon.
Abhinav Sinha: Okay. Sir, secondly, in the Naigaon project, new tower and in ODC, how is pricing, say, as compared to the previous phases?
Kamal Khetan: So when it comes to Naigaon, pricing is at the same pricing what we have been selling. So obviously, we have not increased. But when it comes to ODC, Goregaon West, obviously, our pricing is higher than what we were selling. So that's why you will also see our margins getting better.

Abhinav Sinha: Higher by how much?
Kamal Khetan: You can say at least by 10%, 12%. And if you take the average sales of our 4th Avenue, it will be much higher. This I'm talking about from the old past 2, 3 quarters' sales. This is higher than even that, wh

at we have launched.
Abhinav Sinha: Okay. So the positioning is more premium this time around and...
Kamal Khetan: Yes. It is more luxury, more premium. And that's why these are only 3 bedroom apartments, 3 BHK and 4 bedroom kitchen apartments. These are 3 BHKs and 4 BHKs only. So we have not launched 2 BHKs this time.
Abhinav Sinha: Okay, got it, Thank you and All the Best.
Moderator: We have the next question from the line of Kunjal Agarwal from Arihant Capital.
Kunjal Agarwal: Okay. Sir, can you tell me the time line for the launch of Nepeansea, as we mentioned in Q4, so do we pick it and the time line of the Dubai project as well?

Kamal Khetan: So Kunjal, I think Dubai, I just mentioned everything. I think in the previous questions. I think I've answered. But as far as Nepeansea, I just want to tell you, this is what -- this will be not a launch, launch like what we are doing any other project of Nepeansea. You're already seeing sales happening in presales.
This is by invitation only. And that's why we created another brand under Emaance brand. And every quarter-on-quarter, we have been doing sales from there. Already we have lots of inquiries and interest which are registered. And it is not that we are going to the market and doing big advertisement and sales and marketing, which it is not like a push-push factor where we will be doing the sales.
It's a pull factor for this project. So that's how it is. And groundwork we have said that already started. And it's not like the product which is available of the -- it's not on the shelf like anybody and everybody -- we want to sell the project. We have a different strategy and we will market that project accordingly. So you can consider sales will continue in Nepeansea Road irrespective of anything.
Kunjal Agarwal: And sir, any guidance for the presales for FY '27? Is there any change in that?
Kamal Khetan: So definitely, there is -- for FY '26, I want to be repetitive. Once again, I would like to repeat and say that there is no change in our guidance. For FY '26, '27, sorry, I think we would not like to make any speculative statement current now. We will like to communicate along with our yearly results when we know the market exactly we all are talking about someone is telling the markets are stable. Someone is saying the market has slightly slowdown in the luxury and premium segment.
But fortunately, till now, we have not experienced any such things right now, if you can -- and you can see from our presales number. So looking at this, I'm very confident that even if the market will continue to at least remain stable, what I see. And if that rema ins stable, we are quite confident about our growth numbers.
Kunjal Agarwal: Okay Sir, that’s it from my side. Thank you so much.
Moderator: We have the next question from the line of Sourabh Gilda from JM Financial.
Sourabh Gilda: Congrats on good operational and financial performance. My question is on collections. I understand you have maintained that the presales are now coming from new projects and especially in Nepeansea and once that gets launched, we'll see the pickup in collections going ahead, sir. But my question is more from a 2, 3 years perspective, let's say, once the Nepeansea project gets launched, how do you see the collections trajectory on a sustainable basis for next 2, 3 years?
Kamal Khetan: So obviously, Sourabh, if -- when you say launch , I would only say when the construction, let's say, construction starts. So we are doing sales. So for us, there will be -- I'll again repeat that will be not anything like launch, launch of that project. So because it is only by invitation. So we will not like advertise or something.

That's why we created a separate brand and the cost of reputation, once again, I repeat that Emaance has been created,

that's why. So when you say collections, obviously, when the construction starts, the collecti on trajectory will crazily go up. And definitely, we'll see a much bigger momentum in the collection that time.
Moderator: We have the next que stion from the line of Abhishek Khanna from Ko tak Securities.
Abhishek Khanna: I just wanted to check, you mentioned you've done 2 launches in the third quarter, right? One you said was Naigaon. What is the other one? And second, could you also confirm the total...

Kamal Khetan: Ongoing are ODC, the Goregaon West, Sunteck City, 5th Avenue.
Abhishek Khanna: Did that have any presales contribution in the third quarter 5th Avenue?
Kamal Khetan: So small amount of it from the part of it, very small part of it, which was done...
Abhishek Khanna: For the Naigaon project.
Kamal Khetan: So Naigaon project, obviously, whatever sales has been booked in Q3 has been from the new tower launch, which was -- we feel we got a very good response compared to previously what we were seeing in that segment. So we are very now hopeful about that segment doing better now, better and better. And -- and again, at th e cost of repetition, if the budget does something good for that segment, this will really take off very well. This will take off very soon. But we are...
Abhishek Khanna: Could you confirm the launch value for the Naigaon project, sorry, the GDV that you would have launched, let' s say the Tower GDV?
Kamal Khetan: Yes. So I think we must have launched close to -- Prashant, exact number you have. So I think we are close to INR400 crores to INR500 crores approximately, what we launched.
Abhishek Khanna: Okay. Sure. And just on 5th Avenue, when you say have you received the RERA approval for that particular project already?
Kamal Khetan: Yes, long back. They've already -- otherwise, how can we do the collection. How can we take...
Abhishek Khanna: And the last question that I had was on the -- again, sorry, at the cost of repetition at our end, but the Nepean Sea Road project, just to confirm, that would also require a RERA approval, right? Have you received that RERA approval? Or is that still in works?
Kamal Khetan: So obviously, RERA approval is not received there. And this is all what the tenancy sales are happening, which does not require the RERA approval.
Abhishek Khanna: Any time line that you have in mind for getting that RERA approval?
Kamal Khetan: So just for your knowledge, we have assigned mo re areas to high-profile existing owners of the building, which is under the PAAA, you don't require the RERA approval.

Abhishek Khanna: Okay. But to sell it to a new person, you would require RERA approval. And I assume also to get the money in a significant...
Kamal Khetan: I'm not saying new tenants.
Abhishek Khanna: All right. Just one final question. Is there any time line that you have in mind for getting that RERA approval whenever you do? Any targets that you have?
Kamal Khetan: So I've been saying -- I think we were looking at end of this quarter, and it is -- it's hopeful that we will -- we should get by end of this quarter or Q1 of FY '27.
Abhishek Khanna: All right. Okay. Anything that's causing this delay? Sorry just harping on this a little more, but I'm saying this has lagged, I mean, our -- maybe expectations we would have probably expected to get this RERA approval a little while back. But for whatever reason, this has dragged a little.
Is there a specific reason to it? Or was it anything in general that has led to some delays in getting this RERA approval secured?
Kamal Khetan: I don't think we have dragged it. We always said it will be Q4 of FY '26 or Q1 of -- I don't know where are you coming with this question -- from where are you come this question. It's not dragged at all. And it's not a small project. It's a very large project and a unique project. It's -- we cannot rus

h that project.
Abhishek Khanna: Sure Sir, alright. Thank you
Moderator: Ladies and gentlemen, that was the last question for today. I now hand the conference over to Mr. Kamal Khetan for the closing comments . Thank you, and over to you, sir.
Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today for the call. In case if any of your queries have been left unanswered, please feel free to reach out to us. We truly value your continued support and look forward to strengthening this relationship. Thank you once again.
Moderator: Thank you. On behalf of Sunteck Realty Limited, that concludes this conference. Thank you for joining with us today, and you may now disconnect your lines.

"Sunteck Realty Limited
Q4 and FY '26 Earni ngs Conference Call"
April 22, 2026

MANAGEMENT : M R. KAMAL KHETAN – CHAIRMAN AND MANAGING DIRECTOR – SUNTECK REALTY LIMITED
M R. PRASHANT CHAUBEY – CHIEF FINANCIAL OFFICER – SUNTECK REALTY LIMITED
M R. ABHISHEK SHUKLA – VICE PRESIDENT OF STRATEGY AND INVESTOR RELATIONS – SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to the Sunteck Realty Earnings Call for Q4 and Full Year FY '26. We have with us today Mr. Kamal Khetan, the Chairman and Managing Director of the company; Mr. Prashant Chaubey, the Chief Financial Officer; and Mr. Abhishek Shukla, the Vice President of Strategy and Investor Relations.
Please note that this call will be for 30 minutes, and for the duration of this conference call, all participant lines will be in the listen-only mode. This conference call is recorded, and the transcript for the same may be put on the company's website. After the management discussion, there will be an opportunity for you asking questions. Th ere will be a Q&A sess ion, and we will request you to restrict your questions to 2 per participant. Should you need assistance during the conference call, please signal an operator by pressing star and then zero on your touch-tone phone.
Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts and may be forward-looking statements, incl uding those related to business statements, plans and strategies of the company, its future financial condition and growth prospect. These

forward-looking statements are based on expectations and projections and may involve a number
of risks and uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.
I now hand the conference over to Mr. Kamal Khetan from Sunteck Realty Limited. Thank you, and over to you.
Kamal Khetan: A very good evening to everyone and thank you for joining us today to participate in our company's earnings conference call for the fourth quarter and full year of financial year FY '26.
I would like to take you through the key development for this period. And before that, to share the general outlook on the real estate, we believe that uber luxury and premium luxury to continue to do well and the aspirational luxury segment is also showing some signs of initial recovery given the decrease in home loan rates and income tax benefits.
Coming to our results. Now we delivered a strong financial performance for the full year of FY '26 with revenue growth of 32% year-on-year, EBITDA growth of 64% year-on-year and a PAT growth of 34% year-on-year, demonstrating our robust operational resilience and sustained profitability. Over the last 3 years, since FY '24, we have doubled our revenue growth and grown our EBITDA to 2.6x and nearly tripled our PAT.
On the operational performance front, I'm pleased to share that we have closed FY '26 on the strong note our full year presales stood at IN R32 billion, registering a robust growth of 25% over FY '25. This strong performance reaffirms the guidance we had shared at the start of the year. Sales contribution was well distributed acro ss projects with our uber luxury and premium luxury segment, continuing to drive a larger share of our presales.
This segment mix carries a high EBITDA margin, an d we expect it to contribute meaningfully to our margin expansion going forward. It's important to note that our unsold under construction

inventory is to date less than 12 months amongst the lowest in the market. And the ready unsold stock in our marquee projects gives us our required liquidity when needed.
On the cash flow front, we have generated a strong net cash flow surplus of INR5.5 billion for the full year FY '26, representing a growth of 48% year-on-year. This has enabled us to maintain our net debt to equity at negligible level of 0.06x despite the strong investment in business development. We have invested IN R8.1 billion in full year of FY '26 compared to INR1.8

billion
for full year of FY '25. This demonstrates our commitment towards expanding our development portfolio while preserving the balance sheet discipline.
On the business development front, in FY '26 has been a strong year for the portfolio expansion.
During the year, we added 3 new projects to ou r portfolio with a combined gross development value of approximately INR50 billion, which includes first 1 to 2.5 acres redevelopment project at Andheri near Western Express Highway. The second one, near 3.5 acres joint development project at Mira Road and lastly the outright acquis ition of 1.75 acre land parcel at Andheri near International Airport.
With these additions, the total GDV of Sunteck as of FY '26 stands at approximately INR441 billion gross of presales. We remain firm and co ntinue to evaluate more opportunities with a strong focus on high IRR and high equity multiple philosophy. We are incredibly proud of our sustainability leadership. In th e 2025 Dow Jones Sust ainability Index assessment, we achieved an impressive ESG score of 78 out of 100, placing us among the top 3 Indian real estate developers on the global benchmark.
Along with that, we have also earned a stellar 99 out of in the 100 in the 2025 Global Real Estate Sustainability Benchmark, securing the coveted the green 5-star rating. I shall now hand over the call to Prashant Chaubey to take you through the financial performance of Q4 and full year FY '26.
Prashant Chaubey: Thank you, Sir. Good evening, everyone. I trust you have had the opportunity to go through our latest results a nd the investor presentation, which are published on our company website and the stock exchanges. I would like to take this opportunity to share a brief update on financial and operational performance of quarter 4 and 12 months of FY '26. The key details are, we sold INR1,064 crores worth of area in quarter 4 FY '26, a growth of 22%.
During the full year, we booked presales of INR3,157 crores, a growth of 25% year-on-year collections for quarter 4 stood at INR432 crores, a growth of 39%. And for the full year, collections stood at INR1,433 crores, a growth of 14%. On the profit and loss statement front, operating revenue stood at INR339 crores for quarter 4 of FY '26. EBITDA stood at INR97 crores with a margin of 29% and net profit stood at INR63 crores with a net margin of 19%.
On the full year basis, operating revenue stood at INR1,124 crores for FY '26. EBITDA stood strong at INR305 crores with an EBITDA margin of 27% and net profit stood at INR202 crores with a net profit margin of 18%.
Net debt to equity stood at 0.06x with a net cash surplus of

INR552 crores during FY '26. Thank you. With this, we open the floor for questions.

Moderator: We have the first question from the line of Kunal Lakhan from CLSA.
Kunal Lakhan: Hi, Good evening. Quickly, if you can give an update on the Dubai project in terms of launch time line now considering the Middle East issue?
Kamal Khetan: Hi Kunal, thank you for the question. So we all know obviously the due to the impact of war. So the project is launch-ready fo r us. And whenever we see the event settling down. We will be looking forward to launch the project as soon as possible ASAP. Just to recap, our land parcel is one of the most prime location next to D ubai Mall in Burj Khalif a Community Downtown Dubai. And our land cost to GDP is very healthy and there is no debt on the project.
So we maintain our earlier communications that this project will continue to remain highly profitable. And hence we are -- very comfortable situation. And this does not impact any of the company's growth trajectory. As far as the launch exact time line obviously we'll have to see that event settling down. And only then we will be able to launch ASAP. I can repeat at the cost of reputation. We are project launch-ready right now.
Kunal Lakhan: Understood

sir. Just 1 th ing in terms of like the interest or the demand that you're sensing for this project pre-war. Do you sense the same kind of excitement around the project once the settle down?
Kamal Khetan: So it will be only -- if I make any statement, it will be more of a speculative. I think it is -- it's very important Kunal that we see them -- how this settles up. And just again that the reputation cost company has no debt on the entire balanc e sheet of Sunteck. And also at the SPV project level. We don't have any debt at -- no there is a 0 debt at Dubai project level also. So -- and our cost of acquisition is like compar ed to even the post war whatever settles, even if the market comes down.
I continue to maintain once again, the profitabili ty will continue to remain very high in this project irrespective of what happens because our cost of acquisition is very, very low compared to the pre -- even if the market corrects by 10%, 20%, we are not worried about it. But we will be looking to launch this project ASAP.
Kunal Lakhan: Understood sir. My second question is on the business development side. Like we did some substantial spend this year INR800 crores. What sh ould we expect for say '27, like -- should this number be higher than INR800 crores or let's say 20%, 25% growth over last...?
Kamal Khetan: Yes so business development we -- like last year we have put like closed less than INR2 billion -- INR200 crores. And this year we have done more than INR800 crores -- we are obviously looking at our cash flow -- strong cash flow and we will be investing aggressively. But at the same time we are very, very clear that our profitability and IRRs are not compromised. And it's obviously all depends on the good opportunity which we do.
So in my remarks also I make it very clear that while doing the BD. We will always maintain our philosophy of high IRR and hi gh equity multiple ph ilosophy. So we are very clear. And we will be at the same time looking at our strong cash flows. And we see the same cash flows

coming in years -- in current year as well as the next financial year. So we are very, very optimistic about the BD investments as well.
Kunal Lakhan: Sure, sure just a follow-up on the cash flow Sir. Like if you look at the collections right? This your -- like the collection rate of 13% which is...?
Kamal Khetan: We are losing you. We -- can you repeat?
Kunal Lakhan: Yes. Just a follow-up on the cash flows. Sir if you look at collection this year. The collections grew 14% Y-o-Y. Significantly lower than the sales growth of 25%, right? And is a collection as a percentage of sales also like it's less than 50%. I mean in terms of cash flow most so driven by collections we should see a substantial jump going into FY '27, right? .
Kamal Khetan: Yes definitely. So FY '2 7 we will have a better -- obviously percentage. That's why you see the growth will continue to grow -- it will have to become better and better. Yes I agree with you.
FY '27 and FY '28 you will see a very, very strong cash flow. That's why we're very, very bullish and optimistic about our acquisition strategy. At the same time again just repeating that without compromising on IRR and the multiples on the investment.
Moderator: We have the next question from the line of Pritesh Sheth from Axis Capital.
Pritesh Sheth: Yes. Congrats on the continuation on growth trajectory. Just couple of questions. First on the launches expected in FY '27 apart from Dubai obviously, which is an uncertain one. But apart

from Dubai which all launches, should one expect to come by in FY '27 and total GDV if you can elaborate on that as well?
Kamal Khetan: Prashant, you'll like to answer this question?
Prashant Chaubey: Hi, Pritesh. So, in terms of launches, we have a slew of launches that we are planning for the next 12 months. So, as you are already -- we have already launched

Altavia 5th Avenue in ODC, Goregaon West. So that project is already launched. Separately from that, we have a project redevelopment project coming up in Andheri near Western Express Highway. Then we have a new tower coming up in Sunteck Sky Park in Mira Road then we have two more towers coming up in Sunteck Beach Residences in Vasai.
Then a new phase will come up in Sunteck world in Naigaon, plus the new acquisition in Mira Road that will also be launched in the current -- in the next 12 months. And already, you have plus Nepeansea Road project is already there. So all these are the key launches that we are, we see ourselves in the next 12 months.
Pritesh Sheth: And broader GDV of these launches, if you have the number handy?
Kamal Khetan: So it can be close to INR6,000 crores to INR7,000 crores of GDV.close to approximately INR7,000 crores of GDV.
Pritesh Sheth: Got it. That's helpful. And ju st on the recent projects that we have signed, it's mix of…

Kamal Khetan: Yes, sorry, just to correct, INR7,000 crores of GDV from plus Nepeansea. It whatever -- on Nepeansea and plus BKC and plus the existing inventory.
Pritesh Sheth: Yes. Sure. So, second, on the recently acquired projects, right? It's mixed of outright as well as on redevelopment. What should be the margin expectations from those projects? And if you can also highlight by bulk of the sales now is coming from the uber luxury project, both BKC as well as Nepeansea Road. What should be the blended EBITDA margins that one should assume for FY '26 presales that we have done? And for whatever we have signed in FY '26?
Kamal Khetan: So, Pritesh, from -- if you see current sales, what we have done is INR94 crores to approximately INR100 crores that come from aspirational luxury and close to INR360 crores to INR370 crores have come from premium luxury. And close to INR600 crores have come from uber luxury than other commercial as well. So total -- if you see 10% to 15% is from aspirational luxury, 40% to 45% is from premium luxury, and close to 50% is from uber luxury and other commercials, etcetera.
So, these are the -- this is the way. And when you come to -- when you're asking to answer your second question, what will be the kind of ma rgin -- EBITDA margin, what we are looking at.
So blended EBITDA margin, we are looking at minimum 35% to 40%, even in the new acquisitions, we are not worried about coming down below 35%. We are very clear on that. Even in our new investment strategy or acquisition strategy or even a re-development or JV/JD. So we are looking at minimum 30%, 35% on each project basis.
Pritesh Sheth: Sure. So if I got you correctly, FY '26 presales, whatever we have done the blended EBITDA margin should be 35%, 40% and that is what we are hoping to maintain for the recently signed projects as well?
Kamal Khetan: So recently signed project, you can say, 30%, 35% margins and blended will be close to 35% to 40%.
Pritesh Sheth: Sure. Okay. That's helpful. That's it from my side and all the best.
Kamal Khetan: Thank you, Pritesh. Thank you.
Moderator: Thank you. We have the next question from the line of Puneet from HSBC. Please go ahead.
Puneet: Yes. Thank you so much. Sir, my first question is on some commentary on pricing trend. Where are you seeing the direction of pricing in Mumbai market? Are you finding still room to grow beyond inflation or should one as sume more flattish growth there?
Kamal Khetan: So Puneet, I gave – in fact I feel that we should not expect too much of price rise from here. I think stable price in this atmosphere or this current situation should be good enough. And we see the demand in uber luxury and premium continue to maintain, will be continued at the same momentum, we definitely feel we are very bullish on it.

At the same time, we are also feeling months th

at even your aspirational luxury segment, affordable segment, which is also looking a positive tick that we are seeing a good demand picking up there also because of the I think income tax benefits and also maintaining the home loans at a lower level. So that is now dr iving slightly more demand than before.
Puneet: And especially in the last 1 month are you seeing any change in pattern given there is clearly disturbance or uncertainty on account of war? Are you seeing slower footfalls in your projects

or slower conversion rates at all?
Kamal Khetan: Footfalls, I can say definitely must have dropped by 5%, 10% for sure. But I think conversion ratios are similar. But I think this is not more worrisome I don't see that. It's 1 month, if you see 1 month trajectory, I don't think we should be worried about it. We are quite confident, again, at the cost of repetition. I've maintained that we are quite confident on uber luxury as well as premium luxury segment. And we have seen, you have seen we have grown by throughout the year, 25%. Even in the last quarter, we have done very well. So we are very bullish on it. We are very optimistic on it, I would say. And at the same time, we have seen in the last quarter, even the demand picking up in aspirational luxury segment. .
Puneet: Okay. And any shortage of material labour that you're experiencing currently?
Kamal Khetan: Yes, definitely there is some shortage, but that I feel is more because of the like West Bengal elections, all these elections. So people labors tend to go for the voting purpose and all for various reasons. So -- and again, that is -- we'll see that coming back again because of the elections are over by the end of this April. Th at's not again a worrisome. Otherwise, we don't see much problem. Maybe in some finished goods, there is the prices increase like in tiles and all some of the goods which are import dependent, which are maximum imports are happening. But again, we look -- see it as a temporary thing because of this event, which is going on. We are all waiting to waiting and watching it. I think -- but that is not for a real estate in Mumbai, like our average selling price would be more than INR25,000, INR30,000 square feet. That will, for us, even if construction cost goes up by, let's say, 2% or 3% should not impact our profitability to that extent. So -- and we consider this is very temporary. So, we are very particular in buying our raw materials like when what is required immediatel y only that much we are buying because we see those sensitive materials obviously not to buy ri ght now. But definitely, there is some problem in certain supply chain.
Puneet: But no short...
Moderator: Puneet, request you to kindly come back in the queue for follow-up questions. Thank you. We have the next question from the line of Rish ith Shah from Axis Capi tal. Please go ahead.

Rishith Shah: Thank you for the opportunity. Good evening, Sir. Sir, two questions from my end. So firstly, on the deliveries from the P&L angle, what kind of deliveries or comple tions are we targeting for FY '27?
Kamal Khetan: Prashant do you like to…
Prashant Chaubey: Hi, Rishith, in terms of delivery in the coming financial year, we are looking at our project at Sunteck One World in Naigaon. So that project w ill come up for delivery. And along with that, all the ready inventory, which is there from there also, revenue recognition will happen.
Rishith Shah: Fair enough. And on the leading side, so on the 5th Avenue that is commercial part. So, we started working on the construction of it?
Kamal Khetan: So Rishith, 5th Avenue construction we are looking to start very soon. Most of the approvals are in place. That's why, first, we wanted to laun ch our residential tower in the 5th Avenue, which is we did recently Altavia and we got a good response. And for the commercial bid, now th

e

approvals almost we are through with most of the approvals. And very soon, you will see this construction starting now.
Rishith Shah: And just a follow-up, how is the contribution from 5th Avenue this quarter or maybe in the second half?
Kamal Khetan: So, I said we got a very good response. And I would not be able to give you immediately the split, but I have given you, which we considered as a premium segment. In the premium segment, this quarter, we have done close to INR370 -- approximately INR370 crores sales and quite a bit has come from that.
Rishith Shah: If I can just add one more question. Any guidance that you would like to give for FY '27 and the pre-sales?
Kamal Khetan: So, FY '27, see, we remain very confident of sustaining similar growth, I can say. So whatever we have done right now, growth -- in terms of growth percentage, we will maintain that momentum very easily in coming years, for sure. And with improved margins also because of our -- because of the prices have gone up. And whatever we have booked right now, till now, the profitability that was from the historic sales. And now going fo rward, we'll have only better margins, better and better margins.
Rishith Shah: Perfect. Thank you.
Kamal Khetan: Thank you, Rishith.
Moderator: We have the next question from the line of Abhinav Sinha from Jefferies. Please go ahead.
Kamal Khetan: Hi, Abhinav.
Abhinav Sinha: Sir, on pre-sales, just following up on the previous one. Do you expect similar growth comment

that you have given, even ex of Dubai?

Kamal Khetan: Yes. 100% confident that irrespective of Dubai launch happening or not happening, we are seeing a similar growth because hence, we are preparing ourselves to do more launches, and we are very confident that we'll mainta in our growth, maintain our growth.
Abhinav Sinha: Okay. And sir, you said that ma ybe the footfalls are down a little, but conversions are flat. So do you think the first quarter could be a little soft and most of this growth will be in the later part of the year?
Kamal Khetan: No, I don't think so. So I said only 1-month, we saw this, but because we can see that's a peak of the event, especially in the uber luxury and premium luxury people would definitely like to wait and watch. Only due to that, maybe some drop in conversion for a footfall. But otherwise,
if you see the quarter, we have done -- in fact, the best only in that segment. That's why we continue to maintain the bull ishness in the premium luxury segment and the uber luxury
segment.
Abhinav Sinha: Okay. Sir on the...
Kamal Khetan: Go ahead, go ahead, please.
Abhinav Sinha: Yes. So on the Nepean Sea Road project, I me an, the slide appears to be shaping up quite well with the progress that we now see on ground. I just wanted to get a check on how large you think this can become? And do you think a proper RERA and plans can be floated and approved this
year, in FY'27?
Kamal Khetan: Yes, 100%. We are -- in fact, you will see everything happening maybe in this first two quarter itself coming first two quarters. And you will see the action on the construction site also, construction side also. We'll start the construction on the Baug – E - Sara plot, the first phase, and we are very confident on that. We're very, very confident on that.
Abhinav Sinha: Okay. Sir, finally, on the Andheri JB Nagar project. So are you thinking of this as a commercial or a residential right now?
Kamal Khetan: So it will be -- Abhinav, we slight early to mention that whether it will be residential or commercial, but we are definitely exploring both residential or commercial. It's located because just of Andheri Kurla Road and Sahar Road very n ear to the international market. So in fact, it has a great opportunity for commercial rentals.
So that is making us feel and looking at a strong balance sheet, we would like to also increase our rental po

rtfolio. At the same time, we are seei ng the good residential demand in that location.
So we are slightly in two minds, but we will take this decision in the next 15 days, and we will start accordingly. And we are quite confident at least we'll break the ground in Q1 or maximum Q2 itself at Andheri, JB Nagar.
Abhinav Sinha: Great, Sir, thanks and All the Best!

Moderator: We have the next question from the line of Harsh from Motilal Oswal.
Harsh: So my first question is on the presales. So what is the contribution that is coming from the BKC and Nepean Sea projects?
Kamal Khetan: So Harsh, in Q4, if you look at the full 12 months, uber luxury segment, we are -- and we are giving a mix of uber luxury and the commercial. So in uber luxury, we have definitely 2 projects, which is BKC and Nepean Sea Road project. So in Q4, the sales has been total put together is
INR609 crores. And in 12 months, if you see it is close to INR1,500 crores.
Harsh: Yes. This INR609 crores, would it be possible to give a breakup between BKC and Nepean Sea?
Kamal Khetan: I can give you the breakup -- if you want, I will -- Prashant, will you send the query, we will give you the detailed breakup on both the projects. Because this is some portion of the commercial as well, so all 3 breakup, Prashant, will be able to share with you.
Harsh: Okay Sir. That’s it from my side.
Moderator: We have the next question from the line of Puneet from HSBC.
Puneet: Yes. So just on the follow-up, there is no shortage of material that you are facing, right? I wanted to confirm that.
Kamal Khetan: It's shortage is more in terms of some finished good material s. So we have some of the finished good materials. So we are not fortunately in many projects where the finishing, except the one world where it's going on. There is absolutely no shortage in terms of cement or steel or RMC
or the stand or a break or those kind of things.
So we don't see any construction delays or construction price rise because of that too much. Only

where the project is completing, we don't want to wait maybe there so mething which is not
available where we are finding it's like difficult to source. But otherwise, it is not that that's a
problem, which is perceived as a problem, which is like people are believing that much.
Puneet: All right. And while I appreciate the way you have no debt and land cost to GDV is quite healthy,
how much have you invested in Dubai so far?
Kamal Khetan: So exact number, I will be -- I'll give you -- so just to mention…
Puneet: Broad number…
Kamal Khetan: So this year, obviously, for the launch -- so when we bought this land, so I'll just give you a
glimpse to make you understand, we have partnered with the landlord at AED385 million. And
those days, we have sent AED70 million to Dubai, only AED70 million, and that's to become a
50% partner in the 385 million property. And that AED70 million was transferred from Sunteck
at the price at the approximately what I remember was close to INR12 to a dirham. So that
INR12 today almost more than INR24 to the dirham. And that AED385 million what value
today, if we value the land -- today's market it is AED1.6 billion. So even if I give you a rough

estimate so -- we are 50% of the economic inte rest in the project from INR70 million of the
investment. Today even if I consider a land value of INR1.6 billion, it is INR800 million, so
10x.
And plus the currency benefit, which Sunteck transferred at INR12 to a dirham or INR13 to a
dirham, which is now today INR24 to INR25. So we are talking about 20x of the investment done by Sunteck.
Puneet: But your investment is only to the extent of -- your book investment is only to the extent of...?
Kamal Khetan: AED70 million and now which we transferred in the current year for the launch to we were
almost launch-read

y, that additional amount. For…
Puneet: How much is that roughly?
Kamal Khetan: In fact such a payment. And so that exact number I will not have right now. If you want you can
send the query, we'll give it to you the exact number. Yes Prashant can share just one second
Prashant can share.
Prashant Chaubey: Hi Puneet, We have invested approximately AED60 million.
Puneet: Okay. So AED70 million plus AED60 million more, right? That's all?
Prashant Chaubey: Yes.
Kamal Khetan: Current year....
Puneet: Thank you so much. All the best.
Moderator: We have the next question from the line of Akash Gupta from Nomura.
Akash Gupta: Sir, congrats on the great results. So basically I heard your commentary it was fairly strong. And
you are guiding roughly similar pre-sales growth in FY '27 versus the industry thinking -- I
mean, investors thinking that there will be a real estate slowdown. My question to you is, what's
driving this very strong demand for real estate according to you, even in FY '27 ?
Kamal Khetan: I feel it's -- obviously what we are seeing is wherever we are doing, it's obviously an end user
demand. And it is more like at the cost of repet ition. I think this is the fourth time I'm saying and
seeing this demand also picking up. It was always there in for last few years. We have seen post-
COVID the demand was very good in Uber Luxury and Premium Luxury. Again, we have now the positive side we are seeing
is the demand picking up in the Aspirational Luxury as well as.
So we have -- most of our projects are very large projects. So if this demand continues,
irrespective of even -- although we have done new acquisitions, where we'll be doing new
launches. Apart from releasing more inventory and more launches in the existing project. We
are very, very confident about our growth of the whatever we have done in the current year,
similar growth of 25% in the coming year as well.

The reason is also 1 move, which is very big positive. We are confident again of getting the
RERA and starting the construction in the current year at the Nepeansea Road which will also
give us a big boost. And we have a very low base and we need to sell very fewer unit compared to other developers, I feel.
And Aspirational Luxury has become better. So all these points gives
me -- makes us feel more confid ent while giving this guidance.
Akash Gupta: Understood, sir. And my last question is that how much incentives are we giving like to
customers -- I mean to induce this demand in the sense that are we offering like payment plans,
very aggressive payment plans to customers or we are giving heavy discounts? Is that the same? Or we don't have to do
anything to induce demand?

Kamal Khetan: So I think if you see very frankly, that's why we are -- I say that we have strong cash flows, and we are -- we don't give any -- and they're saying we w ill get a better margin in currency. And it's business as usual. In fact, it's business as usua l. There is absolutely no discount. If there is a discount then I would not be able to give a better margin coming year for sure. Everything is as usual.

Akash Gupta: Understood, Sir. Very clear, thank you so much and All the Best.

Moderator: Ladies and gentlemen, that was the last question for today. I now hand the conference over to Mr. Kamal Khetan for closing comments.

Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today for the call. In case if any of your queries have been left unanswered, please feel free to reach out to us. We truly value your continued support and look forward to strengthening this relationship. Thank you once again.

Moderator: Thank you. On behalf of Sunteck Realty Limited, that concludes this conference. Thank you for joining us. And you may now disconnect your lines.

"Sunteck Realty Limited
Q1 and FY27 Earnings Conference Call"
July 22, 2026

MANAGEMENT : MR. KAMAL KHETAN – CHAIRMAN AND MANAGING DIRECTOR – SUNTECK REALTY LIMITED
M R. PRASHANT CHAUBEY – CHIEF FINANCIAL

OFFICER – SUNTECK REALTY LIMITED

Moderator: Ladies and gentlemen, good day, and welcome to Sunteck Realty Limited Q1 and FY27 Earnings Conference Call. We have with us today Mr. Kamal Khetan, the Chairman and Managing Director of the company, Mr. Prashant Chaubey, the Chief Financial Officer. Please note that this call will be for 30 minutes and for the duration of the conference call, all participant lines will be in the listen-only mode. This conference call is being recorded and the transcript for the same may be put on the company website.

After the management discussion, there will be an opportunity for you to ask questions. There will be a Q&A session and we request you to restrict your question to two questions only per participant. Should you need assistance during the conference call, please signal an operator by pressing star then zero on your touch-tone phone.

Before I hand the conference over to the management, I would like to remind you that certain statements made during the course of this call may not be based on historical information or facts and may be forward-looking statements, including those related to business statements, plans and strategies of the company, its future financial condition and growth prospects.

These forward-looking statements are based on expectations and projections and may involve a number of risks and uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by such statements.

I now hand the conference over to Mr. Kamal Khetan from Sunteck Realty Limited. Thank you, and over to you, sir.

Kamal Khetan: A very good evening to everyone, and thank you for joining us today for our company's Earnings Conference Call for the first quarter of FY27. I will keep my remarks brief and focused on the key developments of the quarter. We have made a good start to FY27. Presales for the quarter grew 20% year-on-year. Collections grew 17% year-on-year.

And with the strong presales of the last few quarters, we expect collections to accelerate further through the year. The segment mix of our presales remains well balanced. Uber luxury contributed 29%, premium luxury contributed 50% and aspirational luxury contributed 21% of the quarter's presales.

This mix carries a high embedded EBITDA margin. The embedded EBITDA margin on both our FY26 and Q1 of FY27 presales stands in the range of 35% to 40%, which will flow through to the reported profitability as the project reach revenue recognition.

On reported financials, EBITDA grew 40% year-on-year with the EBITDA margin expanding by 9.5% points to 35% and the PAT grew 26% year-on-year with the PAT margin expanding by 4.2% points to 22%. On the cash flow front, our net cash flow surplus grew 79% year-on-year.

In spite continuing to invest in business development, our net debt to equity remains negligible at 0.07x and our ratings, AA long-term rating from India Ratings, Fitch Group, remains among the strongest in Indian real estate.

We have consistently maintained that we run the business on cash flow, not accounting revenue. We have been sharing our total GDV numbers in our investor communication. But this year, we have broken down our total GDV into three components: Launched, and To-be Launched, and the third is Upcoming for Launch GDV in order to help investors understand our business better. Launch GDV indicates the projects that have received the relevant approval and it's already launched. To-be launched GDV indicates projects that are under the approval process and the upcoming for launch GDV indicates projects that are in the planning and designing stage. Our existing GDV gives us several years of launch visibility without considering any new acquisitions.

At the outset, we would also like to take this opportunity to update you on our D

ubai project. As

we have shared earlier, we have all the required regulatory approvals in place and the project is launch ready. Only the timing of the launch has been recalibrated due to the ongoing situation.

Finally, on sustainability, our GRESB score of 99 out of 100 with a green 5-star rating and our S&P Global DJSI ESG score of 78 out of 100 keeps us rated among the best in global real estate, well ahead of the benchmark average of 68 and 30, respectively.

I shall now hand over the call to Prashant Chaubey to take you through the financial performance of Q1 FY27. Over to you, Prashant.

Prashant Chaubey: Thank you, sir. Good evening, everyone. I trust you have had the opportunity to go through our latest results and the investor presentation, which are published on our company website and the stock exchanges. I would like to take this opportunity to share a brief update on the financial and operational performance of the first quarter of FY27.
The key details of operational and financial highlights are as follows: we sold INR787 crores worth of area in quarter 1 of FY27, which is a 20% growth over quarter 1 of FY26 presales of INR657 crores. The segment mix remained well balanced. Collections for quarter 1 of FY27 stood at INR409 crores, a growth of 17% over INR351 crores in quarter 1 of FY'26.
On the profit and loss front, operating revenue stood at INR191 crores for quarter 1 of FY27 as against INR188 crores in the same period last financial year. EBITDA stood strong at INR67 crores in quarter 1 of FY27, 40% growth over quarter 1 of FY26. EBITDA margin stood at 35%. Net profit of INR42 crores, which is 26% growth over quarter 1 FY26, and net profit margin stood at 22%.
We generated a net cash flow surplus of INR193 crores during the quarter, a growth of 79% over quarter 1 FY26 after deploying INR170 crores towards business development and land-related capital expenditure. Thank you. With this, we open the floor for questions.
Moderator: Thank you. Ladies and gentlemen, we will now begin with the question-and-answer session. First question comes from the line of Harsh Pathak with Motilal Oswal.

Harsh Pathak: Kamal ji, just one question on the Dubai launch. So while you highlighted that the time line remains uncertain, is there a possibility this project will get launched in this financial or in FY28?
Kamal Khetan: So Harsh, we are very clear that we are -- all the -- as we shared earlier also, we have required all the required regulatory approvals are in place. And the project today remains launch ready. Only the timing of the launch has to be obviously recalibrated due to -- we all know that it's an ongoing situation, and we don't want to launch in such a situation.
Just to recap, our land parcel is one of the most prime -- in the prime location next to Dubai Mall in Burj Khalifa Community Downtown Dubai. So that is one very big advantage whenever the markets -- we are almost launch ready. And whenever the market is there, we will immediately launch, but the market is right, I mean to say.
And our land cost to GDV is very healthy, and there is no debt on the project. So we maintain that our earlier communication once again that project continues to remain highly profitable irrespective of the situation what we are. And just to bring it to your knowledge, like our investment in Dubai as on today on the project is close to not more than 200 crores, 225 crores. So that is again a very -- and from that kind of investment, we are looking at such a large surplus cash flow, which will be coming out. And we are definitely looking at this cash flow whenever it comes to bring it to India for the growth of it -- again, growth of the company overall.
Harsh Pathak: Understood, sir. That's clear. Coming to your launch pipeline, like you highlighted that you have broken down the GDV in three parts. So to-be launched GDV is cl

ose to 16,000 crores. Can you please break down what quantum can be launched in FY27 and FY28 and which would be the key projects here?
Kamal Khetan: So, to-be launched GDV, if you go, that includes obviously 9,000 crores coming from Dubai projects. So if you remove that 9,000 crores, so to-be launched GDV is close to 8,370 or 7,100 crores, sorry, 7,100 crores, close to. And which is like ODC, the additional tower in ODC, our Andheri redevelopment project near Western Express Highway, then what we are looking at Sunteck Park Mira Road 2, Mira Road 1 is already ongoing. So we'll be launching now -- looking to launch the new project, which we have acquired last year.
And the Vasai, there will be 1 tower. We recently launched 2 towers, and we are targeting to launch one more tower this year. Then Naigaon, we are looking to launch again 1 or 2 towers. Again, we launched last year. Again, we are launch -- planning to launch this year again. So looking at all these things, if you see, this is all put together is close to 7,100 crores.
Harsh Pathak: Sure. So I believe this entire inventory will come into launch in this financial year?
Kamal Khetan: Yeah. Sorry.
Harsh Pathak: Anything additionally that will be added to this launch pipeline? And what can we look for in the -- for the next year?

Kamal Khetan: So uncertainty is definitely only related to -- we can talk about Dubai because we don't know how long the situation will be there. Otherwise, all the other projects pipeline, what we are looking to launch this year is close to 7,000 crores, what we are looking to launch.

Harsh Pathak: Understood. And sir, one last question. What is the growth guidance for the presales for this financial year and maybe even for FY28 also, if you can just throw some light?

Kamal Khetan: So looking at the project pipeline, Harsh, we are very confident that we'll maintain -- although this quarter, we have done 20% growth in presales, but we are confident overall in the full year, we will match our -- what we have given the guidance of 25% to 30% growth in our presales. Considering the full year of '27, we'll be at least 25% to 30% higher than the last year. With strong pipeline, we are really very confident about it.

Harsh Pathak: Sure. And any new business development?

Moderator: I'm sorry to interrupt you, Mr. Pathak, but you may please re-join the queue for questions. Thank you.

Harsh Pathak: Sure. Thanks.

Moderator: Thank you. Our next question comes from the line of Rishith Shah with Axis Capital. Please go ahead.

Rishith Shah: Yes. Thank you for the opportunity and good evening sir. So a couple of questions. So first, on the sales mix. So we -- this quarter, we have seen a good increase in the sales coming from affordable segment as well as on the premium side, like ODC, SBR, etc. So I mean, on the aspirational luxury specifically, what led to this growth? And similarly, some views on the premium luxury segment as well?

Kamal Khetan: So aspirational luxury, in fact, obviously, we are seeing the market getting improved because of the -- the reason I feel is aspirational luxury slightly, we feel is picking up because of the lower interest rate and also some sign of recovery somehow we are seeing. And mainly it came -- basically, we see that coming from Naigaon and Kalyan, -- both are now giving, and we are very bullish on now Kalyan picking up more strongly. So obviously, we have a large GDV there. So we want to monetize as early as possible. So we are -- that two projects, obviously, both are in aspirational luxury, only those two.

It has come from both the projects. And when it comes to premium luxury, obviously, Sunteck City and Sunteck City in Goregaon and Sunteck Sky Park in Mira Road and the Sunteck Beach Residences, SBR, all three contributed for this 391 crores. And coming quarter, we are again very confident because we'll

be launching in this segment, Sunteck Sky Park 2, which is the next acquisition what we have done and also the Tower 2 in Sunteck City, which will be coming. So due to this, we see the growth picking up. And that's why we are confident that we will be able to achieve 25% to 30% growth in our presales for the FY27.

Rishith Shah: Sure, sir. Just a follow-up. So launch that we had this quarter was just the SBR and nothing in the aspirational segment, right?

Kamal Khetan: So yeah. So this quarter, we didn't do any launch. In spite of this, we could do good aspirational luxury sales.

Rishith Shah: Perfect. Secondly, I mean, regarding the collections, so how are we looking at the collections overall for this full year? Can you give any guidance? And related to that, anything on the RERA approval for the Nepean Sea project?

Kamal Khetan: So proportionately, obviously, the collection has to grow, and that I made the same remark in my speech also opening speech. And obviously, the bigger collection will start happening once we start the construction of Nepean Sea Road. That will definitely give us a big collection. But if you see trailing months, if you see, our collections are close to 1,500 crores, which is again stronger than the past 12 months. And this will continue to become stronger and stronger, looking at the last few quarters, what we have been doing the presales.

Rishith Shah: Would you like to attach some number to it for this year?

Kamal Khetan: We'll see a similar growth, I would say, 25% to 30% growth in the presales also. Yeah.

Rishith Shah: Perfect. Thank you so much.

Kamal Khetan: Thank you. Rishith.

Moderator: Thank you. Our next question comes from the line of Vasudev from Nuvama Wealth Management. Please go ahead.

Vasudev: Yeah. Thanks for the opportunity sir and congratulations on a good set of numbers. So sir, my first question is, how is our business development pipeline looking like? And in Q1, we had a BD spend of about 170 crores. So for the full year, what is the amount estimated?

Kamal Khetan: So, Prashant, would you like to share?

Prashant Chaubey: Hi Vasudev, the 170 crores that we spent in quarter 1 is mainly for Nepean Sea, Mira Road 2 and certain redevelopment projects. So that is where we have spent the 170 crores.

Kamal Khetan: So with this spend, obviously, some has gone into redevelopment and some we have initially given as a token money. So we are -- you will see some good acquisition BD announcements

for sure. If you see last year also, it was like our highest spend on BD, what we did more than 800 crores in FY26. And we are looking to, in fact, surpass this number, looking at our strong balance sheet and the markets and what we are already under negotiation or in the advanced stage, we are looking to spend definitely this year also much more than the last year for getting into doing BD, more BD.
Vasudev: Okay. Sure, sir. And secondly, what projects are we looking to deliver in FY27? What is the delivery pipeline looking at?

Kamal Khetan: So we are -- this year, we are confident one, we will be delivering our project Sunteck OneWorld and maybe some more new floors in 4th Avenue. And there are some more new floors, which will be done on the 1st Avenue. So plus some additional floors even in Pinnacle. So all this will be constructed and delivered within this year. And this will give us additional sales as well from the projects.
And this will be a strong cash flow because once we launch the project will be like these are the additional floors. So this will be completed in like three months to six months. So we are looking to monetize all this inventory in this current year itself. So this will be substantial, very large delivery.
Vasudev Ganatra: Sure sir. That’s it from my side. I will join back the queue.
Moderator:

Thank you. Ladies and gentlemen anyone who wishes to ask a question press star and one. Our next question comes from the line of Jainam Shah with Equirus Securities. Please go ahead.
Jainam Shah: Yeah, hi. Thanks for the opportunity. So, the first question is on the resolution that Board has approved about the fundraising of around, let's say, INR2,000-plus crores through debt and equity. Is it just...
Kamal Khetan: Sorry, sorry, sorry.
Jainam Shah: Yes. So will it, is it just an enabling resolution or are we planning for some fundraising in the near term?
Kamal Khetan: So, this is, obviously, enabling resolution. And if you see every year, we take this enabling resolution. So there is, as on today, if you ask me, there is absolutely no planning of any fundraising.
Jainam Shah: Got it, sir. Sir, just for the clarification, one part on the Dubai project, you said that it's ready for the launch. There is no approval or anything which is pending, right?
Kamal Khetan: Yes. Yes,
Jainam Shah: So, just wanted to check on the presentation part because in the presentation, the table that you have given in which it has been included in the to-be launched GDV, which is at around INR16,100 crores. And when we read the thing below the same to-be launched GDV, it indicates projects which are under approval process. So has there been any change in the presentation part or there is some approval which is pending? So both things are actually contradicting?
Kamal Khetan: No, no, I appreciate. I think this is slightly we'll have to edit that. I agree, I appreciate your comment. You're totally right. So we should add like, it indicates projects which are to be in the approval process or approved or which are to be launched. You're exact, you’re correct. So I think we'll have to edit that.

Jainam Shah: Got it, sir. So, on the commercial revenue part, we are seeing this FY29 going up to INR450 crores in the presentation part. So what is the status of the construction for the 5th Avenue ODC as of now and by when it is expected to get delivered?
Kamal Khetan: So 5th Avenue construction has already started residential. And we are, residential has already started. So we are looking to deliver that in three years from now. And you are asking about commercial. So commercial, we are looking to start very soon. And once we start there, we are targeting because it will be a spatial commercial. So we're looking to do complete that in 24 months, 24 months to 30 months.
Jainam Shah: Got it sir, got it. Yeah that’s it from my side.
Kamal Khetan: Thank you. Thank you.
Moderator: Thank you. Ladies and gentlemen, due to the time constraint, that was the last question for today. I now hand the conference over to the management for the closing remarks. Thank you, and over to you, team.
Kamal Khetan: Thank you all for taking the time out of your busy schedule to join us today for the call. In case any of your queries have been left unanswered, please feel free to reach out to us. We truly value

your continued support and look forward to strengthening this relationship. Thank you.
Moderator: Thank you so much, sir. On behalf of Sunteck Realty Limited, that concludes this conference. Thank you for joining us, and you may now disconnect your lines.
